WE LIFT UP COMMUNITIES.

The United Way of Southeastern Idaho is proud to support the Southeastern Idaho Community Action Agency (SEICAA) Veterans Program.

Your dollars helped Cody, a former infantry soldier, get life-saving support to get back on his feet. Cody found the Veterans program while experiencing homelessness and arrived with many untreated health concerns. He was also having difficulty accessing benefits through the VA. The Veterans program provided him with case-management and an address to report on his applications. The program helped him apply for VA benefits and he is now permanently housed and can afford to take care of his needs.

Cody says that the Veterans programs saved his life because he received help when he had nowhere else to turn in the darkest moment of his life.

Without your support, it would not have been possible for Cody to access these life-saving programs in our community.

Changing the odds in Southeast Idaho is about discovering the long-term solutions to help us all. We have more work to do and need your support! Please GIVE TODAY to the United Way of Southeastern Idaho. Because Change Doesn't Happen Alone!

37,800 is the number of veterans that experienced homelessness in 2018 according to the VA.
