**Simulation Technology Specialist:** Ensures preparation for lab/module set-ups, monitors inventory, and operates simulation exercise for College of Nursing students. Will coordinate the Meridian Accelerated Nursing Simulation Lab on a part-time, 20 hours/week, temporary basis. No benefits are available for this position.

Pay Rate – Depends on experience.

**Key Responsibilities:**
- Provide setup/takedown/moulage of requested simulations.
- Program, test and run simulation scenarios for faculty simulation facilitators, assuring that the facility, equipment and supplies are set up appropriately and that desired outcomes will be achieved; interpret and implement changes when necessary.
- Consult with faculty on appropriateness of simulations to achieve learning outcomes.
- Consult with faculty and staff to ensure accuracy of scenario documents.
- Analyze simulations and decide equipment and moulage needed.
- Provide specialized technical support/maintenance for computer based multimedia systems and their components, including operation of server infrastructure, digital cameras, video cameras, audio/video mixer, digital/analog converter, monitors, and medical equipment.
- Provide technical support/maintenance for hi-fidelity computerized manikins.
- Manage and install software and hardware upgrades and maintain functionality of manikin components and data capture system as directed by manufacturer support.
- Audit, test and ensure that all equipment and systems are running efficiently according to current specification requirements.
- Understand campus networking and required systems that allow vendors, faculty, staff, and students to access critical materials.

**Minimum Qualifications:**
- Associate degree in Nursing (RN) or Information Technology, or equivalent demonstrated experience in working with simulation equipment, including setup, networking, and communication troubleshooting.
- Medical Terminology.

**Preferred Qualifications:**
- Baccalaureate degree Nursing or Information Technology or a health-related discipline.
- Experience working with faculty, staff and students with various technical issues.
- Demonstrated experience running a Simulation Lab.

**Please submit the following documents to gratkimb@isu.edu:**
Cover letter, resume, and list of three (3) professional references with contact information.
