I. INTRODUCTION

This policy puts processes in place to assist departments with petty cash and change funds to maintain a high standard of accountancy and fiduciary responsibility for the University cash funds entrusted to their care.

II. POLICY STATEMENT

Some revenue collection centers on campus require the use of additional cash for making change. Only when absolutely necessary, change funds are established for this purpose. Authorized change funds must be requested by the University Business Officer (UBO) and the dean or department chair in writing to the Controller's Office.

Cash receipts may not be withheld from deposits to establish or replenish change funds.

III. AUTHORITY AND RESPONSIBILITIES

- A. Authority to Establish Funds: The authority to establish either a change or petty cash fund must come from the Controller's Office under the purview of Vice President of Finance and Business Affairs (VPFBA). A department employee is assigned as the person to whom such authority is granted and they hold overall responsibility for its safekeeping. The department should then provide their UBO, the Cashiers Office and the University's Internal Auditor with this person's name and the names of all employees having access to the fund.
- B. Individual Responsibility: Individual responsibility is established by assigning the fund to a Change Fund Custodian (CFC), a specific departmental employee. This employee is responsible for the fund until the monies are either returned to the Controller or until another employee is assigned the responsibility. Any employee assigned responsibility for a change or petty cash fund must sign and return a form provided by the Controller. The identities of all CFC must be kept up to date with the department UBO, the Cashiers Office and the Office of Internal Audit. Forms relating to change funds, petty cash funds and temporary change funds on the website for the Office of Finance and Business Affairs.

The UBO should physically inspect (count) the fund at least quarterly to determine that the proper procedures are being followed and the fund is being adequately controlled; the amount of the fund is adequate but not excessive; and the need for the fund continues to exist. The UBO should document their quarterly review and maintain the documentation in the department. A yearly report is forwarded to the Controller's Office.

- C. Cashier's Office - is responsible for receiving deposits, disbursing cash reimbursements and daily monitoring of accountability for receipts and temporary change fund transactions.
- D. Staff from the Controller's Office may at any time, without advance notice, conduct an audit of the funds in any department with a petty cash or change fund or acting in the capacity of a collecting agent with a change fund.

IV. DEFINITION

- A. Petty Cash Fund – a supply of a specific amount of cash established by a college or department to cover small miscellaneous expenses, usually under \$50 that arise in the department. The fund requires authorization and replenishment. Original receipts are submitted for reimbursement to department employees.
