

What is TIGERi?

This is the name of our university's enterprise resource planning (ERP) project. **TIGERi will be bringing many exciting improvements to the Idaho State University campus by incorporating all human resources/payroll, finance, student, and financial aid information together in a secure, integrated, easy-access environment.** This will mean **BIG** changes for everyone on campus.

What's coming first?

BengalWeb & Human Resources/Payroll System Go Live!

- On December 1, all employees will be able to begin using their new web portal, **BengalWeb**. Its customizable, user-friendly interface will provide a single point of access for electronic services and information. Portals present information from diverse sources in a unified way. iGoogle and MyYahoo are two portals you might be familiar with.
- In January 2009, **Human Resources/Payroll** will go live in Banner. Online lookup of your payroll information will replace printed direct deposit slips. The Banner system will make it much easier to track and manage employee information and activities. On December 1, most ISU employees will begin entering their time online. More information will be coming soon.

BengalWeb

The portal will provide many new opportunities to organize electronic resources in one location instead of in a variety of different web sites. **Our goal is to provide single sign-on access through BengalWeb to: email, personal calendar, employee information, university information systems, communication tools, Moodle, library resources—plus many other exciting features!**

Training opportunities:

Training on the new features will be offered through online tutorials, videos, and user's guides. There will also be in-person training, hands-on demonstrations, and open lab hours. Training opportunities will be provided in a timely manner to ensure that everyone has the opportunity to learn the skills necessary to effectively carry out their jobs. TigerGuides in all departments of the university will also be on hand to answer basic questions about TIGERi and commonly performed tasks within their department.

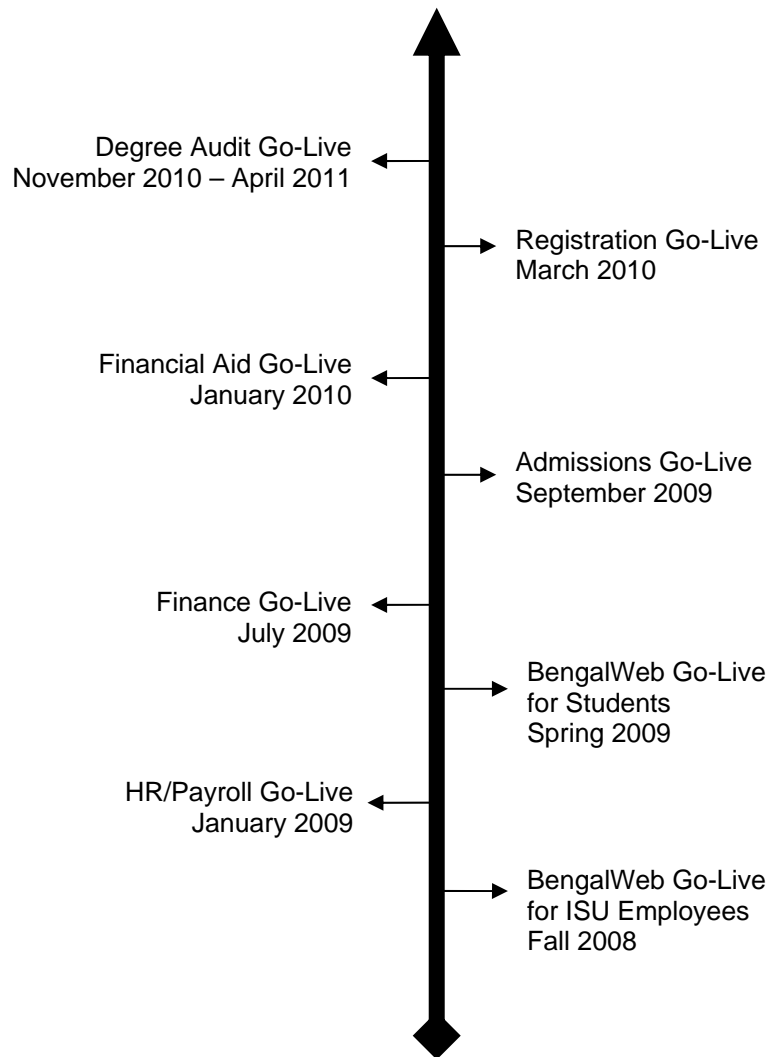

In the future...

- **Pay Fees Online!** This means no more waiting in lines.
- **Multiple Direct Deposit Accounts!** HR/Payroll will provide the ability for students, faculty, and staff to have multiple direct deposit accounts. For example, an employee could deposit their money into three separate accounts: savings, regular checking, and a vacation fund. It's up to you!
- **Group Studio!** BengalWeb offers students, faculty, and staff the ability to create and manage group homepages for clubs, workgroups, or committees. Group Studio offers online tools for collaboration, communication, and information sharing.

And much more...
