

# PRODUCTION CREDITS

Undergraduate Theatre majors are allowed up to 8 production credits, two each of:

THEA 191, 391 (Fall semesters)

THEA 192 , 392 (Spring semesters)

To obtain credit for your production work you should enroll for a production credit each semester. Production credits are available to all students who participate in a mainstage production, including cast, crew, student designers, stage managers and assistant directors. Each faculty member is given a production section each semester. Students should register for production credits with the faculty member with whom they work most closely.

As with all ISU Courses, however, students must obey the deadlines for adding or withdrawing from the course. For production credits you'll need an add/drop card with the instructor's signature and a department stamp. Once registered, you are responsible for completing your assignments in order to achieve a passing grade.
