

STUDENT ACTIVITIES BOARD

CO-SPONSORSHIP APPLICATION

The Student Activities Board values the benefits of student organizations on Idaho State University's campus. Organizations promote leadership, increase involvement, and reach the student population. The Student Activities Board is eager to help student organizations and others promote, program, and finance events that will enrich students' lives. Furthermore, we desire to see events on the campus that foster learning and community. This application suggests event review by the Student Activities Board for co-sponsorship consideration. Each application will be reviewed by the Board. Applicants may be required to present a short event detail at a Board meeting. This application does not ensure a co-sponsorship contract with the Student Activities Board, however.

Organization/Department: _____

Event Title: _____
