Ron or Robert,

Please send the following message to faculty memos as soon as you can. Please list the message from the from the the Office of the Registrar (I believe this is what we've listed it as before), with the reply-to email address: reginfo@isu.edu.

Please copy me on the message.

Any questions or concerns, please let me know,
CALi

Attention Faculty:

Faculty can now grant all possible overrides (Corequisite, Prerequisite, Curriculum, and Instructor approval) at once for a student. This new option has been added to the Override drop down list. By clicking on "All Faculty Overrides," the faculty member can provide one student with all 4 overrides at once. This new option is available in Self-Service Banner through BengalWeb, or to Department Chairs through Internet Native Banner.

In the new Banner system, students who do not meet any of the corequisite, prerequisite, majors only, or instructor approval required restrictions for a class will not be allowed to register for that class. Faculty may grant overrides--according to their department or college policies--to students for the classes the faculty member is teaching. Chairs may grant overrides for any course within their department using Internet Native Banner (not BengalWeb).

For complete instructions on granting overrides, or using any of the other new tools in BengalWeb, go to the [User's Guide to BengalWeb](#) and look under Faculty and Advisors.

If you have any questions or problems, contact the Service Desk at x4357.

Laura McKenzie
