## Where do Employees Go For Finance & Argos Training?

### · **Finance Open Demonstrations**

Everyone who is an Account Director, ReqMaster, or has Finance lookup privileges should attend this session to learn more about new BengalWeb features for looking up financial data and documents in Banner. Requisition approval will also be discussed. A training schedule is provided below.

Before coming, complete the Requisition Approval Online tutorial at: [www.isu.edu/tigeri/training/reqapproval](http://www.isu.edu/tigeri/training/reqapproval). Be sure to pay particular attention to the section titled: [Introduction to Banner Finance Terms](#). You **MUST** be familiar with this before coming to a session. It is recommended that account directors and their administrative assistants attend the training together.

### · **Argos Open Demonstrations**

Argos is a tool that provides users with reports of selected data in Banner. The information is updated nightly.

All Time Approvers, Account Directors, ReqMasters, and others with Finance or HR lookup privileges will be interested in learning how use this reporting tool. A number of online reports will be available on July 1, 2009, or shortly thereafter, including leave balance and detailed financial information. A training schedule is provided below.

### · **Finance & Argos Hands-On**

If you would like additional guided practice in a lab, or if you'd rather attend a hands-on session instead of an open demonstration, THIS IS FOR YOU! A training schedule is provided below.

Register online at [freeway.isu.edu](http://freeway.isu.edu). Select your class from the list at the left, choose a session, reserve a seat, and then "check out." *You must check out to complete your registration.* Online cancellation is not available. Changes to registrations must be by phone or email.
