

Angie Godfrey

Director- Regional Math Center- ISU

Angie Godfrey has been a regional math specialist for nine years, with seven as the Director of the Regional Math Center. In that time she has been the principal investigator for nearly \$4,000,000 in grant funding from multiple projects. As a regional mathematics specialist, she creates and leads program development and implementation, coaches classroom teachers, and supports school and district administrators in their roles as instructional leaders and evaluators. As the Director of the RMC, Angie has focused on building and repairing relationships with multiple stakeholders (SDE, superintendents, COE faculty and staff etc.), supporting policy change, and leading innovative efforts for all of Idaho. She has served as content advisor for multiple committees, including the development of the new Idaho mathematics standards.
