CSD 2256 Deaf Culture and Community: 3 credits  
Pre-Audiology only
Emphasizes aspects of Deafhood and Deaf culture. Focus on identity, language, impact, educational issues, and minorities within the Deaf culture and how these affect language and identity. Includes examination of the Deaf culture as a worldwide experience and contrasts it with American Deaf culture. Fulfills Objective 9 of the General Education Requirements. PREREQ: CSD 1151 and 1151L.

CSD 3310 Speech Science: The Acoustical Nature of Sound and Speech: 3 credits
Introduction to the nature and acoustical properties of sound and sound: generation, propagation, and modification. Explores speech production and characteristics of speech acoustics as they relate to typical and atypical speech production and perception. Speech production subsystems of respiration, phonation, articulation, and resonance are examined in detail through the analysis of acoustic and physiological data. Examines seminal and contemporary theories of speech production and perception, research findings, clinical applications, and measurement and analysis of typical speech and voice production and perception.

CSD 3315 Clinical Processes Pediatric: 2 credits  
Pre-SLP only
Assessment and treatment principles, methods, and procedures in Speech-Language Pathology with focus on the pediatric population. PREREQ: CSD 3321 and CSD 3330, or permission of instructor.

CSD 3321 Clinical Phonetics and Phonology: 3 credits  
Pre-SLP only
Basic concepts in applied phonetics and phonology, emphasizing applications in communication disorders and differences. Introduction to International Phonetic Alphabet.

CSD 3325 Speech Sound Development and Disorders: 3 credits  
Pre-SLP only
Introduction to childhood speech development and disorders. Basic clinical principles and procedures for diagnosis and treatment of disorders of speech sound production. PREREQ or COREQ: CSD3325L. PREREQ: CSD 3321 with a grade of ‘C’ or better or permission of instructor.

CSD 3325L Speech Sound Development and Disorders Lab: 1 credit  
Pre-SLP only
Required laboratory portion of CSD 3325 for emphasis in pre-speech-language pathology. Skill development in use of International Phonetic Alphabet in the transcription of typical and disordered speech. PREREQ or COREQ: CSD 3325. PREREQ: CSD 3321 with a grade of ‘C’ or better or permission of instructor.

CSD 3330 Language Science: 3 credits  
Pre-SLP only
Introduction to the nature, structure and function of language with an emphasis on the structure of the English language. Includes an introduction to language analysis and language diversity.

CSD 3335 Language Development and Disorders: 3 credits  
Pre-SLP only
Study of the development of phonology, morphology, semantics, syntax, pragmatics and relevant nonverbal and cognitive aspects of language. Review of current theories and research. Includes etiology and characteristics of primary, secondary and acquired language disorders in children. PREREQ: CSD 3330, or permission of instructor.

CSD 3340 Communication Development and Disorders: Lifetime Perspective: 3 credits  
Pre-Audiology only
An overview of speech and language development across the lifespan and a survey of speech and language disorders. The course will focus on how communication development and disorders may impact services provided by audiologists and other health professionals. Class intended for students not pursuing a speech-language pathology graduate degree.
CSD 3341 Audiometry and Hearing Science: 3 credits
Introduction to basic hearing science, sound measurement, audiometry, tympanometry, hearing disorders, public school screening, and methods of aural rehabilitation. Review of role of audiology in human services.

CSD 3350 Anatomy & Physiology of the Speech and Swallowing Mechanisms: 3 credits  Pre-SLP only
Introduction to the anatomy and physiology of speech production and swallowing. Examination of structures and functions related to respiration, phonation, resonation, articulation, mastication, and digestion. Focus on typical structures and processes and atypical structure and processes in populations with speech and swallowing disorders. COREQ: CSD 3350L.

CSD 3350L Anatomy & Physiology of the Speech and Swallowing Mechanisms Lab: 1 credit  Pre-SLP only
Required corequisite laboratory portion of CSD 3350 Anatomy & Physiology of the Speech and Swallowing Mechanisms. COREQ: CSD 3350.

CSD 4405 Neuroscience for Communication Disorders: 3 credits
Fundamentals of neuroanatomy and physiology related to speech, language and hearing. Introduction to communication disorders related to neurological damage.

CSD 4415 Clinical Practicum in Audiology: 1-2 credits  Pre-Audiology only
Supervised experience in the evaluation, (re)habilitation, and counseling of persons with hearing disorders. Students will also participate in weekly clinical staffing. May be repeated for up to 6 credits. PRE-or-COREQ: CSD 4416.

CSD 4416 Audiology Methods and Applications: 1 credit  Pre-Audiology only
Introductory training and experience in audiologic clinical procedures. PREREQ: Completion of CSD 3341 and permission of instructor.

CSD 4417 Interdisciplinary Evaluation Team: 1 credit

CSD 4420 Clinical Processes Adult: 2 credits  Pre-SLP only
Assessment and treatment principles, methods, and procedures in Speech-Language Pathology with focus on the adult population. PREREQ: CSD 3315 or permission of the instructor.

CSD 4425 Speech Language Pathology Methods and Application: 2 credits  Highly Recommended (not required) for Pre-SLP emphasis only, not required for Pre-Audiology emphasis
Application of assessment and treatment principles, methods, and procedures in clinical and language disorders through classroom experiences, observation, and clinical experiences. For CSD majors only. PREREQ: CSD 3315, CSD 3325, CSD 3335, and CSD 4420 or permission of the instructor.

CSD 4445 Aural Rehabilitation: 3 credits
Aural rehabilitation of the hearing impaired. Consideration of amplification, speech reading, auditory training, and other aspects of the process.

CSD 4460 Educational Audiology: 3 credits
Overview of school-based audiology services including working within the public school system and with related professionals, legal issues, and options for providing comprehensive services to children with hearing loss and their families.
