

**Paper submission guidelines for
Joint 14th Intermountain Conference on the Environment &
42nd Engineering Geology and Geotechnical Engineering Symposium**

Authors are encouraged to submit camera-ready full papers for the Joint 14th Intermountain Conference on the Environment & 42nd Engineering Geology and Geotechnical Engineering Symposium by **October 15, 2009**. One-page abstracts will also be accepted until August 31, 2009. Papers will be published in CD Proceedings, to be distributed to all registrants at the conference. Bound proceedings will also be available for purchase.

Please use the following guidelines for manuscripts. Submit as an MS Word file, *and* as an Adobe pdf. Maximum length is 20 pages. Please list all authors with affiliations, and a contact email for a corresponding author. All papers need an abstract of about 250 words. Please use minimum 12 point Times Roman font, with one inch margins, single spaced. We prefer that figures be integrated into the text. Figures need captions. Black and white photographs are acceptable, but print quality will not be high.

Double space between paragraphs. Minimum lettering size in figures is 9 point. All references must be cited, using any standard format. Appendices are permissible.

First order headings should be

BOLD ALL CAPS LEFT JUSTIFIED.

Second-order headings should be

Bold, left-justified, Upper and Lower Case.

Third-order headings should be

Upper and Lower Case, left-justified, italics.

NOTE: Manuscripts not following the above guidelines will be rejected and the author will need to resubmit the document properly formatted.

Submit abstracts and/or full papers electronically to banavict@isu.edu no later than August 31 (for abstracts) or October 15 (for full papers).
