

Idaho State University Faculty Constitution

Adopted by ISU Faculty Senate October 8, 2018

Preamble

To facilitate communication, understanding, and cooperation among the officers of Idaho State University, and to ensure the orderly development of educational programs and policies committed to our trust, we, the President and faculty of Idaho State University, do hereby subscribe to this Constitution establishing principles of organization, authority, and responsibility of the Idaho State University faculty. In adopting this Constitution the President and faculty of Idaho State University affirm our belief in academic freedom and responsibility as specified in the Idaho State Board of Education Governing Policies and Procedures and the American Association of University Professors 1940 Statement of Principles on Academic Freedom and Tenure.

Institutions of higher education are established for the common good and not to further the interest of either the individual faculty member or the institution as a whole, and the common good depends upon the free search for truth and its free exposition through scholarship.

Academic freedom is essential to these purposes and applies to teaching, research (including scholarly and creative activities), and service. Academic freedom in teaching is fundamental for the protection of the rights of the teacher in teaching and of the student to freedom in learning. Academic freedom in research is fundamental to the advancement of truth. Academic freedom in service is fundamental to the advancement of the common good and the development of educational programs and policies. Academic freedom should not be abridged or abused. Academic freedom carries with it duties correlative with rights.

Faculty are entitled to freedom in the classroom in discussing their subject, but they should be careful not to introduce into their teaching controversial matter which has no relation to their subject.

Faculty are entitled to full freedom in research and in the publication of the results, subject to the adequate performance of their other academic duties; but research for pecuniary return should be based upon an understanding with the authorities of the institution.

Faculty are entitled to speak or write freely without institutional discipline or restraint on matters pertaining to faculty governance and development of educational programs and policies.

College and university faculty members are citizens, members of a learned profession, and officers of the educational institution. When they speak or write as citizens, they should be free from institutional censorship or discipline, but their special position in the community imposes special obligations. As scholars and educational officers, they should remember that the public may judge their profession and their institution by their utterances. Hence they should at all times be accurate, should exercise appropriate restraint, should show respect for

the opinions of others, and should make every effort to indicate that they are not speaking for the institution.

Article I: Name

The Idaho State University faculty is comprised of two categories as defined by Article II.

Article II: Membership

Section 1: University Faculty

The University Faculty includes all tenure-track and tenured faculty, as well as non-tenure track faculty with clinical, research, lecturer, and professional-technical appointments at 0.5 FTE or greater. This includes faculty at the rank of professor, associate professor, assistant professor, senior lecturer, associate lecturer, assistant lecturer, and instructors (all levels and designations), or the equivalent of any of these ranks.

Section 2: Adjunct, Affiliate, and Visiting Faculty

The Adjunct, Affiliate, and Visiting Faculty include those faculty with a limited contractual relationship with the University, including part-time (adjunct), non-compensatory (affiliate), and visiting faculty. These faculty have the privilege of participation without vote in meetings of the University Faculty.

Article III: Powers and Authority

Section 1: University Faculty Governance

Subject to the power of review or final decision lodged in the governing Board or delegated by it to the President, the University Faculty accepts its responsibility for establishing academic policies in the following areas:

- a. The University Faculty has primary responsibility on matters of educational policy within the limits prescribed by federal and state law and the regulations of the Idaho State Board of Education. Educational policy pertains to such matters as curricula, methods of instruction, facilities and materials for instruction, standards for admission and retention of students, and criteria for the granting of degrees. It also includes those aspects of student life that relate directly to the educational process including the establishment of regulations concerning financial aid, academic performance, extracurricular activities, and freedom of action and expression.
- b. The University Faculty has primary responsibility for policies and procedures governing the performance of research, scholarship and creative activities.
- c. The University Faculty has primary responsibility for policies and procedures governing faculty appointment, tenure, and promotion.

- d. The University Faculty has primary responsibility for policies and procedures governing the performance of faculty service.

On matters described in a. through d. above, the power of review or final decision lodged in the governing Board or delegated by it to the President should be exercised adversely only in exceptional circumstances, and for reasons communicated to the faculty. It is desirable that the faculty should, following such communication, have opportunity for further consideration and further transmittal of its views to the President or Board. Budgets, personnel limitations, the time element, and the policies of other groups, bodies, and agencies having jurisdiction over the institution may set justifiable limits to the realization of faculty advice.

- e. The University Faculty will carry out the responsibilities described in a. through d. above through its representative body, the Faculty Senate, or through the councils and committees established and maintained by the Senate (see Article V). (The governance responsibilities of the Graduate Faculty, a subset of the University Faculty, will be carried out by the Graduate Council.) However, University Faculty will also have the rights of initiative and referendum, as specified in Article IV: Section 2.e and Section 3, Article V: Section 3.d, and in Article VI: Section 1.

Section 2: College, School, Division, Department, and the Library
