

It's Here!

Go to <http://google.isu.edu>, and click on the Gmail icon. Sign in using your ISU email username and password. Your email address hasn't changed. But if you haven't changed your password, you won't be able to sign in. Go to google.isu.edu to see what to do.

Old ISU webmail is now located at <http://blade3.isos.isu.edu>. It's only there for awhile, so you'll need to retrieve the emails you wish to save. Go to google.isu.edu, and see "Moving Mail."

Any forwarding previously set up has been cancelled. You must set up forwarding in your new Google Apps account. But try making Google Apps your primary email. Use it to collect your other email instead!

If you haven't been checking your ISU email account, you should. ISU sends important official communications to your ISU email address.

Google Apps at ISU is not the same as regular Google. It's at a different place on the web, and it's administered by ISU. If you have an @gmail.com account, it's different than your @isu.edu account on Google Apps at ISU.

Go to <http://google.isu.edu> to learn how to use all the features of Google Apps.

Google Apps at ISU Features . . .

Gmail

- 7 GB of memory
- Back-and-forth emails grouped in conversations
- Labels instead of folders sort emails under more than one heading
- Instant spam reporting, right on the main screen
- Built-in chat on the main email page

Google Calendars

- Share your calendar with others, then merge all the calendars into one
- Move an event to a new time or date by dragging it
- Invite others to your event – and get responses, too
- Control privacy on each event
- Add a task bar to track your to-do's

Google Docs

- Create and store documents online
- Invite others to collaborate online, and work together in real time
- Choose from documents, spreadsheets, and presentations
- Take notes in class, even include math formulas
- Set up online surveys with ease

Google Sites

- Instant websites, easy to use – if you can create a Facebook page, you can use Google Sites
- Quickly add links, additional pages, photos, documents, and other content to your site
