The FAFSA Processing System (FPS) validates student's and other contributors' Social Security numbers through a match with the Social Security Administration. The FPS verifies that the name and date of birth associated with the SSN match the information submitted on the application. A FAFSA application cannot be processed without a valid SSN match.

We received information from the Social Security Administration that your and/or your spouse's name, social security number, and/or date of birth did not match their records. Either the information was left blank or the name(s)/number(s) reported were incorrect.

The Office of Financial Aid cannot resolve the issue on your behalf, and your FAFSA application **cannot be processed until the issue is resolved**. You and/or your spouse will need to log into StudentAid.gov and follow the prompts to resolve the issue. Please contact our office if further assistance is required to resolve the issue.
