## IMPORTANT NOTICE:

### Homeland Security for Buildings ASHRAE Satellite Broadcast [April 14th, 2004](#)

Presented in Idaho by Association of Idaho Cities  
& ISU Institute of Emergency Management

Threats to a building can come from many different sources. There are many hazards and threats that intersect within a building and critical questions concerning the danger of chemical, biological or radiological (CBR) attacks remain. This broadcast will address questions of design, construction and operation of buildings. The goal is to address the key issues related to building protection from CBR incidents and draws heavily from ASHRAE's most credible and timely reports.
