Deca Dice With Dice Pack

Description:
One-hundred games built around ten-sided dice, marked 0-9, and “decade dice”, marked in tens from 00-90. Games teach place value, rounding, graphing, operations, problem solving and more, while “thought provokers” for class discussion and math journals encourage kids (and teachers!) to investigate their math learning deeper. Comes with four 0-9 dice and four 00-90 decade dice.
