- 9. The **Approval Levels** appear

under Routing Queue. Click on the magnifying glass to look up the name of each person you are assigning to each spot in the queue. **Do NOT choose one person for more than one Approval Level**, since it causes errors.

- 10. If you wish to add additional Approval Levels, click on the **Not Selected** dropdown and choose the approval level you wish to add. Then assign someone to that level as explained in step 9. Under **Required Action** choose **FYI** if they only need to be able to view this transaction or **Approve** if they are to approve this transaction.
- 11. Click Save.
- 12. Add comments to the **Comment** section. Make sure your comments are relevant and professional. All comments in this section are a permanent part of the Banner record.
- 13. Review the data. If correct, click **Save**, then **Submit**. You can also save the transaction for submission at a later date OR delete the action if it is incorrect.
- 14. If no Errors appear you are finished. The EPAF will now go to the next person in the queue. (Do not be concerned about Warnings.)

If Error messages appear, you *must* fix the errors before you can submit the EPAF.

Note: This request must be completely approved by the Friday prior to the end of the period.
