This resolution states the need and prioritization to update existing classrooms, classroom supplies, and classroom technology.

WHEREAS: ISU students, multiple college Deans, and others have recognized the difficulty and unuse of not well-maintained classrooms, outdated classroom supplies, and inefficient technology on campus.

WHEREAS: Some of the most challenging learning environments at ISU include LC 15/17(does not meet ADA requirements), FA 102 (does not meet ADA requirements), FA 202, FA 109, BA 104, BA 307, BA 308, BA 309, BA 311, BA 313, LA 109, LA 273, GARR 501, and REND Planetarium. We recognize there may be more on-campus spaces, however, this is the list we have currently observed.

BE IT THEREFORE RESOLVED: With university leadership's support in updating ISU's classroom layouts and spaces, financing new supplies, and adopting emerging educational technologies, students and faculty will experience a better individual and group learning environment. These physical and technological updates will help students and faculty harness the educational opportunities associated with these updates.
