

Foundational Reading Skills

Course Syllabus

Course Description

We know teaching children to read is critical to academic success but what are the building blocks to teaching reading? In this course teachers will develop in-depth understandings of the building blocks of reading and explore strategies for teaching these building blocks. Topics to be included include phonemic/phonological awareness, phonics, sight words, fluency, vocabulary, and comprehension. Also, included is a bonus module on writing as it's an important next step and important to overall literacy.

Course Objectives

At the end of this course you should be able to:

1. Identify and describe the importance and strategies used to develop print awareness.
2. Identify and describe the importance and strategies used to develop phonemic and phonological awareness.
3. Identify and describe the importance of and strategies used to develop phonics.
4. Identify and describe the importance and strategies used to teach sight words.
5. Identify and describe the importance and strategies used to teach reading fluency.
6. Identify and describe the importance and strategies used to teach vocabulary.
7. Identify and describe the importance and strategies used to teach reading comprehension.
