Biological Sciences Laboratory Instruction

Regardless of a student's future pursuits in the field of biological sciences, the introduction to biological processes and protocols in a laboratory setting can only expand a student's view of the world. The effective implementation of laboratories is necessary if students are to acquire a basic foundation in the biological sciences and a broad worldview.

Adjunct, GTA, and CPI instructor contracts are 18 weeks long; summer session teaching appointments are 4 to 8 weeks long. It is contractually expected that instructors; teach all the labs they are on contract for, grade all assignments, attend instructor meetings, proctor exams, and participate in tutoring/office hours.

Teaching Schedules Fall 2020

Teaching appointments **begin August 10 and end December 4**, and include the 15 weeks of classes, the week before classes begin, fall break, and finals week. Beginning the first week of classes, [Lab Instructor Tutoring & Office Hours](#) must be held using this [Zoom link](#) during your scheduled hour each week through November 20.
