

The *Chrome River* app for Apple and Android devices

Chrome River is a mobile application that offers users a simple, secure way to log in to the *Chrome River* applications. It supports single sign-on authentication (SSO) or, for non-SSO customers, enables biometric authentication via fingerprint or facial recognition.

Chrome River mobile app users can easily upload receipts; create, submit, and approve expense reports and pre-approvals; and much more. The app continues to leverage responsive design technology, so users get the same look-and-feel and full range of functionality on every device—unlike our competitors' stripped-down native apps. It's now even easier to enjoy *Chrome River* on the go.

Installation Instructions:

1. Open the App Store and search for "Chrome River" to find the *Chrome River* mobile application.

2. Select the *Chrome River* application with the blue CR logo.

3. Tap to download.

The *Chrome River* app can also be used with Chrome River SNAP to easily capture receipt images and upload them to the Chrome River EXPENSE Receipt Gallery, without cluttering up the photo gallery on your device.
