

Biological Sciences Laboratory Instruction

Regardless of a student's future pursuits in the field of biological sciences, the introduction to biological processes and protocols in a laboratory setting can only expand a student's view of the world. The effective implementation of laboratories is necessary if students are to acquire a basic foundation in the biological sciences and a broad worldview.

Adjunct, GTA, and CPI instructor contracts are 18 weeks long; summer session teaching appointments are 4 to 8 weeks long. It is contractually expected that instructors; teach all the labs they are on contract for, grade all assignments, attend instructor meetings, proctor exams, and participate in tutoring/office hours.

Teaching appointments are **January 3 through May 6** and include the 15 weeks of classes, the week before classes begin, spring break, and finals week. [Lab Instructor Tutoring & Office Hours https://www.signupgenius.com/go/20fod45ada728abf58-biology1](https://www.signupgenius.com/go/20fod45ada728abf58-biology1) are held through April 25 in LS 208 beginning the third week of classes (location and date range may differ depending on the coordinator of your lab course.)
