

“If I never put on another rope again I’d be quite satisfied”

Boon Speed (Climbing No. 161)

The Gap

The Gap is located just south of the Highway Pond on Old Highway 91. There is an entrance to 115 with a large dirt pullout on the south side of it. Park here, hop the west side fence, there is a pushed down section of the fence as of this writing. Walk south and you will come to a short overhanging wall with some savage problems on it. There is one fixed anchor system for a couple problems so bring some gear.

One end of the wall hosts some highballs while the other end has some more sane problems. The landings on the highballs are poor while the shorter problems have decent landings. The holds range from crimps to huge slopers.

Detail of this section of crag

- | | | |
|---|-----|--|
| 1. * Josh's Problem | V1 | Top rope problem. Climb seam and pockets to top. Stay off rock at base. |
| 2. ** Your Answer, My Answer, and the Truth | V2 | Top rope problem with a sit start. Climb straight up rope line. |
| 3. * Riley's Traverse | V6 | Traverse along base of cliff about 4 feet above the ground to big block like jug on Jug-a-haulic. |
| 4. ** Riley's Link | V2 | Start under overhang. Climb up to nice sized hole hold then traverse up and left onto Your Answer.. |
| 5. Unnamed | V? | Top rope problem (the anchor is a single suspect bolt). Climb straight up. |
| 6. The Angle | V7? | Climb up to hole as on Riley's Link and traverse up and right. Pull hard and hang on. |
| 7. Engle Angle | V2 | Climb up seam to block like jug. From jug diagonal left through jugs. Climb over top. |
| 8. * Jug-a-haulic | V2 | Same start as Engle Angle. Climb straight up through huge hand size pockets. Moves slightly right as you climb. Pull over top. |
| 9. * Unnamed | V2 | Start on seam to the right of Jug-a-haulic. There are two good finger slots in the seam that you can lieback. From top finger slot go for the next obvious hold to the left of the seam. |

|----------------------------|-----|---|
| 10. Unnamed | V4 | Pull on thin edges up blank looking face. Climb over top. |
| 11. T.E.L.P. | V3 | Sit start and follow seam to the top. Face holds are on route, but keep body over the seam. |
| 12. Pot Belly | V? | Climb up pot belly shaped face on thin bulbous edges. Pull top. |
| 13. * Bull Snake | VO- | Sit start at hand crack, pull up to hollow sounding jugs. Pull top. |
| 14. * Unnamed | V4 | Sit start at base of overhanging arete. Climb up and left on shallow pockets and edges. Climb over top. |
| 15. * Unnamed | V4 | Same start as previous problem. From slanting edge, climb up and right through mail box like pockets. Climb over top. |
| 16. Bear Hug | V5 | Sit start at base of arete and wrestle your way to the top. Use holds on both sides of the arete. |
| 17. Unnamed | V1 | Sit start under right leaning overhang onto ledge. Climb over top. |
| 18. Unnamed | V1 | Same start as previous. Continue up headwall by using underclings. Climb over top. |
| 19. Riley's Other Traverse | V3 | Traverse from right to left using edge of ledge as hand holds. At Bull Snake drop down onto hollow flake and continue left. |
| 20. Josh's Blocks | V1 | Climb up through blocks and top out. |
| 21. Unnamed | V1 | Climb up and top out. |
