

*Personal Financial Strategies for Health Professionals:  
Securing Your Future*

**This seminar focuses on where each person is in his/her career, what concerns they should be focusing on, and a possible plan to overcome obstacles. Many dentists and dental hygienists, and other health professionals, do not realize they have financial needs for later in life; therefore, they do not have a plan. This "fresh eyes" approach to the topic should be applicable to each and every health professional.**

**Date:** Friday, October 30, 2009 9:00 a.m. - 12:00 noon

**Location:** Bistline Theater in the Stephens Performing Arts Center
