Internal Support Funded

Integrating a Treatment Technology into the Training of Clinical Students

Idaho State University 1/2020-10/2020 Total Cost: 6, 500 of Smart Palate

ISU Funded Amount: \$5,000.00. Match ISU CSD grant 1, 500

This project seeks to train students, through first-hand experience, in the use of computerized technology to treat sound disorders that involve the palate. A device known as a Smart Palate, which can detect tongue movements during speech, is at the core of the project.

Role:Co- PI

Extramural Support Funded

Social Communication Activities for Academy NeXT

Optum Idaho: June 2023

Funded amount: \$500

This community grant funded the social communication portion of the Academy NExT week long employment summer camp. It provided the funds for the social activities including a night escape room. Excess funds from this grant are being utilized to support activities for the on campus social communication group.

Role: PI

Clinical Assessments and Materials

Extramural Support Pending

Idaho Lottery Grant: November, 2023

Requested Amount: \$9,230

This grant will fund update assessments and materials for clinical use in the ISU speech clinics on the Pocatello and Meridian campuses. It will also allow for the creation of a community lending library which will support Speech Pathologists in the communities around each campus to have access to assessments that they may not otherwise be able to utilize.
