

Idaho State University Open Education Week

Idaho State University Open Education Week, February 22-26, 2021, is a week of programming intended to raise awareness of open education and its benefits to students and faculty.

ISU Open Education Week will be held as a precursor to the statewide **Idaho Open Education Week virtual conference** (March 1 - 5). ISU Open Education Week is being held one week earlier to complement the state's programming and spotlight open educational resource initiatives at the University.

Open Educational Resources (OER) are teaching and learning materials that are openly licensed so that everyone has permission to retain, reuse, revise, remix, and redistribute them. Research shows that OER leads to greater student success and retention, but OER has benefits for instructors, too! Adopting OER in your courses can increase your instructional freedom and help transform your pedagogy.

Registration is requested to join the Zoom sessions, but events will also be streamed via YouTube. Please **see the ISU Open Education Week website** for program descriptions and livestream information.

Let's Share Your Good News!

The outstanding faculty, staff and students in our college achieve many notable research and professional accomplishments. In addition, our departments regularly make newsworthy advancements. We want to make sure those stories are shared publicly. Here are a few ways you can provide a news tip to help get the word out.

1. Use this **Story Submission Form** to send your news tip to the Office of Marketing and Communications.
2. Send an email to Miriam Dance (miriamdance@isu.edu) with a brief description of the

news to be shared.

3. You are always welcome to create a draft story that can be submitted via the [Story Submission Form](#) or sent to Miriam Dance. The Office of Marketing and Communications and Miriam will coordinate to get the story finalized and distributed to the media outlets and platforms that will best tell the story.
