¹ See General Education Requirements; two courses from Objective 4, two courses from Objective 6, one course from Objective 7 or 8, and one course from Objective 9.

² If both CE 4462 and CE 4464 are taken, one will be counted as a CE technical elective course.

³ Civil Engineering Technical Elective courses must be selected from at least two areas of Geotechnical, Structures, Water Resources, Environmental, or other areas. See the next page for a list of the CE Technical Elective courses.

* Total credits will increase to 127, if foreign language is taken to fulfill Objective 4 of the General Education Requirements.
Civil Engineering Technical Electives

Civil Engineering students must choose four CE Technical Electives from the following list from at least two areas of Geotechnical, Structures, Water Resources, Environmental, or other areas. Students are encouraged to consult with their advisor in order to choose appropriate electives. There may be other courses to choose from that do not appear on this list (new or special courses).
