Stratedice Book and Tray

Description:
If you’re looking for a book of games for your elementary students that will engage them in problem solving and “stratedizing,” stop your search at Stratedice! Games teach place value, operations, data management, graphing and more. Comes with the book, dice tray and dice – half blue and half white. For more stratedice games, check out our two new books, Rolling Into Math (K-3) and Math Fun “Die”Mentals (4-7)!
