## What is Math LeadDs?

Math LeadDs will work closely with the math specialists at the Regional Math Center at ISU and other Math LeadDs across eastern Idaho to develop leadership capacity within the math teaching community.

## What is expected?

There are three components: Training, Projects, and Learning Community.

**LeadDs Training:** Participants will receive online and live training in math content and pedagogy, as well as effective professional development practices.

**LeadDs Projects:** There are 3 main projects that each Math LeadD will complete.

1. Design and implement a professional development plan for your school, district, or surrounding area.
2. Present at our Regional Math Conference in June.
3. Math Standards Video: Investigate and study the math behind one standard of your choice. Create a short presentation to help other teachers better understand this standard. Design success criteria for this standard.

**LeadDs Learning Community:** Math LeadDs will collaborate each month to develop a professional learning community. They will also attend a 1 day reflection seminar in June with all Math LeadDs.

## What is expected of me?

By checking the boxes below, I am agreeing that I understand:

- I am expected to work with the Math LeadD until we can reach consensus on the Math LeadDs proposed professional development plan, at which time I am expected to approve the plan and support the plan within my own capacity.
- I am willing to provide 3-4 sub days for my LeadD to attend trainings or presentations.

## Please check if applicable:

The IRMC-ISU has enough funding for approximately 10 Math LeadDs (up to \$4000 each). If the stipend is not available, are you still interested in having this person participate?

If so,

- will this be a part of their current position (coach, mentor, etc)?
- Is your district able to provide a leadership stipend for this person?
