

What do you think of when you think of leadership? What associations do you make of the word leadership?

A leader promotes teamwork

I once heard a quote that said, "A leader knows the way, shows the way, and goes the way."

Working towards a vision

Ahead of the "game" and bringing people up with you

Leaders have to take time to build trust with their community before they can really lead.

Continually moving forward

guidance, liaison, model, boss, accountability, driving force

I always tell my students that it's the leader's job to show others how to do things well.
