## Post-Semester Faculty Survey

As you wind up the many details of the 2013-2014 academic year, we would appreciate it if you would take a moment to reflect upon the entire academic year and complete the following survey. This end of the year survey is being sent electronically to all faculty in the DHS. Staff will be receiving a slightly different version.

Our goal is to continually improve the Division of Health Sciences as an organization made up of programs that are of high quality, efficient, cost effective and student centered. This survey is our attempt to seek direct faculty feedback to help guide that process. Many thanks for your time and thoughts.

### Strategic Goals

9. The Strategic Goals of the DHS are:

- To provide high quality programs that are efficient, cost effective and student oriented.
- To create an environment conducive to inquiry.
- To expand the DHS image as a destination site for health professions education.

Do our goals need to be adjusted? If so, in what way?
