

Biological Sciences Laboratory Instruction

Regardless of a student's future pursuits in the field of biological sciences, the introduction to biological processes and protocols in a laboratory setting can only expand a student's view of the world. The effective implementation of laboratories is necessary if students are to acquire a basic foundation in the biological sciences and a broad worldview.

Adjunct, GTA, and CPI instructor contracts are 18 weeks long; summer session teaching appointments are 4 or 6 weeks long. It is contractually expected that instructors; **1)** teach all the labs they are on contract for, **2)** grade all assignments, **3)** attend instructor meetings, **4)** clean/maintain the teaching laboratory, **5)** proctor exams, **6)** attend the course lecture, and **7)** attend 208 tutoring/office hours.

Teaching Schedules Spring 2018

Teaching appointments **begin January 2 and end May 4**, and include the 15 weeks of classes, the week before classes begin, spring break, and finals week. Beginning the 3rd week of classes, Lab Instructor Tutoring & Office Hours (/media/libraries/college-of-science-and-engineering/biology/documents/biolab/Tutoring_OfficeHoursPOC.pdf) must be held in LS 208 (Pocatello) each week except for spring break and finals week.
