Getting Started in Idaho Falls

1. **Register for MATH 1108.** Register online for MATH 1108 in Idaho Falls (Sections 21 to 24). Call 282-7800 or go to the Bennion Student Union room 202 for assistance.

2. **You need to have internet access.** Although you will attend two 75 minute lectures and one 50 minute lab per week, you will need internet access outside of the classroom to access your e-book, and to complete 283 topics in ALEKS. The ALEKS coursework will account for 20% of your overall grade.

   If you get an ISU computer account, then you may complete the ALEKS coursework on any ISU computer lab computer.

   To get an ISU computer account in Idaho Falls, you can go to the IF Lab in CHE 202, or you can call 282-7912 for instructions. The cost is $35 per semester.

3. **In order to access the ALEKS courseware, you must have the 10-character class code provided by your instructor, and you must purchase an Access Code (online or at the ISU bookstore.)** To register with ALEKS follow the step-by-step instructions provided in the link below. (Make sure to select 18 weeks when prompted in Step 5, Appendix A.)

   **Note:** A Financial Aid Access Code is available. It provides a 2 week temporary code for students who experience a delay in receiving their financial aid. Please note, the Financial Aid Access Code DOES NOT add an additional 2 weeks to your account. When you purchase a regular Student Access Code, the start date of your account is the date you first started using ALEKS with the FAAC code, NOT the date when your account was extended with the purchased code. **Check with your instructor if you need a FAAC.**
