

Laboratory Instruction

Regardless of a student's future pursuits in the field of biological sciences, the introduction to biological processes and protocols in a laboratory setting can only expand a student's view of the world. The effective implementation of laboratories is necessary if students are to acquire a basic foundation in the biological sciences and a broad worldview.

Adjunct, GTA, and CPI instructor contracts are 18 weeks long; summer session teaching appointments are 4 (1100L) or 6 (1101L) weeks long. It is contractually expected that instructors teach all the labs they are on contract for, grade all assignments, attend instructor meetings, clean/maintain the teaching laboratory, and proctor exams.

GTA and CPI instructors are also required to attend the course lecture and 208 tutoring/office hours.

Teaching Schedules Fall 2017

Teaching appointments are **18 weeks long, beginning August 14 and ending December 15**, and include the 15 weeks of classes, the week before classes begin, fall break, and finals week. Beginning the 3rd week of classes, Lab Instructor Tutoring & Office Hours (/media/libraries/college-of-science-and-engineering/biology/documents/biolab/Tutoring_OfficeHoursPOC.pdf) must be held in LS 208 (Pocatello) each week except for fall break and finals week.
