Salary Savings represent the difference between budgeted and actual salaries and fringe benefits. Due to the natural "swirl" of employees coming and going over the course of a year, the university realizes savings of 5-6% of the contracted salary base annually.

Salary savings are administered at the College and major unit level.

Units have access to 100% of permanent and temporary salary savings for all faculty and non-classified staff in all funds.

Units also have access to in-year classified vacancy savings.

Permanent classified salary savings are held in a central Classified Pool that funds transfers and reclassifications.

I want to learn more about ISU's budget model! Please contact Jennifer Steele at 208.282.4277 or email her at jennifersteele@isu.edu.
