

Administrative Assessment Pledge

Assessment works only when administrators and faculty agree and understand that the results are to **enhance student learning**.

Assessment Is:

- ✓ Faculty driven and owned by faculty
- ✓ Inclusive and equitable recognizing the role of contingent faculty
- ✓ Used to make changes, not find fault
- ✓ Developed collegially
- ✓ Recognized positively in promotion, tenure and evaluation
- ✓ Communicated transparently to stakeholders

Assessment Isn't:

- ✓ Used to fault individual faculty in ways that affect their performance reviews
- ✓ Used to find fault with students and their skills or performance
- ✓ A one-and-done activity but a continuous one

Administrators will review a google form each term to indicate a yes or no accepting this pledge.
