The United Way of Southeastern Idaho is proud to support the Aid for Friends homeless shelter in Pocatello, ID. A huge WIN from the last year is that your dollars helped Aid for Friends buy a new facility which will be able to adequately house the current demand for people experiencing homelessness in and around Pocatello.

Over half of the nights of the year, the current shelter experiences full capacity or beyond. In fact, in high demand winter months, the current building has reached 157% of full capacity.

The new facility will save lives, especially during the harsh winter months to ensure that no one is left exposed to the elements.

Aid for Friends also offers case management services to help clients get back on their feet and find permanent housing. Without your support, it would not have been possible to help Aid for Friends to acquire the new building, pictured below.

Ending homelessness in our community will take the efforts of everyone. The United Way of SE Idaho is proud to join hands to invest in life-saving programs such as Aid for Friends.

Changing the odds in Southeast Idaho is less about helping one person at a time and more about discovering the long-term solutions to help us all. We have more work to do and need your support! Please GIVE TODAY to the United Way of Southeastern Idaho. Because Change Doesn’t Happen Alone!
