

Step 4: Creating Signature Assignments & Activities

What is a link that will explain how to create assignments, projects, and activities?

Eberly Center. Teaching Excellence & Educational Innovation, Carnegie Mellon University. Creating Assignments.

<https://www.cmu.edu/teaching/assessment/assesslearning/creatingassignments.html>

If your faculty met and shared their syllabi in Step 3, you already have a good idea about the assignments, exams, projects, or activities occurring in your program. The questions and issues in the link will provide a broader perspective.

How should we collaborate? If you created a Moodle site to share your assessment insights, you can collaborate with discussion forums and share ideas, assignments, and information. You might want to set up periods during which your discussion occurs and then meet face-to-face or with a zoom meeting for all participants. Once we return fully to campus, you may also want to schedule a zoom meeting or use one of the connected rooms on campus that have links to rooms in Idaho Falls and Meridian. If you have questions about arranging remote meetings, please contact the assessment office for help.
