Radioactive Waste Log

Drum # _____

	The drum number is written as the facility-year-month-day-letter. For example, the second drum opened at the IAC on May 12, 2015 would be IAC-2015-05-12-b.		Nuclide, Amount, and Unit only apply to known amounts of radioactivity. Ordinary lab waste does not need to be entered.		
Date	**Description**	**Initials**	**Nuclide**	**Amount**	**Unit**
