RESOLUTION 612

This resolution states that the Associated Students of Idaho State University support the University's guidance to minimize both physical and mental health risk and follow the COVID-19 precautions in place to prevent an online transition in our academic institution.

WHEREAS: President Satterlee emphasized his joy regarding the high activity on campus but announced that if COVID-19 cases continue to increase on campus, the University may shift to a distance-based learning approach.

WHEREAS: Considering students typically spend a significant portion of their time at Idaho State University, most students believe in-person learning and meaningful on-campus activities foster an environment that will ultimately result in academic success. The most likely way to continue to have in-class learning and minimize the spread of COVID-19 is to follow President Satterlee's recent COVID-19 guidelines.

BE IT THEREFORE RESOLVED: ASISU recognizes our current challenging circumstances and fully supports Idaho State University's COVID-19 recommendations that will continue to safely allow in-person learning instead of distance-based learning.
