

- | | | | |
|--------|--------------------------|-----|--|
| 1. * | Good Time | VO- | This is a great time. Imagine a few hundred feet of this type of climbing. |
| 2. * | Seams | VO | Climb up the seam. |
| 3. | Streaker Seam | VO+ | Climb up white streaked seam. |
| 4. | Dihedral Seam | V1 | Seam in a shallow dihedral. |
| 5. | Sharply Shallow | VO | Sharply formed shallow dihedral about two feet to the right of the previous problem. |
| 6. | Blunty | VO+ | Nice blunt arete. |
| 7. ** | Face Off | VO | Climb this fun face to the top. |
| 8. | Is This the Matador? | VO- | Boxy dihedral reminiscent of Devil's Tower but with tons of face holds. |
| 9. | Thin White Black Delight | V1 | Climb the seam to the top. |
| 10. ** | Seamingly Decent | V1 | Nice line following a seam to the top. |
| 11. ** | Bulbous | V1 | This line climbs a nice flat face with excellent holds. The type of climbing you wish had some length to it. |
| 12. | White Flag | V1 | Climb up shallow dihedral to whitish colored top. Scary landing. |
| 13. | Streaker Shock | V1 | Just left of wide white streak. Crux is at the top and this one has an unforgiving landing. |
| 14. * | Block Off | V2 | Don't use the block at the bottom left to start with. Landing is bad but the finish is V1. |
| 15. ** | Slightly Deviating | V1 | Follow a slightly left curving seam. Bad landing with crux 2/3 the way up. |

24. ** Pepperoni Pizza

25. * Pepperocini

26. Just Another Problem

27. * Thin and Crispy

28. *** LaTasca

V0 Climb up the arete which switches to a dihedral. The crux is low so the bad landing isn't as intimidating.

5.6ish Climb up crack in shallow and sharp dihedral.

V4 Sit start. Don't use left edge and stay left of white streak. Somewhat of a bad landing.

V3 Sit start. Crank to the top of the miniature mushroom shaped outcropping.

V4 Sit start and climb right up arete.

V4 Sit start to the immediate right of the arete and climb up to the ledge keeping on the right side of the arete.

5.10a This is a short little bolted lead. Fun moves.

5.10b Another bolted route. Slightly kicked back with great moves.

V1 Climb through first bolt. Vertical crack to the left is off, just use the small edges and undercling.

V1 Climb up in corner to ledgy area.

5.12c Climb up bolted line. Stay on face and don't reach around to the right.

V3 Traverse the entire base of the cliff. Start on right end move left to end then traverse back to the starting point.
