

# STATE TELEHEALTH LAWS

# & REIMBURSEMENT POLICIES

# State Telehealth Laws and Medicaid Program Policies

### INTRODUCTION

The Center for Connected Health Policy's (CCHP) Fall 2019 release of the "State Telehealth Laws and Reimbursement Policies" report highlights the changes that have taken place in state telehealth policy. The report offers policymakers, health advocates, and other interested health care professionals a summary guide of telehealth-related policies, laws, and regulations for all 50 states and the District of Columbia.

While this guide focuses primarily on Medicaid fee-for-service policies, information on managed care is noted in the report if it was available. The report also notes particular areas where we were unable to find information. Every effort was made to capture the most recent policy language in each state as of September 2019. Recently passed legislation and regulation have also been included in this version of the document with their effective date noted in the report (if applicable). This information also is available electronically in the form of an interactive map and search tool accessible on our website <a href="cchpca.org">cchpca.org</a>. Consistent with previous editions, the information will be updated biannually, as laws, regulations and administrative policies are constantly changing.

## TELEHEALTH POLICY TRENDS

States continue to refine and expand their telehealth reimbursement policies though they are not treated across the board in the same manner as in-person delivered services. Limitations in regards to reimbursable modality, services and location of the patient continue to be seen. Although each state's laws, regulations, and Medicaid program policies differ significantly, certain trends are evident. Live video Medicaid reimbursement, for example, continues to far exceed reimbursement for store-and-forward and remote patient monitoring (RPM). Reimbursement for RPM and store-and-forward continue to be limited. There has been some increased interest in reimbursing for eConsult as California Medicaid joined Connecticut Medicaid in reimbursing for at least one eConsult code. Other noteworthy trends include the addition of the home and schools as an eligible originating site in some states, and the inclusion of teledentistry and substance use disorder services as a specialty qualifying for Medicaid reimbursement and/or required to be reimbursed by private insurers.

Additionally, some state Medicaid programs have begun incorporating specific documentation and/or confidentiality, privacy and security guidelines within their manuals for telehealth specifically. The two states passing new telehealth private payer legislation this update took very different approaches in regards to payment parity, with Georgia requiring payment parity and Florida allowing plans and providers to negotiate the rate. In recent years, laws and regulations allowing practitioners to prescribe medications through live video interactions have also increased, as well as a few states even allowing for the prescription of controlled substances over telehealth within federal limits.

A few additional significant findings include:

- · Fifty states and Washington DC provide reimbursement for some form of live video in Medicaid fee-for-service.
- Fourteen state Medicaid programs reimburse for store-and-forward. However, four additional jurisdictions (HI,

- MS, NH, and NJ) have laws requiring Medicaid reimburse for store-and-forward but as of the creation of this edition, yet to have any official Medicaid policy indicating this is occurring.
- Twenty two state Medicaid programs provide reimbursement for RPM. As is the case for store-and-forward, two Medicaid programs (HI and NJ) have laws requiring Medicaid reimburse for RPM but at the time this report was written, did not have any official Medicaid policy. A law in D.C. requiring Medicaid provide reimbursement for store-and-forward and remote patient monitoring, was made contingent on being funded under an approved budget and financial plan. As of September 2019, neither have been funded. Kentucky Medicaid is also required to create an RPM pilot, but CCHP has not seen any evidence that the pilot has been established.
- Eight state Medicaid programs (Alaska, Arizona, Maryland, Minnesota, New York, Texas, Virginia and Washington) reimburse for all three, although certain limitations apply.
- · Two Medicaid programs (California and Connecticut) reimburse for eConsult.

### **HOW TO USE THIS REPORT**

Telehealth policies are organized into three categories that address Medicaid reimbursement, private payer law and professional regulation/health & safety. Within those category areas, topic focuses include modality of reimbursement (for Medicaid), requirements and parity (for private payer law), licensing, consent and online prescribing (for professional regulation/health & safety). In many instances the specific policy is found in law and/or regulations and administrative policy, but that is not always the case. This report primarily addresses the individual state's policies that govern telehealth use when seeking Medicaid coverage for service. However, we have also included a specific category that describes whether a state has established any specific policies that require private insurers to pay for telehealth services. For summary information, please reference the executive summary of this report, along with a summary chart of some of the key data points and CCHP's factsheet infographic. A glossary is also available at the end of the report.

We hope you find the report useful, and welcome your feedback and questions. You can direct your inquiries to Mei Kwong, CCHP Executive Director or Christine Calouro, Policy Associate, at <a href="mailto:info@cchpca.org">info@cchpca.org</a>. We would also like to thank our colleagues at each of the twelve HRSA-funded Regional Telehealth Resource Centers who contributed to ensuring the accuracy of the information in this document. For further information, visit <a href="mailto:cchpca.org">cchpca.org</a>.

This report is for informational purposes only, and is not intended as a comprehensive statement of the law on this topic, nor to be relied upon as authoritative. Always consult with counsel or appropriate program administrators.

Mei Wa Kwong, JD

**Executive Director** 

This project was partially funded by The California HealthCare Foundation and The National Telehealth Policy Resource Center program is made possible by Grant #G22RH30365 from the Office for the Advancement of Telehealth, Health Resources and Services Administration, DHHS.

The Center for Connected Health Policy is a program of the Public Health Institute.

# A Comprehensive Scan of the 50 States and the District of Columbia: Findings and Highlights

The Fall 2019 release of the Center for Connected Health Policy's (CCHP) report of state telehealth laws and Medicaid reimbursement policies is the eighteenth updated version of the report since it was first released in 2013. Like its previous iterations, the report is updated on a biannual basis, in spring and fall. An interactive map version of the report is available on CCHP's website, cchpca.org. Due to constant changes in laws, regulations, and policies, CCHP will continue to update the information in both PDF and map formats twice a year to keep it as accurate and timely as possible.

It should be noted that even if a state has enacted telehealth policies in statute and/or regulation, these policies may not have been incorporated into its Medicaid program. Throughout the report, CCHP has notated changes in law that have not yet been incorporated into the Medicaid program, as well as laws and regulations that have been approved, but not yet taken effect.

## **METHODOLOGY**

CCHP examined state law, state administrative codes, and Medicaid provider manuals as the report's primary resources. Additionally, other potential sources such as releases from a state's executive office, Medicaid notices, transmittals or Agency newsletters were also examined for relevant information. In some cases, CCHP directly contacted state Medicaid personnel in order to clarify specific policy issues. Most of the information contained in this report specifically focuses on fee-for-service; however, information on managed care plans has also been included if available from the utilized sources. Newly approved regulations related to specific telehealth standards for various professions are noted in the "Miscellaneous" section of the state's Professional Regulation/Health & Safety category area.

The survey focused on three primary areas for telehealth policy including Medicaid reimbursement, private payer laws and professional regulation/health & safety requirements. Within each category, information is organized into various topic and subtopic areas. These topic areas include:

#### **Medicaid Reimbursement:**

- Definition of the term telemedicine/telehealth
- · Reimbursement for live video
- · Reimbursement for store-and-forward
- Reimbursement for remote patient monitoring (RPM)
- Reimbursement for email/phone/fax
- Consent issues
- · Out-of-state providers

#### **Private Payer Laws**

- Definitions
- Requirements
- Parity (service and payment)

#### **Professional Regulation**

- Definitions
- Consent
- Online Prescribing
- Cross-State Licensing

## **KEY FINDINGS**

No two states are alike in how telehealth is defined and regulated. While there are some similarities in language, perhaps indicating states may have utilized existing verbiage from other states, noticeable differences exist. These differences are to be expected, given that each state defines its Medicaid policy parameters, but it also creates a confusing environment for telehealth participants to navigate, particularly when a health system or practitioner provides health care services in multiple states. In most cases, states have moved away from duplicating Medicare's restrictive telehealth policy, with some reimbursing a wide range of practitioners and services, with little to no restrictions.

As noted previously, even if a state has enacted telehealth policies in statute and/or regulation, these policies may not have been incorporated into its Medicaid program. In the findings below, there are a few cases in which a law has passed requiring Medicaid reimbursement of a specific telehealth modality or removal of restrictions, but Medicaid policies have yet to reflect this change. CCHP has based its findings on current Medicaid policy according to those listed in their program regulations, manuals or other official documentation. Requirements in newly passed legislation will be incorporated into the findings section of future editions of CCHP's report once they are implemented in the Medicaid program, and CCHP has located official documentation confirming this.

While this Executive Summary provides an overview of findings, it must be stressed that there are nuances in many of the telehealth policies. To fully understand a specific policy and all its intricacies, the full language of it must be read. Below are summarized key findings in each category area contained in the report.

## **DEFINITIONS**

States alternate between using the term "telemedicine" or "telehealth". In some states both terms are explicitly defined in law and/or policy and regulations. "Telehealth" is sometimes used to reflect a broader definition, while "telemedicine" is used mainly to define the delivery of clinical services. Additional variations of the term, primarily utilizing the "tele" prefix are also becoming more prevalent. For example, the term "telepractice" is being used frequently as it relates to physical and occupational therapy, behavioral therapy, and speech language pathology. "Telesychiatry" is also a term commonly used as an alternative when referring specifically to psychiatry services.

Some states put specific restrictions within the definitions, which often limit the term to "live" or "interactive", excluding store-and-forward and RPM from the definition and subsequently from reimbursement. The most common restriction states place on the term telemedicine/telehealth is the exclusion of email, phone, and/or fax from the definition. Fortynine states and the District of Columbia have a definition in law, regulation, or their Medicaid program for telehealth, telemedicine, or both. Only Alabama lacks a definition for either term.

## MEDICAID REIMBURSEMENT

### What's New

California made big changes to their Medicaid program (Medi-Cal) during this update, the most significant of which is allowing the provider to decide what modality, live video or store-and-forward can be used to deliver eligible services to a Medi-Cal enrollee as long as the service is covered by Medi-Cal and meets all other Medi-Cal guidelines and policies, can be appropriately delivered via telehealth and meets procedural and definition components of the appropriate CPT or HCPCS code. Additionally, electronic consultations (eConsult) was added as a subset of store-and-forward and reimbursement for one specific eConsult code is now allowed. Finally, Medi-Cal has also explicitly listed the home as an originating site, even if there is not a provider physically with the patient at the time of the telehealth interaction.

Colorado also had some changes with the passage of a law requiring Medicaid reimburse telemedicine delivered services that would otherwise be eligible for reimbursement under the program. Under the law, Medicaid is required to reimburse, at minimum, the same rate for telemedicine services as in-person services.

Allowing the home as an eligible originating site was one of the more common Medicaid policy changes during this Fall 2019 update. Medicaid programs to explicitly add the home since Spring 2019 included California, Kentucky, Ohio, New Hampshire and Colorado. Many of these states also explicitly added schools and/or federally qualified health centers and rural health centers to their eligible originating sites.

# Modalities: Live Video, Store-and-Forward, Remote Patient Monitoring (RPM), Email/Phone/Fax

All 50 states and the District of Columbia have some form of Medicaid reimbursement for telehealth in their public program. However, the extent of reimbursement for telehealth delivered services is less clear in some states than others.

#### Live Video

The most predominantly reimbursed form of telehealth modality is live video, with every state offering some type of live video reimbursement in their Medicaid program. However, what and how it is reimbursed varies widely. The spectrum ranges from a Medicaid program in a state like New Jersey, which will only reimburse for telepsychiatry services, to states like California, which reimburses for live video across a wide variety of medical specialties. In addition to restrictions on specialty type, many states have restrictions on:

- The type of services that can be reimbursed, e. g. office visit, inpatient consultation, etc.;
- The type of provider that can be reimbursed, e. g. physician, nurse, physician assistant, etc.; and
- The location of the patient, referred to as the originating site.

These restrictions have been noted within the report to the extent possible.

#### Store-and-Forward

Store-and-forward services are only defined and reimbursed by fourteen state Medicaid Programs. This number does not include states that only reimburse for teleradiology (which is commonly reimbursed, and not always considered 'telehealth'). In many states, the definition of telemedicine and/or telehealth stipulates that the delivery of services must occur in "real time," automatically excluding store-and-forward as a part of telemedicine and/or telehealth altogether in those states. Of those states that do reimburse for store-and-forward services, some have limitations on what will be reimbursed or if they do not reimburse for the modality, they carve out special exceptions. For example, Maryland's Medicaid program specifies that while they don't reimburse for store-and-forward, they do not consider use of the technology in dermatology, ophthalmology and radiology to fit into the definition of store-and-forward.

In addition to the states above, four other states have laws requiring Medicaid reimburse for store-and-forward services, but CCHP has not been able to locate any official Medicaid policy indicating that they are in fact reimbursing. They include Hawaii, Mississippi, New Hampshire, and New Jersey. Note that Hawaii has an approved Medicaid State Plan Amendment allowing them to reimburse for store-and-forward within their Medicaid program but CCHP is still awaiting official written Medicaid policy indicating that they are actively reimbursing for store-and-forward. In some cases, although a definition of telehealth or telemedicine applicable to their Medicaid program included store-and-forward, there was no further indication of the modality being reimbursed, or the only specialty referenced was teleradiology which CCHP does not count as store-and-forward reimbursement for purposes of this list.

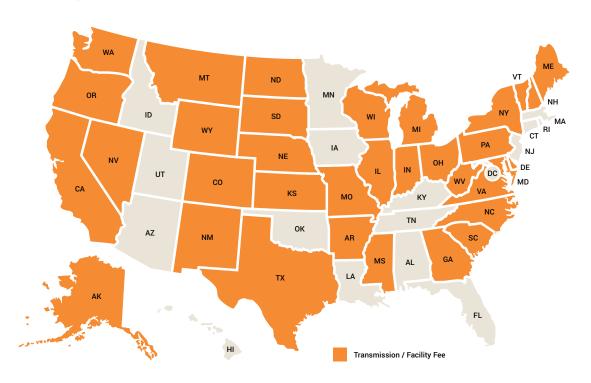

#### Remote Patient Monitoring (RPM)

Twenty-two states have some form of reimbursement for RPM in their Medicaid programs. As with live video and store-and-forward reimbursement, many of the states that offer RPM reimbursement have a multitude of restrictions associated with its use. The most common of these restrictions include only offering reimbursement to home health agencies, restricting the clinical conditions for which symptoms can be monitored, and limiting the type of monitoring device and information that can be collected. As is the case for store-and-forward, two Medicaid programs (HI and NJ) have laws requiring Medicaid reimburse for RPM but at the time this report was written, did not have any official Medicaid policy regarding RPM reimbursement. Also note that although a law in D.C. was passed in 2018 requiring Medicaid provide reimbursement for store-and-forward and remote patient monitoring, it was made contingent on being funded under an approved budget and financial plan. As of September 2019, neither have been funded.

#### Email/Phone/Fax

Email, telephone, and fax are rarely acceptable forms of delivery unless they are in conjunction with some other type of system. Most states either are silent or explicitly exclude these forms, sometimes even within the definition of telehealth and/or telemedicine.

## **Transmission/Facility Fee**

Thirty-four states will reimburse either a transmission, facility fee, or both. Of these, the facility fee is the most common. Policies often stipulate a specific list of facilities eligible to receive the facility fee.

# **Eligible Providers**

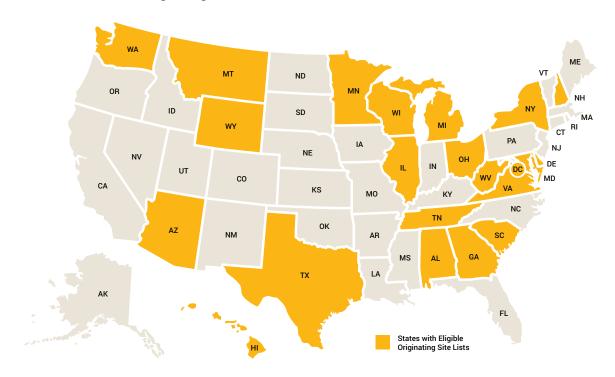

While many state Medicaid programs are silent, some states limit the types of providers that can provide services at the distant site through telehealth. These lists vary from being extremely selective in the provider types that are eligible (for example, only physicians, certified registered nurse practitioner and certified nurse midwives in Pennsylvania), to more expansive eligible provider lists, such as in Virginia, which includes over sixteen provider types. Because federally

qualified health centers (FQHCs) and rural health centers (RHCs) bill as entities rather than as providers, these lists often exclude them or do not have an explicit mention of these entities. Medicare has also excluded these clinics from billing for telehealth delivered services as distant site providers (although they do qualify for the originating site facility fee).

## **Geographic & Facility Originating Site Restrictions**

The practice of restricting reimbursable telehealth services to rural or underserved areas, as is done in the Medicare program, is decreasing. States that continue to have telehealth geographic restrictions are more ambiguous in their policies, making broad statements, such as limiting a distant and originating site provider from being located in the same community. Only six states (HI, MD, MN, MS, NC, SC) currently have these types of restrictions. Some are restricted to only certain specialties, such as Maryland's geographic restriction only applying to mental health, and Minnesota's geographic requirement only applying to Medication Therapy Management Services. Although Hawaii passed a law prohibiting a geographic limitation for telehealth in their Medicaid program, such language is still present in their Medicaid regulation.

A more common practice is for state Medicaid programs to limit the type of facility that may be an originating site, often excluding the home as a reimbursable site, impacting RPM as a result. Currently twenty-three jurisdictions have a specific list of sites that can serve as an originating site for a telehealth encounter.

Nineteen state Medicaid programs explicitly allow the home to serve as an originating site, although it's often tied to additional restrictions, and a facility fee would not be billable. More states are also allowing schools to serve as an originating site, with nineteen jurisdictions explicitly allowing schools to be originating sites for telehealth-delivered services, although, as is the case with the home environment, restrictions often apply.

# **CONSENT**

Thirty-nine jurisdictions include some sort of informed consent requirement in their statutes, administrative code, and/or Medicaid policies. This requirement can sometimes apply to the Medicaid program, a specific specialty or all telehealth encounters that occur in the state, depending on how and where the policy is written.

### **LICENSURE**

Nine state medical (or osteopathic) boards issue special licenses or certificates related to telehealth. The licenses could allow an out-of-state provider to render services via telemedicine in a state where they are not located, or allow a clinician to provide services via telehealth in a state if certain conditions are met (such as agreeing that they will not open an office in that state).

Twenty-nine states, D.C., and Guam have adopted the Federation of State Medical Boards (FSMB)'s Interstate Medical Licensure Compact (IMLC) in its place. The Compact allows for an Interstate Commission to form an expedited licensure process for licensed physicians to apply for licenses in other states.

Besides the IMLC, there are also three additional Compacts to be aware of that are currently active or soon to be active, including:

- The Nurses Licensure Compact which currently has 34 state members.
- The Physical Therapy Compact which currently has 26 members.
- The Psychology Interjurisdictional Compact which currently has 12 members.

Still other states have laws that don't specifically address telehealth and/or telemedicine licensing, but make allowances for practicing in contiguous states, or in certain situations where a temporary license might be issued provided the specific state's licensing conditions are met.

## ONLINE PRESCRIBING

There are a number of nuances and differences across the states related to the use of technology and prescribing. However, most states consider using only an internet/online questionnaire to establish a patient-provider relationship (needed to write a prescription in most states) as inadequate. States may also require that a physical exam be administered prior to a prescription being written, but not all states require an in-person examination, and some specifically allow the use of telehealth to conduct the exam. Other states have relaxed laws and regulations around online prescribing. For example, while more stringent policies typically exist restricting practitioners from prescribing controlled substances through telehealth, a few states have begun opting to explicitly allow for the prescribing of controlled substances within federal limits. Many of these laws have passed as a result of the opioid epidemic and the need to prescribe certain medications associated with medication assisted therapy (MAT). In addition to more states explicitly allowing for the prescribing of controlled substances using telehealth, some Medicaid programs are also beginning to pay for medication therapy management services when provided through telehealth including IN, MN, MI and LA. An increasing number of states are also passing legislation directing healthcare professional boards to adopt practice standards for its providers who utilize telehealth. Medical and Osteopathic Boards often address issues of prescribing in such regulatory standards. This typically occurs immediately following the passage of a private payer reimbursement bill in a state.

# **PRIVATE PAYERS**

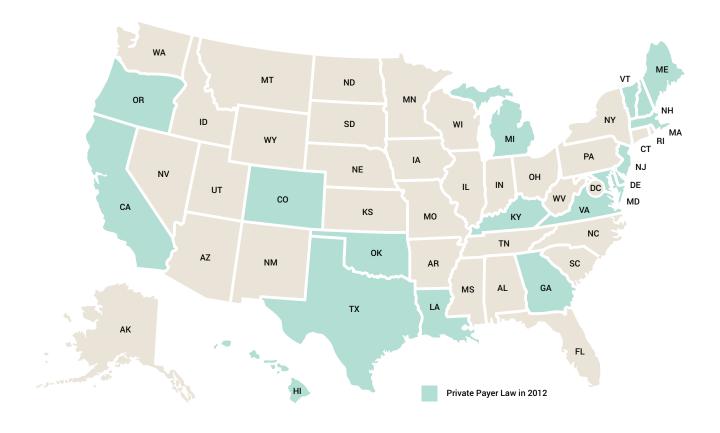

Currently, forty states and DC have laws that govern private payer telehealth reimbursement policies. Florida was the only state to add a private payer law that is now currently in effect for the Fall 2019 Edition. The law requires contracts between a health insurer or health maintenance organization and telehealth provider to establish mutually acceptable payment rates for services provided through telehealth. It also specifies that any contract provision that distinguishes between rates for services provided through telehealth and the same service provided without telehealth must be initialed by the telehealth provider. This is the first time such language has appeared in a telehealth private payer law.

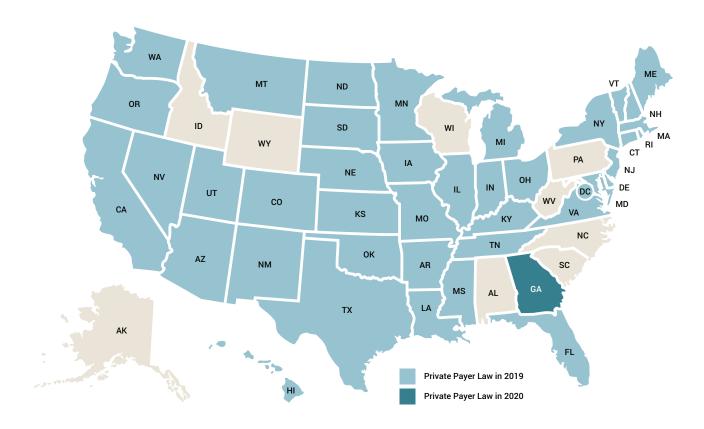

Both California and Georgia also passed private payer laws during this update that go into effect at a future date. Georgia's law goes into effect January 1, 2020, and requires telemedicine services be reimbursed on the same basis as well as at least at the same rate as in-person services, with reasonable compensation to the originating or distant site for the transmission cost incurred during the delivery of health care services. California's newly revised private payer law, which applies to contracts issued, amended or renewed on or after Jan. 1, 2021, requires payers to reimburse for telehealth services on the same basis and to the same extent, as well as at the same rate, as the same service when delivered in-person.

Only a few private payer laws require that the reimbursement amount for a telehealth-delivered service be equal to the amount that would have been reimbursed had the same service been delivered in-person. Telehealth private payer laws is one of the areas of telehealth policy that has seen the most growth since CCHP's first report in 2012.

#### Private Payer Law Map in 2012:

#### Private Payer Law Map in 2019:

# State Telehealth Laws and Reimbursement Policies

AT A GLANCE Fall 2019

Telehealth policy trends continue to vary from state-to-state, with no two states alike in how telehealth is defined, reimbursed, or regulated. A general definition of telehealth used by CCHP is **the use of electronic technology to provide health care and services to a patient when the provider is in a different location.** 

# **Medicaid Policy Trends-**

All 50 states and D.C. now reimburse for some type of live video telehealth services. Reimbursement for store-and-forward and remote patient monitoring (RPM) continues to lag behind. Fourteen state Medicaid programs reimburse for store-and-forward and twenty-one states reimburse for remote patient monitoring (RPM), with additional states having laws requiring Medicaid reimbursement for store-and-forward or RPM, yet no official written policies indicating that such policy has been implemented.

Many of the reimbursement policies that do exist continue to have restrictions and limitations, creating a barrier to utilizing telehealth to deliver services. One of the most common restrictions is a limitation on where the patient is located, referred to as the originating site. While most states have dropped Medicare's rural geographic requirement, many Medicaid programs have limited the type of facility that can serve as an originating site, often excluding a patient's home from eligibility. However, nineteen states do now explicitly allow the home to be an eligible originating site under certain circumstances.

# Other Common Telehealth Restrictions

The specialty that telehealth services can be provided for

The types of services or CPT codes that can be reimbursed (inpatient office, consult, etc.)

The types of providers that can be reimbursed (e.g. physician, nurse, etc.)

#### CENTER FOR CONNECTED HEALTH POLICY

# State Telehealth Laws and Reimbursement Policies

AT A GLANCE Fall 2019

## Private Payer Reimbursement

40 states and the District of Columbia have laws that govern private payer reimbursement of telehealth. States that passed new or revised private payer laws since Spring 2019 include Arizona, California, Georgia and Florida. Some laws require reimbursement be equal to inperson coverage, however most only require parity in covered services, not reimbursement amount. Not all laws mandate reimbursement.

# Online Prescribing —

Most states consider the use of only an online questionnaire as insufficient to establish the patient-provider relationship and prescribe medication.

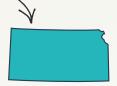

Some states allow telehealth to be used to conduct a physical

exam, while others do not. Some states have relaxed requirements for prescribing controlled substances used in medication assisted therapy (MAT) as a result of the opioid epidemic.

More and more states are passing legislation directing healthcare professional boards to adopt practice standards for its providers who utilize telehealth. Medical and Osteopathic Boards often address issues of prescribing in such regulatory standards.

Often, internet/online questionnaires are not adequate: states may require a physical exam prior to a prescription

KANSAS passed a policy in 2018 extending to telehealth the same drug prescription laws and regulations that apply to in-person prescriptions.

#### **WEST VIRGINIA**

explicitly allows practitioner to provide aspects of MAT through telehealth if within their scope of practice.

# 38 states and D.C. include some sort of informed consent

## Consent

38 States and D.C. have a consent requirement in either Medicaid policy, law, or regulation. This number has not changed since Spring 2019.

## Licensure -

Nine state boards issue licenses related to telehealth allowing an out-of-state licensed provider to render services via telehealth. Licensure Compacts have become increasingly common. For example:

**Medicaid Telehealth Reimbursement** 

# Summary

Alabama Medicaid reimburses for live video under some circumstances. The Agency will not reimburse providers for origination site or transmission fees. They make no reference to store-and-forward reimbursement, but the program reimburses for In-Home Monitoring through the Patient's 1st program for diabetes and Chronic Heart failure, although it's not considered to fall under the telemedicine program.

For all telemedicine services, an appropriately trained staff member or employee familiar with the patient or the treatment plan must be immediately available in-person to the patient.

Source: AL Medicaid Management Information System Provider Manual, (28-17 & 39-33), Jul. 2019 (Accessed Sept. 2019) & AL Admin. Code r. 560-X-6-p. 14.

# initions

There is no explicit definition of "telemedicine" given in state Medicaid policy. However, the provider manual states, "Services must be administered via an interactive audio and video telecommunications system which permits two-way communication between the distant site physician and the origination site where the recipient is located (this does not include a telephone conversation, electronic mail message, or facsimile transmission between the physician, recipient, or a consultation between two physicians)."

reurgalu Teremearur Neimbursememen

Live Video

Alabama Medicaid reimburses for the following services when billed with a GT modifier:

- Consults
- Office or other outpatient visits;
- · Individual psychotherapy;
- · Psychiatric diagnostic services;
- Neurobehavioral status exams.

However, for some specialties, special conditions or circumstances must be present for reimbursement to occur.

Source: AL Medicaid Management Information System Provider Manual, (28-17), July 2019. (Accessed Sept. 2019). & AL Admin. Code r. 560-X-6-.14.

Telehealth may also be used to deliver Nursing Assessment and Care and Rehabilitative services when certain conditions are met.

Source: AL Medicaid Management Information System Provider Manual, (105-13 & 63), July 2019, (Accessed Sept. 2019).

All physicians with an Alabama license, enrolled as a provider with the Alabama Medicaid Agency, regardless of location, are eligible to participate in the Telemedicine Program to provide medically necessary telemedicine services to Alabama Medicaid eligible recipients. In order to participate in the telemedicine program:

- Physicians must be enrolled with Alabama Medicaid with a specialty type of 931 (Telemedicine Service)
- Physician must submit the telemedicine Service Agreement/Certification form
- Physician must obtain prior consent from the recipient before services are rendered.
   This will count as part of each recipient's benefit limit of 14 annual physician office visits currently allowed.

Source: AL Medicaid Management Information System Provider Manual, (28-17) July 2019, (Accessed Sept. 2019).

For Nursing Assessment and Care services for DMH Mental Illness, and DMH Substance Abuse the following providers are eligible:

- · Licensed Registered Nurse
- · Licensed Practical Nurse
- · Certified Nursing Assistant

Source: AL Medicaid Management Information System Provider Manual, (105-63), Jul. 2019, (Accessed: Sept. 2019).

Rehabilitative services that are delivered face to face can either be in person or via telemedicine/telehealth, as approved by the Alabama Medicaid Agency.

Source: AL Medicaid Management Information System Provider Manual, (105-1) (Accessed Sept. 2019).

ible Sites

For rehabilitative services, the originating site must be at:

- · Physician's office;
- Hospital;
- Critical Access Hospital;
- Rural Health Clinic;
- Federally Qualified Health Center;
- Community mental health center (to include co-located sites with partnering agencies);
- · Public health department.

Summary

Alaska reimburses for Live Video, Store & Forward & Remote Patient Monitoring, although some restrictions apply.

"Alaska Medicaid will pay for telemedicine services delivered in the following manner:

- Interactive method: Provider and patient interact in 'real-time' using video/camera and/or dedicated audio conference equipment.
- · Store-and-forward method: The provider sends digital images, sounds, or previously recorded video to a consulting provider at a different location. The consulting provider reviews the information and reports back his or her analysis.
- Self-monitoring method: The patient is monitored in his or her home via a telemedicine application, with the provider indirectly involved from another location."

Covers the States of: Arizona, Colorado, Nevada, New Mexico, & Utah

www.southwesttrc.org

ummarv

Arizona Health Care Cost Containment System (AHCCCS) reimburses for live video for certain services delivered at specific originating sites by specific providers. They reimburse for store-and-forward for specific specialties and for remote patient monitoring for patients with chronic heart failure. Restrictions apply for all the above.

All services provided via telemedicine must be reasonable, cost effective and medically appropriate. Services are billed by the consulting provider. Tele-presenter services are not billable.

Source: AZ Health Care Cost Containment System, AHCCCS Fee-For- Service Provider Manual, Ch. 10: Individual Practitioner Services, (10-41), (4/12/2019) & IHS/Tribal Provider Billing Manual (8/42), (4/12/2019). (Accessed Aug. 2019).

**Medicaid Telehealth Reimbursement** 

Service delivery via telemedicine can be in one of two models: Real time means the interactive, two-way transfer of information and medical data, which occurs at two sites simultaneously: the hub site and spoke site ... Diagnostic, consultation and treatment services are delivered through interactive, audio, video and/or communication.

Store-and-forward means transferring medical data from one site to another through the use of a camera or similar device that records (stores) an image that is sent (forwarded) via telecommunication to another site for consultation.

Source: AZ Health Care Cost Containment System, AHCCCS Fee-For-Service Provider Manual, Ch. 10: Individual Practitioner Services, (10-41), (4/12/2019) & IHS/Tribal Provider Billing Manual, (8/42), (4/12/19). (Accessed Aug. 2019).

Telemedicine is "the practice of health care delivery, diagnosis, consultation and treatment and the transfer of medical data through interactive audio, video or data communications that occur in the physical presence of the member, including audio or video communications sent to a health care provider for diagnostic or treatment consultation."

Telehealth (or telemonitoring) is "the use of telecommunications and information technology to provide access to health assessment, diagnosis, intervention, consultation, supervision and information across distance. Telehealth includes such technologies as telephones, facsimile machines, electronic mail systems, and remote member monitoring devices, which are used to collect and transmit member data for monitoring and interpretation. While they do not meet the Medicaid definition of telemedicine they are often considered under the broad umbrella of telehealth services. Even though such technologies are not considered telemedicine, they may nevertheless be covered and reimbursed as part of a Medicaid coverable service."

Telecommunications technology is "the transfer of medical data from one site to another through the use of a camera, electronic data collection system such as an Electrocardiogram (ECG), or other similar device, that records (stores) an image which is then sent (forwarded) via telecommunication to another site for consultation which includes store-and-forward. Services delivered using telecommunications technology, but not requiring the member to be present during their implementation, are not considered telemedicine."

finitions

Teledentistry "the acquisition and transmission of all necessary subjective and objective diagnostic data through interactive audio, video or data communications by an AHCCCS registered dental provider to a distant dentist for triage, dental treatment planning, and referral."

- a. Teledentistry includes the provision of preventive and other approved therapeutic services by the AHCCCS registered Affiliated Practice Dental Hygienist, who provides dental hygiene services under an affiliated practice relationship with a dentist.
- b. Teledentistry does not replace the dental examination by the dentist; limited, periodic, and comprehensive examinations cannot be billed through the use of Teledentistry alone.

Source: AZ Health Care Cost Containment System, AHCCCS Medical Policy for AHCCCS Covered Services, Ch. 300, (320-22-23). Oct. 2016. (Accessed Aug. 2019).

Telemedicine means the practice of health care delivery, diagnosis, consultation, and treatment and the transfer of medical data through interactive audio, video, and data communications that occur in the physical presence of the patient.

Telecommunication technology means "the transfer of medical data from one site to another through the use of a camera, or other

similar device, that records (stores) an image which is then sent (forwarded) via telecommunication to another site for teleconsultation. Services delivered using telecommunications technology, but not requiring the member to be present during the consultant's evaluation, are not considered telemedicine."

# ledicaid Telehealth Reimbursement

For teledentistry services: A consultation by a non-Arizona licensed provider may occur if:

- It is to a specific patient in the AHCCCS program;
- · The provider is registered with AHCCCS;
- The provider is licensed in the state the consultation is being provided from, or the provider is employed by an Indian Health Services, Tribal or Urban Indian Health program and appropriately licensed based on IHS and Tribal facility requirements.
- At the time of service delivery via real time teledentistry, the member's dental provider may
  designate a trained telepresenter to present the case to the consulting dentist if the member's primary dentist or other dental professional who is familiar with the member's dental
  condition, is not present. The telepresenter must be familiar with the member's dental condition in order to present the case accurately.

Under Arizona Administrative Code, Department of Insurance, Health Care Services Organizations Oversight, "telemedicine means diagnostic, consultation, and treatment services that occur in the physical presence of an enrollee on a real-time basis through interactive audio, video, or data communication."

Source: AZ Admin. Code Sec. R20-6-1902. (Accessed Aug. 2019).

## Requirements

#### Effective Until January 1, 2021

All contracts (Health Care Service Organizations and policies) must provide coverage for specified health care services that are provided through telemedicine if the health care service would be covered were it provided through in-person consultation between the subscriber and a health care provider and provided to a subscriber receiving the service in Arizona. Only applies to specific conditions and settings. A contract may limit the coverage to those health care providers who are members of the corporation's provider network.

Requirements

Services provided through telemedicine or resulting from a telemedicine consultation shall comply with Arizona licensure requirements, accreditation standards and any practice guidelines of a national association of medical professionals promoting access to medical care for consumers via telecommunications technology or other qualified medical professional societies to ensure quality of care.

Source: AZ Rev. Statues. Sec. 20-841.09 & AZ Rev. Statute Sec. 20-1057.13 & 20-1376.05 & 20-1406.05. (Accessed Aug. 2019).

Health Care Service Organizations (HCSO) are allowed, but not mandated, to provide access to covered services through telemedicine, telephone, and email.

# **Jedicaid Telehealth Reimbursement**

### **Arkansas**

Medicaid Program: Arkansas Medicaid

Program Administrator: Arkansas Department of Human Services

Regional Telehealth Resource Center: South Central Telehealth Resource Center

Covers the States of: Arkansas, Mississippi, & Tennessee

www.learntelehealth.org

Summary

Arkansas Medicaid reimburses for live video when the telemedicine service is comparable to an in-person service. Store-and-forward and remote patient monitoring is included in Medicaid's definition of telemedicine, but there was no specific information found regarding reimbursement of the modalities.

Telemedicine is defined as the use of electronic information and communication technology to deliver healthcare services including without limitation, the assessment, diagnosis, consultation, treatment, education, care management, and self-management of a patient. Telemedicine includes store-and-forward technology and remote patient monitoring.

Source: AR Medicaid Provider Manual. Section I General Policy. Rule 105.190. Updated Aug. 1, 2018. (Accessed Aug. 2019) & Section III Billing Documentation. Rule 305.000. Updated Aug. 1, 2018 & PASSE Program (3/1/19). (Accessed Aug. 2019).

Provider-Led Arkansas Shared Savings Entity (PASSE) Program

The following activities will not be considered a reportable encounter when delivered to a member of the PASSE:

- · Audio-only communication including without-limitation, interactive audio;
- A facsimile machine;
- · Text messaging; or
- · Electronic mail systems

Virtual services are telemedicine, telehealth, e-consulting, and provider home visits that are part of a patient care treatment plan and are provided at the individual's home or in a community setting. These services are provided using mobile secure telecommunication devices, electronic monitoring equipment, and include clinical provider care, behavioral health therapies, speech, occupational and physical therapy services, and treatment provided to an individual at their residence.

Source: APASSE Program (3/1/19). (Accessed Aug. 2019).

Store-and-forward technology is the transmission of a patient's medical information from a healthcare provider at an originating site to a healthcare provider at a distant site.

Remote patient monitoring means the use of electronic information and communication technology to collect personal health information and medical data from a patient at an originating site that is transmitted to a healthcare provider at a distant site for use in the treatment and management of medical conditions that require frequent monitoring.

# edicaid Telehealth Reimbursement

**Jefinitions** 

Telemedicine means the use of electronic information and communication technology to deliver healthcare services, including without limitation the assessment, diagnosis, consultation, treatment, education, care management and self-management of a patient. Telemedicine includes store-and-forward and remote patient monitoring. Telemedicine does not include the use of audio-only communication including without limitation interactive audio; a facsimile machine; text messaging; or electronic mail systems.

Source: AR Code 23-79-1601(7). (Accessed Aug. 2019).

Arkansas Medicaid provides payment to a licensed or certified healthcare professional or a licensed or certified entity for services provided through telemedicine if the service provided through telemedicine is comparable to the same service provided in-person.

Coverage and reimbursement for services provided through telemedicine will be on the same basis as for services provided in-person. While a distant site facility fee is not authorized under the Telemedicine Act, if reimbursement includes payment to an originating site (as outlined in the above paragraph), the combined amount of reimbursement to the originating and distant sites may not be less than the total amount allowed for healthcare services provided in-person.

Source: AR Medicaid Provider Manual. Section I General Policy. Rule 105.190. Updated Aug. 1, 2018. (Accessed Aug. 2019).

Arkansas Medicaid shall provide payment for telemedicine healthcare services to licensed or certified healthcare professionals or entities that are authorized to bill Arkansas Medicaid directly for healthcare services. Coverage and reimbursement for healthcare services provided through telemedicine shall be reimbursed on the same basis as healthcare services provided in-person.

## **Out of State Providers**

Miscellaneous

# **Jedicaid Telehealth Reimbursement**

rivate Payer Laws

A healthcare provider treating patients in Arkansas through telemedicine shall be fully licensed or certified to practice in Arkansas and is subject to the rules of the appropriate state licensing or certification board. This requirement does not apply to the acts of a healthcare provider located in another jurisdiction who provides only episodic consultation services.

Source: AR Medicaid Provider Manual. Section I General Policy. Rule 105.190. Updated Aug. 1, 2018. (Accessed Aug. 2019) & AR Admin. Rule 016 06 18

The distant site provider is prohibited from utilizing telemedicine with a patient unless a professional relationship exists between the provider and patient. See manual for ways to establish the relationship. A professional relationship is established if the provider performs a face-to-face examination using real time audio and visual telemedicine technology that provides information at least equal to such information as would have been obtained by an in-person examination; or if the establishment of a professional relationship is permitted via telemedicine under the quidelines outlined in ASMB regulations. Telemedicine may be used to establish the professional relationship only for situations in which the standard of care does not require an in-person encounter and only under the safeguards established by the healthcare professional's licensing board (See ASMB Regulation 38 for these safeguards including the standards of care). See manual for full list of requirements on establishing a professional relationship. Special requirements also exist for providing telemedicine services to a minor in a school setting (see manual).

A healthcare provider providing telemedicine services within Arkansas shall follow applicable state and federal laws, rules and regulations regarding:

- Informed consent:
- Privacy of individually identifiable health information;
- Medical record keeping and confidentiality, and
- Fraud and abuse.

Source: AR Medicaid Provider Manual. Section I General Policy. Rule 105.190. Updated Aug. 1, 2018. (Accessed Aug. 2019) & AR Admin.

#### Patient-Led Arkansas Shared Savings Entity (PASSE) Program

If the PASSE allows the use of telemedicine, the PASSE must document what services the PASSE allows, the settings allowed, and the qualifications for individuals to perform services via telemedicine.

Source: PASSE Program (3/1/19). (Accessed Aug. 2019.)

Telemedicine means the use of electronic information and communication technology to deliver healthcare services, including without limitation the assessment, diagnosis, consultation, treatment, education, care management and self-management of a patient. Telemedicine includes store-and-forward and remote patient monitoring. Telemedicine does not include the use of audio-only communication including without limitation interactive audio; a facsimile machine; text messaging; or electronic mail systems.

Source: AR Code 23-79-1601(7). (Accessed Aug. 2019).

A health plan shall cover the telehealth-delivered healthcare services on the same basis it would if the services were delivered in-person. A health benefit plan is not required to reimburse for a healthcare service provided through telemedicine that is not comparable to the same service provided in-person. A health benefit plan may voluntarily reimburse for healthcare services provided through means of telephone, facsimile, text message or electronic mail.

A healthcare plan must provide a reasonable facility fee to an originating site operated by a healthcare professional or licensed healthcare entity if licensed to bill the health benefit plan.

A health benefit plan cannot prohibit its providers from charging patients directly for services provided by audio-only communication that aren't reimbursed by the plan.

A health plan may not impose:

- An annual or lifetime dollar maximum on coverage for services provided through telemedicine unless it applies to the aggregate of all items and services covered
- A deductible, copayment, coinsurance, benefit limitation or maximum benefit that is not equally imposed upon other healthcare services; or
- A prior authorization requirement that exceeds the requirements for in-person healthcare services.

Source: AR Code Sec. 23-79-1602. (Accessed Aug. 2019).

vice Parity

Health plans must reimburse "on the same basis" if the service were delivered in-person. A health benefit plan is not required to reimburse for a healthcare service provided through telemedicine that is not comparable to the same service provided in-person.

Source: AR Code 23-79-1602(c). (Accessed Aug. 2019).

yment Parity

Parity

The combined amount of reimbursement that a health benefit plan allows for the compensation to the distant site and the originating site shall not be less than the total amount allowed for healthcare services provided in-person.

**Online Prescribing** 

The healthcare professional shall follow applicable state and federal laws, rules and regulations for informed consent.

Source: AR Code 17-80-404. (Accessed Aug. 2019).

A distant site provider will not utilize telemedicine to treat a patient located in Arkansas unless a professional relationship exists between the healthcare provider and the patient or as otherwise meets the definition of a professional relationship as defined in Section 17-80-402. Existence of a professional relationship is not required in the following circumstances:

- Emergency situations where life or health of the patient is in danger or imminent danger or
- Simply providing information in a generic nature not meant to be specific to an individual patient.

Source: AR Code 17-80-403 (Accessed Aug. 2019).

A proper physician or physician assistant/patient relationship can be established via real time audio and video telemedicine.

Source: AR Rules and Regulation. Sec. 060.00.16. (Accessed Aug. 2019).

A patient completing a medical history online and forwarding it to a physician is not sufficient to establish the relationship, nor does it qualify as store-and-forward technology.

A physician may not use telemedicine to issue a prescription for a controlled substance under schedules II through V unless they have seen the patient in-person or a relationship exists through consultation or referral; on-call or cross coverage situations; or through an ongoing personal or professional relationship.

When abortion inducing drugs are used, the initial administration must occur in the same room and in the physical presence of the prescribing physician.

Source: AR Code Annotated Section 20-16-603(b)(1). (Accessed Aug. 2019).

Without a prior and proper patient-provider relationship, providers are prohibited from issuing prescriptions solely in response to an Internet questionnaire, an Internet consultation, or a telephone consultation.

Source: AR Code Annotated Sec. 17-92-1003(14)(B). (Accessed Aug. 2019).

Under specified circumstances, the standard of care must not require an in-person encounter. A professional relationship cannot be established only through:

- · An internet questionnaire
- Email message
- Patient generated medical history
- · Audio only communication, including without limitation interactive audio
- Text messaging
- · Facsimile machine
- Any combination thereof

### **California**

Medicaid Program: Medi-Cal

Program Administrator: California Dept. of Health Care Services (DHCS)

Regional Telehealth Resource Center: California Telehealth Resource Center

Covers the State of: California

www.caltrc.org

Summary

Medi-Cal allows providers to decide what modality, live video or store-and-forward, will be used to deliver eligible services to a Medi-Cal enrollee as long as the service is covered by Medi-Cal and meets all other Medi-Cal guidelines, policies, can be properly provided via telehealth, and meets the procedural and definition components of the appropriate CPT or HCPCS code. Additional requirements apply for specific programs (such as FQHCs/RHCS and Indian Health Services). Medi-Cal also reimburses for one specific e-consult code.

ledicaid Telehealth Reimbursement

Telehealth" means the mode of delivering health care services and public health via information and communication technologies to facilitate the diagnosis, consultation, treatment, education, care management and self-management of a patient's health care while the patient is at the originating site, and the health care provider is at a distant site. Telehealth facilitates patient self-management and caregiver support for patients and includes synchronous interactions and asynchronous store-and-forward transfers.

"Asynchronous store-and-forward" is the transmission of a patient's medical information from an originating site to the health care provider at a distant site without the presence of the patient. Consultations via asynchronous electronic transmission initiated directly by patients, including through mobile phone applications, are not covered under this policy.

"E-consults" fall under the auspice of store-and-forward. E-consults are asynchronous health record consultation services that provide an assessment and management service in which the patient's treating health care practitioner (attending or primary) requests the opinion and/or treatment advice of another health care practitioner (consultant) with specific specialty expertise to assist in the diagnosis and/or management of the patient's health care needs without patient face-to-face contact with the consultant. E-consults between health care providers are designed to offer coordinated multidisciplinary case reviews, advisory opinions and recommendations of care. E-consults are permissible only between health care providers.

#### **Dental Services**

The Department of Health Care Services has opted to permit the use of teledentistry (including live video) as an alternative modality for the provision of select dental services when the beneficiary requests it or if the health care provider believes the service is clinically appropriate.

Source: CA Department of Health Care Services (DHCS). Denti-Cal Manual. Aug. 2019. Pg. 14-15. (Accessed Aug. 2019).

Medi-Cal will reimburse for services provided via live video.

Source: Sec. 14132.72 of the Welfare and Institutions Code.

Live Video

All benefits or services are covered for live video under fee-for-service Medi-Cal, including any Treatment Authorization Request (TAR) requirements. The decision that services can be appropriately provided by the selected telehealth modality is based on the provider's belief it is clinically appropriate due to evidence-based medicine and best practices. Additionally, for the telehealth delivered service to be eligible for Medi-Cal reimbursement, it must:

- Be a service Medi-Cal reimburses for in general
- Meet the general definition and components of the CPT or HCPCS code used
- Comply with all laws regarding confidentiality of health care information and patient's rights to medical information

Source: CA Department of Health Care Services. Medi-Cal Part 2 General Medicine Manual. Telehealth (Aug. 2019). Pg. 6. (Accessed Aug. 2019).

#### Federally Qualified Health Center (FQHC) & Rural Health Clinic (RHC)

Services provided through synchronous telehealth for an established patient are subject to the same program restrictions, limitations and coverage that exist when the service is provided in-person.

Source: CA Department of Health Care Services (DHCS). Indian Health Services, Memorandum of Agreement (MOA) 638, Clinics Manual. Aug. 2019. Pg. 10. (Accessed Aug. 2019).

#### **Dental Services**

Synchronous live transmissions are covered. Live transmissions are limited to 90 minutes per beneficiary per provider, per day. They may be provided at the beneficiary's request or if the health care provider believes the service is clinically appropriate. All dental information transmitted during the delivery of services become part of the patient's dental record maintained by the Medi-Cal provider at the distant site.

Source: CA Department of Health Care Services (DHCS). Denti-Cal Manual. Aug. 2019. Pg. 14-15. (Accessed Aug. 2019).

Live video telehealth may be used to deliver a face-to-face encounter related to the primary reason a recipient requires home health services or a durable medical equipment item.

Source: Department of Health Care Services. Home Health Agencies (HHA) Provider Handbook. (Mar. 2018), Pg. 3. & Department of Health Care Services. Durable Medical Equipment (DME): An Overview. (June 2017), Pg. 5. (Accessed Aug. 2019).

CA Children's Services Program lists eligible CPT/HCPCS codes in Numbered Letters 16-1217 & 09-0718. Codes specifically include tele-speech, tele-auditory verbal therapy, tele-auditory habilitation and tele-auditory rehabilitation services in the home, with the parent or guardian working with the speech therapist at the distant site.

Source: Department of Health Care Services. Numbered letter 16-1217 to the CA Children's Services Program and Genetically Handicapped Persons Program (GHPP). Dec. 22, 2017 & Number Letter 09-0718 to CA Children's Services Program. Jul. 10, 2018. (Accessed Aug. 2019).

Drug Medi-Cal certified providers may receive reimbursement for individual counseling provided through telehealth. However, implementation is dependent on the extent of federal participation and federal approval. The Department of Health Care Services must adopt regulations by July 1, 2022 to implement this section in accordance with the Administrative Procedure Act.

Live Video

Providers must meet all of the following criteria:

- The provider rendering covered benefits or services must meet the requirements of B&P 2290.5(a)(3) or equivalent requirements under California law in which the provider is considered licensed (ex: Behavior Analyst Certification Board).
- Provider must be licensed in California, enrolled as a Medi-Cal rendering provider or non-physician medical practitioner (NMP) and affiliated with an enrolled Medi-Cal provider group.
- The enrolled Medi-Cal provider group for which the health care provider renders services via telehealth must meet all Medi-Cal program enrollment requirements and must be located in California or a border community.

For purposes of telehealth [the distant site] can be different from the administrative location.

## Store-and-Forward

#### **Local Education Agency: Speech Therapy**

Store-and-forward, including e-consult, is not reimbursable.

Source: CA Department of Health Care Services (DHCS). Local Education Agency (LEA) Billing and Reimbursement Overview. Aug. 2019. Pg. 12. (Accessed Aug. 2019).

#### **Dental Services**

The Department of Health Care Services has opted to permit the use of teledentistry (includes store-and-forward) as an alternative modality for the provision of select dental services.

Source: CA Department of Health Care Services (DHCS). Denti-Cal Manual. Aug. 2019. Pg. 14-15. (Accessed Aug. 2019).

All benefits or services are covered under Medi-Cal through live video or store-and-forward. The decision that services can be appropriately provided by the selected telehealth modality is based on the distant site provider's belief it is clinically appropriate due to evidence-based medicine and best practices. Additionally, for the telehealth delivered service to be eligible for Medi-Cal reimbursement, it must:

- Be a service Medi-Cal reimburses for in general
- Meet the general definition and components of the CPT or HCPCS code used
- Comply with all laws regarding confidentiality of health care information and patient's rights to medical information

E-consult code 99451 in conjunction with the GQ modifier (indicating store-and-forward) is reimbursed, when the following requirements are met for distant and originating site providers:

- · Originating Site Providers must create and maintain the following:
  - A record that the e-consult is the result of patient care that has occurred or will occur and relates to ongoing patient management; and
  - A record of a request for an e-consult by the health care provider at the originating site
- Distant Site providers must create and maintain the following:
  - A record of the review and analysis of the transmitted medical information with written documentation of the date of service and time spent; and
  - A written report of case findings and recommendations with conveyance to the originating site.

See manual for instances when e-consult is not reimbursable.

If more than one contact or encounter is required to complete the e-consult request, the entirety of the service and cumulative discussion and review time should be reported only once using CPT code 99451. E-consults are not applicable for FQHCs, RHCs, or IHS-MOA clinics.

Source: CA Department of Health Care Services. Medi-Cal Part 2 General Medicine Manual. Telehealth (Aug. 2019). Pg. 1. (Accessed Aug. 2019).

#### Federally Qualified Health Center (FQHC) & Rural Health Clinic (RHC)

Reimbursement is permitted for established patients for teleophthalmology, teledermatology and teledentistry, when it is furnished by a billable provider at the distant site.

Asynchronous store-and-forward reimbursement may not be used to "establish" a patient, with the exception of a homeless, homebound or a migratory or seasonal worker (HHMS). E-consult is not a reimbursable telehealth service of FQHCs/RHCs.

Source: CA Department of Health Care Services (DHCS). Rural Health Clinics (RHCs) and Federally Qualified Health Centers (FQHC) Outpatient Services Manual. Aug. 2019. Pg. 12. (Accessed Aug. 2019).

## rvices/Specialtie

#### **Vision Care**

Teleophthalmology by store-and-forward is covered for three specific CPT codes. Information can be reviewed by a physician or optometrist at a distant site. If the reviewing optometrist identifies a disease or condition requiring consultation or referral pursuant to Section 3041 of the Business and Professions Code, a referral must be made with an appropriate physician and surgeon or ophthalmologist, as required.

Out of State Providers

Consent

Provider must be licensed in CA, enrolled as a Medi-Cal rendering provider or non-physician medical practitioner (NMP) and affiliated with an enrolled Medi-Cal provider group. The enrolled Medi-Cal provider group for which the health care provider renders services via telehealth must meet all Medi-Cal program enrollment requirements and must be located in California or a border community.

Source: CA Department of Health Care Services. Medi-Cal Part 2 General Medicine Manual. Telehealth. (Aug. 2019), Pg. 3. (Accessed Aug. 2019)

Specific documentation requirements apply to substantiate the corresponding technical and professional components of billed CPT or HCPCS codes. Providers are not required to document a barrier to in-person visit for Med-Cal coverage or to document the cost effectiveness of telehealth or store-and-forward. The distant site provider is, however, responsible for billing Medi-Cal for the covered services and supplying the appropriate supporting documentation.

Source: CA Department of Health Care Services. Medi-Cal Part 2 General Medicine Manual. Telehealth. (Aug. 2019), Pg. 4. (Accessed Aug. 2019).

Telehealth services and supports are among the services and supports authorized to be included by individual program plans developed for disabled individuals by regional centers that contract with the State Department of Developmental Disabilities.

Source: Welfare and Institutions Code Sec. 4512.

Medicaid must ensure that all managed care covered services are available and accessible to enrollees of Medicaid managed care plans in a timely manner. Telecommunications technologies can be used as a means to meet time and distance standards in some circumstances. See regulation for details.

Source: CA Welfare and Institutions Code Sec. 14197.

#### **Recently Passed Legislation**

Telehealth services, telephonic services and other specified services must be reimbursed when provided by specific entities during or immediately following an emergency, subject to the Department obtaining federal approval and matching funds. The Department is required to issue guidance for entities to facilitate reimbursement for telehealth or telephonic services in emergency situations by July 1, 2020.

Source: Welfare and Institutions Code Sec. 14132.723 (AB 1494 - 2019 Legislative Session).

"Telehealth means the mode of delivering health care services and public health via information and communication technologies to facilitate the diagnosis, consultation, treatment, education, care management, and self-management of a patient's health care while the patient is at the originating site and the health care provider is at a distant site. Telehealth facilitates patient self-management and caregiver support for patients and includes synchronous interactions and asynchronous store-and-forward transfers."

Source: CA Business & Professions Code Sec. 2290.5.

Requirements

Private Payer Laws

#### **Recently Passed Legislation**

A health care service plan shall not require that in-person contact occur between a health care provider and a patient before payment is made for the covered services appropriately provided through telehealth, subject to the terms and conditions of the contract entered into between the enrollee or subscriber and the health care service plan, and between the health care service plan and its participating providers or provider groups.

A health care service plan shall not limit the type of setting where services are provided for the patient or by the health care provider before payment is made for the covered services appropriately provided through telehealth, subject to the terms and conditions of the contract entered into between the enrollee or subscriber and the health care service plan, and between the health care service plan and its participating providers or provider groups.

Applies to Medi-Cal Managed Care.

Source: CA Health & Safety Code Sec. 1374.13 (AB 744 - 2019 Legislative Session).

#### Recently Passed Legislation (Effective Jan. 1, 2021)

Coverage shall not be limited only to services delivered by select third-party corporate telehealth providers.

Insurers are not required to cover telehealth services provided by an out-of-network provider, unless coverage is required under other provisions of law.

Does not apply to Medi-Cal managed care.

Source: CA Health & Safety Code Sec. 1374.14 & Insurance Code 10123.855 (AB 744, 2019 - Legislative Session).

Private payers cannot require that in-person contact occur before covering a telehealth delivered service, but it is subject to the terms and conditions of the contract.

Source: CA Health & Safety Code Sec. 1374.13.

Recently Passed Legislation (Effective Jan. 1, 2021)

A contract issued, amended, or renewed on or after January 1, 2021, between a health care service plan and a health care provider for the provision of health care services to an enrollee or subscriber shall specify that the health care service plan shall reimburse the treating or consulting health care provider for the diagnosis, consultation, or treatment of an enrollee or subscriber appropriately delivered through telehealth services on the same basis and to the same extent that the health care service plan is responsible for reimbursement for the same service through in-person diagnosis, consultation, or treatment.

Does not apply to Medi-Cal managed care.

Source: CA Health & Safety Code Sec. 1374.14 & Insurance Code 10123.855 (AB 744 - 2019 Legislative Session).

Recently Passed Legislation (Effective Jan. 1, 2021)

Services that are the same, as determined by the provider's description of the service on the claim, shall be reimbursed at the same rate whether provided in person or through telehealth. When negotiating a rate of reimbursement for telehealth services for which no in-person equivalent exists, a health care service plan and the provider shall ensure the rate is consistent with subdivision (h) of Section 1367.

Does not apply to Medi-Cal managed care.

### Colorado

Medicaid Program: Colorado Medicaid

**Program Administrator:** Colorado Dept. of Health Care Policy and Financing **Regional Telehealth Resource Center:** Southwest Telehealth Resource Center

Covers the States of: Arizona, Colorado, Nevada, New Mexico, & Utah

www.southwesttrc.org

### Summary

Colorado Medicaid reimburses for live video for medical and mental health services. They also provide reimbursement for remote patient monitoring for patients with certain chronic conditions. Colorado Medicaid requires a member to be present and participating in a telemedicine service, excluding the possibility of utilizing store-and-forward, except in the case of teledentistry for an interim therapeutic restoration.

**Medicaid Telehealth Reimbursement** 

Telemedicine is the delivery of medical services and any diagnosis, consultation, treatment, transfer of medical data or education related to health care services using interactive audio, interactive video, or interactive data communication instead of in-person contact.

Source: CO Department of Health Care Policy and Financing. "Telemedicine," p.2, 6/19. (Accessed Aug. 2019).

Telehealth services include the installation and on-going remote monitoring of clinical data through technologic equipment in order to detect minute changes in the client's clinical status that will allow Home Health agencies to intercede before a chronic illness exacerbates requiring emergency intervention or inpatient hospitalization.

Source: CO Medical Assistance Program, Home Health Billing Manual, p. 12 (8/19), (Accessed Aug. 2019).

Telehealth allows for the monitoring of a member's health status remotely via equipment, which transmits data from the member's home to the member's home health agency. The purpose of providing telehealth services is to assist in the effective management and monitoring of members whose medical needs can be appropriately and cost-effectively met at home through the frequent monitoring of data and early intervention.

In-person contact between a health care or mental health care provider and a patient shall not be required under the state's medical assistance program for health care or mental health care services delivered through telemedicine that are otherwise eligible for reimbursement under the program. The services shall be subject to reimbursement policies developed pursuant to the medical assistance program. This section also applies to managed care organizations that contract with the state department pursuant to the statewide managed care system only to the extent that:

- Health care or mental health care services delivered through telemedicine are covered by and reimbursed under the Medicaid per diem payment program; and
- Managed care contracts with managed care organizations are amended to add coverage of health care or mental health care services delivered through telemedicine and any appropriate per diem rate adjustments are incorporated.

Reimbursement must be, at minimum, the same as in-person services.

Source: CO Revised Statutes 25.5-5-320. (Accessed Aug. 2019).

#### **Interim Therapeutic Restorations**

In-person contact between a health care provider and a recipient is not required under the state's medical assistance program for the diagnosis, development of a treatment plan, instruction to perform an interim therapeutic restoration procedure, or supervision of a dental hygienist performing an interim therapeutic restoration procedure. A health care provider may provide these services through telehealth, including store-and-forward, and is entitled to reimbursement for the delivery of those services via telehealth to the extent the services are otherwise eligible for reimbursement under the program when provided in person. The services are subject to the reimbursement policies developed pursuant to the state medical assistance program.

Source: CO Revised Statutes 25.5-5-321.5. (Accessed Aug. 2019).

Colorado Medicaid will reimburse for medical and mental health services.

Source: CO Revised Statutes 25.5-5-320. (Accessed Aug. 2019).

The following are listed under the covered services heading in the Telemedicine Manual:

- · Physician services may be provided as telemedicine
- · Providers may only bill procedure codes which they are already eligible to bill
- Any health benefits provided through telemedicine shall meet the same standard of care as in-person care.

Source: CO Department of Health Care Policy and Financing. "Telemedicine" p.2, 6/19. (Accessed Aug. 2019).

The following provider types may bill using modifier GT:

- Physician
- Clinic
- Osteopath
- · Doctorate Psychologist
- MA Psychologist
- Physician Assistant
- Nurse Practitioner

A primary care provider (PCP) is eligible to be reimbursed as the 'originating provider'. In order for a PCP to be reimbursed as a distant provider, the PCP must be able to facilitate an in-person visit in the state of CO if necessary for treatment of the member's condition.

A specialist is eligible to be an originating provider or distant provider.

Live Video

The originating site is eligible for a facility fee, if they are not providing any other clinical services.

Providers eligible for the originating site facility fee include:

- Physician
- Clinic
- Osteopath
- Doctorate Psychologist
- · MA Psychologist
- · Physician Assistant
- · Nurse Practitioner

Other sites can serve as an originating site, but cannot collect the facility fee. The originating site may not bill for assisting the distant site provider with an examination.

Using modifier GT adds \$5.00 to the procedure code billed for the service for distant site providers for the transmission fee. A specific list of eligible codes is provided in the manual. Other codes can be billed, but don't pay the telemedicine transmission fee.

## Remote Patient Monitoring

A member is eligible only if they meet the following criteria:

- Member must receive Home Health services from provider who has opted to provide telehealth services
- Member must require frequent and on-going monitoring/management of their disease or condition
- Member's home environment must be compatible with the use of the equipment
- Member or caregiver must be willing and able to comply with vital sign self-monitoring
- · Member must have one or more of the following diagnoses:
  - 1. Congestive Heart Failure
  - 2. Chronic Obstructive Pulmonary Disease
  - 3. Asthma
  - 4. Diabetes
  - Other diagnosis or condition deemed appropriate by the Department or its designee

Source: CO Department of Health Care Policy and Financing. "Home Health Telehealth". (Accessed Aug. 2019).

#### The following requirements must be met:

- Client is receiving services from a home health provider for at least one of the following: congestive heart failure, chronic obstructive pulmonary disease, asthma, or diabetes:
- Client requires monitoring at least five times weekly to manage the disease, as ordered by a physician or podiatrist;
- Client has been hospitalized two or more times in the last 12 months for conditions
  related to the disease or, if the patient has received home health services for less
  than 6 months, the patient has been hospitalized at least once in the last 3 months,
  experiences an acute exacerbation of a qualifying diagnosis that requires telemonitoring, or experiences a new onset of a qualifying disease that requires ongoing
  monitoring;
- Client or caregiver misses no more than five monitoring events in a 30-day period;
- Client's home has space for all program equipment and full transmission capability.

Provider Limitations

Home Health services are eligible for reimbursement under Medicaid only when the services meet all of the following requirements:

- A. Services are provided for the treatment of an illness, injury, or disability which may include mental disorders.
- B. Services are medically necessary.
- C. Services are reasonable in amount, duration, and frequency.
- D. Services are provided under a plan of care as defined at Section 8.524 DEFINITIONS.
- E. Services are provided on an intermittent basis, as defined at Section 8.524, DEFINITIONS.
- F. The only alternative to Home Health services is hospitalization or the emergency room; or the client's medical records accurately justify a medical reason that the services should be provided in the client's home instead of a physician's office, clinic, or other out-patient setting, according to one or more listed guidelines.

## Email / Phone / Fax

Remote Patient Monitoring

Other Restrictions

No reimbursement for telephone. No reimbursement for FAX.

Source: CO Department of Health Care Policy and Financing. "Telemedicine" p.1, 6/19. (Accessed Aug. 2019).

Providers shall give all first-time patients a written statement that includes the following:

- The patient may refuse telemedicine services at any time, without loss or withdrawal of treatment;
- All applicable confidentiality protections shall apply to the services;
- The patient shall have access to all medical information from the services, under state law

Source: CO Revised Statutes 25.5-5-320. (Accessed Aug. 2019).

The Medicaid requirement for face-to-face contact between provider and member may be waived prior to treating the member through telemedicine for the first time. The rendering provider must furnish each member with all of the following written statements which must be signed by the member or the member's legal representative:

- The member retains the option to refuse the delivery of health care services via telemedicine at any time without affecting the member's right to future care or treatment and without risking the loss or withdrawal of any program benefits to which the member would otherwise be entitled.
- All applicable confidentiality protections shall apply to the services.
- The member shall have access to all medical information resulting from the telemedicine services as provided by applicable law for client access to his or her medical records.

These requirements do not apply in an emergency.

#### Worker's Compensation Telehealth/Telemedicine Definition

Telehealth - a mode of delivery of health care services through telecommunications systems, including information, electronic, and communication technologies, to facilitate the assessment, diagnosis, consultation, treatment, education, care management, and/or self-management of an injured worker's health care while the injured worker is located at an originating site and the provider is located at a distant site. The term includes synchronous interactions and store-and-forward transfers. The term does not include the delivery of health care services via telephone with audio only function, facsimile machine, or electronic mail systems.

Telemedicine means two-way, real time interactive communication between the injured worker, and the provider at the distant site. This electronic communication involves, at minimum, audio and video telecommunications equipment. Telemedicine enables the remote diagnoses and evaluation of injured workers in addition to the ability to detect fluctuations in their medical condition(s) at a remote site in such a way as to confirm or alter the treatment plan, including medications and/or specialized therapy.

Source: 7 CCR 1101-3, Rules 16-2. (Accessed Aug. 2019).

liscellaneous

Telehealth - a broad term describing a mode of delivery of health care services through telecommunications systems, including information, electronic, and communication technologies, to facilitate the assessment, diagnosis, consultation, treatment, education, care management, and/or self-management of an injured worker's health care while the injured worker is located at an originating site and the provider is located at a distant site. The term includes synchronous interactions and store-and-forward transfers. The term does not include the delivery of health care services via telephone with audio only function, facsimile machine, or electronic mail systems.

### Connecticut

Medicaid Program: Medical Assistance Program

Program Administrator: Connecticut Department of Social Services

Regional Telehealth Resource Center: Northeast Telehealth Resource Center

Covers the States of: Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, &

Vermont

www.netrc.org

ımmary

Connecticut Medicaid is required to cover telemedicine services for categories of health care that the commissioner determines are appropriate, cost effective and likely to expand access to medically necessary services where there is a clinical need for those services to be provided by telehealth or for Medicaid recipients for whom accessing appropriate health care services poses an undue hardship. The CT Medicaid Program manuals do not mention reimbursement for telemedicine but does indicate that while they do not provide reimbursement for behavioral health services provided electronically or over the phone, there is an exception for case management behavioral health services for clients age eighteen and under. Additionally, Connecticut does provide reimbursement for electronic consults (store and forward) between providers under certain circumstances.

There is no reference to remote patient monitoring.

ions

**Jedicaid Telehealth Reimbursement** 

Definition for Telemedicine Demonstration Program for FQHCs: "Telemedicine means the use of interactive audio, interactive video or interactive data communication in the delivery of medical advice, diagnosis, care or treatment...Telemedicine does not include the use of facsimile or audio-only telephone."

Source: CT General Statute 17b, Sec. 245c. (Accessed Sept. 2019).

"Telehealth" means the mode of delivering health care or other health services via information and communication technologies to facilitate the diagnosis, consultation and treatment, education, care management and self-management of a patient's physical and mental health, and includes (A) interaction between the patient at the originating site and the telehealth provider at a distant site, and (B) synchronous interactions, asynchronous store-and-forward transfers or remote patient monitoring. Telehealth does not include the use of facsimile, audio-only telephone, texting or electronic mail.

Source: CT General Statute 19a, Sec. 906. (Accessed Sept. 2019).

ive Vided

olicy

CT Medicaid is required to provide coverage for telehealth services for categories of health care services that the commissioner determines are clinically appropriate to be provided through telehealth, cost effective for the state and likely to expand access to services where there is a clinical need for those services to be provided by telehealth or for Medicaid recipients whom accessing healthcare poses an undue hardship.

The commissioner may provide coverage of telehealth services pursuant to this section notwithstanding any provision of the regulations of Connecticut state agencies that would otherwise prohibit coverage of telehealth services. The commissioner may implement policies and procedures as necessary to carry out the provisions of this section while in the process of adopting the policies and procedures as regulations.

Source: CT General Statute 17b, Sec. 245e. (Accessed Sept. 2019).

Connecticut's Medical Assistance Program will not pay for information or services provided to a client by a provider electronically or over the telephone, however there is an exception for case management behavioral health services for clients age eighteen and under.

Source: CT Provider Manual. Physicians and Psychiatrists. Sec. 17b-262-342. Pg. 9, Aug, 2013 and CT Provider Manual. Psychologists. Sec. 17b-262-472. Pg. 7. & CT Provider Manual. Behavioral Health. Sec. 17b-262-918. Feb. 1, 2013. Pg. 6. (Accessed: Sept. 2019).

A telehealth provider shall only provide telehealth services to a patient when the telehealth provider: (A) Is communicating through real-time, interactive, two-way communication technology or store and forward technologies; (B) has access to, or knowledge of, the patient's medical history, as provided by the patient, and the patient's health record, including the name and address of the patient's primary care provider, if any; (C) conforms to the standard of care applicable to the telehealth provider's profession and expected for in-person care as appropriate to the patient's age and presenting condition, except when the standard of care requires the use of diagnostic testing and performance of a physical examination, such testing or examination may be carried out through the use of peripheral devices appropriate to the patient's condition; and (D) provides the patient with the telehealth's provider license number and contact information.

	Pa	No explicit payment parity.			

"Telehealth" means the mode of delivering health care or other health services via information and communication technologies to facilitate the diagnosis, consultation and treatment, education, care management and self-management of a patient's physical and mental health, and includes (A) interaction between the patient at the originating site and the telehealth provider at a distant site, and (B) synchronous interactions, asynchronous store-and-forward transfers or remote patient monitoring. Telehealth does not include the use of facsimile, audio-only telephone, texting or electronic mail."

Source: CT General Statute 19a, Sec. 906 (Accessed Sept. 2019).

At the time of the telehealth provider's first telehealth interaction with a patient, the telehealth provider shall inform the patient concerning the treatment methods and limitations of treatment using a telehealth platform and, after providing the patient with such information, obtain the patient's consent to provide telehealth services. The telehealth provider shall document such notice and consent in the patient's health record. If a patient later revokes such consent, the telehealth provider shall document the revocation in the patient's health record.

Consent must be obtained by the parent or the patients legal quardian.

Source: CT General Statute 19a, Sec. 906(b)(2) (Accessed Sept. 2019).

No telehealth provider shall prescribe any schedule I, II or III controlled substance through the use of telehealth, except a schedule II or III controlled substance other than an opioid drug, in a manner consistent with federal law, for the treatment of a person with a psychiatric disability or substance use disorder, including but not limited to medication assisted treatment.

### ummary

Medicaid is required to pay for live video telehealth services if the same service would be covered when delivered in-person. Although this law was amended to expand reimbursement to store-and-forward and remote patient monitoring, it was not funded under an approved budget and financial plan and therefore did not go into effect.

Source: DC Code 31-3863. (Accessed Sept. 2019).

"Telehealth" means the delivery of healthcare services through the use of interactive audio, video, or other electronic media used for the purpose of diagnosis, consultation, or treatment; provided, that services delivered through audio-only telephones, electronic mail messages, or facsimile transmissions are not included.

Source: DC Code Sec. 31-3861 (Accessed Sept. 2019).

efinitions

**ledicaid Telehealth Reimbursement** 

Telehealth is defined as the delivery of healthcare services through the use of interactive audio, video, or other electronic media used for the purpose of diagnosis, consultation, or treatment, provided, that services delivered through audio-only telephones, electronic mail messages, or facsimile transmissions are not included. For the purposes of coverage by the Department of Health Care Finance (DHCF), telehealth and telemedicine shall be deemed synonymous.

Delaware Medical Assistance Program (DMAP) reimburses for live video telemedicine for certain providers and for patients at specific sites. DMAP does not reimburse for store-and-forward and makes no reference to remote patent monitoring.

nitions

**Medicaid Telehealth Reimbursement** 

Telemedicine is a cost-effective alternate to face-to-face encounters where access to care is compromised due to the lack of available service providers in the patient's geographical location. This definition is modeled on Medicare's definition for telehealth services located at 42 CFR Sec. 410.78. Note that the Federal Medicaid statute does not recognize telemedicine as a distinct service.

For purposes of DMAP, telemedicine is the use of medical or behavioral health information exchanged from one site to another site via an electronic interactive (two-way, real time) telecommunications system to improve a patient's health.

Source: DE Medical Assistance Program. Practitioner Provider Specific Manual, 2/1/2019. Ch. 16 Telemedicine (Accessed Sept. 2019 via personal email).

re Video

Policy

DE Medicaid reimburses for live video telemedicine services for up to three different consulting providers for separately identifiable telemedicine services provided to a member per date of service.

Source: DE Medical Assistance Program. Practitioner Provider Specific Manual, 2/1/19. Ch. 16 Telemedicine, Sec. 16.8.2 (Accessed Sept. 2019 via personal email).

The GT modifier (which indicates the service occurred via interactive audio and video telecommunication system) can be used for Early and Periodic Screening, Diagnostic and Treatment Services through the School Based Health Services program.

Source: DE School Based Health Services Specific Policy Manual, pg. 53 (Apr. 1, 2016). (Accessed Sept. 2019 via personal email).

The referring provider is not required to be present at the originating site, however the recipient of the services must be present.

Reimbursement to the referring provider will only occur when providing a separately identifiable covered service.

Source: DE Medical Assistance Program. Practitioner Provider Specific Manual, 2/1/19. Ch. 16 Telemedicine (Accessed Sept. 2019 via personal email).

#### The recipient:

- must be able to verbally communicate, either directly or through a representative, with the originating and distant site providers,
- must be able to receive services via telemedicine, and
- must have provided consent for the use of telemedicine.

Source: DE Medical Assistance Program. Practitioner Provider Specific Manual, 2/1/19. Ch. 16 Telemedicine (Accessed Sept. 2019 via personal email).

# Medicaid Telehealth Reimbursement

Miscellaneous

Provider manual lays out three different models for prescribing:

- First Model: Distant site provider consults with referring provider about appropriate medication. Referring provider executes prescription.
- Second Model: Consulting provider works with medical professional at the originating site to provide front line care, including prescription writing.
- Third Model: The consulting provider prescribes and sends/calls-in the initial prescription.

For stimulants, narcotics and refills, hard copy prescriptions can be written and sent via delivery service to the referring site for the consumer to pick up a couple days after the appointment (see manual for more details).

**Definitions** 

Private Payer Laws

#### **Group and Blanket Insurance, & Health Insurance Contracts**

Also applies to: Physicians, Podiatry, Optometry, Chiropractic, Dentistry, Nursing, Occupational Therapy, Mental Health, Psychology, Dietetic and Nutrition Therapy, Pharmacy, and Clinical Social Work

Telehealth means the use of information and communications technologies consisting of telephone, remote patient monitoring devices or other electronic means which support clinical health care, provider consultation, patient and professional health-related education, public health, health administration, and other services as described in regulation.

Source: Title 18, Sec. 3370; & Title 18, Sec. 3571R; DE Code Title 24, Sec. 1702, Sec. 502, Sec. 701, Sec. 1101, Sec. 1902, Sec. 2002, Sec. 2101, Sec. 2502, Sec. 3002, Sec. 3502, Sec. 2500, & Sec. 3902. (Accessed Sept. 2019).

#### **Group and Blanket Insurance, & Health Insurance Contracts**

Telemedicine means a form of telehealth which is the delivery of clinical health care services by means of real time two-way audio, visual or other telecommunications or electronic communications, including the application of secure video conferencing or store-and-forward transfer technology to provide or support healthcare delivery which facilitate the assessment, diagnosis, consultation, treatment, education, care management and self-management of a patient's health care by a health care provider practicing within his or her scope of practice as would be practiced in-person with a patient, and legally allowed to practice in the state, while such patient is at an originating site and the health care provider is at a distant site.

Source: Title 18, Sec. 3370; & Title 18, Sec. 3571R. (Accessed Mar. 2019).

## Requirements

Private payers must provide coverage for the cost of health care services provided through telemedicine, and telehealth as directed through regulations by the Department. Insurers must pay for telemedicine services at the same rate as in-person. Payment for telemedicine must include reasonable compensation to the originating or distant site for the transmission cost.

Private payers may not impose an annual or lifetime dollar maximum on coverage for telemedicine services other than what would apply in the aggregate to all items and services covered under the policy. Additionally, no copayment, coinsurance, or deductible amounts, or any policy year, calendar year, lifetime, or other durational benefit limitation or maximum for benefits or services may be imposed unless equally imposed on all terms and services under the policy.

#### **Applies to: Mental Health and Chemical Dependency Professionals**

"Telemedicine" means a form of telehealth which is the delivery of clinical health-care services by means of real time 2-way audio, visual, or other telecommunications or electronic communications, including the application of secure video conferencing or store and forward transfer technology to provide or support health-care delivery, which facilitate the assessment, diagnosis, consultation, treatment, education, care management and self-management of a patient's health care by a licensee practicing within his or her scope of practice as would be practiced in-person with a patient and with other restrictions as defined in regulation.

Source: DE Code Title 24, Chapter 30, Sec. 3002. (Accessed Sept. 2019).

NOTE: DE Professional Boards each have a different definition of telehealth/telepractice/telemedicine. See Miscellaneous section for references.

# Professional Regulation/Health & Safety

Online Prescribing

Informed consent must be obtained to establish a physician-patient relationship over telehealth.

Source: Title 24, Sec. 1769D & DE Code Title 24, Sec. 1933.

Informed consent required by Boards (see regulation citations in Miscellaneous area).

Pharmacists are prohibited from dispensing prescription drug orders through an Internet pharmacy if the pharmacist knows that the prescription order was issued solely on the basis of an Internet consultation or questionnaire, or medical history form submitted to an Internet pharmacy through an Internet site.

Source: DE Code, Title 16 Sec. 4744(d)(1)(a). (Accessed Sept. 2019).

#### **APRNs and Physicians**

Establishing a proper provider-patient relationship includes:

- Verifying the location of requesting patient;
- · Disclosing the provider's identity and credentials;
- Obtaining consent;
- Establishing a diagnosis through acceptable medical practices, including a physical exam;
- · Discuss with patient the diagnosis;
- Ensure availability of distant site provider or coverage of patient for follow up care; and
- · Provide written visit summary to patient.

#### **Physician & APRNs**

Without a prior patient-provider relationship, providers are prohibited from issuing prescriptions based on internet questionnaire, internet consult or a telephone consult.

Prescriptions through telemedicine and under a physician-patient relationship may include controlled substances, subject to limitations set by the Board.

Source: Title 24, Sec. 1769D(b) & DE Code Title 24, Sec. 1933(b)(4)(g). (Accessed Sept. 2019).

#### **Physicians**

Prior to a diagnosis and treatment, a physician using telemedicine must either provide:

- · An appropriate in-person exam;
- Have another DE licensed practitioner at the originating site with the patient at the time of diagnosis;
- Diagnosis must be based using both audio and visual communication; or
- The service meets standards of establishing a patient-physician relationship included as part of evidenced-based clinical practice guidelines in telemedicine developed by major medical specialty societies.

After a relationship has been established, subsequent treatment of the same patient with the same physician need not satisfy the limitations of this section.

This section shall not limit the practice of radiology or pathology.

Source: Title 24, Sec. 1769D(h)(i)(j). (Accessed Sept. 2019).

A remote audio only examination is not an "appropriate in-person examination".

No opioid prescribing is permitted via telemedicine with the exception of addiction treatment programs offering medication assisted treatment that have received a Division of Substance Abuse and Mental Health (DSAMH) waiver to use telemedicine through DSAMH's licensure or renewal process. All other controlled substance prescribing utilizing telemedicine is held to the same standards of care and requisite practice as prescribing for in-person visits.

For formation of the physician-patient relationship using audio and visual communications, the audio and visual communications must be live, real-time communications.

Miscellaneous

#### **Recently Passed Legislation (Now Effective)**

"Telehealth" means the use of synchronous or asynchronous telecommunications technology by a telehealth provider to provide health care services, including, but not limited to, assessment, diagnosis, consultation, treatment, and monitoring of a patient; transfer of medical data; patient and professional health-related education; public health services; and health administration. The term does not include audio-only telephone calls, e-mail messages, or facsimile transmissions.

Source: FL Statute 456.47. HB 23 (2019 Session). (Accessed Sept. 2019).

## Requirements

#### Recently Passed Legislation (Now Effective)

Contracts between health insurers or health maintenance organizations and telehealth providers must be voluntary and must establish mutually acceptable payment rates or payment methodologies for services provided through telehealth. Any contract provision that distinguishes between payment rates or payment methodologies for services provided through telehealth and the same service provided without telehealth must be initialed by the telehealth provider.

Source: FL Statute 641.31. HB 23 (2019 Session). (Accessed Sept. 2019).

#### **Recently Passed Legislation (Now Effective)**

Insurers and providers must mutually agree on payment rates and payment methodologies for telehealth delivered services.

Source: FL Statute 641.31. HB 23 (2019 Session). (Accessed Sept. 2019).

**Parity** 

#### **Recently Passed Legislation (Now Effective)**

Payment initialed between telehealth delivered services and in-person services can differ, but it must be initialed in the contract between the insurer and telehealth provider.

Source: FL Statute 641.31. HB 23 (2019 Session). (Accessed Sept. 2019).

**Definitions** 

"Telehealth" means the use of synchronous or asynchronous telecommunications technology by a telehealth provider to provide health care services, including, but not limited to, assessment, diagnosis, consultation, treatment, and monitoring of a patient; transfer of medical data; patient and professional health-related education; public health services; and health administration. The term does not include audio-only telephone calls, e-mail messages, or facsimile transmissions.

Source: FL Statute 456.47. HB 23 (2019 Session). (Accessed Sept. 2019).

"Telemedicine means the practice of medicine by a licensed Florida physician or physician assistant where patient care, treatment, or services are provided through the use of medical information exchanged from one site to another via electronic communications. Telemedicine shall not include the provision of health care services only through an audio only telephone, email messages, text messages, facsimile transmission, U.S. Mail or other parcel service, or any combination thereof."

Source: FL Admin Code 64B15-14.0081 (Accessed Sept. 2019).

"Telehealth" means the mode of providing care, treatment, or services by a Florida qualified professional, as defined under subsection 397.311(34), F.S., within the scope of his or her practice, through the use of clinical and medical information exchanged from one site to another via electronic communication. Telehealth does not include the provision of health services only through an audio only telephone, email messages, text messages, facsimile transmission, U.S. mail or other parcel service, or any combination thereof.

Source: FL Admin Code 64D-30.0002. (Accessed Sept. 2019).

No reference found.

Controlled substances shall not be prescribed through the use of telemedicine, except for the treatment of psychiatric disorders.

Exception: physicians can order controlled substances through the use of telemedicine for patients hospitalized in a facility licensed pursuant to Ch. 395, F.S.

Prescribing medication solely on the basis of an electronic medical questionnaire is not allowed.

A physician-patient relationship may be established through telemedicine.

Source: FL Admin Code 64B15-14.0081. (Accessed Sept. 2019).

A telehealth provider may use telehealth to perform a patient evaluation. If a telehealth provider conducts a patient evaluation sufficient to diagnose and treat the patient, the telehealth provider is not required to research a patient's medical history or conduct a physical examination of the patient before using telehealth to provide health care services to the patient.

A telehealth provider may not use telehealth to prescribe a controlled substance unless the controlled substance is prescribed for the following:

- 1. The treatment of a psychiatric disorder;
- 2. Inpatient treatment at a hospital licensed under chapter 395;
- 3. The treatment of a patient receiving hospice services as defined in s. 400.601; or
- 4. The treatment of a resident of a nursing home facility as defined in s. 400.021.

Source: FL Admin Code 64D-30.0002. (Accessed Sept. 2019).

# Professional Regulation/Health & Safety

A health care professional not licensed in this state may provide health care services to a patient located in this state using telehealth if the health care professional registers with the applicable board, or the department if there is no board, and provides health care services within the applicable scope of practice established by Florida law or rule. See law for specific provider requirements.

An out-of-state provider must have professional liability coverage or financial responsibility that includes coverage for telehealth services provided to patients not located in the provider's home state. A health care professional registered under this section may not open an office or provide in-person services. The Department is required to publish all registrants on its website with specific requirements outlined in the law.

## Georgia

Medicaid Program: Georgia Medicaid

Program Administrator: Georgia Dept. of Community Health

Regional Telehealth Resource Center: Southeast Telehealth Resource Center

Covers the States of: Alabama, Florida, Georgia & South Carolina

www.setrc.us

ummarv

Georgia Medicaid reimburses for live video under some circumstances. Store-and-forward is not reimbursable as interactive telecommunications is a condition of payment; however, GA Medicaid will reimburse for the technical component of x-rays, ultrasounds, etc. as well as store-and-forward teledentistry. There is no reference to remote patient monitoring.

**ledicaid Telehealth Reimbursement** 

Telemedicine is the use of medical information exchange from one site to another via electronic communications to improve patient's health status. It is the use of two-way, real time interactive communication equipment to exchange the patient information from one site to another via an electronic communication system. This includes audio and video communications equipment.

Closely associated with telemedicine is the term "telehealth," which is often used to encompass a broader definition of remote healthcare that does not always involve clinical services. Telehealth is the use of telecommunications technologies for clinical care (telemedicine), patient teachings and home health, health professional education (distance learning), administrative and program planning, and other diverse aspects of a health care delivery system.

Source: GA Dept. of Community Health, GA Medicaid Telemedicine Guidance Handbook, p. 4, (July 1, 2019) & Physician Services Manual, p. R-1 (Jul. 2019). (Accessed Sept. 2019).

Telehealth is a broad definition of remote healthcare that does not always involve clinical services. Telehealth can be used in telecommunications technologies for patient education, home health, professional health education and training, administrative and program planning, and other diverse aspects of a health care delivery system.

Telemedicine Involves the use of two-way, real time interactive communication equipment to exchange medical/clinical information between a healthcare practitioner and the member from one site to another via a secure electronic communication system. This includes audio and video communications equipment designed to facilitate delivery of healthcare services in a face-to-face interactive, though distant, engagement.

TeleMental Health is a term defined by Ga. Comp. R. & Regs. R. 135-11-01. and is applicable only to Licensed Social Workers, Professional Counselors and Marriage & Family Therapists when either 1) practicing telemedicine as defined above, or 2) providing telephonic intervention when allowable via DCH/DBHDD guidelines). Per this rule and regulation, there are specific practice guidelines and mandatory training pertaining to what is identified as TeleMental Health. Providers shall adhere to these rules and regulations when TeleMental Health is provided by one of these named practitioners.

Source: GA Dept. of Community Health, GA Medicaid Telemedicine Guidance Handbook, p. 6, (July 1, 2019). (Accessed Sept. 2019).

**Jefinitions** 

Georgia Medicaid reimbursement for telehealth is specific to clinical services rendered via telemedicine. See the telemedicine guidelines for program specific policies.

An interactive telecommunications system is required as a condition of payment. The originating site's system, at a minimum, must have the capability of allowing the distant site provider to visually examine the patient's entire body including body orifices (such as ear canals, nose and throat). The distant site provider should also have the capability to hear heart tones and lung sounds clearly (using a stethoscope) if medically necessary and currently within the provider's scope of practice. The telecommunication system must be secure and adequate to protect the confidentiality and integrity of the information transmitted

Source: GA Dept. of Community Health, Physician Services Manual, p. R-1 (Jul. 1, 2019) (Accessed Sept. 2019).

The service must be medically necessary and the procedure individualized, specific, and consistent with symptoms or confirmed diagnosis of an illness or injury under treatment, and not in excess of the member's needs.

See telemedicine manual for list of eligible telemedicine services and codes.

Non-Covered Services:

- 1. Telephone conversations.
- 2. Electronic mail messages.
- 3. Facsimile.
- Services rendered via a webcam or internet based technologies (i.e., Skype, Tango, etc.) that are not part of a secured network and do not meet HIPAA encryption compliance.
- 5. Video cell phone interactions.
- 6. The cost of telemedicine equipment and transmission.
- 7. Store-and-forward transactions
- 8. Failed or unsuccessful transmissions.

# Recently Passed Legislation (Effective Jan. 1, 2020)

'Telehealth' means the use of information and communications technologies, including, but not limited to, telephones, remote patient monitoring devices or other electronic means which support clinical health care, provider consultation, patient and professional health related education, public health, and health administration.

Telemedicine means a form of telehealth which is the delivery of clinical health care services by means of real time two-way audio, visual, or other telecommunications or electronic communications, including the application of secure video conferencing or store-and-forward transfer technology to provide or support health care delivery, which facilitate the assessment, diagnosis, consultation, treatment, education, care management, and self-management of a patient's health care by a health care provider practicing within his or her scope of practice as would be practiced in-person with a patient, and legally allowed to practice in this state, while such patient is at an originating site and the health care provider is at a distant site.

Source: Official Code of GA Annotated Sec. 33-24-56.4. (Accessed Sept. 2019).

# Requirements or contact. **Parity** fessional Regulation/Health & Safet

# Recently Passed Legislation (Effective Jan. 1, 2020)

Each insurer proposing to issue a health benefit policy shall provide coverage for the cost of health care services provided through telehealth or telemedicine as directed through regulations promulgated by the department.

An insurer shall not exclude a service for coverage solely because the service is provided through telemedicine services and is not provided through in-person consultation or contact between a health care provider and a patient for services appropriately provided through telemedicine ser-

For the originating site, insurers and providers may agree to alternative siting arrangements deemed appropriate by the parties.

No insurer shall require its insureds to use telemedicine services in lieu of in-person consultation

Source: Official Code of GA Annotated Sec. 33-24-56.4. (Accessed Sept. 2019).

# Recently Passed Legislation (Effective Jan. 1, 2020)

An insurer shall reimburse the treating provider or the consulting provider for the diagnosis. consultation, or treatment of the insured delivered through telemedicine services on the same basis for services provided via telemedicine. An insurer cannot exclude a service solely because it was delivered as a telemedicine service.

Source: Official Code of GA Annotated Sec. 33-24-56.4. (Accessed Sept. 2019).

# Recently Passed Legislation (Effective Jan. 1, 2020)

Payment must be at least at the rate that the insurer is responsible for coverage for the provision of the same service through in-person consultation or contact; provided, however, that nothing in this subsection shall require a health care provider or telemedicine company to accept more reimbursement than they are willing to charge. Payment for telemedicine interactions shall include reasonable compensation to the originating or distant site for the transmission cost incurred during the delivery of health care services.

Source: Official Code of GA Annotated Sec. 33-24-56.4. (Accessed Sept. 2019).

# **Applies to: Interactive Physical Therapy Services**

"Telehealth" is the use of electronic communications to provide and deliver a host of health related information and health care services including, but not limited to physical therapy related information and services, over large and small distances. Telehealth encompasses a variety of health care and health promotion activities including, but not limited to, education, advice, reminders, interventions, and monitoring of interventions.

Source: GA Rules & Regulations. Sec. 490-9-.06 (Accessed Mar. 2019).

## **Applies to: Interactive Physical Therapy Services**

'Telehealth' means the application of evaluative, consultative, preventative, and therapeutic services delivered through telecommunication and information technologies by licensed occupational therapy practitioners. This may include, but shall not be limited to, telemedicine, telepractice, telecare, telerehabilitation, and e-health services.

Source: Official Code of GA Annotated Sec. 43-28-3

**Online Prescribing** 

In order for a physician to practice within the minimum standards of practice while providing treatment and/or consultation recommendations by electronic or other such means, all the following conditions must be met:

- All treatment and/or consultations must be done by Georgia licensed practitioners;
- A history of the patient shall be available to the Georgia licensed physician, physician assistant or advanced practice registered nurse who is providing treatment or consultation via electronic or other such means:
- Georgia licensed physician, physician assistant or advanced practice registered nurse either: (a) Has personally seen and examined the patient and provides ongoing or intermittent care by electronic or other such means; or (b) Is providing medical care by electronic or other such means at the request of a physician, physician assistant or advanced practice registered nurse licensed in Georgia who has personally seen and examined the patient; or (c) Is providing medical care by electronic or other such means at the request of a Public Health Nurse, a Public School Nurse, the Department of Family and Children's Services, law enforcement, community mental health center or through an established child advocacy center for the protection for a minor, and the physician, physician assistant or advanced practice registered nurse is able to examine the patient using technology and peripherals that are equal or superior to an examination done personally by a provider within that provider's standard of care; or (d) Is able to examine the patient using technology and peripherals that are equal or superior to an examination done personally by a provider within that provider's standard of care.
- Maintain proper patient records.
- Special restrictions apply for delegating to a nurse practitioner or supervising a physician assistant doing telemedicine.
- Patient must be provided clear and accurate instructions for follow-up care.

Source: GA Rules & Regulations revised 360-3-.07. (Accessed Sept. 2019).

Physicians are prohibited from prescribing controlled substances or dangerous drugs based solely on an electronic consult, unless the physician is on-call or covering for another provider and prescribing up to a 72-hour supply of medications for a patient of the other provider.

There is also an exception for licensed physician from prescribing Schedule II sympathomimetic amine drugs for the treatment of attention deficit disorder to a patient in the physical presence of a licensed nurse, provided the initial diagnosis was made and an initial prescription was issued in accordance with 21 U.S.C. § 829(e), including but not limited to the following:

- The physician has conducted at least one in-person medical evaluation of the patient; or
- The physician is covering for a licensee who is temporarily unavailable and has conducted at least one in-person medical evaluation of the patient; or
- The physician is engaged in the practice of telemedicine in accordance with Board Rule 360-3-.07 and with 21 U.S.C. §§ 802(54) and 829(e)(3)(A), including, but not limited to:
- Where the patient is being treated by, and physically located in, a hospital or clinic registered with the U.S. Drug Enforcement Agency ("DEA"), the physician is registered with the DEA, and all other requirements of 21 U.S.C. § 802(54)(A) are met; or
- Where the patient is being treated by, and physically in the presence of, a licensee who is registered with the DEA, and all other requirements of 21 U.S.C. § 802(54)(B) are met; or
- Where the physician has obtained from the U.S. Attorney General a special registration for telemedicine in accordance with 21 U.S.C. §§ 802(54)(E) and 831(h).

Providing treatment via electronic or other means is considered unprofessional conduct unless a history and physical examination of the patient has been performed by a Georgia licensee.

Source: GA Rules & Regulations revised 360-3-.02. (Accessed Sept. 2019).

**Cross-State Licensing** 

The Board is authorized to issue telemedicine licenses to physicians who are licensed in other states but not licensed in Georgia. See law for specific requirements to qualify for telemedicine license.

Hawaii Medicaid (Med-QUEST) reimburses for live video. Although their statute prohibits HI Medicaid from placing any restrictions on originating sites, regulations creating restrictions on the types or originating site eligible for reimbursement and their geographic location still exist in Hawaii Rules. HI indicated in a memo that a state plan amendment was approved that allows for the changes in Hawaii Medicaid policy based on the statutory requirements, but it did not provide any specifics on removing the originating site or geographic restrictions currently present in HI rules.

Additionally, according to Hawaii's statutory definition of telehealth, they should also be reimbursing for store-and-forward and remote patient monitoring, however CCHP has yet to find any documentation from Hawaii Medicaid that they are reimbursing for these modalities.

efinitions

**Medicaid Telehealth Reimbursement** 

"Telehealth" means the use of telecommunications services, as defined in section 269-1, to encompass four modalities: store-and-forward technologies, remote monitoring, live consultation, and mobile health; and which shall include but not be limited to real-time video conferencing-based communication, secure interactive and non-interactive web-based communication, and secure asynchronous information exchange, to transmit patient medical information, including diagnostic-quality digital images and laboratory results for medical interpretation and diagnosis, for the purpose of delivering enhanced health care services and information while a patient is at an originating site and the health care provider is at a distant site. Standard telephone contacts, facsimile transmissions, or e-mail text, in combination or by itself, does not constitute a telehealth service for the purposes of this section."

Source: HI Revised Statutes § 346-59.1(g). (Accessed Sept. 2019).

"Telehealth" means the use of telecommunications services, as defined in section 269-1, to encompass four modalities: store-and-forward technologies, remote monitoring, live consultation, and mobile health; and which shall include but not be limited to real-time video conferencing-based communication, secure interactive and non-interactive web-based communication, and secure asynchronous information exchange, to transmit patient medical information, including diagnostic-quality digital images and laboratory results for medical interpretation and diagnosis, for the purpose of: delivering enhanced health care services and information while a patient is at an originating site and the physician is at a distant site; establishing a physician-patient relationship; evaluating a patient; or treating a patient.

Source: HI Revised Statutes Ch. 453-1.3. (Accessed Sept. 2019).

"Telehealth" means the use of telecommunications, as that term is defined in section 269-1, to encompass four modalities: store and forward technologies, remote monitoring, live consultation, and mobile health; and which shall include but not be limited to real-time video conferencing-based communication, secure interactive and non-interactive web-based communication, and secure asynchronous information exchange, to transmit patient medical information, including diagnostic-quality digital images and laboratory results for medical interpretation and diagnosis, for the purpose of delivering enhanced health care services and information while a patient is at an originating site and the radiologist is at a distant site. Standard telephone contacts, facsimile transmissions, or e-mail texts, in combination or by themselves, do not constitute a telehealth service for the purposes of this paragraph.

Source: HI Revised Statutes Sec. 453-2. (Accessed Sept. 2019).

Consent

No reference found.

Prescribing providers must have a provider-patient relationship prior to prescribing. This includes:

- A face-to-face history and appropriate physical exam to make a diagnosis and therapeutic plan;
- Discussion of diagnosis or treatment with the patient;
- Ensure the availability of appropriate follow-up care.

Source: HI Revised Statutes § 329-1. (Accessed Sept. 2019).

Treatment recommendations made via telehealth, including issuing a prescription via electronic means, shall be held to the same standards of practice as traditional settings that do not include a face-to-face visit but in which prescribing is appropriate.

Issuing a prescription based solely on an online questionnaire is prohibited.

A physician-patient relationship may be established via telehealth if the patient is referred to the telehealth provider by another health care provider who has conducted an in-person consultation and has provided all pertinent patient information to the telehealth provider.

For the purposes of prescribing opiates or medical cannabis, a physician-patient relationship shall only be established after an in-person consultation between the prescribing physician and the patient.

Source: HI Revised Statutes § 453-1.3. (Accessed Sept. 2019).

For purposes of prescribing medical cannabis, a bona fide physician-patient relationship may be established via telehealth, and a nurse-patient relationship can be established via telehealth; provided that treatment recommendations that certify a patient for the medical use of cannabis via telehealth shall be allowed only after an initial in-person consultation between the certifying physician or advanced practice registered nurse and the patient.

Source: HI Revised Statutes § 329-126 (HB 2729 - 2018). (Accessed Sept. 2019).

**Cross-State Licensing** 

A licensed out-of-state practitioner of medicine or surgery can utilize telemedicine to consult with a Hawaii licensed physician or osteopathic physician as long as they don't open an office or meet with patients in the state; the HI licensed provider retains control of the patient; and the laws and rules relating to contagious diseases are not violated.

Commissioned medical officers or psychologists employed by the US Department of Defense and credentialed by Tripler Army Medical Center are exempt from licensing requirements when providing services to neighbor island beneficiaries within a Hawaii national guard armory.

Source: HI Revised Statutes Sec. 453-2(3-4). (Accessed Sept. 2019).

Licensed out-of-state radiologists located in Hawaii, may provide services via telemedicine to patients located in another state the radiologist is licensed to practice in.

Source: HI Revised Statutes § 453-2(b) (7). (Accessed: Sept. 2019).

Professional liability insurance for health care providers must provide malpractice coverage for telehealth equivalent to coverage for the same services provided via face-to-face contact.

Source: HI Revised Statutes §671-7(a). (Accessed Sept. 2019).

# **Idaho**

Medicaid Program: Idaho Medicaid

Program Administrator: Idaho Dept. of Health and Welfare

Regional Telehealth Resource Center: Northwest Regional Telehealth Resource Center

Covers the States of: Alaska, Oregon, Idaho, Montana, Utah, Washington & Wyoming

www.nrtrc.org

# Summary

Idaho Medicaid reimburses for live video telehealth for certain providers and for specific services. There is no reference to store-and-forward or remote patient monitoring.

# initions

Telehealth is defined as health care services delivered by a provider to a participant through the use of electronic communications, information technology, synchronous interaction between a provider at a distant site and a patient at an originating site.

Source: Medicaid Telehealth Policy, p. 6. Rev. 7/1/2018. (Accessed Sept. 2019).

## School-Based Services & Children's Habilitation Intervention Services

"Telehealth is an electronic real-time synchronized audio-visual contact between a qualified professional and participant for the purpose of treatment. The professional and participant interact as if they were having a face-to-face service."

Source: IID Administrative Code 16.03.09.850(13) & 16.03.09.571(15). (Accessed Sept. 2019).

# **Medicaid Telehealth Reimbursement**

Idaho Medicaid reimburses for specific services via live video telehealth, consistent with ID Administrative Code.

Video must be provided in real-time with full motion video and audio that delivers high-quality video images that do not produce lags, choppy, blurry, or grainy images, or irregular pauses in communication. Transmission of voices must be clear and audible. Reimbursement is also not available for services that cannot be provided as effectively as in person services due to technical or equipment limitations.

Source: Medicaid Telehealth Policy. Rev. 7/1/2018, p. 1-2 & Idaho Medicaid Provider Handbook. General Provider and Participant Information. July 1, 2019, p. 54. (Accessed Sept. 2019).

Rendering providers must provide timely coordination of services, within three business days, with the participant's primary care provider who should be provided in written or electronic format a summary of the visit, prescriptions and DME ordered.

Source: Idaho Medicaid Provider Handbook. General Provider and Participant Information. July 1, 2019, p. 53. (Accessed Sept. 2019).

Telehealth services that are properly identified in accordance with billing requirements are covered under Medicaid for physicians, within limitations defined by the Department in the Idaho Medicaid Provider Handbook. Subject to primary care provider communication requirements.

Telehealth services are covered for advanced practice registered nurses enrolled as Healthy Connections providers, within the limitations defined in the Idaho Medicaid Provider Handbook.

Source: ID Administrative Code 16.03.09 Sec. 210, 502 & 565. (Accessed Sept. 2019).

# Live Video

Services must be equal in quality to services provided in-person.

Source: Idaho Medicaid Provider Handbook. General Provider and Participant Information. July 1, 2019. p. 53. (Accessed Sept. 2019).

Allowable codes are listed as part of the Medicaid Fee Schedule. Additionally, five codes were added on July 1, 2018 for psychiatric crisis and early intervention service codes.

Claims must include a HCPCS modifier GT.

# Physician/Non-Physician Practitioner Services:

- · Primary Care Services
- Specialty Services
- Health and Behavioral Assessment/Intervention
- Psychiatric Crisis Consultation (listed in General Provider Handbook only)
- · Psychotherapy with evaluation and management
- Psychiatric diagnostic interview
- · Pharmacological management
- Tobacco Use Cessation

Physician or Psychiatric Nurse Practitioner only services:

· Psychiatric crisis consultation

Behavioral health services can be delivered via telehealth under a managed care contract.

# **Community Based Rehabilitation Services (CBRS)**

CBRS supervision can be delivered via telehealth in educational environments, but not separately reimbursable.

CBRS supervision can be conducted using telehealth when it is equally effective as direct on-site supervision.

# **Developmental Disabilities (Therapeutic Consultation and Crisis Intervention)**

Therapeutic consultation and crisis intervention can be delivered via telehealth technology through the Bureau of Developmental Disability Services.

# Early Intervention Services (EIS) for Infants and Toddlers

Services can be delivered via telehealth as long as the provider is employed by or contracted with the Idaho Infant Toddler Program and meet the IDEA Part C requirements. Eligible services include:

- Family training and counseling
- · Home care training
- Medical team conference with interdisciplinary team

## **Primary Care**

Primary care services can be delivered via telehealth. Providers must be licensed by the Idaho Board of Medicine.

### **Therapy Services**

Licensed occupational and physical therapists and speech language pathologists can provide services through telehealth. Evaluations must be performed as an in-person visit to the participant and is not covered through telehealth.

The therapist must certify that the services can be safely and effectively done with telehealth. The physician order must specifically allow the services to be provided via telehealth.

Summary

**Definitions** 

IL Medicaid reimburses for live video telemedicine and telepsychiatry services for specific providers. A recent law change required them to expand reimbursement to other behavioral health professions beginning in Jan. 2019. Although IL definitions of telemedicine and telehealth encompass store-and-forward there is no mention of store-and-forward reimbursement. IL Medicaid will provide reimbursement for home uterine monitoring.

**Nedicaid Telehealth Reimbursement** 

"Telemedicine" is the use of a telecommunication system to provide medical services for the purpose of evaluation and treatment when the patient is at one medical provider location and the rendering provider is at another location.

Source: IL Admin. Code, Title 89,140.403(a)(9) & Handbook for Podiatrists, F-200, p. 7 (Oct. 2016) (Accessed Sept. 2019).

Telehealth is the use of a telecommunication system to provide medical services between places of lesser and greater medical capability and/or expertise, for the purpose of evaluation and treatment. Medical data exchanged can take the form of multiple formats: text, graphics, still images, audio and video. The information or data exchanged can occur in real time (synchronous) through interactive video or multimedia collaborative environments or in near real time (asynchronous) through "store and forward" applications.

Source: IL Dept. of Healthcare and Family Svcs., Handbook for Practitioners. Ch. A-200 Policy and Procedures, p. 24, (Dec. 12, 2018) & Handbook for Podiatrists, F-200, p. 27 (Oct. 2016) & Handbook for Encounter Clinic Services, pg. 16-17 (Aug. 2016) (Accessed Sept. 2019).

"Telehealth" means services provided via a telecommunication system.

Source: IL Admin. Code, Title 89,140.403 (2012). (Accessed Sept. 2019).

Telepsychiatry: The use of a telecommunication system to provide medical services between places of lesser and greater medical capability and/or expertise, for the purpose of evaluation and treatment. Medical data exchanged can take the form of multiple formats: text, graphics, still images, audio and video. The information or data exchanged can occur in real time (synchronous) through interactive video or multimedia collaborative environments or in near real time (asynchronous) through "store and forward" applications.

Source: IL Dept. of Healthcare and Family Svcs., Handbook for Community-Based Behavioral Services Providers, pg. 42 (Sept. 19, 2018). (Accessed Sept. 2019).

The Department of Healthcare and Family Services must reimburse psychiatrists, federally qualified health centers, clinical psychologists, clinical social workers, advances practice registered nurses certified in psychiatric and mental health nursing and mental health professionals and clinicians to provide behavioral health services to recipients via telehealth. The Department can establish by rule the reimbursement criteria, however the Department cannot require a professional be physically present in the same room as the patient for the entire time during which the patient is receiving telehealth services.

Source: SB 3049 (2018), 305 ILCS 5/5-5.25. (Accessed Sept. 2019).

Health insurance providers must include coverage for licensed dietitians, nutritionists, and diabetes educators who counsel senior diabetes patients, via telehealth, in the patients' homes to remove the hurdle of transportation for patients to receive treatment. Department of Healthcare and Family Services may authorize licensed dietitians, nutritionists, and diabetes educators to counsel senior diabetes patients in the patients' homes to remove the hurdle of transportation for patients to receive treatment.

Source: HB 5351 (2018) 215 ILCS 5/356z.22 (Accessed Sept. 2019).

Illinois Medicaid will reimburse for live video under the following conditions:

- A physician or other licensed health care professional [or other licensed clinician, mental health professional or qualified mental health professional, for telepsychiatry] must be present with the patient at all times with the patient at the originating site\*; The distant site provider must be a physician, physician assistant, podiatrist or advanced practice nurse who is licensed by Illinois or the state where the patient is located. For telepsychiatry, it must be a physician who has completed an accredited general psychiatry residency program or an accredited child and adolescent psychiatry residency program;
- The originating and distant site provider must not be terminated, suspended or barred from the Department's medical programs;
- Telepsychiatry: The distant site provider must personally render the telepsychiatry service.
- Medical data may be exchanged through a telecommunication system. For telepsychiatry it must be an interactive telecommunication system;
- The interactive telecommunication system must, at a minimum, have the capability
  of allowing the consulting distant site provider to examine the patient sufficiently to
  allow proper diagnosis of the involved body system. The system must also be capable of transmitting clearly audible heart tones and lung sounds, as well as clear video
  images of the patient and any diagnostic tools, such as radiographs.
- Telepsychiatry: Group psychotherapy is not a covered telepsychiatry service.

Source: IL Admin. Code Title 89, 140.403(b). (Accessed Sept. 2019).

For telemedicine services, a physician or other licensed health care professional must be present at all times with the patient at the originating site.

For telepsychiatry services, a staff member meeting the minimum qualifications of a mental health professional (MHP) must be present at all times with the patient at the originating site.

e Services / Specialt

Appropriate CPT codes must be billed with the GT modifier for telemedicine and telepsychiatry services and the appropriate Place of Service code, 02, telehealth. See Practitioner Services Handbook Appendices A-10 for telehealth billing examples.

Source: IL Dept. of Healthcare and Family Svcs., Handbook for Practitioners. Ch. A-200 Policy and Procedures, p. 25, (Dec. 12, 2018). (Accessed Sept. 2019).

There is no reimbursement for group psychotherapy as a telepsychiatry service.

Source: IL Admin. Code Title 89, 140.403. (Accessed Sept. 2019).

For telemedicine services, the distant site provider must be a physician, physician assistant, podiatrist, or advanced practice nurse who is licensed by the State of Illinois or by the state where the patient is located.

For telepsychiatry, the distant site provider must be a physician who is licensed by the State of Illinois or by the state where the patient is located who has completed an accredited general psychiatry residency program or an accredited child and adolescent psychiatry residency program.

Source: IL Admin. Code Title 89, 140.403(b); Handbook for Podiatrists (physician services only), F-200, p. 28 (Oct. 2016); & Handbook for Practitioner Services. Ch. 200, p. 26 (Dec. 2018) (Accessed Sept. 2019).

An encounter clinic serving as the distant site shall be reimbursed as follows:

- 1. If the originating site is another encounter clinic, the distant site encounter clinic shall receive no reimbursement from the Department. The originating site encounter clinic is responsible for reimbursement to the distant site encounter clinic; and
- If the originating site is not an encounter clinic, the distant site encounter clinic shall be reimbursed for its medical encounter. The originating site provider will receive a facility fee.

Encounter Rate Clinics, Federally Qualified Health Centers (FQHC), and Rural Health Clinics, are allowed to render telemedicine services.

Source: IL Admin. Code Title 89, 140.403. (Accessed Sept. 2019); IL Dept. of Healthcare and Family Svcs., Expansion of Telehealth Services, Informational Notice, Jan. 1, 2010 & Handbook for Encounter Clinic Services. Ch. 200, pg. 17. Aug. 2016. (Accessed Sept. 2019).

A physician or other licensed health care professional must be present with the patient at all times with the patient at the originating site.

Source: IL Admin. Code Title 89, 140.403.

For telemedicine services, a physician or other licensed health care professional must be present at all times with the patient at the originating site.

For telepsychiatry services, a staff member meeting the minimum qualifications of a mental health professional (MHP) must be present at all times with the patient at the originating site.

Source: IL Dept. of Healthcare and Family Svcs., Handbook for Practitioners. Ch. A-200 Policy and Procedures, p. 25, (Dec. 12, 2018). (Accessed Mar. 2019).

Eligible originating sites for the facility fee include:

- · Physician's office
- Podiatrist's office
- Local health departments;
- · Community mental health centers;
- Outpatient hospitals;

An encounter clinic is eligible as an originating site, and responsible for ensuring and documenting that the distant site provider meets the department's requirements for telehealth and telepsychiatry services, since the clinic is responsible for reimbursement to the distant site provider.

Enrolled distant site providers may not seek reimbursement from the Department for their services when the originating site is an encounter clinic. The originating site encounter clinic is responsible for reimbursement to the distant site provider.

"Telehealth" means the evaluation, diagnosis, or interpretation of electronically transmitted patient-specific data between a remote location and a licensed health care professional that generates interaction or treatment recommendations. "Telehealth" includes telemedicine and the delivery of health care services provided by way of an interactive telecommunications system, as defined in subsection (a) of Section 356z.22 of the Illinois Insurance Code.

Source: IL Compiled Statutes, Chapter 225, 150/5. (Accessed Sept. 2019).

Telemedicine means the performance of any of the activities listed in Section 49, including, but not limited to, rendering written or oral opinions concerning diagnosis or treatment of a patient in Illinois by a person in a different location than the patient as a result of transmission of individual patient data by telephonic, electronic, or other means of communication. "Telemedicine" does not include the following:

- periodic consultations between a person licensed under this Act and a person outside the State of Illinois;
- a second opinion provided to a person licensed under this Act;
- diagnosis or treatment services provided to a patient in Illinois following care or treatment originally provided to the patient in the state in which the provider is licensed to practice medicine; and
- 4. health care services provided to an existing patient while the person licensed under this Act or patient is traveling.

Source: IL Compiled Statutes, Chapter 225, 60/49.5(c). (Accessed Sept. 2019).

Under the Department of Public Health, telemedicine means the provision of clinical services to patients by physicians and practitioners from a distance via electronic communications.

Summary

Indiana Medicaid reimburses for live video telemedicine for certain services and providers. Indiana Medicaid does not reimburse for store-and-forward although store-and-forward can still be used to facilitate other reimbursable services. Indiana Medicaid defines telehealth as including remote patient monitoring (RPM) services and reimburses home health agencies for RPM for patients with diabetes, congestive heart failure and COPD.

Telemedicine services are defined as "the use of videoconferencing equipment to allow a medical provider to render an exam or other service to a patient at a distant location."

Telehealth services are defined as "the scheduled remote monitoring of clinical data through technologic equipment in the member's home."

Source: IN Medicaid Telemedicine and Telehealth Module, Mar. 14, 2019, p.1. (Accessed Sept. 2019).

"Telemedicine means the delivery of health care services using electronic communications and information technology, including:

- Secure videoconferencing
- Interactive audio-using store-and-forward technology; or
- Remote patient monitoring technology;

Between a provider in one location and a patient in another location. The term does not include:

- Audio-only communication
- A telephone call
- Electronic mail
- An instant messaging conversation
- Facsimile
- Internet questionnaire
- Telephone consultation
- Internet consultation"

Source: IN Code, 25-1-9.5-6. (Accessed Sept. 2019).

Telehealth services means the use of telecommunications and information technology to provide access to health assessment, diagnosis, intervention, consultation, supervision and information across a distance."

Telemedicine services has the same meaning as "telemedicine" in IN Code 25-1-9.5-6.

Source: IN Code, 12-15-5-11 & 405 IN Admin Code 5-2-27. (Accessed Sept. 2019).

Indiana Code requires reimbursement for video conferencing for FQHCs, Rural Health Clinics, Community Mental Health Centers, Critical Access Hospitals and a provider determined by the office to be eligible, providing a covered telemedicine service.

Source: IN Code, 12-15-5-11 (Accessed Sept. 2019).

A telemedicine encounter requires a distant site, originating site, an attendant to connect the patient to the provider at the distant site, and a computer or television monitor to allow the patient to have real-time, interactive; and face-to-face communication with the distant provider via IATV technology.

The patient must be physically present and participating in the visit.

### Reimbursable CPT codes include:

- Office or other outpatient visit
- Psychotherapy
- Psychiatric diagnostic interviews
- End Stage Renal Disease (ESRD)

Must use GT Modifier. Payment amount is equal to the current professional fee schedule. Modifier 95 is used for informational purposes.

Source: Telemedicine and Telehealth Module, Mar. 14, 2019, p. 4 & 10. (Accessed Sept. 2019).

Providers are encouraged to use the 02 place of service code when billing telemedicine services.

Source: IN Medicaid Telemedicine and Telehealth Module, Mar. 14, 2019, p. 4. (Accessed Sept. 2019).

For ESRD related services, IHCP requires at least one monthly visit to be a traditional clinical encounter to examine the vascular access site.

Source: IN Medicaid Telemedicine and Telehealth Module, Mar. 14, 2019, p. 3. (Accessed Sept. 2019).

Group and family crisis psychotherapy telemedicine services are covered.

Source: IHCP Bulletin BT201454. Mar. 28, 2014. (Accessed Sept. 2019).

Federally qualified health centers and rural health centers are eligible distant sites as long as services meet both the requirements of a valid encounter and an approved telemedicine service as defined in the IHCP's telemedicine policy.

Source: IN Medicaid Telemedicine and Telehealth Module, Mar. 14, 2019, p. 5. (Accessed Sept. 2019).

# Services Not Reimbursed:

- Ambulatory surgical centers;
- Outpatient surgical services;
- Home health agencies or services;
- Radiological services:
- Laboratory services;
- Long-term care facilities, including nursing facilities, intermediate care facilities, or community residential facilities for the developmentally disabled;
- Anesthesia services or nurse anesthetist services;
- Audiological services;
- Chiropractic services;
- Care coordination services with the member not present;
- Durable medical equipment, and home medical equipment providers
- Optical or optometric services;
- Podiatric services;
- Physical therapy services;
- Transportation services;
- Services provided under a Medicaid home and community-based waiver.
- Provider to provider consultations (only prohibited in administrative code)

Source: IN Admin. Code, Title 405, 5-38-4; IN Medicaid Telemedicine and Telehealth Module, Mar. 14, 2019, p. 2. (Accessed Sept.

The distant site physician or practitioner must determine if it is medically necessary for a medical professional to be at the originating site.

Source: IN Medicaid Telemedicine and Telehealth Module, Mar. 14, 2019, p. 3. (Accessed Sept. 2019) & IN Admin. Code, Title 405, 5-38-4(2).

Provider types listed under Services Not Reimbursed (under Eligible Services/Specialties section) are not eligible to be reimbursed for telemedicine.

Source: IN Admin. Code, Title 405, 5-38-4(5).

Reimbursement for telemedicine services is available to the following providers regardless of the distance between the provider and recipient:

- Federally Qualified Health Centers
- Rural Health Clinics
- Community mental health centers
- Critical access hospitals
- A provider, as determined by the office to be eligible, providing a covered telemedicine service

Medicaid Telehealth Reimbursement	Remote Patient Monitoring	Conditions	The member must be receiving services from a home health agency. Member must initially have two or more of the following events related to one of the conditions listed below within the previous twelve months:  • Emergency room visit • Inpatient hospital stay  An emergency room visit that results in an inpatient hospital admission does not constitute two separate events.  Member must have one of the following conditions:  • Chronic obstructive pulmonary disease • Congestive heart failure • Diabetes  Source: IN Admin Code, Title 405, 5-16-3.1(d) & IN Medicaid Telemedicine and Telehealth Module, Mar. 14, 2019, p. 12. (Accessed Sept. 2019).
		Provider Limitations	Reimbursement for home health agencies under certain conditions. A registered nurse must perform the reading of transmitted health information provided from the member in accordance with the written order of the physician.  Source: IN Admin Code, Title 405, 5-16-3.1(d)(5) (Accessed Sept. 2019).

Remote Patient Monitoring

Treating physician must certify the need for home health services and document that there was a face-to-face encounter with the individual.

Source: IN Admin Code, Title 405, 5-16-3.1(e) (Accessed Sept. 2019).

Prior authorization is required for all telehealth services and must be submitted separately from other home health service prior authorization requests. Services may be authorized for up to 60 days. See Telehealth Module for additional requirements.

Source: IN Medicaid Telemedicine and Telehealth Module, Mar. 14, 2019, p. 12. (Accessed Sept. 2019).

Member must also be receiving or approved for other IHCP home health services.

Source: IN Medicaid Telemedicine and Telehealth Module, Mar. 14, 2019, p. 12. (Accessed Sept. 2019).

Email / Phone / Fax

Telemedicine is not the use of:

- Telephone transmitter for transtelephonic monitoring; or
- Telephone or any other means of communication for consultation from one provider to another.

Source: IN Medicaid Telemedicine and Telehealth Module, Mar. 14, 2019. p. 1. (Accessed Sept. 2019).

onsent

The originating site must obtain patient consent. The consent must be maintained at the distant and originating sites.

Source: IN Medicaid Telemedicine and Telehealth Module, Mar. 14, 2019, p. 3. (Accessed Sept. 2019).

Out of State Providers

IN Medicaid allows out-of-state providers to perform telemedicine services without fulfilling the out-of-state prior authorization requirements. Only applies to APRNs, PAs, Podiatrists, Optometrists and Physicians that have a license issued from the Indiana Professional Licensing Agency with the telemedicine provider certification.

Source: INCP Bulletin BT201940. Jul. 16, 2019. (Accessed Sept. 2019).

Miscellaneous

For patients receiving ongoing telemedicine services, a physician should perform a traditional clinical evaluation at least once a year, unless otherwise stated in policy. The distant site physician should coordinate with the patient's primary care physician.

Source: IN Medicaid Telemedicine and Telehealth Module, Mar. 14, 2019, p. 9. (Accessed Sept. 2019).

Documentation must be maintained at the distant and originating locations to substantiate the services provided. It must indicate the services were provided via telemedicine and location of the distant and originating sites. Documentation is subject to post-payment review.

Source: IN Medicaid Telemedicine and Telehealth Module, Mar. 14, 2019, p. 9. (Accessed Sept. 2019).

Medicaid Clarification: Indiana Code does allow a provider to use telemedicine to prescribe a controlled substance to a not-previously examined patient. Opioids, however, cannot be prescribed via telemedicine except in cases in which the opioid is partial agonist and is being used to treat or manage opioid dependence.

Source: IHCP Bulletin BT201807. Mar. 2, 2018. (Accessed Sept. 2019).

	Miscellaneous	Prior authorization (PA) is required for all for telehealth services. Telehealth services are indicated for members who require scheduled remote monitoring of data related to the member's qualifying chronic diagnoses that are not controlled with medications or other medical interventions. Services may be authorized for up to 60 days. See Telehealth Module for additional requirements.  Source: IN Medicaid Telemedicine and Telehealth Module, Mar. 14, 2019, p. 12. (Accessed Sept. 2019).
	Definitions	<ul> <li>"Telemedicine services" means health care services delivered by use of interactive audio, video, or other electronic media, including:</li> <li>Medical exams and consultations</li> <li>Behavioral health, including substance abuse evaluations and treatment</li> <li>The term does not include delivery of health care services through telephone for transtele-phonic monitoring; telephone or any other means of communication for the consultation for one (1) provider to another provider.</li> <li>Source: IN Code, 27-8-34 &amp; 27-13-1-34 (Accessed Sept. 2019).</li> </ul>
Private Payer Laws	Requirements	Accident and sickness insurance (dental or vision insurance is excluded) policies and individual or group contracts must provide coverage for telemedicine services in accordance with the same clinical criteria as would be provided for services provided in-person.  Coverage for telemedicine services may not be subject to a dollar limit, deductible or coinsurance requirement that is less favorable to a covered individual than those applied to the same health services delivered in-person.  A separate consent cannot be required.  Source: IN Code, 27-8-34-6 & 27-13-7-22. (Accessed Sept. 2019).
Priva	ity	Coverage must be provided in accordance with the same criteria as would be provided in-person.  Source: IN Code, 27-8-34-6 & 27-13-7-22 (Accessed Sept. 2019).
	Parity	No explicit payment parity.

Online Prescribing

"Telemedicine means the delivery of health care services using electronic communications and information technology, including:

- Secure videoconferencing
- Interactive audio-using store-and-forward technology; or
- Remote patient monitoring technology;

Between a provider in one location and a patient in another location. The term does not include:

- Audio only communication
- A telephone call
- Electronic mail
- An instant messaging conversation
- Facsimile
- Internet questionnaire
- Telephone consultation
- Internet consultation"

Source: IN Code, 25-1-9.5-6 (Accessed Sept. 2019).

A health care provider (as defined in Indiana Code 16-18-2-163(a)) may not be required to obtain a separate additional written health care consent for the provision of telemedicine services.

Source: IN Code, 16-36-1-15 (2015). (Accessed Sept. 2019).

A documented patient evaluation, including history and physical evaluation adequate to establish diagnoses and identify underlying conditions or contraindications to the treatment recommended or provided, must be obtained prior to issuing prescriptions electronically or otherwise.

Source: IN Admin. Code, Title 844, 5-3-2 (2016). (Accessed Sept. 2019).

A provider may not issue a prescription unless they have established a provider-patient relationship. At a minimum that includes:

- Obtain the patient's name and contact information;
- 2. Disclose the prescriber's name and credentials;
- 3. Obtain informed consent from the patient;
- Obtain the patient's medical history and information necessary to establish a diagnosis
- Discuss with the patient the diagnosis, evidence for the diagnosis and risks and benefits of the various treatment options;
- Create and maintain a medical record, and with consent notify the patient's primary care provider of any prescriptions the provider has issued
- Issue proper instructions for appropriate follow-up care
- Provide a telemedicine visit summary to the patient, including information that indicates any prescriptions that is being prescribed.

Source: IIN Code, 25-1-9.5-7. (Accessed Sept. 2019).

A prescription for a controlled substance can be issued for a patient the prescriber has not previously examined if the following conditions are met:

- The prescriber has satisfied the applicable standard of care in the treatment of the patient.
- The issuance of the prescription is within the prescriber's scope of practice and certification
- The prescription meets the requirements outline in the following section and it is not an opioid. However, opioids may be prescribed if the opioid is a partial agonist that is used to treat or manage opioid dependence.
- 4. The prescription is not for an abortion inducing drug
- The prescription is not for an ophthalmic device including glasses, contact lenses or low vision devices.

Online Prescribing

Additionally, the following conditions must be met:

- The prescriber maintains a valid controlled substance registration under IC 35-48-3.
- The prescriber meets the conditions set forth in 21 U.S.C. 829 et seq.
- The patient has been examined in-person by a licensed Indiana health care provider and the licensed health care provider has established a treatment plan to assist the prescriber in the diagnosis of the patient.
- The prescriber has reviewed and approved the treatment plan described in subdivision (3) and is prescribing for the patient pursuant to the treatment plan.
- The prescriber complies with the requirements of the INSPECT program (IC 35-48-7).

Source: IN Code 25-1-9.5-8. (Accessed Sept. 2019).

**Cross-State Licensing** 

A provider located outside Indiana may not establish a provider-patient relationship with an individual in Indiana unless the provider and the provider's employer or the provider's contractor have certified in writing to the Indiana Professional Licensing Agency that the provider agrees to be subject to the jurisdiction of the courts of law of Indiana and Indiana Substantive and Procedural Laws. This certification must be filed by a provider's employer or contractor at the time of initial certification and renewed when the provider's license is renewed.

Iowa Medicaid pays for telehealth as long as it meets accepted health care practices and standards. The Medicaid program does not have a definition for telehealth, and therefore it is unknown if the term encompasses store-and-forward or remote patient monitoring. Beginning July 1, 2019, managed care plans in Iowa's Healthy and Well Kids in Iowa (Hawk-I) program, may cover telehealth and telemonitoring services, but do not appear to be mandated.

No reference found.

Department of Human Services is required to adopt rules to provide telehealth coverage under Medicaid. Such rules must provide that in-person contact between a health care professional and a patient is not required as a prerequisite for payment.

Source: IA Senate File 505 (2015), Sec. 12(23), pg. 32-33. (Accessed Sept. 2019).

In-person contact between a health care professional and patient is not required for payment for services otherwise covered and appropriately provided through telehealth as long as it meets the generally accepted health care practices and standards prevailing in the applicable professional community.

Services provided in-person or through telehealth shall be treated as equivalent for purposes of reimbursement.

Regional Telehealth Resource Center: Heartland Telehealth Resource Center

Covers the States of: Kansas, Missouri & Oklahoma

www.heartlandtrc.org

Summary

Kansas Medicaid covers live video telemedicine for certain services. Additionally, they also cover remote patient monitoring that is in real-time through home health agencies and with prior authorization.

All insurers (including Medicaid) must cover medically necessary services, subject to the terms and conditions of the contract. Medicaid specifically must provide reimbursement for speech language pathology services and audiology services.

**Nedicaid Telehealth Reimbursement** 

"Telemedicine is the use of communication equipment to link health care practitioners and patients in different locations. This technology is used by health care providers for many reasons, including increased cost efficiency, reduced transportation expenses, improved patient access to specialists and mental health providers, improved quality of care, and better communication among providers."

Source: KS Dept. of Health and Environment, Kansas Medical Assistance Program, Provider Manual, General Benefits, p. 2-29 (Jun. 2019). (Accessed Sept. 2019).

"Telemedicine," including "telehealth," means the delivery of healthcare services or consultations while the patient is at an originating site and the healthcare provider is at a distant site. Telemedicine shall be provided by means of real-time two-way interactive audio, visual, or audio-visual communications, including the application of secure video conferencing or store-and-forward technology to provide or support healthcare delivery, that facilitate the assessment, diagnosis, consultation, treatment, education and care management of a patient's healthcare. "Telemedicine" does not include communication between:

- (A) Healthcare providers that consist solely of a telephone voice-only conversation, email or facsimile transmission; or
- (B) a physician and a patient that consists solely of an email or facsimile transmission.

Source: KS Statute Ann. § 40-2,211(5) (2018) & KS Dept. of Health and Environment, Kansas Medical Assistance Program, Provider Manual, General Benefits, p. 2-30 (Jun. 2019). (Accessed Sept. 2019).

Telemedicine is the use of communication equipment to link health care practitioners and patients in different locations. This technology is used by health care providers for many reasons, including increased cost efficiency, reduced transportation expenses, improved patient access to specialists and mental health providers, improved quality of care, and better communication among providers.

Source: KS Dept. of Health and Environment, Kansas Medical Assistance Program, Provider Manual, FQHC/RHC, p. 8-10 (May 2019). (Accessed Sept. 2019).

Insurers (including Medicaid) cannot exclude from coverage a service solely because the service is provided through telemedicine, rather than in-person contact or based upon the lack of a commercial office for the practice of medicine, when such service is delivered by a healthcare provider.

Source: KS Statute Ann. § 40-2,213(b) (2018). (Accessed Sept. 2019).

Kansas Medicaid will reimburse for live video for certain medically necessary services.

Payment or reimbursement of covered services delivered through telemedicine is the same as for covered services delivered through personal contact.

Source: KS Dept. of Health and Environment, Kansas Medical Assistance Program, Provider Manual, General Benefits, p. 2-30 (Jun. 2019). (Accessed Sept. 2019).

### Eligible services:

- · Office visits;
- · Individual psychotherapy;
- · Pharmacological management services.

The consulting expert must bill with the 02 place of service code. The GT modifier is not required except for services provided on or before December 31, 2017.

See manual for list of acceptable CPT codes. Telemedicine will be reimbursed at the same rate as face-to-face services.

KMAP does not recognize CPT Codes 99241-99245 and 99251-99255.

Source: KS Dept. of Health and Environment, Kansas Medical Assistance Program, Provider Manual, General Benefits, p. 2-29 (Jun. 2019) & FQHC/RHC, 8-10 (May 2019), (Accessed Sept. 2019).

Mental health assessment can be delivered either face-to-face or through telemedicine.

Source: KS Dept. of Health and Environment, Kansas Medical Assistance Program, Provider Manual, Mental Health, p. 8-8 (Dec. 2018). (Accessed Sept. 2019).

Speech-language pathology and audiology services may be delivered face-to-face or through telemedicine. See manual for specific codes for eligible telemedicine services. Codes not appearing on the list are not covered via telemedicine.

Source: KS Dept. of Health and Environment, Kansas Medical Assistance Program, Provider Manual, General Benefits, p. 2-27 & 2-28 (Jun. 2019). (Accessed Sept. 2019).

Kansas Medicaid does not authorize the use of telemedicine in the delivery of any abortion procedure.

	Remote Patient Monitoring	Policy	Kansas Medicaid will reimburse for home telehealth. The policy states:  "Home telehealth uses real-time, interactive, audio/video telecommunication equipment to monitor patients in the home setting, as opposed to a nurse visiting the home. This technology may be used to monitor the beneficiary for significant changes in health status, provide timely assessment of chronic conditions and provide other skilled nursing services."  Source: Dept. of Health and Environment, Kansas Medical Assistance Program, Provider Manual, Home Health, p. 8-28 (Jun. 2019). (Accessed Sept. 2019).  Home and Community Based Services for the Frail Elderly Home Telehealth is a remote monitoring system that enables the participant to effectively manage one or more diseases and catch early signs of trouble so intervention can occur before the participant's health declines. The provision of Home Telehealth involves participant education specific to one or more diseases (e.g. COPD, CHF, hypertension, and diabetes), counseling, and nursing supervision.  Source: Dept. of Health and Environment, Kansas Medical Assistance Program, Provider Manual, HCBS Frail Elderly, p. 8-17, (May 2019), (Accessed Sept. 2019).

Remote Patient Monitoring

Provider Limitations

Providers may use T1030 and T1031 for the provision of telehealth visits to provide long-term care home health services and to assist beneficiaries in managing their diabetes.

Source: Dept. of Health and Environment, Kansas Medical Assistance Program, Provider Manual, Home Health, p. AIII-3 & AIII-5. (Jun. 2019). (Accessed Sept. 2019).

### Home and Community Based Services for the Frail Elderly

Telehealth services (including remote patient monitoring) are provided on an individualized basis for participants who have an identified need in their ISPOC. Participant options and information are provided and discussed during the development of the Integrated Service Plan of Care (ISPOC). The participant qualifies if either of the following apply:

- The participant is in need of disease management consultation and education AND has had two or more hospitalizations, including emergency room (ER) visits, within the previous year related to one or more diseases.
- The participant is using MFP to move from a nursing facility back into the community.

Source: Dept. of Health and Environment, Kansas Medical Assistance Program, Provider Manual, HCBS Frail Elderly, p. 8-17 & 8-18, (May 2019), (Accessed Sept. 2019).

### Services must be provided by a registered nurse or licensed practical nurse. Agencies may bill skilled nursing services on the same date of service as telehealth services.

Source: Dept. of Health and Environment, Kansas Medical Assistance Program, Provider Manual, Home Health, p. 8-28 (Jun. 2019). (Accessed Sept. 2019).

### Home and Community Based Services for the Frail Elderly

Must be delivered by a registered nurse or licensed practical nurse with RN supervision. Providers can include home health agencies or county health departments with system equipment capable of monitoring participant vital signs daily.

Source: Dept. of Health and Environment, Kansas Medical Assistance Program, Provider Manual, HCBS Frail Elderly, p. 8-18, (May 2019), (Accessed Sept. 2019).

# Providers must submit literature to the fiscal agent's Provider Enrollment team pertaining to the telecommunication equipment the agency has chosen that will allow thorough physical assessments such as: assessment of edema, rashes, bruising, skin conditions, and other significant changes in health status.

Providers must enroll and satisfy demonstration requirements to be enrolled.

Providers are eligible for reimbursement of home telehealth services that meet the following criteria:

- Prescribed by a physician;
- Considered medically necessary;
- Signed beneficiary consent for telehealth services;
- Skilled nursing service;
- Does not exceed program limitations (two visits per week for non-Home and Community Based Services beneficiaries)

Prior authorization required.

Source: Dept. of Health and Environment, Kansas Medical Assistance Program, Provider Manual, Home Health, p. AllI-18 to 19. (Jun. 2019). (Accessed Sept. 2019).

HCBS beneficiaries eligible for face-to-face skilled nursing visits provided by a home health agency may receive home telehealth visits with documentation of medical necessity and prior authorization (PA). The PA must include units to cover the duration and frequency of home telehealth visits.

Medicaid Telehealth Reimbursement

# ummary

KY Medicaid is required to reimburse for covered services provided to a Medicaid recipient through telehealth. The Department must establish requirements for telehealth coverage and reimbursement which are equivalent to the coverage for the same service provided in-person unless the telehealth provider and the Medicaid program agree to a lower reimbursement rate for telehealth services, or the Department establishes a different reimbursement rate.

KY Medicaid and any Medicaid managed care organization are restricted from doing the following:

- Requiring a Medicaid provider to be physically present with a Medicaid recipient, unless the provider determines that it is medically necessary to perform those services in-person;
- Requiring prior authorization, medical review or administrative clearance for telehealth that would not be required if a service were provided in-person;
- Requiring a Medicaid provider to be employed by another provider or agency in order to
  provide telehealth services that would not be required if that service were provided in-person:
- Require demonstration that it is necessary to provide services to a Medicaid recipient through telehealth;
- Restrict or deny coverage of telehealth based solely on the communication technology or application used to deliver the telehealth service; OR
- Require a Medicaid provider to be part of a telehealth network.

Source: KY Revised Statutes. 205.5591. (Accessed Aug. 2019).

# **Jefinitions**

Telehealth means the delivery of health care-related services by Medicaid provider who is a health care provider licensed in Kentucky to a Medicaid recipient through a face-to-face encounter with access to real-time interactive audio and video technology or store-and-forward services that are provided via asynchronous technologies as the standard practice or care where images are sent to a specialist for evaluation. The requirement for a face-to-face encounter shall be satisfied with the use of asynchronous telecommunications technologies in which the health care provider has access to the Medicaid recipient's medical history prior to the telehealth encounter; shall not include the delivery of services through electronic mail, text chat, facsimile or standard audio-only telephone call; and shall be delivered over a secure communications connection that complies with federal HIPAA.

"Telehealth consultation means a medical or health consultation, for purposes of patient diagnosis or treatment, that meets the definition of telehealth in this section."

Source: KY Revised Statutes. 205.510. (Accessed Aug. 2019).

Telehealth means two-way, real time interactive communication between a patient and a physician or practitioner located at a distant site for the purpose of improving a patient's health through the use of interactive telecommunication equipment that includes, at a minimum, audio and video equipment.

Source: KY 907 KAR 1:055 (36). (Accessed Aug. 2019).

"Telemedicine" means two-way, real time interactive communication between a patient and a physician or practitioner located at a distant site for the purpose of improving a patient's health through the use of interactive telecommunications equipment that includes, at a minimum, audio and video equipment.

Source: KY 907 KAR 9:005. (Accessed Aug. 2019).

"Telehealth medical services: The originating-site or spoke site is the location of the eligible Kentucky Medicaid recipient at the time the telehealth service is being furnished via an interactive telehealth service communications system. The distant or hub site is the location of the provider and is considered the place of service. An interactive telehealth service communication system includes interactive audio and video equipment permitting two-way real time interactive communication between the patient and the practitioner at the originating and distant-sites."

**Jefinitions** 

### **Emergency Rule**

Telehealth service means any service that is provided by telehealth that is one of the following:

- Event
- Encounter
- Consultation, including a telehealth consultation
- Visi
- Store-and-forward transfer, for radiology only
- Remote patient monitoring
- Referral
- Treatment

Eligible Provider

A service is not reimbursed if:

- It is not medically necessary;
- The equivalent service is not covered by the department if provided in a face-toface setting; or
- The provider does not meet requirements for a telehealth care provider.

Reimbursement is not made for services that are not:

- Medically necessary;
- · Compliant with administrative regulation;
- · Applicable to this administrative regulation; or
- · Compliant with state or federal law.

Source: KY Admin. Regs. Title, 907, 3:170. (Accessed Sept. 2019).

### Coverage is limited to:

- Consultation
- Mental health evaluation and management services
- Individual and group psychotherapy
- · Pharmacologic management
- Psychiatric/psychological/mental health diagnostic interview examinations
- Individual medical nutrition therapy consultation services

Source: KY State Plan Amendment. Attachment 3.1-B. Approved 3/9/2011. (Accessed Aug. 2019).

Telehealth services are subject to utilization review.

### **Emergency Rule**

A "telehealth care provider" is a Medicaid provider who is:

- Currently enrolled as a Medicaid provider;
- · Participating as a Medicaid provider;
- · Operating within the scope of the provider's professional licensure; and
- · Operating within the provider's scope of practice.

Source: KY Primary Care Services for Non-Federally Qualified Health Clinic Medicaid Manual. Pg. 33,35 Feb. 2019. (Accessed Aug. 2019).

Eligible providers for services NOT in a Community Mental Health Center:

- · A psychiatrist;
- A licensed clinical social worker;
- A psychologist;
- A licensed professional clinical counselor;
- A licensed marriage and family therapist;
- A physician;
- An APRN;
- Speech-language pathologist;
- Occupational therapist;
- · Physical therapist; or
- Licensed dietitian or certified nutritionist;
- Registered nurse or dietitian

Miscellaneous

The Cabinet for Health and Family Services is required to do the following:

- Develop policies and procedures to ensure the proper use and security for telehealth, including but not limited to confidentiality and data integrity, privacy and security, informed consent privileging and credentialing, reimbursement and technology;
- · Promote access to health care provided via telehealth;
- Maintain a list of Medicaid providers who may deliver telehealth services of Medicaid recipients throughout the Commonwealth;
- Require that specialty care be rendered by a health care provider who is recognized and actively participating in the Medicaid program; and
- Require that any required prior authorization requesting a referral or consultation for specialty care be processed by the patient's primary care provider and that any specialist coordinates care with the patient's primary care provider.

# Definitions

Requirements

### **Recently Adopted Legislation**

Telehealth (a) means the delivery of health care-related services by a health care provider who is licensed in Kentucky to a patient or client through a face-to-face encounter with access to real-time interactive audio and video technology or store-and-forward services that are provided via asynchronous technologies as the standard practice of care where images are sent to a specialist for evaluation. The requirement for a face-to-face encounter shall be satisfied with the use of asynchronous telecommunications technologies in which the health care provider has access to the patient's or client's medical history prior to the telehealth encounter; (b) Shall not include the delivery of services through electronic mail, text chat, facsimile, or standard audio-only telephone call; and (c) Shall be delivered over a secure communications connection that complies with HIPAA.

Source: KY Revised Statute Sec. 304.17A-005. (Accessed Aug. 2019).

# Private Payer Laws

A health benefit plan shall reimburse for covered services provided to an insured person through telehealth. A health benefit plan shall not:

- Require a provider be physically present with a patient or client, unless the provider determines that it is necessary to perform those services in-person;
- Require prior authorization, medical review, or administrative clearance for telehealth that would not be required if a service were provided in-person;
- Require demonstration that it is necessary to provide services to a patient or client through telehealth:
- Require a provider to be employed by another provider or agency in order to provide telehealth services that would not be required if that service were provided in-person;
- Restrict or deny coverage of telehealth based solely on the communication technology or application used to deliver the telehealth services; or
- Require a provider to be part of a telehealth network.

A provider must be licensed in Kentucky to receive reimbursement for telehealth services.

Source: KY Revised Statute Sec. 304.17A-138. (Accessed Aug. 2019).

Private Payer Laws	Parity	Payers are not required to provide coverage for telehealth services that are not medically necessary.  Source: KY Revised Statutes § 304.17A-138. (Accessed Aug. 2019).		
		Telehealth coverage and reimbursement shall be equivalent to the coverage for the same service provided in-person unless the telehealth provider and the health benefit plan contractually agree to a lower reimbursement rate for telehealth services.  Payers are not required to reimburse any fees charged by a telehealth facility for transmission of a telehealth encounter.  Source: KY Revised Statutes § 304.17A-138. (Accessed Aug. 2019).		
Professional Regulation/Health & Safety	Definitions	Dietitians or Nutritionists & Jail Standards (Department of Corrections)  "Telehealth means the use of interactive audio, video, or other electronic media to deliver health care. It includes the use of electronic media for diagnosis, consultation, treatment, transfer of health or medical data, and continuing education."  Source: KY Revised Statutes § 310.200 & KAR Title 501, Ch. 13, Sec. 010. (Accessed Aug. 2019).		
	Consent	The treating physician who delivers or facilitates the telehealth service shall obtain the informed consent of the patient before services are provided.  Source: KY Revised Statutes § 311.5975 (2012). (Accessed Aug. 2019).  Patient consent must be obtained by:  Physicians; Chiropractors; Nurses; Dentists; Dieticians or nutritionist; Pharmacist; Psychologists or psychological associate; Cocupational therapists; Occupational therapists; Physical therapists; Speech language pathologists or audiologists; Social workers; Marriage/family therapists; Respiratory care practitioner  Source: Cited in various sections of law. Originated from HB 177 (2000).		

Also see listing of Professional Board Regulation in Miscellaneous section for regulatory requirements for informed consent by profession.

**Juline Prescribing** 

The Board of Speech Language Pathology and Audiology requires their licensees to inform the client in writing, in an initial in-person meeting, about:

- · The limitations of using technology in the provision of telepractice;
- Potential risks to confidentiality of information due to technology in the provision of telepractice;
- · Potential risks of disruption in the use of telepractice;
- When and how the licensee will respond to routine electronic messages;
- In what circumstances the licensee will use alternative communications for emergency purposes;
- Who else may have access to client communications with the licensee;
- How communications can be directed to a specific licensee;
- How the licensee stores electronic communications from the client; and
- · That the licensee may elect to discontinue the provision of services through telehealth.

Source: KY 201 KAR 17:110. (Accessed Aug. 2019).

Prior to prescribing in response to any communication transmitted or received by computer or other electronic means, physicians must establish a proper physician-patient relationship. This includes:

- Verification that the person requesting medication is in fact who the patient claims to be;
- Establishment of a documented diagnosis through the use of accepted medical practices;
- Maintenance of a current medical record.

An electronic, online, or telephone evaluation by questionnaire are inadequate for the initial or any follow-up evaluation.

Source: KY Revised Statutes § 311.597 (2012). (Accessed Aug. 2019).

A "good faith prior examination" (needed to establish a physician-patient relationship) can be done through telehealth.

Source: KY Revised Statute § 218A.010(17). (Accessed Aug. 2019).

The Board of Speech Language Pathology and Audiology does not allow for the establishment of a practitioner-patient relationship via telehealth. They require an in-person meeting to occur first. A practitioner-patient relationship is required to issue a prescription.

Live video telemedicine is covered for distant site providers enrolled in Louisiana Medicaid. There is no reimbursement for the originating site. Activity and sensor monitoring, health status monitoring and medication dispensing and monitoring are forms of remote patient monitoring that are covered by Louisiana Medicaid. There is no reference to store-and-forward.

# finitions

"Telemedicine is the use of medical information exchanges from one site to another via electronic communications to improve a recipient's health. Electronic communication means the use of interactive telecommunications equipment that includes, at a minimum, audio and video equipment permitting two-way, real time interactive communication between the patient at the originating site, and the physician or practitioner at the distant site."

Source: LA Dept. of Health and Hospitals, Professional Svcs. Provider Manual, Chapter Five of the Medicaid Svcs. Manual, p. 174 (As revised on Aug. 1, 2019). (Accessed Sept. 2019).

Telecare is a delivery of care services to recipients in their home by means of telecommunications and/or computerized devices to improve outcomes and quality of life, increase independence and access to health care, and reduce health care costs. Telecare services include:

- · Activity and sensor monitoring;
- · Health status monitoring; and
- · Medication dispensing and monitoring.

Source: LA Dept. of Health and Hospitals, Community Choices Waiver Provider Manual, Chapter Seven of the Medicaid Svcs. Manual, p. 22 (as revised on Jan. 1, 2019). (Accessed Sept. 2019).

edicaid Telehealth Reimbursement

Louisiana Medicaid reimburses the distant site for services provided via telemedicine.

Covered services must be identified on claims submissions by appending the modifier "95" to the applicable procedure code and indicate Place of Service (POS) 02. Both the correct POS and modifier must be present on the claim to receive reimbursement.

Source: LA Dept. of Health and Hospitals, Professional Svcs. Provider Manual, Chapter Five of the Medicaid Svcs. Manual, p. 174 (As revised on Aug. 1, 2019). (Accessed Sept. 2019).

Medicaid Telehealth Reimbursement	Store-and-Forward	Geographic Limit	No reference found.
		Transmission Fee	No reference found.
	Remote Patient Monitoring	Policy	Under the Community Choices Waiver, Louisiana Medicaid will reimburse an installation fee and a monthly maintenance fee for:  • TeleCare Activity and Sensor Monitoring, • Health status monitoring, and • Medication dispensing and monitoring.  Personal Emergency Response System (PERS) is also reimbursed under Community Choices Waiver, which sends alerts when emergency services are needed by the recipient.  Activity and Sensor Monitoring At a minimum the system must:  • Monitor the home's points of egress; • Detect falls; • Detect movement or lack of movement; • Detect whether doors are opened or closed; and • Provide a push button emergency alert system.  Health Status Monitoring Could be beneficial for patient with chronic conditions for monitoring weight, oxygen saturation measurements and vital signs.  Medication Dispensing and Monitoring A remote monitoring system that is pre-programed to dispense and monitor the recipient's compliance with medication therapy. Provider or caregiver is notified when there are missed doses.  Standards Providers of assistive devices and medical equipment must:  • Be a licensed home health agency or DME provider or a PERS provider; • Comply with Louisiana Department of Health rules and regulations • Be enrolled as a Medicaid provider to provide these services; and • Be listed as a provider of choice on the Freedom of Choice form  Certain conditions apply for PERS providers. Certain standards apply for the medical equipment and supplies used (see manual).

Remote Patient Monitoring

Health status monitoring: May be beneficial to individuals with congestive heart failure, diabetes or pulmonary disease.

Services must be based on verified need.

Source: LA Dept. of Health and Hospitals, Community Choices Waiver Provider Manual, Chapter Seven of the Medicaid Svcs. Manual, p. 24 (as revised on Jan. 1, 2019). (Accessed Sept. 2019).

Telecare providers must meet the following requirements:

- Be UL listed/certified or have 501(k) clearance;
- Be web-based;
- Be compliant with the requirements of the Health Insurance Portability and Accountability Act (HIPAA);
- Have recipient specific reporting capabilities for tracking and trending;
- Have a professional call center for technical support based in the United States;
- Have on-going provision of web-based data collection for each recipient, as appropriate. This includes response to recipient self-testing, manufacturer's specific testing, self-auditing and quality control.

Source: LA Dept. of Health and Hospitals, Community Choices Waiver Provider Manual, Chapter Seven of the Medicaid Svcs. Manual, p. 81 (as revised on Jan. 1, 2019). (Accessed Sept. 2019).

### Limitations

- Services must be based on verified need and have a direct or remedial benefit with specific goals and outcomes.
- Benefit must be determined by an independent assessment (done by appropriate professional who has no fiduciary relationship with the manufacturer, supplier or vendor) on any item that costs over \$500.
- All items must reduce reliance on other Medicaid state plan or waiver services
- All items must meet applicable standards of manufacture, design and installation
- The items must be on the Plan of Care developed by the support coordinator and are subject to approval.

A recipient is not able to receive simultaneously Telecare Activity and Sensor Monitoring services and traditional PERS services.

Where applicable, recipients must use Medicaid State Plan, Medicare or other available payers first.

### **Medical Board**

"Telemedicine is the practice of health care delivery, diagnosis, consultation, treatment, and transfer of medical data using interactive telecommunication technology that enables a health care practitioner and a patient at two locations separated by distance to interact via two-way video and audio transmissions simultaneously. Neither a telephone conversation nor an electronic mail message between a health care practitioner and patient, or a true consultation as may be defined by rules promulgated by the board pursuant to the Administrative Procedure Act, constitutes telemedicine."

Source: LA Revised Statutes 37:1262(4). (Accessed Sept. 2019).

### **Public Health & Safety**

Telehealth means a mode of delivering healthcare services that utilizes information and communication technologies to enable the diagnosis, consultation, treatment, education, care management and self-management of patients at a distance from healthcare providers. Telehealth allows services to be accessed when providers are in a distant site and patients are in the originating site. Telehealth facilitates patient self-management and caregiver support for patients and includes synchronous interactions and asynchronous store-and-forward transfers.

Source: LA Revised Statutes HB 1Title 40 Sec. 1223.3 (Accessed Sept. 2019).

### Speech-Language Pathology & Audiology

Telehealth is a mode of delivering audiology and speech-language pathology services that utilizes information and communication technologies to enable the diagnosis, consultation, treatment, education care management, and self-management of clients at a distance from the audiologist or speech-language pathologist provider services to be accessed when providers are in a distant site and patients are in the originating site. Telehealth facilitates self-management and caregiver support for patients and includes synchronous interactions and asynchronous store and forward transfers.

Source: Title 46, Part LXXV, Ch. 1, Sec. 103 (Speech Language Pathology/Audiology). (Accessed Sept. 2019).

### Physician's Use of Telemedicine in Practice

Telemedicine - the practice of health care delivery, diagnosis, consultation, treatment, and transfer of medical data by a physician using interactive telecommunication technology that enables a physician and a patient at two locations separated by distance to interact via two-way video and audio transmissions simultaneously. Neither an electronic mail message between a physician and a patient, or a true consultation constitutes telemedicine for the purposes of this Part. A physician practicing by telemedicine may utilize interactive audio without the requirement of video if, after access and review of the patient's medical records, the physician determines that he or she is able to meet the same standard of care as if the healthcare services were provided in-person.

Source: LA Admin. Code 46:XLV.75. (Accessed Sept. 2019).

**Online Prescribing** 

Physicians must inform telemedicine patients of the relationship between the physician and patient, and the role of any other health care provider with respect to management of the patient. The patient may decline to receive telemedicine services and withdraw from such care at any time.

Source: LA Admin. Code 46:XLV.7511 (2012). (Accessed Sept. 2019).

Louisiana law requires that a physician who uses telemedicine establish a proper physician-patient relationship. Physicians must:

- · Verify the identity of the patient;
- Conduct an appropriate exam;
- · Establish a proper diagnosis;
- Discuss the diagnosis and risks and benefits of various treatment options;
- Ensure the availability of follow up care.
- · Create and/or maintain a medical record

Source: LA Admin. Code 46:XLV.7503 (2012). (Accessed Sept. 2019).

Telemedicine, including the issuance of any prescription via electronic means, shall be held to the same prevailing and usually accepted standards of medical practice as those in traditional, face-to-face settings.

An online, electronic or written mail message, or a telephonic evaluation by questionnaire or otherwise, does not satisfy the standards of appropriate care.

To establish a physician-patient relationship an in-person visit is not required if the technology is sufficient to provide the physician the pertinent clinical information.

No physician shall authorize or order the prescription, dispensation or administration of any controlled substance unless;

- a. the physician has had at least one in-person visit with the patient within the past year; provided, however, the requirement for an in-person visit shall not apply to a physician who holds an unrestricted license to practice medicine in LA and who practices telemedicine upon any patient being treated at a healthcare facility that is required to be licensed pursuant to the laws of LA and which holds a current registration with the U.S. Drug Enforcement Administration;
- b. the prescription is issued for a legitimate medical purpose;
- the prescription is in conformity with the standard of care applicable to an in-person visit;
   and
- d. the prescription is permitted by and in conformity with all applicable state and federal laws and regulations.

Source: LA Admin. Code 46:XLV.408, Ch. 7503-05 & 7513. (Accessed Sept. 2019).

For physicians practicing telemedicine and treating a patient at a healthcare facility that is required to be licensed according to the laws of LA and holds a current registration with the US Drug Enforcement Administration:

- Physician must use the same standard of care as in-person.
- Physician must be authorized to prescribe any controlled dangerous substance without necessity of conducting an appropriate in-person patient history or physical examination.
- Physician shall not be subject to any regulation prohibition or restriction on the use of telemedicine that is more restrictive than those that are otherwise applicable to their entire profession.

Source: LA Statute Sec. 37:1271.1 (HB 480 - 2016). (Accessed Sept. 2019).

No physician practicing telemedicine can prescribe a controlled dangerous substance prior to conducting an appropriate in-person patient history or physical examination of the patient as determined by the Board.

Source: LA Revised Statutes 37:1271(B)(3). (Accessed Sept. 2019).

**Cross-State Licensing** 

A telemedicine license may be issued to out-of-state physicians, as long as they hold a full and unrestricted license in another state or U.S. territory.

Out-of-state telemedicine providers cannot open an office, meet with patients or receive calls from patients within Louisiana.

Source: LA Revised Statutes 37:1276.1 (2012). (Accessed Sept. 2019).

LA state agencies and professional boards can regulate the use of telehealth including licensing of out-of-state healthcare providers.

Source: LA Revised Statutes 40:1223.4 (Accessed Sept. 2019).

A physician may practice in the state with a full license, or hold a telemedicine permit.

Maine Medicaid (MaineCare) reimburses for live video telehealth under certain conditions, and remote patient monitoring for patients with certain risk factors. Although their definition of telehealth is broad enough to include of store-and-forward, there is no mention of store-and-forward reimbursement within their policies.

**Medicaid Telehealth Reimbursement** 

Telehealth services are the use of information technology by a Health Care Provider to deliver clinical services at a distance for the purpose of diagnosis, disease monitoring, or treatment. Telehealth Services may be either telephonic or interactive (combined video/audio).

Source: MaineCare Benefits Manual, Telehealth, 10-144 Ch. 101, Ch. 1, Sec. 4., p. 3 (Apr. 9, 2018) & Code of ME Rules 10-144-101, Ch. 1, Sec. 4. (Accessed Sept. 2019).

Telehealth as it pertains to the delivery of health care services, means the use of interactive real-time visual and audio or other electronic media for the purpose of consultation and education concerning and diagnosis, treatment, care management and self-management of a patient's physical and mental health and includes real-time interaction between the patient and the telehealth provider, synchronous encounters, asynchronous encounters, store-and-forward transfers and remote patient monitoring. "Telehealth" includes telephonic services when interactive telehealth services are unavailable or when a telephonic service is medically appropriate for the underlying covered service.

Source: ME Statute Sec. 22:855.3173-H. (Accessed Sept. 2019).

Telemonitoring Services are the use of information technology to remotely monitor a member's health status through the use of clinical data while the member remains in the residential setting. Telemonitoring may or may not take place in real time.

Source: MaineCare Benefits Manual. Ch. 11. Home Health Services. Sec. 40.01. Final Adoption 8/1//19. (Accessed Sept. 2019).

Live Video

Policy

If the Member is eligible for the underlying covered service and providing it via telehealth is medically appropriate as determined by the health care provider, and is of comparable quality if it had been delivered in-person, the telehealth service is eligible for reimbursement.

No reimbursement for communication between health care providers when the member is not present at the originating site.

Source: MaineCare Benefits Manual, Telehealth, 10-144 Ch. 101, Ch. 1, Sec. 4., p. 2 & 6. (Accessed Sept. 2019).

Medicaid Telehealth Reimbursement	Live Video	Eligible Services / Specialties	There is a specific list of codes provided in the manual.  Non-Covered services include:  • Medical equipment • Personal care aide • Pharmacy services • Assistive technology services • Non-emergency medical transportation • Ambulance services • Services that require physical contact • Any service medically inappropriate for telehealth services.  See manual for full list of exclusions.  Source: MaineCare Benefits Manual, Telehealth, 10-144 Ch. 101, Ch. 1, Sec. 4, p. 5-6. (Accessed Sept. 2019).

Remote Patient Monitoring

In order to be eligible for telemonitoring a member must:

Be eligible for home health services;

- Have a diagnosis of a health condition requiring monitoring of clinical data at a minimum of five times per week, for at least one week;
- Have documentation in the patient's medical record that the patient is at risk of hospitalization or admission to an emergency room or have continuously received Telemonitoring Services during the past calendar year and have a continuing need for such services, as documented by an annual note from a health care provider;
- Have telemonitoring services included in the Member's plan of care;
- Reside in a setting suitable to support telemonitoring equipment; and
- Have the physical and cognitive capacity to effectively utilize the telemonitoring equipment or have a caregiver willing and able to assist with the equipment.

Source: MaineCare Benefits Manual, Telehealth, 10-144 Ch. 101, Ch. 1, Sec. 4.02. p. 2-3 & Mainecare Benefits Manual. Ch. 11. Home Health Services. Sec. 40.05. Final Adoption 8/1//19. (Accessed Sept. 2019).

### Home and Community Benefits for the Elderly and for Adults with Disabilities

Final approval must be obtained from the Department, Office of Aging and Disability Services while considering:

- · Number of hospitalizations in the past year;
- Use of emergency room in the past year;
- · History of falls in the last six months resulting from injury;
- Member lives alone or is home alone for significant periods of time;
- Service access challenges and reasons for those challenges;
- History of behavior indicating that a member's cognitive abilities put them at a significant risk of wandering; and
- Other relevant information.

Source: MaineCare Benefits Manual, Home and Community Benefits for the Elderly and for Adults with Disabilities, 10-144 Ch. II, Sec. 19, p. 13 (Jan. 7, 2019). (Accessed Sept. 2019).

Telemonitoring only reimbursed when provided by a certified Home Health Agency. See regulations for specific requirements of Home Health Agencies utilizing telemonitoring services.

Source: MaineCare Benefits Manual. Ch. 11. Home Health Services. Sec. 40.05. Final Adoption 8/1//19. (Accessed Sept. 2019).

In order to be reimbursed for services, Health Care providers:

- Must be enrolled as MaineCare providers in order to be reimbursed for services;
- Be a certified Home Health Agency pursuant to the MaineCare Benefits Manual Ch. II Section 40 ("Home Health Services");
- The Provider ordering the service must be a Provider with prescribing privileges (physician, nurse practitioner or physician's assistant);
- Must document that they have had a face-to-face encounter with the member before a physician may certify eligibility for services under the home health benefit. This may be accomplished through interactive telehealth services, but not by telephone or e-mail.

Source: MaineCare Benefits Manual, Telehealth, 10-144 Ch. 101, Ch. 1, Sec. 4.01. (Accessed Sept. 2019).

Telemonitoring services are intended to collect a member's health-related data, such as pulse and blood pressure readings, that assist healthcare providers in monitoring and assessing the member's medical conditions.

A note, dated prior to the beginning of service delivery, and demonstrating the necessity of home telemonitoring services, must be included in the member's file. In the event that services begin prior to the date recorded on the provider's note, services delivered in that month will not be covered.

Source: : MaineCare Benefits Manual. Ch. 11. Home Health Services. Sec. 40.05. Final Adoption 8/1//19. (Accessed Sept. 2019).

Remote Patient Monitoring

Services shall not be duplicate of any other services. See regulation for examples of duplication.

Source: MaineCare Benefits Manual. Ch. 11. Home Health Services. Sec. 40.06. Final Adoption 8/1//19. (Accessed Sept. 2019).

See regulation for list of non-covered services.

Source: MaineCare Benefits Manual. Ch. 11. Home Health Services. Sec. 40.07. Final Adoption 8/1//19. (Accessed Sept. 2019).

Department required to adopt regulations that comply with the following:

- May not include any requirement that a patient have a certain number of ER visits or hospitalizations related to the patient's diagnosis in the criteria for a patient's eligibility for telemonitoring services;
- Must include qualifying criteria for a patient's eligibility of telemonitoring services that include documentation in a patient's medical record that the patient is at risk of hospitalization or admission to an ER
- Must provide that group therapy for behavioral health or addiction services covered by the MaineCare program may be delivered through telehealth; and
- Must include requirements for individual providers and the facility or organization in which the provider works for providing telehealth and telemonitoring services.

Source: ME Statute Sec. 3173-H. (Accessed Sept. 2019).

A health care provider must document that a face-to-face encounter with the member occurred before they are eligible for a home health benefit. This can occur through interactive telehealth services, but not by telephone or e-mail.

Source: MaineCare Benefits Manual, Telehealth, 10-144 Ch. 101, Ch. 1, Sec. 4.03. p. 4 (Accessed Sept. 2019).

ME established the ME Telehealth and Telemonitoring advisory group to evaluate difficulties related to telehealth and telemonitoring services and make recommendations to the department to improve it statewide.

Source: ME Statute Sec. 3173-l. (Accessed Sept. 2019).

Home and Community Benefits for the Elderly and for Adults with Disabilities
Use of remote monitoring requires sufficient Back Up Plans and the SCA will be responsible for ensuring that the member has at least two adequate back-up plans prior to making a referral for this service.

Source: MaineCare Benefits Manual, Home and Community Benefits for the Elderly and for Adults with Disabilities, 10-144 Ch. II, Sec. 19, p. 13 (Jan. 7, 2019). (Accessed Mar. 2019).

Telephonic services may be reimbursed if the following conditions are met:

- · Interactive telehealth services are unavailable; and
- A telephonic service is medically appropriate for the underlying covered service.

Services may not be delivered through electronic mail.

Interprofessional telephone/internet assessment are among the listed reimbursable procedure codes.

Source: MaineCare Benefits Manual, Telehealth, 10-144 Ch. 101, Ch. 1, Sec. 4. p. 4, 7, 12. (Accessed Sept. 2019)

For Indian Health Services, a second tier consultation can utilize direct email communications or telephone consultation.

Source: MaineCare Benefits Manual, Indian Health Services, 10-144 Ch. II, Sec. 9, p. 5 (March 21, 2012). (Accessed Sept. 2019)

Under Targeted Case Management, monitoring and follow-up activities may involve either face-to-face or telephone contact.

Source: MaineCare Benefits Manual, Targeted Case Management Services, 10-144 Ch. 101, Sec. 13, p. 6 (Mar. 20, 2014). (Accessed Sept. 2019).

For crisis resolution services, under Behavioral health, covered services do include direct telephone contacts with both the member and the member's parent or guardian or adult's member's guardian when at least one face-to-face contact is made with the member within seven (7) days prior to the first contact related to the crisis resolution service. The substance of the telephone contact(s) must be such that the member is the focus of the service, and the need for communication with the parent or quardian without the member present must be documented in the member's record.

Source: MaineCare Benefits Manual, Behavioral Health Services, 10-44 Ch. II, Sec. 65, p. 10 (Feb. 11, 2019). (Accessed Sept. 2019).

An examination following use of restraint or seclusion can be done by a telephone in consult with a registered nurse. When a telephonic consult occurs, the physician, or nurse practitioner must examine the member in person within the following time constraints:

- Within one (1) hour of when the registered nurse requests an examination;
- Within one (1) hour of when information relayed is suggestive of causes leading to physical harm to the member:
- Within one (1) hour if an examination has not yet occurred during the member's stay; or
- Within six (6) hours in all other circumstances.

Source: MaineCare Benefits Manual, Psychiatric Residential Treatment Facility Services, 10-44 Ch. II, Sec. 65, p. 32 (Oct. 3, 2018). (Accessed Sept. 2019).

Providers must deliver written educational information to patients at their visit.

This information should be in a format and manner that the Member is able to understand and include the following:

- Description of the telehealth services and what to expect;
- Explanation that the use of telehealth for this service is voluntary and that the member is able to refuse the telehealth visit at any time without affecting the right to future care or treatment or loss or withdrawal of MaineCare benefit;
- Explanation that MaineCare will pay for transportation to a distant appointment if needed;
- Explanation that the Member will have access to all information resulting from the telehealth service provided by law;
- The dissemination, storage or retention of an identifiable Member image or other information shall comply with federal and state laws and regulations requiring confidentiality.
- Informed of all parties who will be present at the receiving and originating site and have the right to exclude anyone from either site; and
- Member has the right to object to videotaping or other recording of consult.

Source: MaineCare Benefits Manual, Telehealth, 10-144 Ch. 101, Ch. 1, Sec. 4. p. 8. (Accessed Sept. 2019).

Member's record must document consent for Assistive Technology-Remote Monitoring.

Tele-pharmacy is allowed.

Tele-pharmacy is a method of delivering prescriptions dispensed by a pharmacist to a remote site. Pharmacies using tele-pharmacy must follow all applicable State and Federal regulations, including use of staff qualified to deliver prescriptions through tele-pharmacy.

Providers may dispense prescriptions via tele-pharmacy; pre-authorization is required. Providers must assure that member counseling is available at the remote site from the dispensing provider or the provider delivering the prescription, and that only qualified staff, deliver prescriptions.

### efinitions

**Out of State Providers** 

Miscellaneous

"Telehealth," as it pertains to the delivery of health care services, means the use of interactive real-time visual and audio or other electronic media for the purpose of consultation and education concerning and diagnosis, treatment, care management and self-management of an enrollee's physical and mental health and includes real-time interaction between the enrollee and the telehealth provider, synchronous encounters, asynchronous encounters, store and forward transfers and telemonitoring. "Telehealth" does not include the use of audio-only telephone, facsimile machine, e-mail or texting.

Source: Maine Revised Statutes Annotated, Title 24, Sec. 4316 & LD 1263 (2019 Session).

A carrier offering a health plan in this State may not deny coverage on the basis that the health care service is provided through telehealth if the health care service would be covered if it was provided through in-person consultation between an enrollee and a provider.

A carrier may not exclude a health care service from coverage solely because such health care service is provided only through a telehealth encounter, as long as telehealth is appropriate for the provision of such health care service.

A carrier shall provide coverage for any medically necessary health care service delivered through telehealth as long as the following requirements are met:

- Prior authorization is required for telehealth services only if prior authorization is required for the corresponding covered health care service. An in-person consultation prior to the delivery of services through telehealth is not required.
- Coverage for telehealth services is not limited in any way on the basis of geography, location or distance for travel.
- The carrier shall require that a clinical evaluation is conducted either in person or through telehealth before a provider may write a prescription that is covered.
- The carrier shall provide coverage for the treatment of 2 or more persons who are enrolled in the carrier's health plan at the same time through telehealth, including counseling for substance use disorders involving opioids.

## equirements

Requirements

- The telemonitoring is intended to collect an enrollee's health-related data, including, but not limited to, pulse and blood pressure readings, that assist a provider in monitoring and assessing the enrollee's medical condition;
- The telemonitoring is medically necessary for the enrollee;
- The enrollee is cognitively and physically capable of operating the mobile health devices
  the enrollee has a caregiver willing and able to assist with the mobile health devices; and
- The enrollee's residence is suitable for telemonitoring. If the residence appears unable to support telemonitoring, the telemonitoring may not be provided unless necessary adaptations are made.

A carrier shall provide coverage for telephonic services when scheduled telehealth services are technologically unavailable at the time of the scheduled telehealth service for an existing enrollee and the telephonic services are medically appropriate for the corresponding covered health care services.

In order to be eligible for reimbursement under this section, a provider providing health care services through telehealth must be acting within the scope of the provider's license. A carrier may not impose additional credentialing requirements or prior approval requirements for a provider as a condition of reimbursement for health care services provided under this section unless those credentialing requirements or prior approval requirements are the same as those imposed for a provider that does not provide health care services through telehealth.

A carrier may not require a provider to use specific telecommunications technology and equipment as a condition of coverage under this section as long as the provider uses telecommunications technology and equipment that comply with current industry interoperability standards and that comply with standards required under HIPAA.

Source: Maine Revised Statutes Annotated, Title 24, Sec. 4316 & LD 1263 (2019 Session).

ervice Parity

**Parity** 

Coverage for health care services provided through telehealth must be determined in a manner consistent with coverage for health care services provided through in-person consultation. If an enrollee is eligible for coverage and the delivery of the health care service through telehealth is medically appropriate, a carrier may not deny coverage for telehealth services.

No explicit payment parity.

## rofessional Regulation Health & Safety

### **Board of Licensure in Medicine & Board of Osteopathic Licensure**

"Telemedicine" means the practice of medicine or the rendering of health care services using electronic audio-visual communications and information technologies or other means, including interactive audio with asynchronous store-and-forward transmission, between a licensee in one location and a patient in another location with or without an intervening health care provider. Telemedicine includes asynchronous store-and-forward technologies, remote monitoring, and real-time interactive services, including teleradiology and telepathology. Telemedicine shall not include the provision of medical services only through an audio-only telephone, e-mail, instant messaging, facsimile transmission, or U.S. mail or other parcel service, or any combination thereof.

Source: ME Regulation Sec. 02-373-6 & 02-383-6. (Sept. 2019).

Online Prescribing

# Cross-State Licensing

### **Board of Licensure in Medicine & Board of Osteopathic Licensure**

A licensee who uses telemedicine shall ensure the patient provides appropriate informed consent for the health care services provided, including consent for the use of telemedicine, which must be documented in the patient's medical record.

Source: ME Regulation Sec. 02-373-6 & 02-383-6. (Sept. 2019).

### **Board of Licensure in Medicine & Board of Osteopathic Licensure**

Prior to providing treatment, including issuing prescriptions, electronically or otherwise, a licensee who uses telemedicine in providing health care shall interview the patient to collect the relevant medical history and perform a physical examination, when medically necessary, sufficient for the diagnosis and treatment of the patient. An internet questionnaire that is a static set of questions provided to the patient, to which the patient responds with a static set of answers, in contrast to an adaptive interactive and responsive online interview, does not constitute an acceptable medical interview and physical examination for the provision of treatment, including issuance of prescriptions, electronically or otherwise, by the licensee.

A valid physician-patient relationship may be established between a licensee who uses telemedicine in providing health care and a patient who receives telemedicine services through consultation with another licensee or through a telemedicine encounter if the standard of care does not require an in-person encounter and in accordance with evidence-based standards for practice and telemedicine practice guidelines that address the clinical and technological aspects of telemedicine.

Member of Nurse Licensure Compact.

Source: Nurse Licensure Compact. Current NLC States and Status. NCSBN. (Accessed Sept. 2019).

A physician who is not licensed in Maine can practice medicine in Maine through interstate telemedicine if they are licensed in the state they are providing telemedicine from, their license is in good standing, the physician does not open an office, meet patients or receive calls in the state and agrees to provide only consultative services as requested by other physicians, APRNs or PAs, and the physician annually registers with the board and pays a fee.

Source: 32 MSRA Sec. 3300-D. (Accessed Sept. 2019).

The Board may issue an interstate telemedicine consultation registration to an applicant who:

- Submits an administratively complete application on forms approved by the Board;
- Pays the appropriate licensure application fee;
- Demonstrates that the applicant is a physician and is fully licensed without restriction to practice medicine in the state from which the physician provides telemedicine services;
- · Meets the examination requirement;
- Has not had a license to practice medicine revoked or restricted in any state or jurisdiction;
   and
- Has no cause existing that may be considered grounds for disciplinary action or denial of licensure as provided by law.

A physician registered for the interstate telemedicine consultation shall not:

- · Open an office in this State;
- · Meet with patients in this State;
- · Receive calls in this State from patients; and
- Shall provide only consultative services as requested by a physician, advanced practice
  registered nurse or physician assistant licensed in this State who retains ultimate authority
  over the diagnosis, care and treatment of the patient.

### Maryland

Medicaid Program: MD Medicaid Assistance Program

Program Administrator: MD Dept. of Social Services

Regional Telehealth Resource Center: Mid-Atlantic Telehealth Resource Center

Covers the States of: Delaware, Kentucky, Maryland, New Jersey, North Carolina, Pennsylvania, Virginia, and West Virginia

as well as the District of Columbia

www.matrc.org

# Summary

Maryland Medicaid covers live video telehealth conducted by specific providers and in specific originating sites. Although the Medicaid program does not reimburse for store-and-forward, dermatology, ophthalmology and radiology are excluded from the definition of store-and-forward. Maryland Medicaid does reimburse for remote patient monitoring for patients with certain chronic conditions and exhibiting certain risk factors.

# **Definitions**

Telemedicine means, as it relates to the delivery of health care services, the use of interactive audio, video, or other telecommunications or electronic technology:

- 1. By a health care provider to deliver a health care service that is within the scope of practice of the health care provider at a site other than the site at which the patient is located; and
- 2. That enables the patient to see and interact with the health care provider at the time the health care service is provided to the patient.

Telemedicine does not include an audio-only conversation between a health care provider and a patient; an electronic mail message between a health care provider and a patient; or a facsimile transmission between a healthcare provider and a patient

Source: MD Health General Code 15-105.2. (Accessed Sept. 2019).

"Telehealth means the delivery of medically necessary somatic or behavioral health services to a patient at an originating site by distant site provider, through the use of technology-assisted communication."

Source: Code of Maryland Admin. Regs. Sec. 10.09.49.02. (Accessed Sept. 2019).

# **Medicaid Telehealth Reimbursement**

Reimbursement for telehealth is required for services appropriately delivered through telehealth and may not exclude from coverage a health care service solely because it is through telehealth.

The Department may require providers to submit a registration form to include information required for the processing of telehealth claims.

Source: MD General Health Code Sec. 15-105.2 & Insurance Code 15-139. (Accessed Sept. 2019).

Policy

The Department shall grant approval to a telemental health provider to be eligible to receive State or federal funds for providing interactive telemental health services if the provider meets requirements of this chapter and for outpatient mental health centers; or if the telemental heath provider is an individual psychiatrist.

Source: Code of Maryland Admin. Regs. Sec. 10.21.30.03. (Accessed Sept. 2019).

Covered Services - Somatic and behavioral health services: Providers must contact the participant's Healthchoice MCO or Beacon Health Option with questions regarding prior authorization requirements for telehealth services.

Source: MD Medicaid Telehealth Program. Telehealth Provider Manual, p. 2. Updated May 2, 2018. (Accessed Sept. 2019).

Medically necessary services are covered by the Maryland Medical Assistance Program as long as they are:

- Distinct from services provided by the originating site provider;
- Able to be delivered using technology-assisted communication; and
- Clinically appropriate to be delivered via telehealth;

Source: Code of Maryland Admin. Regs. Sec. 10.09.49.05. (Accessed Sept. 2019).

Services should be billed with the GT modifier.

Source: Code of Maryland Admin. Regs. Sec. 10.09.49.11. (Accessed Sept. 2019).

Mental Health Eligible Services:

- Diagnostic interview;
- Individual therapy
- Family therapy
- Group therapy, up to 8 individuals
- Outpatient evaluation and management
- Outpatient office consultation
- Initial inpatient consultation
- Emergency department services

Source: Code of Maryland Admin. Regs. Sec. 10.21.30.09. (Accessed Sept. 2019).

### Recently Approved Legislation (Now Effective - Expires in two years at the end of September 30, 2020)

If the Department specifies by regulation the types of health care providers eligible to receive reimbursement, the types of health care providers shall include:

- Primary care providers; and
- Psychiatrists, and psychiatric nurse practitioners who are providing assertive community treatment or mobile treatment services to program recipients located in a home or community-based setting.

Health services provided by a psychiatrist described above is equivalent to the same health care service when provided through in-person consultation.

Source: MD General Health Code Sec. 15-105.2(b)(4)(ii) & HB 605 (2019 Session) & Senate Bill 704 (2018).

Eligible distant site provider:

- Nurse midwife
- Nurse practitioner
- Psychiatric nurse practitioner
- Physician;
- A physician assistant; or
- A provider fluent in American Sign Language providing telehealth services to a deaf or hard of hearing participant;

The following sites can register as distant site providers:

- · A community-based substance use disorder provider;
- An opioid treatment program;
- · An outpatient mental health center; or
- A Federally Qualified Health Center

Telehealth providers must be enrolled in the Maryland Medical Assistance Program and register as an originating or distant site via an online form before rendering telehealth services. Additionally, providers billing for behavioral health services must register with the Department's administrative service organization (ASO) before rendering behavioral health services.

Source: MD Medicaid Telehealth Program. Telehealth Provider Manual, p. 1 & 3. Updated Mar 2, 2018. (Accessed Sept. 2019) & Code of Maryland Admin. Regs. Sec. 10.09.49.07.

### **Mental Health**

Eligible Providers:

- Outpatient mental health centers
- Telemental health (TMH) providers who are individual psychiatrists

Telemental health providers may be private practice, part of a hospital, academic, health or mental health care system. Public Mental Health System (PMHS) approved community-based providers or individual practitioners may engage in agreements with TMH providers for services. Fee-for-service reimbursement shall be at an enhanced rate, as stipulated by the Department, provided all applicable provisions of this chapter are met and funds are available.

Source: Code of Maryland Admin. Regs. Sec. 10.21.30.03 & Sec. 10.21.30.03-04. (Accessed Sept. 2019).

### Eligible originating sites:

- College or university student health or counseling office
- · Community-based substance use disorder provider
- Deaf or hard of hearing participant's home or any other secure location approved by the participant and provider
- Elementary, middle, high or technical school with a supported nursing, counseling or medical office
- · Local health department
- FOHC
- · Hospital, including emergency department
- Nursing facility
- Private office of a physician, physician assistant, psychiatric nurse practitioner, nurse practitioner, or nurse midwife
- Opioid treatment program
- · Outpatient mental health center
- · Renal dialysis center; or
- · Residential crisis services site

Telehealth providers must be enrolled in the Maryland Medical Assistance Program and register as an originating or distant site via an online form before rendering telehealth services. Additionally, providers billing for behavioral health services must register with the Department's administrative service organization (ASO) before rendering behavioral health services.

Source: MD Medicaid Telehealth Program. Telehealth Provider Manual, p. 2-3. Updated May 2, 2018. (Accessed Sept. 2019) & Code of Maryland Admin. Regs. Sec. 10.09.49.07.

A School-based Health Center (SBHC) with FQHC or local health department sponsoring entities may register as originating sites and bill the telehealth transmission fee code after the SBHC receives approval from the Maryland State Department of Education (MSDE) and enrolls as a Medicaid provider.

### Perinatal and Neonatal Referral Center Standards:

"Telemedicine" means the use of interactive audio, video, or other telecommunications or electronic technology by a licensed health care provider to deliver a health care service within the scope of practice of the health care provider at a site other than the site at which the patient is located, in compliance with COMAR 10.32.05.and including at least two forms of communication.

Source: MD COMAR Sec. 30.08.12.01. (Accessed Sept. 2019).

### **Board of Professional Counselors and Therapists**

"Teletherapy" means the use of interactive audio, video, or other telecommunications or electronic media by a counselor or therapist to deliver counseling services:

- · Within the scope of practice of the counselor or therapist; and
- At a location other than the location of the client;

### "Teletherapy" does not include:

- · An audio-only telephone conversation between a counselor or therapist and a client;
- An electronic mail message between a counselor or therapist and a client;
- A facsimile transmission between a counselor or therapist and a client; or
- A text message or other type of message sent between a counselor or therapist and a client by a short message service or multimedia messaging service.

Source: MD COMAR Sec. 10.58.06.02.

### **Board of Examiners or Psychologists**

"Telepsychology" means the use of interactive audio, video, or other telecommunications or electronic media by a psychologist or psychology associate who engages in the practice of psychology at a location other than the location of the client.

"Telepsychology" does not include:

- An audio-only telephone conversation between a psychologist or psychology associate and a client;
- · An electronic mail message between a psychologist or psychology associate and a client;
- · A facsimile transmission between a psychologist or psychology associate and a client; or
- A text message or other type of message sent between a psychologist or psychology associate and a client by a short message service or multimedia messaging service.

Source: MD COMAR Sec. 10.36.10.02. (Accessed Sept. 2019).

### **Board of Nursing**

"Teletherapy" means the delivery of behavioral health services by a CRNP/PMH or a PMH/APRN at a location other than the location of the client through the use of synchronous interactive audio, video, audio-visual, or other telecommunications or electronic technology.

"Teletherapy" does not include:

- An audio-only telephone conversation between the CRNP/PMH or PMH/APRN and a client;
- An electronic mail message between a CRNP/PMH or PMH/ APRN and a client; or
- A facsimile transmission between a CRNP/PMH or PMH/APRN and a client.

Source: MD COMAR Sec. 10.27.17.02 (Accessed Sept. 2019).

### Board of Examiners for Audiologists, Hearing Aid Dispensers and Speech Language Pathologists Telehealth providers must inform patients and consultants of the following:

- The inability to have direct, physical contact with the patient is a primary difference between telehealth and direct in-person service delivery;
- The knowledge, experiences, and qualifications of the consultant providing data and information to the provider of the telehealth services need not be completely known to and understood by the provider;
- The quality of transmitted data may affect the quality of services provided by the provider;
- That changes in the environment and test conditions could be impossible to make during delivery of telehealth services;

Telehealth services may not be provided by correspondence only.

Source: Code of MD Reg., 10.41.06.04. (Accessed Sept. 2019).

Before performing telehealth services, a telehealth practitioner shall develop and follow a procedure to:

- · Verify the identification of the patient receiving telehealth services;
- Except for interpretive services, obtain oral or written acknowledgement from a patient or person in interest as defined by Health-General Article, §4-301(m), Annotated Code of Maryland, to perform telehealth services;
- Prevent access to data by unauthorized persons through encryption or other means;
- Notify patients in the event of a data breach;
- Ensure that the telehealth practitioner provides a secure and private telehealth connection that complies with federal and state privacy laws; and
- · Establish safety protocols to be used in the case of an emergency.

See rule for additional requirements when the service is not an asynchronous telehealth service.

Source: Code of Maryland Admin. Regs. Sec. 10.32.05.04 (Accessed Sept. 2019).

**Cross-State Licensing** 

## A telehealth practitioner shall perform a synchronous, audio-visual patient evaluation adequate to establish diagnoses and identify underlying conditions or contraindications to recommended treatment options before providing treatment or prescribing medication. A telehealth practitioner may use surrogate examiner; or a patient evaluation performed by another licensed health care practitioner providing coverage.

### www.netrc.org

Summary

Massachusetts Medicaid (MassHealth) allows for the use of telehealth in Medicaid behavioral health services. Additionally, a 2014 budget bill that allocated funds for the reimbursement of remote patient monitoring mentioned telehealth. CCHP has found no further details regarding this.

It should be noted that Massachusetts is a managed care state, and that some individual Medicaid managed care plans may reimburse for telehealth delivered services.

finitions

### **Behavioral Health Services**

Telehealth is the use of electronic communication and information technologies to provide or support clinical care at a distance. The delivery of services through telehealth involves the use of secure interactive audio and video telecommunications systems that permit two-way, real-time communication between a patient and a provider.

Source: MassHealth All Provider Bulletin 281, p. 1, Jan. 2019. (Accessed Sept. 2019).

**Medicaid Telehealth Reimbursement** 

### **Behavioral Health Services**

Telehealth is a modality of treatment, not a separate covered service. Providers are not required to deliver services via telehealth.

Source: MassHealth All Provider Bulletin 281, p. 1, Jan. 2019. (Accessed Sept. 2019).

Live Video

### **Behavioral Health Services**

The following sites may deliver behavioral health services via telehealth:

- All services specified in 101 CMR 306.00 et seq.;
- · Opioid Treatment Counseling Services;
- · Ambulatory Services: Outpatient Counseling;
- · Clinical Case Management Ambulatory Services; and
- Outpatient Services for Pregnant/Postpartum Clients

### Michigan

Medicaid Program: Michigan Medicaid

Program Administrator: Michigan Dept. of Community Health

Regional Telehealth Resource Center: Upper Midwest Telehealth Resource Center

Covers the States of: Illinois, Indiana, Michigan & Ohio

www.umtrc.org

### Summary

Michigan Medicaid reimburses for live video telemedicine for certain healthcare professionals, for patients located at certain originating sites for specific services. There is no reimbursement for store-and-forward or remote patient monitoring.

"Telemedicine is the use of telecommunication technology to connect a patient with a health care professional in a different location."

Source: MI Dept. of Community Health, Medicaid Provider Manual, p. 1662, Jul. 1, 2019 (Accessed Sept. 2019).

### Assertive Community Treatment Program (ACT)

Telepractice is the use of telecommunications and information technologies for the provision of psychiatric services to ACT consumers and is subject to the same service provisions as psychiatric services provided in-person.

Source: MI Dept. of Community Health, Medicaid Provider Manual, p. 353 Jul. 1, 2019 (Accessed Sept. 2019).

### **Behavioral Health Treatment Services (BHT)**

Telepractice is the use of telecommunications and information technologies for the exchange of encrypted patient data for the provision of services (e.g., access or travel to needed medical services may be prohibitive).

Source: MI Dept. of Community Health, Medicaid Provider Manual, p. 480 Jul. 1, 2019 (Accessed Sept. 2019).

### **Medication Therapy Management**

Telepractice is the use of telecommunications and information technologies for the exchange of encrypted patient data for the provision of services. Telepractice must be obtained through real-time interactions between the beneficiary's physical location (origin site) and the pharmacist provider's physical location (distant site).

Source: MI Dept. of Community Health, Medicaid Provider Manual, p. 1593 Jul. 1, 2019 (Accessed Sept. 2019).

### Speech-Language and Audiology Services; Medication Therapy Management

"Telepractice is the use of telecommunications and information technologies for the exchange of encrypted patient data for the provision of speech, language and hearing services. Telepractice must be obtained through real-time interaction between the patient's physical location (patient site) and the provider's physical location (provider site)."

Source: MI Dept. of Community Health, Medicaid Provider Manual, p. 1753 Jul. 1, 2019 (Accessed Sept. 2019).

Live video telemedicine is reimbursed, and should primarily be used when travel is prohibitive for the beneficiary or there is an imminent health risk justifying immediate medical need for services. Where face-to-face visits are required, telemedicine services may be used in addition to the required face-to-face visit, but cannot be used as a substitute.

Source: Dept. of Community Health, Medicaid Provider Manual, p. 1662, Jul. 1, 2019 (Accessed Sept. 2019).

### **Assertive Community Treatment Program**

All telepractice interactions shall occur through real-time interactions between the ACT consumer and the physician/nurse practitioner/clinical nurse specialist from their respective physical location. Psychiatric services are the only ACT services that are approved to be provided in this manner.

Source: MI Dept. of Community Health, Medicaid Provider Manual, p. 353 Jul. 1, 2019 (Accessed Sept. 2019).

Michigan Medicaid reimburses for the following service categories via live video:

- Inpatient Consults;
- · Office or other outpatient consults
- Office or other outpatient services
- Psychiatric diagnostic procedures
- Subsequent hospital care
- Training services, diabetes
- End-stage renal disease (ESRD) related services. However, there must be at least one in-person visit per month, by a physician, nurse practitioner, or physician's assistant, to examine the vascular site for ESRD services.
- · Behavior change intervention
- Behavior health and/or substance use disorder treatment
- Education service, telehealth
- · Nursing facility subsequent care

Procedure codes and modifier information is contained in the MDHHS Telemedicine Services Database.

Source: Dept. of Community Health, Medicaid Provider Manual, p. 1662, Jul. 1, 2019 (Sept. 2019).

### **Speech-Language and Audiology Services**

Speech, language and hearing services may be reimbursed. Requires an annual referral from a physician.

Source: MI Dept. of Community Health, Medicaid Provider Manual, p. 1753, Jul. 1, 2019 (Accessed Sept. 2019).

### **Assertive Community Treatment Program**

The telepractice modifier, 95, must be used in conjunction with ACT encounter reporting code H0039 when telepractice is used.

Source: MI Dept. of Community Health, Medicaid Provider Manual, p. 353 Jul. 1, 2019 (Accessed Sept. 2019).

### **Telepractice for BHT Services**

Telepractice services must be prior authorized. Telepractice must be obtained through real-time interaction between the child's physical location (patient site) and the provider's physical location (provider site). Telepractice services are provided to patients through hardwire or internet connection. It is the expectation that providers, facilitators, and staff involved in telepractice are trained in the use of equipment and software prior to servicing patients, and services provided via telepractice are provided as part of an array of comprehensive services that include in-person visits and assessments with the primary supervising BHT provider. Qualified providers of behavioral health services are able to arrange telepractice services for the purposes of teaching the parents/guardians to provide individualized interventions to their child and to engage in behavioral health clinical observation and direction (i.e. increase oversight of the provision of services to the beneficiary to support the outcomes of the behavioral plan of care developed by the primary supervising BHT provider).

Source: MI Dept. of Community Health, Medicaid Provider Manual, p. 479-480 Jul. 1, 2019 (Accessed Sept. 2019).

Live Video

Physicians and practitioners are eligible to be distant site providers.

Source: Dept. of Community Health, Medicaid Provider Manual, p. 1663, Jul. 1, 2019 (Accessed Sept. 2019).

### **Telepractice for BHT Services**

Qualified providers include:

- · Board certified behavior analysts
- Board certified assistant behavior analysts
- Licensed psychologists
- · Limited licensed psychologists
- · Qualified behavioral health professionals

Occupational, physical and speech therapists are not included in this policy.

A facilitator trained in telepractice technology must be physically present with the patient.

Source: MI Dept. of Community Health, Medicaid Provider Manual, p. 480 Jul. 1, 2019 (Accessed Sept. 2019).

### **Medication Therapy Management (MTM)**

In the event that the beneficiary is unable to physically access a face-to-face care setting, an eligible pharmacist may provide MTM services via telepractice. Services must be provided through hardwire or internet connection.

Source: Dept. of Community Health, Medicaid Provider Manual, p. 1593, Jul. 1, 2019 (Accessed Sept. 2019).

Prepaid Inpatient Health Plans/Community Mental Health (PIHP/CMH) can be either originating or distant sites.

Source: MI Dept. of Community Health, Medicaid Provider Manual, p. 344, Jul. 1, 2019 (Accessed Sept. 2019).

### **Speech-Language and Audiology Services**

Eligible providers:

- Licensed speech-language pathologist
- Licensed Audiologist in Michigan
- Speech language pathologist and/or audiology candidate under the direction of a qualified SLP or audiologist
- A limited licensed speech language pathologist under the direction of a fully licensed SLP or audiologist

Source: MI Dept. of Community Health, Medicaid Provider Manual, p. 1753, Jul. 1, 2019 (Accessed Sept. 2019).

Medicaid Telehealth Reimbursement	Live Video	Eligible Sites	Eligible originating sites:  County mental health clinics or publicly funded mental health facilities; Federally Qualified Health Centers; Hospitals (inpatient, outpatient, or Critical Access Hospitals); Physician or other providers' offices, including medical clinics; Hospital-based or CAH-based Renal Dialysis Centers; Rural Health Clinics; Skilled nursing facilities; Tribal Health Centers  Source: MI Dept. of Community Health, Medicaid Provider Manual, p. 1662, Jul. 1, 2019 (Accessed Sept. 2019).  Speech-Language and Audiology Services The patient site may be located within the school, at the patient's home or any other established site deemed appropriate by the provider.  The room must be free from distractions so as not to interfere with the telepractice session. A facilitator must be trained in the use of the telepractice technology and physically present at the patient site during the entire telepractice session to assist the patient at the direction of the SLP or audiologist.  Source: MI Dept. of Community Health, Medicaid Provider Manual, p. 1753, Jul. 1, 2019 (Accessed Sept. 2019). Schedule 2 to 5 controlled substances cannot be prescribed unless the prescribing is in a bona fide prescriber-patient relationship with the patient. If a licensed prescriber prescribes a controlled substance under this subsection, the prescriber shall provide follow-up care to the patient to monitor the efficacy of the use of the controlled substance as a treatment of the patient's medical condition. If the licensed prescriber is unable to provide follow-up care, he or she shall refer the patient to the patient's primary care provider for follow-up care or, if the patient does not have a primary care provider, he or she shall refer the patient to another licensed prescriber who is geographically accessible to the patient for follow-up care.

Source: MI Compiled Laws Sec. 333.7303a. (Accessed Sept. 2019).

health professional providing telehealth service to a patient may prescribe the patient a drug if both the following are met:

- The health professional is a prescriber who is acting within the scope of his or her practice; and
- If the health professional is prescribing a controlled substance, the health professional
  must meet the requirements of this act applicable to that health professional for prescribing a controlled substance.

The health professional must also provide a referral for health care services that are geographically accessible to the patient, if medically necessary. They also must make himself or herself (or a delegated health professional) available for follow-up care or refer the patient to another health professional for follow-up care.

### **Minnesota**

Medicaid Program: Medical Assistance

Program Administrator: MN Dept. of Human Services

Regional Telehealth Resource Center: Great Plains Telehealth Resource and Assistance Center

Covers the States of: Iowa, Minnesota, Nebraska, North Dakota, South Dakota, & Wisconsin

www.gptrac.org

Summary

Minnesota Medicaid provides reimbursement for live video and store-and-forward through their Medical Assistance program for certain providers when patients are located at specific originating sites. Many of their individual programs have their own unique requirements for telemedicine reimbursement. Additionally, tele-home-care (remote monitoring) is reimbursed with prior authorization under Home Care Services and the Elderly Waiver (EW) and Alternative Care (AC) program, but specific reimbursement criteria is not listed.

**Jedicaid Telehealth Reimbursement** 

"Telemedicine is defined as the delivery of health care services or consultations while the patient is at an originating site and the licensed health care provider is at a distant site. A communication between licensed health care providers, or a licensed health care provider and a patient that consists solely of a telephone conversation, e-mail, or facsimile transmission does not constitute telemedicine consultations or services. Telemedicine may be provided by means of real-time two-way, interactive audio and visual communications, including the application of secure video conferencing or store-and-forward technology to provide or support health care delivery, which facilitate the assessment, diagnosis, consultation, treatment, education, and care management of a patient's health care."

Source: MN Statute 256B.0625.Subdivision 3b(d) (Accessed Aug. 2019).

"Telemedicine is defined as the delivery of health care services or consultations while the patient is at an originating site and the licensed health care provider is at a distant site."

Source: MN Dept. of Human Services, Provider Manual, Physician and Professional Services, As revised Dec. 6, 2018. (Accessed Aug. 2019).

### **Chemical Dependency Treatment**

"Telemedicine" means the delivery of a substance use disorder treatment service while the client is at an originating site and the licensed health care provider is at a distant site as specified in section 254B.05, subdivision 5, paragraph (f).

Source: MN Statute Sec. 245G.01 (Accessed Aug. 2019).

Medical assistance covers medically necessary services and consultations delivered by a licensed health care provider via telemedicine in the same manner as if the service was delivered in-person. Coverage is limited to three telemedicine services per week per enrollee. Telemedicine services are paid at the full allowable rate.

Source: MN Statute Sec. 256B.0625, Subdivision 3b(a) (Accessed Aug. 2019).

The limit of coverage of three telemedicine services per enrollee per calendar week does not apply if:

- The telemedicine services are for the treatment and control of tuberculosis; and
- The services are provided in a manner consistent with the recommendations and best practices specified by the Centers for Disease Control and Prevention and the commissioner of health.

Source: MN Statute Sec 256B.0625, Subdivision 3b. S.F. 12 (2019) (Accessed Aug. 2019).

Minnesota's Medical Assistance program reimburses live video for fee-for-service programs.

To be eligible for reimbursement, providers must self-attest that they meet the conditions of the MHCP telemedicine policy by completing the Provider Assurance Statement for Telemedicine form.

Source: MN Dept. of Human Services, Provider Manual, Physician and Professional Services, As revised Dec. 6, 2018. (Accessed Aug. 2019).

### Examples of eligible services:

- Consultations
- Telehealth consults: emergency department or initial inpatient care
- Subsequent hospital care services with the limitation of one telemedicine visit every 30 days per eligible provider
- Subsequent nursing facility care services with the limitation of one telemedicine visit every 30 days
- End-stage renal disease services
- Individual and group medical nutrition therapy
- Individual and group diabetes self-management training with a minimum of one hour of in-person instruction to be furnished in the initial year training period to ensure effective injection training
- Smoking cessation
- Alcohol and substance abuse (other than tobacco) structured assessment and intervention services

Two-way interactive video consultation in an emergency room (ER) may be billed when no physician is in the ER and the nursing staff is caring for the patient at the originating site. The ER physician bills the ER CPT codes with place of service 02.

Telemedicine consults are limited to three per calendar week per patient. Payment is not available for sending materials to a recipient, other provider or facility. See Live Video Policy section above for exception or tuberculosis control and treatment.

# Live Video

Non-covered services:

- Electronic connections that are not conducted over a secure encrypted website as specified by the Health Insurance Portability & Accountability Act of 1996 Privacy & Security rules (e.g., Skype)
- · Prescription renewals
- · Scheduling a test or appointment
- Clarification of issues from a previous visit
- · Reporting test results
- · Non-clinical communication
- · Communication via telephone, email or facsimile
- Day treatment
- Partial hospitalization programs
- Residential treatment services
- Case management face-to-face contact

Source: MN Dept. of Human Services, Provider Manual, Physician and Professional Services, As revised Dec. 6, 2018. (Accessed Aug. 2019).

Mental health telemedicine - Mental health services that are otherwise covered by medical assistance as direct face-to-face services may be provided via two-way interactive video. Use of two-way interactive video must be medically appropriate to the condition and needs of the person being served. Reimbursement is at the same rates and under the same conditions that would otherwise apply to the service. The interactive video equipment and connection must comply with Medicare standards in effect at the time the service is provided.

Source: MN Statute Sec. 256B.0625, Subd. 46 (Accessed Aug. 2019).

### **Assertive Community Treatment and Intensive Residential Treatment Services**

Physician services, whether billed separately or included in the rate, may be delivered by telemedicine when it is within the scope practice and the provider is a member of the intensive residential treatment services treatment team.

Source: MN Senate File 1458 (2015). MN Statute Sec 256B.0622, subdivision 8(e).

### **Individualized Education Program (IEP)**

Telemedicine coverage applies to a child or youth who is MA eligible, has an IEP and the service provided is identified in the IEP. Whether the originating site is a home or school must be documented in the child's health record. Limited to three visits per week per child or youth.

To be eligible for reimbursement, the school or school district must self-attest that the telemedicine services provided by the professional provider either employed by or contracted by the school meet all of the conditions of the MHCP telemedicine policy by completing the Provider Assurance Statement for Telemedicine (DHS-6806) (PDF).

### Non-Covered Services:

- Services that are less effective than if provided in-person, face-to-face
- Supervision evaluations or visits
- Evaluations or assessments
- · Personal care assistants
- · Nursing services
- Transportation services
- Electronic connections that are conducted over a website that is not secure and encrypted as specified by the Health Insurance Portability & Accountability Act of 1996 Privacy & Security rules (for example, Skype)
- · Prescription renewals
- Scheduling a test or appointment
- · Clarification of issues from a previous visit
- · Reporting test results
- Non-clinical communication
- Communication via telephone, email or fax

Use GT modifier and 02 place of service code. See IEP manual for specific documentation and billing requirements.

Source: MN Dept. of Human Svcs., Provider Manual, IEP Services, Revised 11/16/17 (Accessed Aug. 2019).

### **Mental Health Services**

Providers authorized to provide mental health services may conduct the same services via telemedicine, except:

- Children's day treatment
- · Partial hospitalization programs
- Residential treatment services
- Case management services delivered to children

Providers should bill with the place of service code 02.

Source: MN Dept. of Human Svcs., Provider Manual, Telemedicine Delivery of Mental Health Services, Revised 10/19/18 (Accessed Aug. 2019).

### **Alcohol and Drug Abuse Services**

Individual, non-residential treatment is the only substance use disorder service reimbursed when delivered via telemedicine.

Non-covered Services:

- Electronic connections that are not conducted over a secure encrypted web site as specified by the Health Insurance Portability & Accountability Act of 1996
- · Prescription renewals
- Scheduling a test or appointment
- Reporting test results
- · Non-clinical communication
- · Communication via telephone, email or facsimile

Limited to three telemedicine services per week per recipient. Payment is not available to providers for sending materials. See manual for documentation requirements. Use the GT modifier.

### **Dental**

Teledentistry services through live video and store-and-forward are allowed. Teledentistry coverage applies to MHCP members in fee-for-service and managed care programs. See list of codes, documentation and billing requirements in provider manual. A provider must self-attest to meet all the conditions of the MHCP telemedicine policy by completing the Provider Assurance Statement for telemedicine.

Covered Services (See manual for exact CDT codes):

- · Periodic oral evaluation (with an established patient)
- · Limited oral exam
- Oral evaluation for a patient under 3 years of age
- Comprehensive oral evaluation (new or established patient)
- · Intraoral radiographic imaging
- Bitewing radiographic imaging
- · Panoramic radiographic imaging
- Medical dental consultation

Live Video

### Noncovered Services:

- Electronic connections that are not conducted over a secure encrypted website as specified by the Health Insurance Portability & Accountability Act of 1996 Privacy & Security rules (for example, Skype)
- · Prescription renewals
- · Scheduling appointment
- · Clarification of issues from a previous visit
- Reporting diagnostic results
- Non-clinical communication
- Communication via telephone, email or fax

### Early Intensive Developmental and Behavioral Intervention (EIDBI) EIDBI Services

Telemedicine is an option for Early Intensive Developmental and Behavioral Intervention (EIDBI) EIDBI services. Either the person or his/her family must be present via two-way interactive video while the provider delivers EIDBI telemedicine services. Use 02 place of service code. Coverage is limited to three telemedicine services per recipient per calendar week.

### Eligible services include:

- Comprehensive multi-disciplinary evaluation
- Coordinated care conference
- · Family/caregiver training and counseling
- · Intervention observation and direction

See EIDBI Benefits grid for more information.

Source: MN Dept. of Human Svcs., EIDBI ServicesBenefits grid, March 2019 (Accessed Aug. 2019) & MN Dept. of Human Services, EIDBI Benefit Policy Manual, EIDBI Telemedicine Services. 11/21/17. (Accessed Aug. 2019).

### **Rehabilitation Services**

MHCP allows payment for some rehabilitation services through telemedicine. Physical and occupational therapists, speech-language pathologists and audiologists may use telemedicine to deliver certain covered rehabilitation therapy services that they can appropriately deliver via telemedicine. Service delivered by this method must meet all other rehabilitation therapy service requirements and providers must adhere to the same standards and ethics as they would if the service was provided face-to-face. Must use GT or GQ modifiers. Providers must self-attest that they meet all of the conditions of MHCP telemedicine policy by completing the "Provider Assurance Statement for Telemedicine".

Limited to three sessions per week per recipient. Payment not available for sending materials to a recipient, other providers or other facilities. Payment is made only for one reading or interpretation of diagnostic tests such as x-rays, lab tests, and diagnostic assessments.

### Noncovered services:

- Electronic connections that are not conducted over a secure encrypted website as specified by HIPAA
- Scheduling a test or appointment
- Clarification of issues from a previous visit
- · Reporting test results
- Non-clinical communication
- · Communication via telephone, email or fax

Source: MN Dept. of Human Svcs., Provider Manual, Rehabilitation Svcs. Apr. 12, 2019 (Accessed Aug. 2019).

### Medication Therapy Management Services (MTMS)

Under certain circumstances MTMS can be delivered via interactive video. See section on "eligible sites" for more information. To be eligible providers must submit a provider assurance statement, use equipment compliant with HIPAA (see manual for details) and use the GT modifier and 02 POS code.

Noncovered services:

- · Encounters by telephone or by email
- Encounters in skilled nursing facilities

Source: MN Dept. of Human Svcs., Provider Manual, Medication Therapy Management Svcs. Mar. 8, 2018 (Accessed Aug. 2019).

Providers must use the place of service code 02.

### Eligible providers:

- Physician
- · Nurse practitioner
- · Physician assistant
- · Nurse midwife
- · Clinical nurse specialist
- · Registered dietitian or nutrition professional
- · Dentist, dental hygienist, dental therapist, advanced dental therapist
- · Mental health professional, when following requirements and service limitations
- Pharmacist
- · Certified genetic counselor
- Podiatrist
- Speech therapist
- · Physical therapist
- Occupational therapist
- Audiologist
- Public health nursing organizations

Source: MN Dept. of Human Services, Provider Manual, Physician and Professional Services, As revised Dec. 6, 2018. (Accessed Aug. 2019).

Medical assistance covers medically necessary services and consultations delivered by licensed health care providers, which includes providers licensed under 62A.671, subdivision 6, a community paramedic, a mental health practitioner working under the general supervision of a mental health professional and a community health worker who meets certain criteria.

Source: MN Statute Sec. 256B.0625, Subd. 3b. H.F. 148, S.F. 12 (2019).

### **Individualized Education Program (IEP)**

Eligible providers include the following:

- · Charter schools
- · Education districts
- · Intermediate districts
- Public school districts
- · Tribal schools (schools that receive funding from the Bureau of Indian Affairs-BIA)
- Service cooperatives
- Special education cooperatives
- State academies

Source: MN Dept. of Human Svcs., Provider Manual, IEP Services, Revised 11/16/17 (Accessed Aug. 2019).

### **Early Intensive Developmental and Behavioral Intervention (EIDBI) EIDBI services** Eligible Providers:

- Physician
- Nurse practitioner
- Clinical psychologist
- Clinical social worker
- · Speech therapist
- Physical therapist
- · Occupational therapist.

### Mental Health Services

Mental health practitioners working under the supervision of a mental health professional are also eligible. A comprehensive multi-disciplinary evaluation provider, qualified supervising professional, (Level I or Level II) EIDBI provider may apply to provide EI DBI services via telemedicine if they meet the qualifications and complete the Telemedicine Assurance Statement.

Source: MN Dept. of Human Services, EIDBI Benefit Policy Manual, EIDBI Telemedicine Services. 11/21/17. (Accessed Aug. 2019).

All providers eligible to deliver mental health services may deliver the same eservices via telemedicine. See manual for specific requirements a provider must follow when delivering services via telemedicine except the following:

- · Children's day treatment
- Partial hospitalization programs
- · Residential treatment services
- · Case Management, face-to-face contact

Source: MN Dept. of Human Services, EIDBI Benefit Policy Manual, EIDBI Telemedicine Services. 11/21/17. (Accessed Aug. 2019).

### **Alcohol and Drug Abuse Services**

All providers eligible to deliver the same services they are authorized to provide via telemedicine as long as they self-attest to meeting all of the conditions of the MHCP telemedicine policy by completing the Provider Assurance Statement for Telemedicine. Individual, non-residential treatment is the only substance use disorder service currently reimbursed via telemedicine.

Source: MN Dept. of Human Svcs., Provider Manual, Alcohol and Drug Abuse Services Telemedicine, Oct. 19, 2017 (Accessed Aug. 2019).

### **Rehabilitation Services**

Eligible providers:

- Speech-language pathologists
- · Physical therapists
- · Physical therapist assistants
- · Occupational therapists
- Occupational therapy assistants
- Audiologists

Physical therapist assistants and occupational therapy assistants providing services via telemedicine must follow the same supervision policy as indicated in "Rehabilitation Service Practitioners". No distant site limitations beyond provider types. Providers must self-attest that they meet all of the conditions of MHCP telemedicine policy by completing the "Provider Assurance Statement for Telemedicine". See manual for documentation requirements.

Source: MN Dept. of Human Svcs., Provider Manual, Rehabilitation Svcs. Apr. 12, 2019 (Accessed Aug. 2019).

### Authorized originating sites include:

- Office of physician or practitioner
- Hospital (inpatient or outpatient)
- Critical access hospital (CAH)
- Rural health clinic (RHC) and Federally Qualified Health Center (FQHC)
- Hospital-based or CAH-based renal dialysis center (including satellites)
- Skilled nursing facility (SNF)
- · End-stage renal disease (ESRD) facilities
- · Community mental health center
- Dental clinic
- Residential facilities, such as a group home and assisted living, shelter or group housing
- Home (a licensed or certified health care provider may need to be present to facilitate the delivery of telemedicine services provided in a private home)
- School
- Correctional facility-based office

Source: MN Dept. of Human Services, Provider Manual, Physician and Professional Services, As revised Dec. 6, 2018. (Accessed Aug. 2019).

# Live Video

### **Individualized Education Program (IEP)**

Eligible originating sites, the location of the child or youth at the time the service is provided. Document in the child's health record:

- Home
- School

Source: MN Dept. of Human Svcs., Provider Manual, Individualized Education Program, 11/16/17 (Accessed Aug. 2019).

### **Medication Therapy Management Services (MTMS)**

Qualified members who must travel more than twenty miles for enrolled MHCP MTMS provider may have the services delivered via interactive video to an ambulatory care site in which there is no enrolled MTMS provider in the local trade area. Services must meet the following criteria:

- Both the patient site and the pharmacist site must be located in a pharmacy, clinic, hospital or other ambulatory care site
- The origination site must meet the MTMS privacy and space requirements except that the space would need to seat only two people
- Qualified members may have the service delivered via interactive video to their residence if the service is performed during a covered home care visit
- The pharmacist provider's site must be located in a pharmacy, clinic, hospital or other ambulatory care site.

See manual for privacy, equipment and reimbursement requirements.

Source: MN Dept. of Human Svcs., Provider Manual, Medication Therapy Management Svcs. Mar. 8, 2018 (Accessed Aug. 2019).

### **Alcohol and Drug Abuse Services**

Eligible originating sites:

- Substance abuse disorder treatment facility (residential or outpatient)
- · Office of physician or practitioner
- Hospital (inpatient or outpatient)
- Withdrawal management facility
- · Drug court office
- Correctional facility-based office (including jails)
- School
- Community mental health center (CCBHC)
- Residential facility such as a group home and assisted living
- Home (a licensed or certified health care provider may need to be present to facilitate the delivery of telemedicine services provided in a private home)

Source: MN Dept. of Human Svcs., Provider Manual, Alcohol and Drug Abuse Services Telemedicine, Oct. 19, 2017 (Accessed Aug. 2019).

### **Dental**

Eligible Originating Sites:

- Health care facility
- Long-term care facility
- Public health agency or institution
- Public or private school authority
- · Private non-profit or charitable organizations
- Social services agency or program
- · Residential setting in the presence of licensed healthcare providers

Affiliate practice or originator within Minnesota Board of Dentistry defined scope of practice must be present at originating site:

- Dentist
- Advanced dental therapists
- Dental therapists
- Dental hygienists
- · Licensed dental assistants
- Other licensed health care professionals

Source (dental): MN Dept. of Human Svcs., Provider Manual, Dental Svcs. Feb. 20, 2019 (Accessed Aug. 2019).

### **Rehabilitation Services**

Eligible originating sites:

- · Office of physician or practitioner
- Hospital (inpatient or outpatient)
- · Critical access hospital (CAH)
- Rural health clinic (RHC) and Federally Qualified Health Center (FQHC)
- Hospital-based or CAH-based renal dialysis center (including satellites)
- Skilled nursing facility (SNF)
- · End-stage renal disease (ESRD) facilities
- · Community mental health center
- Dental clinic
- · Residential facilities, such as a group home and assisted living
- Home (a licensed or certified health care provider may need to be present to facilitate the delivery of telemedicine services provided in a private home)
- School

Source: MN Dept. of Human Svcs., Provider Manual, Rehabilitation Svcs. Apr. 12, 2019 (Accessed Aug. 2019).

### **Tribal Facilities**

Outpatient telemedicine services are reimbursable at the IHS outpatient reimbursement rate when provided through a tribal facility. An encounter for a tribal or IHS facility means a face-to-face visit.

Source: MN Dept. of Human Svcs., Provider Manual, Tribal and Federal Indian Health Svcs., May 9, 2019 (Accessed Aug. 2019).

# Store-and-Forward

### **Rehabilitation Services**

MHCP allows payment for some rehabilitation services through telemedicine. Physical and occupational therapists, speech-language pathologists and audiologists may use telemedicine to deliver certain covered rehabilitation therapy services that they can appropriately deliver via telemedicine. Service delivered by this method must meet all other rehabilitation therapy service requirements and providers must adhere to the same standards and ethics as they would if the service was provided face-to-face. Must use GQ modifier for store-and-forward. Providers must self-attest that they meet all of the conditions of MHCP telemedicine policy by completing the "Provider Assurance Statement for Telemedicine".

Limited to three sessions per week per recipient. Payment not available for sending materials to a recipient, other providers or other facilities.

### Noncovered services:

- Electronic connections that are not conducted over a secure encrypted website as specified by HIPAA
- Scheduling a test or appointment
- · Clarification of issues from a previous visit
- · Reporting test results
- Non-clinical communication
- Communication via telephone, email or fax

### Eligible providers:

- · Speech-language pathologists
- Physical therapists
- · Physical therapist assistants
- Occupational therapists
- Occupational therapy assistants
- Audiologists

Physical therapist assistants and occupational therapy assistants providing services via telemedicine must follow the same supervision policy as indicated in "Rehabilitation Service Practitioners". No distant site limitations beyond provider types. See manual for documentation requirements.

### Early Intensive Developmental and Behavioral Intervention (EIDBI) services

Services must be:

- Documented in the person's individual treatment plan (ITP)
- Compliant with HIPAA and security requirements and regulation
- Medically appropriate to the condition and needs of the person and/or family

Source: MN Dept. of Human Services, EIDBI Benefit Policy Manual, EIDBI Telemedicine Services. 11/21/17. (Accessed Aug. 2019).

"Telemedicine" means the delivery of health care services or consultations while the patient is at an originating site and the licensed health care provider is at a distant site. A communication between licensed health care providers that consists solely of a telephone conversation, e-mail, or facsimile transmission does not constitute telemedicine consultations or services. A communication between a licensed health care provider and a patient that consists solely of an e-mail or facsimile transmission does not constitute telemedicine consultations or services. Telemedicine may be provided by means of real-time two-way, interactive audio and visual communications, including the application of secure video conferencing or store-and-forward technology to provide or support health care delivery, which facilitate the assessment, diagnosis, consultation, treatment, education, and care management of a patient's health care.

Source: MN Statute Sec. 62A.67. (Accessed Aug. 2019).

# Requirements

Private payers are required to provide coverage for telemedicine in the same manner, and at the same reimbursement rate, as other services provided in-person.

A health carrier can establish criteria that a health care provider must meet to demonstrate the safety or efficacy of delivering a service via telemedicine. They can also require a health care provider to agree to certain documentation or billing practices to protect against fraud.

Source: MN Statute Sec. 62A.672. (Accessed Aug. 2019).

# Private Payer Law

A health carrier shall reimburse on the same basis that would apply to those services if the service had been delivered in-person. However, the carrier can establish criteria that a health care provider must meet to demonstrate the safety or efficacy of delivering a service via telemedicine. They can also require a health care provider to agree to certain documentation or billing practices to protect against fraud.

Source: MN Statute Sec. 62A.672. (Accessed Aug. 2019).

A health carrier must reimburse at the same rate as the health carrier would for in-person delivered services.

A physician-patient relationship may be established through telemedicine.

Source: MMN Statute 147.033. (Accessed Aug. 2019).

A prescription or drug order is not valid unless it can be established that the prescription or order was based on a documented patient evaluation, including an examination, adequate to establish a diagnosis and identify underlying conditions and contraindications to treatment.

The requirement for an examination shall be met if an in-person examination has been completed by the referring practitioner (when consultant practitioner is issuing prescription or drug order) when providing services by means of telemedicine.

Source: MN Statute Sec. 151.37 Subd. 2(d). (Accessed Aug. 2019).

For purposes of a provider prescribing ophthalmic goods, the provider must establish a provider-patient relationship through one of the following methods:

- In person;
- Face-to-face interactive, two-way, real-time communication; or
- Through store-and-forward technologies when all of the following conditions are met: The provider obtains an updated medical history and makes a diagnosis at the time of prescribing; the provider conforms to the standard of care expected of in-person care; the ophthalmic prescription is not determined solely by use of an online questionnaire; the provider is licensed and authorized to issue an ophthalmic prescription in MN; and upon request, the provider provides patient records in a timely manner.

Source: MN Statute Sec. 145.713, Subd. 4. HF 559 (2019).

**Cross-State Licensing** 

A physician licensed in another state can provide telemedicine services to a patient in Minnesota if their license has never been revoked or restricted in any state, they agree to not open an office in Minnesota, meet with patients in Minnesota, or receive calls in Minnesota from patients and they register with the state's board. These requirements do not apply in response to emergency medical conditions, the services are on an irregular or infrequent basis, or the physician provides interstate telemedicine services in consultation with a physician licensed in Minnesota.

Source: MN Statute Sec. 147.032. (Accessed Aug. 2019).

Minnesota is a member of the interstate medical licensure compact.

### Mississippi

Medicaid Program: Mississippi Medicaid

Program Administrator: Mississippi Division of Medicaid

Regional Telehealth Resource Center: South Central Telehealth Resource Center

Covers the States of: Arkansas, Mississippi & Tennessee

www.learntelehealth.org

ummary

Mississippi Medicaid reimburses certain providers for live video telehealth when there is a telepresenter with the patient. They also reimburse for store-and-forward teleradiology, and for remote patient monitoring for patients with certain chronic conditions.

ļ

Telemedicine means the delivery of health care services such as diagnosis, consultation, or treatment through the use of interactive audio, video or other electronic media. Telemedicine must be "real-time" consultation, and it does not include the use of audio-only telephone, e-mail or facsimile.

Source: MS Code Sec. 83-9-351(1)(d). (Accessed Sept. 2019).

The Division of Medicaid defines telemedicine as a method which uses electronic information and communication equipment to supply and support health care when remoteness disconnects patients and links primary care physicians, specialists, providers, and beneficiaries which includes, but is not limited to, telehealth services, remote patient monitoring services, teleradiology services, store-and-forward and continuous glucose monitoring services.

The Division of Medicaid defines telehealth services as the delivery of health care by an enrolled Medicaid provider, through a real-time communication method, to a beneficiary who is located at a different site. The interaction must be live, interactive, and audiovisual.

Source: MS Admin. Code Title 23, Part 225, Rule. 1.1 (Accessed Sept. 2019).

Telehealth service is defined as the practice of health care delivery by a provider to a beneficiary who is under the care of a provider at a different geographical location.

Source: State of Mississippi. State Plan Under Title XIX of the Social Security Act. Medical Assistance Program. Attachment 3.1-A. 3/31/15. (Accessed Sept. 2019).

Medicaid Telehealth Reimbursement

Live Video

Mississippi Medicaid and private payers are required to provide coverage for live video consultations.

Source: MS Code Sec. 83-9-351. (Accessed Sept. 2019).

Telehealth services allowed when delivered by an enrolled Medicaid provider acting within their scope of practice and license and in accordance with state and federal guidelines, including authorization of prescription medication at both the originating and distant site.

Source: MS Admin. Code Title 23, Part 225, Rule. 1.2B (Accessed Sept. 2019).

Medicaid covers medically necessary health services via telehealth when that service is covered in an in-person setting and is live, interactive and audiovisual.

Source: State of Mississippi. State Plan Under Title XIX of the Social Security Act. Medical Assistance Program. Attachment 3.1A. 3/31/15. (Accessed Sept. 2019).

for an in-person visit or encounter for consultations, office visits and/or outpatient visits.

The Division of Medicaid covers medically necessary telehealth services as a substitution

### Noncovered Services:

- Telehealth services in the inpatient setting;
- Separate reimbursement for installation or maintenance of telehealth equipment
- The following modalities, which MS Medicaid does not consider telehealth: telephone conversation, chart review, electronic mail messages, facsimile transmission, internet services for online medical evaluations, or communication through social media;
- The installation or maintenance of any telecommunication devices or systems.

The Division of Medicaid reimburses a provider delivering the medically necessary telehealth service at the distant site the current applicable MS Medicaid fee for the service provided if it is a service covered in an in-person setting.

Source: MS Admin. Code Title 23, Part 225, Rule. 1.3-1.5 (Accessed Sept. 2019).

There is live video reimbursement for Medicaid mental health medication evaluation and management.

Source: MS Admin. Code Title 23, Part 206, Rule. 1.9, pg. 29. (Accessed Sept. 2019).

### Any enrolled Medicaid provider may provide telehealth services at the originating site. The following enrolled Medicaid providers may provide telehealth services at the distant site:

- Physicians,
- Physician assistants,
- Nurse practitioners,
- Psychologists,
- Licensed Clinical Social Workers (LCSW),
- Licensed Professional Counselors (LPCs),
- Board Certified Behavior Analysts or Board Certified Behavior Analyst Doctorals

Source: MS Admin. Code Title 23, Part 225, Rule. 1.2(C). (Accessed Sept. 2019).

There must be an enrolled Medicaid provider that performs the duties of the telepresenter at the originating site by:

- Acting within their scope-of-practice and license and be physically present in the room at all times during the telehealth service; or
- Providing direct supervision to qualified healthcare professionals acting within their scope of practice who must be an enrolled Medicaid provider and be physically present during the entirety of the telehealth service.

Source: MS Admin Code Title 23, Part 225, Rule 1.2(C). (Accessed Sept. 2019).

An originating site fee is covered in the following originating sites:

- · Office of a physician or practitioner;
- Outpatient Hospital (including a Critical Access Hospital (CAH));
- · Rural Health Clinic (RHC);
- Federally Qualified Health Center (FQHC);
- · Community Mental Health/Private Mental Health Centers;
- · Therapeutic Group Homes;
- · Indian Health Service Clinic; or
- School-based clinic.

# Private Payer Laws

## Requirements

A health insurance or employee benefit plan can limit coverage to health care providers in a telemedicine network approved by the plan.

All health insurance and employee benefit plans in this state must provide coverage for telemedicine services to the same extent that the services would be covered if they were provided through in-person consultation.

A health insurance or employee benefit plan is not prohibited from providing coverage for only those services that are medically necessary, subject to the terms and conditions of the covered person's policy.

The originating site is eligible to receive a facility fee.

Source: MS Code Sec. 83-9-351 & MS Code Sec. 83-9-353. (Accessed Sept. 2019).

### **Store-and-forward and Remote Patient Monitoring**

All health insurance and employee benefit plans in this state must provide coverage and reimbursement for the asynchronous telemedicine services of store-and-forward telemedicine services and remote patient monitoring services based on the criteria set out in this section.

Patients receiving medical care through store-and-forward must be notified of their right to receive interactive communication with the distant site specialist health care provider and shall receive an interactive communication with the distant specialist upon request. If requested, the communication may occur at the time of consultation or within 30 days of the patient's request. Telemedicine networks unable to offer this will not be reimbursed for store and forward telemedicine services.

To qualify for remote patient monitoring services, patients must meet all of the following criteria:

- Be diagnosed in the last 18 months with one or more chronic conditions, as defined by CMS.
- Have a recent history of costly services due to one or more chronic conditions as evidenced by two or more hospitalizations, including emergency room visits in the last 12 months; and
- The patient's healthcare provider recommends disease management services via remote patient monitoring.

Remote patient monitoring prior authorization request form must be submitted to request telemonitoring services and include:

- An order for home telemonitoring, signed and dated by a prescribing physician
- A plan of care, signed and dated by the prescribing physician
- The client's diagnosis and risk factors that qualify the client for home telemonitoring services
- Attestation that the client is sufficiently cognitively intact and able to operate the equipment or has a willing and able person to assist
- Attestation that the client is not receiving duplicative services via disease management services.

The entity providing remote patient monitoring must be located in Mississippi and have protocols in place meeting specified criteria listed in Mississippi law.

The law lists specific technology requirements, non-English language options, and 24/7 technical and clinical support services available.

Monitoring of a client's data cannot be duplicated by another provider.

The service must include

- An assessment, problem identification, and evaluation including:
  - Assessment and monitoring of clinical data
  - · Detection of condition changes based on the telemedicine encounter
- Implementation of a management plan through one or more of the following:
  - Teaching regarding medication management
  - Teaching regarding other interventions
  - Management and evaluation of the plan of care
  - · Coordination of care with the ordering health care provider
  - · Coordination and referral to other medical providers as needed
  - Referral for an in-person visit or the emergency room as needed

Private Payer Laws
onal Regulation/Health & Safety

# 0

Consent

All health insurance plans must provide coverage for telemedicine services, including live video and store-and-forward, to the same extent as in-person consultations. Remote patient monitoring is also reimbursed based on the criteria outlined in MS code.

A health insurance plan may charge a deductible, co-payment, or coinsurance for a health care service provided through telemedicine so long as it does not exceed the deductible, co-payment, or coinsurance applicable to an in-person consultation.

A health insurance or employee benefit plan can limit coverage to health care providers in a telemedicine network approved by the plan.

Source: MS Code Sec. 83-9-351 & MS Code Sec. 83-9-353. (Accessed Sept. 2019).

No explicit payment parity.

### **Remote Patient Monitoring Reimbursement**

Remote patient monitoring services are required to include reimbursement for a daily monitoring rate at a minimum of ten dollars per day each month and sixteen dollars per day when medication adherence management services are included, not to exceed 31 days per month.

A one-time installation/training fee for remote patient monitoring services will also be reimbursed at a minimum rate of fifty dollars per patient, with a maximum of two installation/training fees per calendar year.

These reimbursement rates are only eligible to Mississippi-based telehealth programs affiliated with a Mississippi health care facility.

Source: MS Code Sec. 83-9-353. (Accessed Sept. 2019).

### **Practice of Medicine**

Telemedicine is the practice of medicine using electronic communication, information technology or other means between a physician in one location and a patient in another location with or without an intervening health care provider. This definition does not include the practice of medicine through postal or courier services.

Source: MS Admin. Code Title 30, Part 2635, Rule 5.1. (Accessed Sept. 2019).

### **Cross-State Practice**

Telemedicine, or the practice of medicine across state lines, shall be defined to include any one or both of the following:

- Rendering of a medical opinion concerning diagnosis or treatment of a patient within this state by a physician located outside this state as a result of transmission of individual patient data by electronic or other means from within this state to such physician or his agent; or
- The rendering of treatment to a patient within this state by a physician located outside this state as a result of transmission of individual patient data by electronic or other means from within this state to such physician or his agent.

Source: MS Code Sec. 73-25-34(1). (Accessed Sept. 2019).

The physician should obtain the patient's informed consent before providing care. The patient should be provided with information relative to treatment, the risk and benefits of being treated via a telemedicine network and how to receive follow-up care or assistance.

Source: MS Admin. Code Title 30, Sec. 2635, Rule 5.3. (Accessed Sept. 2019).

Professional Regulation/Health & Safety

A prescription for a controlled substance based solely on a consumer's completion of an online medical questionnaire is not a valid prescription.

Source: MS Code Sec. 41-29-137(f)(3) (Accessed Sept. 2019).

To establish the physician patient relationship through telemedicine, it must include:

- · Verify the identity of the person;
- Conduct an appropriate history and physical examination (which can be conducted via telemedicine);
- Establish a diagnosis through the use of acceptable medical practice;
- Discuss with the patient the diagnosis, risks and benefits of various treatment options to obtain informed consent;
- Insuring the availability of appropriate follow up care; and
- Maintaining a complete medical record available to patient and other treating health care providers.

Physicians using telemedicine to provide medical care must provide an appropriate examination prior to diagnosis and treatment of a patient. The exam does not need to be in-person if the technology is sufficient to provide the same information to the physician as if the exam had been performed face-to-face.

Source: MS Admin. Code Title 30, Sec. 2635, Rule 5.4 & 5.5. (Accessed Sept. 2019).

No person may engage in the practice of medicine across state lines in Mississippi unless they first obtain a license to do so from the State Board of Medical Licensure and meet all educational and licensure requirements as determined by the Board. These requirements are not required where the evaluation, treatment and/or the medical opinion to be rendered by a physician outside the state is requested by a physician duly licensed to practice medicine in the state, and the physician who has requested the evaluation, treatment and/or medical opinion has already established a doctor/patient relationship with the patient to be evaluated and/or treated.

Source: MS Code Sec. 73-25-34. (Accessed Sept. 2019)

The practice of medicine is deemed to occur in the location of the patient, therefore physicians practicing telemedicine must have a Mississippi medical license. The interpretation of clinical laboratory studies as well as pathology and histopathology studies performed by physicians without Mississippi licensure is not the practice of telemedicine if a Mississippi licensed physician is responsible for accepting, rejecting, or modifying the interpretation.

Miscellaneous

A physician treating a patient through a telemedicine network must maintain a complete record of the patient's care.

No physician practicing telemergency medicine shall be authorized to function in a collaborative/consultative role unless their practice location is a Level One Hospital Trauma Center that is able to provide continuous twenty-four hour coverage and has an existing air ambulance system in place. Coverage will be authorized only for those emergency departments of licensed hospitals who have an average daily census of thirty or fewer acute care/medical surgical occupied beds as defined by their Medicare Cost Report.

Miscellaneous

finitions

"Telehealth" or "telemedicine", the delivery of health care services by means of information and communication technologies which facilitate the assessment, diagnosis, consultation, treatment, education, care management, and self-management of a patient's health care while such patient is at the originating site and the health care provider is at the distant site. Telehealth or telemedicine shall also include the use of asynchronous store-and-forward technology.

Source: MO Revised Statute Title XXIV Business and Professions, Sec. 376.1900, which references Sec. Title XII Public Health and Welfare Sec. 208.670 which references Title XII Sec. 191.1145. (Accessed Aug. 2019)

Requirements

Health carriers shall not deny coverage for a health care service on the basis that the health care service is provided through telehealth if the same service would be covered if provided through face-to-face diagnosis, consultation, or treatment.

A health carrier may not exclude an otherwise covered health care service from coverage solely because the service is provided through telehealth rather than face-to-face consultation or contact between a health care provider and a patient.

A health carrier shall not be required to reimburse a telehealth provider or a consulting provider for site origination fees or costs for the provision of telehealth services; however, subject to correct coding, a health carrier shall reimburse a health care provider for the diagnosis, consultation, or treatment of an insured or enrollee when the health care service is delivered through telehealth on the same basis that the health carrier covers the service when it is delivered in-person.

A health carrier or health benefit plan may limit coverage for health care services that are provided through telehealth to health care providers that are in a network approved by the plan or the health carrier.

### Licensing of Physicians and Surgeons

Telehealth means the use of medical information exchanged from one site to another via electronic communications to improve the health status of a patient.

Source: MO Code of State Regulation. Title 20, 2150-2.001. (Accessed Aug. 2019).

### **Collaborative Care Arrangement**

Telehealth providers (including Advanced Practice Registered Nurses who providing nursing services under a collaborative practice arrangement) are required to obtain patient (or the patient's guardian's) consent and document consent in patient's record.

Source: MO Code of State Regulation. Title 20, 2150-2.240(2(F)) & Sec. 20, 2150-5.100(3(H)) & MO Revised Statute Title XXII Occupations and Professions Ch. 335.175. (Accessed Aug. 2019).

Prescribing or dispensing drugs without sufficient examination is prohibited.

Source: MO Revised Statutes § 334.100(4)(h) (2012). (Accessed Aug. 2019).

A telemedicine encounter can establish a physician-patient relationship if the standard of care does not require an in-person encounter and in accordance with evidence-based standards of practice and telemedicine practice guidelines that address the clinical and technological aspects of telemedicine.

In order to establish a physician-patient relationship through telemedicine:

- The technology utilized shall be sufficient to establish an informed diagnosis as though the medical interview and physical examination has been performed in-person; and
- Prior to providing treatment, including issuing prescriptions, a physician who uses
  telemedicine shall interview the patient, collect or review relevant medical history, and
  perform an examination sufficient for the diagnosis and treatment of the patient. A
  questionnaire completed by the patient, whether via the internet or telephone, does not
  constitute an acceptable medical interview and examination for the provision of treatment
  by telehealth.

Source: MO Revised Statute Ch. 191 Sec. 191.1146. (Accessed Aug. 2019).

In addition, in order to prescribe, the relationship includes:

- Obtaining a reliable medical history and performing a physical examination of the patient, adequate to establish the diagnosis for which the drug is being prescribed and to identify underlying conditions or contraindications to the treatment recommended or provided;
- 2. Having sufficient dialogue with the patient regarding treatment options and the risks and benefits of treatment or treatments;
- 3. If appropriate, following up with the patient to assess the therapeutic outcome;
- 4. Maintaining a contemporaneous medical record that is readily available to the patient and, subject to the patient's consent, to the patient's other health care professionals; and
- 5. Maintaining the electronic prescription information as part of the patient's medical record.

**Online Prescribing** 

The requirements of subsection 1 (see above) may be satisfied by the prescribing physician's designee when treatment is provided in:

- A hospital;
- · A hospice program;
- · Home health services provided by a home health agency;
- · Accordance with a collaborative practice agreement;
- Conjunction with a physician assistant licensed;
- Conjunction with an assistant physician;
- Consultation with another physician who has an ongoing physician-patient relationship
  with the patient, and who has agreed to supervise the patient's treatment, including use of
  any prescribed medications; or
- On-call or cross-coverage situations.

No health care provider shall prescribe any drug, controlled substance, or other treatment to a patient based solely on an evaluation over the telephone; except that, a physician or such physician's on-call designee, or an advanced practice registered nurse, a physician assistant, or an assistant physician in a collaborative practice arrangement with such physician may prescribe any drug, controlled substance, or other treatment that is within his or her scope of practice to a patient based solely on a telephone evaluation if a previously established and ongoing physician-patient relationship exists between such physician and the patient being treated.

No health care provider shall prescribe any drug, controlled substance, or other treatment to a patient based solely on an internet request or an internet guestionnaire.

Source: MO Revised Statute Sec. 334.108. (SB 514 - 2019) (Accessed Aug. 2019).

In order to treat patients in this state through the use of telemedicine or telehealth, health care providers shall be fully licensed to practice in this state and shall be subject to regulation by their respective professional boards.

Does not apply to:

- Informal consultation performed by a health care provider licensed in another state, outside
  of the context of a contractual relationship, and on an irregular or infrequent basis without the
  expectation or exchange of direct or indirect compensation;
- Furnishing of health care services by a health care provider licensed and located in another state in case of an emergency or disaster; provided that, no charge is made for the medical assistance; or
- Episodic consultation by a health care provider licensed and located in another state who provides such consultation services on request to a physician in this state.

Nebraska Medicaid reimburses for live video, store-and-forward, and remote patient monitoring under some circumstances. Reimbursement for store-and-forward is only specified for teleradiology.

### nitions

**Medicaid Telehealth Reimbursement** 

Telehealth consultation means any contact between a client and a health care practitioner relating to the health care diagnosis or treatment of such client through telehealth. For the purposes of telehealth, a consultation includes any service delivered through telehealth.

Telemonitoring is the remote monitoring of a client's vital signs, biometric data, or subjective data by a monitoring device which transmits such data electronically to a health care practitioner for analysis and storage.

Source: NE Admin. Code Title 471 Sec. 1-006.02, Ch. 1, Manual Letter #52-2016. & NE Rev. Statute, 71-8503. (Accessed Sept. 2019).

Telehealth means the use of medical information electronically exchanged from one site to another, whether synchronously or asynchronously, to aid a health care practitioner in the diagnosis or treatment of a patient. Telehealth includes services originating from a patient's home or any other location where such patient is located, asynchronous services involving the acquisition and storage of medical information at one site that is then forwarded to or retrieved by a health care practitioner at another site for medical evaluation, and telemonitoring.

Source: NE Rev. Statute, 71-8503(3) (Accessed Sept. 2019).

#### Policy

Nebraska Medicaid provides coverage for telehealth at the same rate as in-person services when the technology meets industry standards and is HIPAA compliant.

Medicaid will reimburse a consulting health care provider if after obtaining and analyzing the transmitted information, the consulting provider reports back to the referring health care practitioner. Payment is not made to the referring health care practitioner who sends the medical documentation. Reimbursement is at the same rate as in-person services.

Practitioner consultation is not covered for behavioral health when the client has an urgent psychiatric condition requiring immediate attention by a licensed mental health practitioner.

Source: NE Admin. Code Title 471 Sec. 1-006.08-.09, Ch. 1, Manual Letter #52-2016, p. 18-19. (Accessed Sept. 2019).

In-person contact is not required for reimbursable services under the Medicaid program, subject to reimbursement policies developed. This policy also applies to managed care plans who contract with the Department only to the extent that:

- Services delivered via telehealth are covered and reimbursed under the fee-for-service program and
- Managed care contracts are amended to add coverage of services delivered via telehealth and appropriate capitation rate adjustments are incorporated.

Reimbursement shall, at a minimum, be set at the same rate as a comparable in-person consult and the rate must not depend on the distance between the health care practitioner and the patient.

The Department of Health and Human Services will establish rates for transmission cost reimbursement for telehealth consultations, which will include all applicable two-way. real-time, interactive communications, unless provided by an internet service provider.

Source: NE Revised Statutes Sec. 71-8506. (Accessed Sept. 2019).

#### Children's Behavioral Health

A trained staff member must be immediately available to a child receiving telehealth behavioral health services. This requirement may be waived by a legal quardian and in cases where there is a threat that the child may harm themselves or others, a safety plan must be developed before the telehealth interaction takes place.

Source: NE Admin. Code Title 471, Sec. 1-006.05(6), Ch. 1, Manual Letter #52-2016, p. 18. (Accessed Sept. 2019).

#### **Federally Qualified Health Centers & Rural Health Clinics**

FQHC and RHC payment for telehealth services is the Medicaid rate for a comparable in-person service. FQHC & RHC core services provided via telehealth are not covered under the encounter rate.

Source: NE Admin, Code Title 471, Sec. 29-004.05, Ch. 29, Manual Letter #11-2010, p. 5, & NE Admin, Code Title 471, Sec. 34-007, Ch. 34, Manual Letter #11-2010. (Accessed Sept. 2019).

# Remote Patient Monitoring

Email / Phone / Fax

No reimbursement for telephone. Follow-up calls after the initial evaluation are included in the cost of the evaluation. Reimbursement may be made for telephone consultations with another physician if the name of the consulting physician is indicated on or in the claim.

Source: NE Admin. Code Title 471, Sec. 18-004.38, Ch. 18, Manual Letter #59-2003. & NE Admin. Code Title 471, Sec. 18-004.50B, Ch. 18, Manual Letter #93-2008. (Accessed Sept. 2019).

Written or email consent required before initial service delivery. Must include this information:

- A list of alternative care options, including in-person services;
- All existing laws and protections including: confidentiality protections, patient access to all medical information from the consult, and dissemination of client identifiable informa-
- Whether the telehealth consultation will be recorded;
- Patient shall be informed of all parties present at both ends of the consult, and the patient may exclude anyone from either site;
- For telehealth behavioral health services, a safety plan must be developed;
- For a child not receiving telehealth behavioral health services a safety plan must be devel-
- Special rules apply for a child who is receiving telehealth behavioral health services;
- Written consent will become part of the client's medical record and a copy must be provided to the client or authorized representative; and
- If the client is a child or otherwise unable to sign the consent form, the client's legally authorized representative shall provide the consent.

Sample patient consent form available in Manual Appendix.

Source: NE Admin. Code Title 471 Sec. 1-006.05, Ch. 1, Manual Letter #52-2016, p. 17-18. (Accessed Sept. 2019).

Written patient consent is required prior to an initial telehealth consultation. If the patient is a minor, incapacitated, or mentally incompetent such that they are unable to sign the written statement, written consent must be obtained from the patient's legally authorized representative. Consent is not required in emergency situations.

# **Medicaid Telehealth Reimbursement**

#### Out-of-State Telehealth Services are covered:

- During an emergency from an accident or sudden illness when the enrollee is out of state and the health of the enrollee is endangered if medical attention is postponed until a return to Nebraska;
- When the enrollee customarily obtains a medically necessary service in another state because the service is more accessible;
- When the client requires a medically necessary service that is not available in Nebraska;
- · When the client requires a medically necessary nursing facility.

Prior authorization is required for services provided outside of Nebraska when:

- When the distant site is located in another state and the originating site is located in Nebraska; or
- When the Nebraska client is located at an originating site in another state, whether or not the provider's distant site is located in or out of Nebraska

Source: NE Admin. Code Title 471 Sec. 1-002.02G & 1-006.12, Ch. 1, Manual Letter #52-2016, p. 8 & 20. (Accessed Sept. 2019).

## liscellaneous

**Out of State Providers** 

NE Medicaid does provide an outpatient cardiac rehabilitation program consisting of physical exercise or conditioning and concurrent telemetric monitoring are considered a valuable therapeutic modality. When a program is provided by a hospital to its outpatients, the service is covered as an outpatient service.

## Definitions

Requirements

Telehealth means the use of medical information electronically exchanged from one site to another, whether synchronously or asynchronously, to aid a health care provider in the diagnosis or treatment of a patient. Telehealth includes services originating from a patient's home or any other location where such patient is located, asynchronous services involving the acquisition and storage of medical information at one site that is then forwarded to or retrieved by a health care provider at another site for medical evaluation, and telemonitoring.

Telemonitoring means the remote monitoring of a patient's vital signs, biometric data, or subjective data by a monitoring device which transmits such data electronically to a health care provider for analysis and storage.

Source: NE Revised Statutes. Sec. 44-312(1). (Accessed Sept. 2019).

## Private Payer Laws

Private payers and self-funded employee benefit plans must provide, upon the request of a policy-holder, certificate holder, or health care provider, a description of the telehealth and telemonitoring services covered under the relevant policy, certificate, contract, or plan. The description must include:

- Description of services in telehealth and telemonitoring (including any coverage for transmission costs):
- Exclusions or limitations (including limitation on transmission costs);
- · Requirements for licensing status;
- · Requirements for signed written consent.

Source: NE Revised Statute, Sec. 44-312. (Accessed Sept. 2019).

ayer Laws	Parity	Private payers and self-funded employee benefit plans are prohibited from excluding a service from coverage solely because the service is delivered through telehealth and is not provided through in-person consultation or contact between a licensed health care provider and a patient. This does not apply to policies, certificates, contracts, or plans that provide coverage for a specified disease or other limited-benefit coverage.  Source: NE Revised Statutes, Sec. 44-7,107. (Accessed Sept. 2019).
Private Payer Laws		No explicit payment parity.
n/Health & Safety	Definitions	Uniform Credentialing Act (Licensed/Credentialed Health Professionals)  Telehealth means the use of medical information electronically exchanged from one site to another, whether synchronously or asynchronously, to aid a credential holder in the diagnosis or treatment of a patient. Telehealth includes services originating from a patient's home or any other location where such patient is located, asynchronous services involving the acquisition and storage of medical information at one site that is then forwarded to or retrieved by a credential holder at another site for medical evaluation, and telemonitoring.  Source: NE Revised Statutes Sec. 38-120.01. (Accessed Sept. 2019). ## Nevada

Medicaid Program: Nevada Medicaid

**Program Administrator:** Division of Health Care Financing and Policy (DHCFP) Regional Telehealth Resource Center: Southwest Telehealth Resource Center

Covers the States of: Arizona, Colorado, Nevada, New Mexico, and Utah

https://southwesttrc.org

#### Nevada Medicaid and the Nevada Check Up (NCU) program reimburses for live video and storeand-forward services under specific conditions. There is no reimbursement for remote patient monitoring. "Telehealth is the use of a telecommunications system to substitute for an in-person encounter for **Medicaid Telehealth Reimbursement** professional consultations, office visits, office psychiatry services, and a limited number of other medical services." "Telehealth" is defined as the delivery of service from a provider of health care to a patient at a different location through the use of information and audio-visual communication technology, not including standard telephone, facsimile, or electronic mail. Source: NV Dept. of Health and Human Svcs., Medicaid Services Manual, Section 3400, p. 1 (Jul. 27, 2017). (Accessed Sept. 2019). Nevada Medicaid and Nevada Check Up program will reimburse for live video, as long as services have parity with face-to-face services and health care professionals follow efficiency, economy, and quality of care. Live Video Telehealth services follow the same prior authorization requirements as services provided

Medicaid's policies for specific services they are providing, as well as practice standards established by licensing agencies. Reimbursement must satisfy federal requirements for

in-person. Utilization of telehealth services does not require prior authorization. However, individual services may require prior authorization when delivered by telehealth.

End Stage Renal Disease requires at least one in-person visit, indicated in the medical records. Interactive audio/video telecommunications systems may be used for providing additional visits.

Medicaid Managed Care plans must include coverage for services provided through telehealth to the same extent as through provided in-person or by other means.

Medicaid Managed Care plans shall not:

- Require an enrollee to establish an in-person relationship with a provider or provide any additional consent to or reason for obtaining services through telehealth;
- Require a provider of health care to demonstrate that it is necessary to provide services to an enrollee through telehealth or receive any additional type of certification or license:
- Refuse to provide services through telehealth because the distant site or originating site provides/receives services via telehealth; or
- Require covered services to be provided through telehealth as a condition of providing coverage for such services.

A Medicaid Managed Care plan may not require an enrollee to obtain prior authorization for any service provided through telehealth that is not required for the service when provided in-person.

Medicaid Managed Care plans are not required to:

- Ensure that covered services are available to an enrollee through telehealth at a particular originating site
- Provide coverage for a service that is not a covered service or that is not provided by a covered provider of health care; or
- Enter into a contract with any provider of health care or cover any service if the insurer is not otherwise required by law to do so.

Source: NV Revised Statute Sec. 695G.162. (Accessed Sept. 2019).

#### Telehealth services are covered in:

- Physician Office Services
- Podiatry
- Community Paramedicine Services
- Medical Nutrition Therapy

Source: NV Dept. of Health and Human Svcs., Medicaid Services Manual, Section 603.2, p. 3; 603.7, p. 20; 604.2, p. 2; & 608.2, p. 3 (Oct. 1, 2018) (Accessed Sept. 2019).

#### Services NOT Covered:

- Basic skills training and peer-to-peer services provided by a Qualified Behavioral
- Personal care services provided by a Personal Care Attendant
- Home Health Services provided by a RN, occupational therapist, physical therapist, speech therapist, respiratory therapist, dietician or Home Health Aide
- Private Duty Nursing services provided by a RN

Source: NV Dept. of Health and Human Svcs., Medicaid Services Manual, Section 3403.6, p. 3 (Jul. 27, 2017). (Accessed Sept.

## **New Hampshire**

Medicaid Program: New Hampshire Medicaid

Program Administrator: Dept. of Health and Human Services

Regional Telehealth Resource Center: Northeast Telehealth Resource Center

Covers the States of: Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island &

Vermont

www.netrc.org

#### New Hampshire Medicaid follows the Center for Medicare and Medicaid Services requirements Summary and Federal regulations for the use of telehealth and telemedicine. Reimbursement is available for live video under some circumstances. There is no reimbursement for store-and-forward or remote patient monitoring services, based on Medicare restrictions. "Telehealth services" and the term "telemedicine" shall comply with 42 C.F.R. section 410.78 and the Centers for Medicare and Medicaid Services requirements, except for 42 C.F.R. section 410.78(b)(4). Source: NH Revised Statutes 167:4-d (Accessed Sept. 2019). **Medicaid Telehealth Reimbursement** Limited reimbursement for some live video services. NH Medicaid follows the reimbursement policies of Medicare with the exception of CMS' geographic requirement. However, CMS' restrictions on modality, originating site, services, and distance providers still apply. A Medicaid program is not prohibited from providing coverage for only those services that Policy are medically necessary and subject to all other terms and conditions of the coverage. **Recently Passed Legislation** Telemedicine services for primary care and substance use disorder services are covered only when the patient has established care at an originating site via face-to-face in-person service. Live Video Source: NH Revised Statutes 167:4-d (Accessed Sept. 2019) (SB - 258). New Hampshire Medicaid complies with the Centers for Medicare and Medicaid Service requirements for telehealth. See Medicare's list of CPT codes for a full list of services reimbursable under New Hampshire Medicaid. Source: NH Revised Statutes 167:4-d & Centers for Medicare and Medicaid Services. Medicare Learning Network Booklet, p. 6-9. (Jan. 2019). (Accessed Sept. 2019).

	Definitions	"Telemedicine, as it pertains to the delivery of health care services, means the use of audio, video, or other electronic media for the purpose of diagnosis, consultation, or treatment. Telemedicine does not include the use of audio-only telephone or facsimile."  Source: NH Revised Statutes Annotated, 415-J:2. (Accessed Sept. 2019).
er Laws	Requirements	Insurers are not prohibited from providing coverage for only those services that are medically necessary and subject to the terms and conditions of the covered person's policy.  Source: NH Revised Statutes Annotated, 415-J:3 (Accessed Sept. 2019).
Private Payer Laws	Parity	Insurers may not deny coverage for services on the sole basis that the coverage is provided through telemedicine if the health care service would be covered if it were provided through in-person consultation between the covered person and a health care provider.  Recently Passed Legislation (Effective January 1, 2020) Covered services includes remote patient monitoring and store-and-forward.  Source: NH Revised Statutes Annotated, 415-J:3 (SB – 258) (Accessed Sept. 2019).  No explicit payment parity.

Professional Regulation/Health & Safety

Telemedicine means the use of audio, video, or other electronic media for the purpose of diagnosis, consultation, or treatment. Telemedicine shall not include the use of audio-only telephone or facsimile.

Source: NH Revised Statutes Annotated, 329:1-d-I (Accessed Sept. 2019).

Patient consent is required prior to forwarding medical records to the patient's primary care or treating provider, if appropriate.

Source: NH Revised Statutes Annotated, 329:1-d-V(c) (Accessed Sept. 2019).

A physician-patient relationship requires an in-person exam that may take place via a face-to-face two-way real time interactive communication. Prescribing drugs to individuals without a physician-patient relationship is prohibited, except under the following conditions:

- · Writing admission orders for a newly hospitalized patient;
- · A patient of another provider for whom the prescriber is taking call;
- A prescription for a patient who has been examined by a physician assistant, nurse practitioner, or other licensed practitioner;
- Medication on a short-term basis for a new patient prior to the patient's first appointment;
- When providing limited treatment to a family member in accordance with the American Medical Association Code of Medical Ethics.

Source: NH Revised Statutes Annotated, Sec. 329:1-c. (Accessed Sept. 2019).

It is unlawful to prescribe through telemedicine a controlled drug classified in schedule II through IV.

Source: NH Revised Statutes Annotated, 329:1-d. (Accessed Sept. 2019).

A prescription of a non-opioid controlled drug classified in schedule II through IV via telemedicine shall be limited to certain practitioners who are treating a patient with whom the prescriber has an in-person practitioner-patient relationship, for purposes of monitoring or follow-up care, and who are treating patients at a state designated community mental health center or a Substance Abuse and Mental Health Services Administration-certified state opioid treatment program, and shall require an initial in-person exam by a practitioner licensed to prescribe the drug.

A prescription of an opioid controlled drug classified in schedule II through IV via telemedicine shall be limited to prescribers who are treating patients at a Substance Abuse and Mental Health Services Administration-certified state opioid treatment program, and shall require an initial in-person exam by a practitioner licensed to prescribe the drug.

Subsequent in-person exams must be by a practitioner licensed to prescribe the drug at intervals appropriate for the patient, medical condition, and drug, but not less than annually.

• Northeast Telehealth Resource Center Covers the States of: Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island & Vermont

www.netrc.org

ummary

New Jersey Medicaid reimburses for live video and remote patient monitoring under certain circumstances. Store-and-forward is not explicitly included in reimbursement; however, it could be covered within the definition of telemedicine. Individual Medicare managed care plans may have their own individual policies regarding telehealth and telemedicine.

nitions

Telemedicine means the delivery of a health care service using electronic communications, information technology, or other electronic or technological means to bridge the gap between a health care provider who is located at a distant site and a patient who is located at an originating site, either with or without the assistance of an intervening health care provider. Telemedicine does not include the use, in isolation, of audio-only telephone conversation, electronic mail, instant messaging, phone text or facsimile transmission.

Telehealth means the use of information and communications technologies, including telephones, remote patient monitoring devices or other electronic means to support clinical health care, provider consultation, patient and professional health related education, public health, health administration and other services.

Source: NJ Statute C.30:4D-6K(e) & NJ Statute C.45:1-61. (Accessed Sept. 2019).

**Medicaid Telehealth Reimbursemen**t

Policy

NJ Medicaid must provide coverage and payment for telemedicine or telehealth delivered services on the same basis as when the services are delivered through in-person contact and consultation in NJ. The reimbursement rate may not exceed the rate of in-person contact. Reimbursement is provided either to the individual practitioner who delivered the reimbursable services, or to the agency, facility, or organization that employs the individual practitioner, as appropriate.

NJ Medicaid and NJ FamilyCare programs may limit coverage to services that are delivered by participating health care providers, but may not charge a deductible, copayment, or coinsurance for a health care service, delivered through telemedicine or telehealth, in an amount that exceeds the deductible, copayment, or coinsurance amount that is applicable to an in-person consultation.

The commissioner will apply for a State Plan amendment as necessary to implement this.

## **Definitions**

Telemedicine means the delivery of a health care service using electronic communications, information technology, or other electronic or technological means to bridge the gap between a health care provider who is located at a distant site and a patient who is located at an originating site, either with or without the assistance of an intervening health care provider. Telemedicine does not include the use, in isolation, of audio-only telephone conversation, electronic mail, instant messaging, phone text or facsimile transmission.

Telehealth means the use of information and communications technologies, including telephones, remote patient monitoring devices or other electronic means to support clinical health care, provider consultation, patient and professional health related education, public health, health administration and other services.

Source: NJ Statute C.26:2S-29(e). & NJ Statute C.45:1-61. (Accessed Sept. 2019).

Requirements

A carrier that offers a health benefits plan shall provide coverage and payment for health care services delivered to a covered person through telemedicine or telehealth, on the same basis as, and at a provider reimbursement rate that does not exceed the provider reimbursement rate that is applicable, when the services are delivered through in-person contact and consultation. Reimbursement payments under this section may be provided either to the individual practitioner who delivered the reimbursable services, or to the agency, facility, or organization that employs the individual practitioner who delivered the reimbursable services, as appropriate.

A carrier may limit coverage to services that are delivered by health care providers in the health benefits plan's network, but may not charge any deductible, copayment, or coinsurance for a health care service, delivered through telemedicine or telehealth, in an amount that exceeds the deductible, copayment, or coinsurance amount that is applicable to an in-person consultation.

**Cross-State Licensing** 

The prescription of Schedule II controlled substances through telemedicine or telehealth is authorized only after an initial in-person examination, and subsequent in-person visit with the patient is required every three months for the duration of prescription. Does not apply when prescribing stimulant for use by a minor under the age of 18 provided the health care provider is using live video when treating the patient and the health care provider has obtained written consent for the waiver form the minor patient's parent or guardian.

Source: NJ Statute C.45:1-62(e). (Accessed Sept. 2019).

A provider patient relationship shall include:

- Properly identifying the patient, using at minimum the patient's name, date of birth, phone number, and address.
- Disclosing and validating the provider's identity and credentials, such as license, title, specialty, and board certifications.
- Review of patient's medical records, prior to initiating contact.
- Determining whether the provider will be able to meet the standard of care, prior to initiating contact, for each unique patient encounter.

See statute for exceptions.

	Miscellaneous	<ul> <li>Promote and employ broad-based utilization of statewide access to Health Insurance Portability and Accountability Act (HIPAA)-compliant telemedicine service systems including, but not limited to, access to text telephones or teletype (TTYs) and 711 telecommunication relay services;</li> <li>Follow state guidelines for telemedicine equipment or connectivity;</li> </ul>		

- Follow accepted HIPAA and 42 CFR part two regulations that affect telemedicine transmission, including but not limited to staff and contract provider training, room setup, security of transmission lines, etc; the MCO shall have and implement policies and procedures that follow all federal and state security and procedure guidelines;
- Identify, develop, and implement training for accepted telemedicine practices;
- Participate in the needs assessment of the organizational, developmental, and programmatic requirements of telemedicine programs;
- Report to HSD on the telemedicine outcomes of telemedicine projects and submit the telemedicine report; and
- Ensure that telemedicine services meet the following shared values, which are ensuring: competent care with regard to culture and language needs; work sites are distributed across the state, including native American sites for both clinical and educational purposes; and coordination of telemedicine and technical functions at either end of network connection.

The MCO shall participate in project extension for community healthcare outcomes (ECHO), in accordance with state prescribed requirements and standards, and shall:

- Work collaboratively with HSD, the university of New Mexico, and providers on project FCHO:
- Identify high needs, high cost members who may benefit from project ECHO participation;
- · Identify its PCPs who serve high needs, high cost members to participate in project ECHO;
- Assist project ECHO with engaging its MCO PCPs in project ECHO's center for Medicare and Medicaid innovation (CMMI) grant project;
- · Reimburse primary care clinics for participating in the project ECHO model;
- Reimburse "intensivist" teams;
- Provide claims data to HSD to support the evaluation of project ECHO;
- Appoint a centralized liaison to obtain prior authorization approvals related to project ECHO; and
- Track quality of care and outcome measures related to project ECHO.

There must be an established prescriber-patient relationship to prescribe drugs or medical supplies. This includes prescribing over the Internet, or via other electronic means, based solely on an online questionnaire. Physicians, psychologists with prescriptive authority, physician assistants and advanced practice nurses may prescribe online during a live video exam. The prescribing clinician must: obtain a medical history, obtain informed consent and generate a medical record. A physical exam is recorded as appropriate by the telehealth practitioner but the exam may be waived when not normally a part of a typical face-to-face encounter for the services being provided.

Source: NM Human Services Dept. Behavioral Health Policy and Billing Manual for Providers Treating Medicaid Beneficiaries (2019) p. 31 (Accessed Sept. 2019).

Telemedicine means the use of telecommunications and information technology to provide clinical health care from a distance. "Telemedicine" allows health care professionals to evaluate, diagnose and treat patients in remote locations using telecommunications and information technology in real time or asynchronously, including the use of interactive simultaneous audio and video or store-and-forward technology, or remote patient monitoring and telecommunications in order to deliver health care services to a site where the patient is located, along with the use of electronic media nad health information. "Telemedicine" allows patients in remote locations to access medical expertise without travel.

Source: NM Statute. 59A-22-49.3(H(6)) (Accessed Sept. 2019).

An insurer shall provide coverage for services delivered via telemedicine to the same extent that the health insurance plan, policy or contract covers the same service in-person. An insurer shall not impose any unique condition for coverage of services provided via telemedicine.

A determination that a service is not covered through the use of telemedicine are subject to review and appeal. Plans cannot require a health care provider to be physically present with the patient at the originating site unless the consulting provider deems it necessary. Insurers cannot impose an originating-site restriction or distinguish between telemedicine services provided to patients in rural and urban locations.

Telemedicine services shall be encrypted and conform to state and federal privacy laws.

# Service Parity

Requirements

**Parity** 

An insurer shall provide coverage for services provided via telemedicine to the same extent that the health insurance plan, policy or contract covers the same services in-person.

An insurer shall reimburse for health care services delivered via telemedicine on the same basis and at least at the same rate that the insurer reimburses for comparable services delivered via in-person consultation or contact.

Source: NM Statutes Annotated. Sec. 59A-22-49.3(A) & (I). (Accessed Sept. 2019).

# Payment Parit

An insurer shall reimburse for health care services delivered via telemedicine on the same basis and at least at the same rate that the insurer reimburses for comparable services delivered via in-person consultation or contact.

Source: NM Statutes Annotated. Sec. 59A-22-49.3(I). (Accessed Sept. 2019).

#### **Medicine and Surgery**

"The practice of medicine across state lines means the rendering of a written or otherwise documented medical opinion concerning diagnosis or treatment of a patient within this state, by a physician located outside this state, as a result of transmission of individual patient data by electronic, telephonic or other means from within this state, to the physician or the physician's agent, OR the rendering of treatment to a patient within this state, by a physician located outside this state, as a result of transmission of individual patient data by electronic, telephonic or other means from within this state to the physician or the physician's agent."

Source: NM Statutes Annotated. Sec. 61-6-6(L) (2012). (Accessed Sept. 2019).

"Telehealth means the use of electronic information, imaging and communication technologies, including interactive audio, video and data communications as well as store-and-forward technologies, to provide and support health care delivery, diagnosis, consultation, treatment, transfer of medical data and education."

Source: NM Statutes Annotated Sec. 24-1G-3. (Accessed Sept. 2019).

#### Speech-Language Pathology, Audiology and Hearing Aid Dispensing Practices Board

"Telehealth" means the use of telecommunications and information technologies for the exchange of information from one site to another for the provision of audiology, speech-language pathology or hearing aid dispensing services to an individual from a provider through hardwire or internet connection.

Source: NM Administrative Code 16.26.1.7(AA). (Accessed Sept. 2019).

<u>Online Prescribing</u>

#### **Osteopathic Medicine**

"Telemedicine" means the practice of medicine across state lines using electronic communications, information technology or other means between a licensed osteopathic physician out-of-state and a patient in New Mexico. Telemedicine involves the application of secure videoconferencing or store-and-forward technology to provide or support healthcare delivery by replicating the traditional interaction of the in-person encounters between a provider and a patient.

Source: NM Administrative Code 16.17.1.7(T). (Accessed Sept. 2019).

**Jefinitions** 

#### **Hearing, Speech and Audiology Practitioners**

A licensed audiologist, speech-language pathologist or hearing aid dispenser using telecommunication technology to deliver services to a client shall provide notice to the client, guardian, caregiver and multi-disciplinary team as appropriate, including but not limited to the right to refuse telehealth services, options for service delivery and instruction on filing and resolving complaints.

Source: NM Administrative Code 16.26.2.20. (Accessed Sept. 2019).

Prescribing, dispensing or administering drugs or medical supplies to a patient when there is no established physician-patient relationship, including prescribing over the internet or via other electronic means that is based solely on an on-line questionnaire is unprofessional conduct, except for:

- Physicians and physician assistants on call for another practitioner, or responsible for another practitioner's patients in an established clinic or office, or acting as locum tenens where a physician-patient relationship has previously been established and documented in the practitioner's or clinic's record;
- · Physicians and physician assistants in emergency room or urgent care settings;
- Prescriptions written to prepare a patient for special examination(s) or laboratory testing;
- · Prescribing or dispensing for immunization programs;
- The provision of treatment for partners of patients with sexually transmitted diseases when this treatment is conducted in accordance with the expedited partner therapy guidelines and protocol published by the New Mexico department of health; and
- The provision of consultation, recommendation, or treatment during a face-to-face telehealth encounter online, using standard videoconferencing technology, where a medical history and informed consent are obtained and a medical record generated by the practitioner, and a physical examination is:
  - Recorded as appropriate by the practitioner, or a practitioner such as a physician, a
    physician or anesthesiologist assistant, or an advanced practice nurse, with the results
    communicated to the telehealth practitioner; or
  - Waived when a physical examination would not normally be part of a typical physical face-to-face encounter with the patient for the specific services being provided.

Source: NM Administrative Code 16.10.8.8(L). (Accessed Sept. 2019).

NM issues telemedicine licenses to providers who hold a full, unrestricted license in another state.

An audiologist, speech-language pathologist or hearing aid dispenser shall not deliver services to a client solely through the use of regular mail, facsimile or electronic mail, although these methods of communication may be used to supplement the face-to-face delivery of services or through the use of telecommunication technology.

Source: NM Administrative Code 16.26.2.20. (Accessed Sept. 2019).

New Mexico is also the home of Project ECHO. The project's mission is to develop the capacity to safely and effectively treat chronic, common, and complex diseases in rural and underserved areas, and to monitor outcomes of this treatment utilizing technology.

## **New York**

Medicaid Program: New York Medicaid

Program Administrator: New York State Dept. of Health

Regional Telehealth Resource Center: Northeast Telehealth Resource Center

Covers the States of: Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island &

Vermont

www.netrc.org

#### New York Medicaid offers live video reimbursement and some reimbursement for store-and-forward and home health services. The New York State Department of Health released a Medicaid telehealth expansion in 2019. The guidance states that other state offices will be updating guid-Summary ances and regulation to reflect the changes made, however no other office has released updates at the time of this report. "Telehealth is defined as the use of electronic information and communication technologies to Medicaid Telehealth Reimbursement deliver health care to patients at a distance." Source: NY Dept. of Health, Medicaid Update, Vol. 35, Number 2, February 2019, p. 1. (Accessed Sept. 2019). Reimbursement policy applies to fee-for-service and Medicaid Managed Care plans. New York reimburses for two-way electronic audio-visual communications to delivery clinical health care services to a patient at an originating site by a telehealth provider located at a distant site. The communication must be of an amount and nature sufficient to meet the key components and/or requirements of the same service when rendered via face-to-face interaction. Live Video Telehealth should not be used by a provider if it may result in any reduction to the quality of care required to be provided to a Medicaid member or if such service could adversely impact the member. NY Medicaid does not reimburse for telehealth used solely for the convenience of the practitioner when a face-to-face visit is more appropriate and/or preferred by the member.

telecommunication devices or systems.

New York Medicaid does not reimburse the acquisition, installation, and maintenance of

#### Federally Qualified Health Centers (FQHCs)

FQHCs that have "opted into" Ambulatory Patient Groups (APGs) should follow the billing guidance outlined for sites billing under APGs.

FQHCs that have not opted into APGs:

- When services are provided via telemedicine to a patient located at an FQHC originating site, the originating site may bill only the FQHC offsite services rate code (4012) to recoup administrative expenses associated with the telemedicine encounter.
- When a separate and distinct medical service, unrelated to the telemedicine encounter, is provided by a qualified practitioner at the FQHC originating site, the originating site may bill the Prospective Payment System (PPS) rate in addition to the FQHC offsite services rate code (4012).
- If a provider who is onsite at an FQHC is providing services via telemedicine to a member who is in their place of residence or other temporary location, the FQHC should bill the FQHC off-site services rate code (4012) and report the applicable modifier (95 or GT) on the procedure code line.
- If the FQHC is providing services as a distant site provider, the FQHC may bill their PPS rate.

Source: NY Dept. of Health, Medicaid Update, Vol. 35, Number 2, February 2019, p. 11. (Accessed Sept. 2019).

Telemental health services must meet the following conditions to be eligible for Medicaid reimbursement:

- The service is medically necessary;
- The person receiving services is located at the originating/spoke site and the Telemental Health Practitioner is located at the distant/hub site;
- The person receiving services is present during the encounter;
- The request for Telemental Health Services and the rationale for the request are documented in the individual's clinical record;
- The clinical record includes documentation that the encounter occurred; and
- The Telemental Health Practitioner at the distant/hub site is:
  - Authorized in New York State;
  - Practicing within his/her scope of specialty practice;
  - Affiliated with the originating/spoke site facility; and
  - If the originating/spoke site is a hospital, credentialed and privileged at the originating/spoke site facility.

Source: NY Regulations Title 14 NYCRR Section 596.7. (Accessed Sept. 2019).

#### Providers who may deliver telemedicine services include:

- Licensed physician
- Licensed physician assistant
- Licensed dentist
- Licensed nurse practitioner
- · Licensed registered professional nurse
- Licensed podiatrist
- Licensed optometrist
- Licensed psychologist
- · Licensed social worker
- · Licensed speech language pathologist or audiologist
- · Licensed midwife
- Physical Therapists
- Occupational Therapists
- · Certified diabetes educator
- · Certified asthma educator
- · Certified genetic counselor
- Hospital (including residential health care facilities serving special needs populations)
- Home care services agency
- Hospice

- Physical or occupational therapist
- Credentialed alcoholism and substance abuse counselor
- Providers authorized to provide services and service coordination under the early intervention program
- Clinics licensed or certified under Article 16 of the MHL
- Certified and non-certified day and residential programs funded or operated by the
- Or any other provider as determined by the Commissioner.

Source: NY Public Health Law Article 29 – G Section 2999-cc.& NY Dept. of Health, Medicaid Update, Vol. 35, Number 2, February 2019, p. 5-6. (Accessed Sept. 2019).

#### **Home Telehealth**

Subject to the approval of the state director of the budget, the commissioner may authorize the payment of medical assistance funds for demonstration rates or fees established for home telehealth services and shall not exclude from the payment of medical assistance funds the delivery of health care services through telehealth as defined in Section 2999-cc.

Source: NY Statute, Social Services Law SOS §367-u. (Accessed Sept. 2019).

The distant site is any secure location within the fifty United States or United States' territories where the telehealth provider is located while delivering health care services by means of telehealth. Refer to the Medicaid update for specific billing instructions required for some sites.

ity/Transmission Fee

Outpatient departments, clinics, emergency rooms, and private practitioner's offices serving as originating sites may only bill a facility fee using CPT code 3014, to recoup administrative expenses associated with the telemedicine encounter. Outpatient departments, clinics, and emergency rooms must bill a facility fee through Ambulatory Patient Groups.

Source: NNY Dept. of Health, Medicaid Update, Vol. 35, Number 2, February 2019, p. 8-10. (Accessed Sept. 2019).

The originating site can bill for administrative expenses only when a telemental health service connection is being provided and a qualified mental health professional is not present at the originating site with the patient at the time of the encounter.

Source: NY Code of Rules and Regs. Title 14, Sec. 596.7(e) (Accessed Sept. 2019).

Only one clinic payment will be made when both the originating site and the distant site are part of the same provider billing entity. In such cases, only the originating site should bill Medicaid for the telemedicine encounter.

Source: NY Dept. of Health, Medicaid Update, Vol. 35, Number 2, February 2019, p. 8. (Accessed Sept. 2019).

sement		Policy	NY Medicaid is authorized to establish fees to reimburse the cost of telehealth store-and-forward technology, per a State Plan Amendment submitted and approved by CMS. Store-and-forward technology may be utilized in the specialty areas of dermatology, ophthalmology and other disciplines, as determined by the Commissioner. Services must reduce the need for on-site or in-office visits.  **Source:** CMS Approved state plan amendment 16-0015.** Attachment 3.1A. (Accessed Sept. 2019).**  Pre-recorded videos and/or static digital images (e.g., pictures), excluding radiology, must be specific to the member's condition as well as be adequate for rendering or confirming a diagnosis or a plan of treatment.  **Source:** NY Dept. of Health, Medicaid Update, Vol. 35, Number 2, February 2019, p. 4. (Accessed Sept. 2019).**  Reimbursement for store-and-forward is made to the consulting distant-site practitioner and is paid at 75 percent of the Medicaid fee for the service provided.**  The consulting provider must provide the requesting originating-site practitioner with a written report of the consultation and use the GQ modifier in order for payment to be made.  **Source:** NY Dept. of Health, Medicaid Update, Vol. 35, Number 2, February 2019, p. 11. (Accessed Sept. 2019).
Medicaid Telehealth Reimbursement	Store-and-Forward	Eligible Services/Specialties	For the home telehealth program, store-and-forward services may be reimbursed.  Source: NY Public Health Law Article 29 – G Section 2999-dd. (Accessed Sept. 2019).
		Geographic Limits	No reference found.
		Transmission Fee	No reference found.

Medicaid Telehealth Reimbursement	Remote Patient Monitoring	Policy	NY Medicaid is authorized to establish fees to reimburse the cost of telehealth remote patient monitoring, per a State Plan Amendment submitted and approved by CMS.  Remote patient monitoring (RPM) can include synchronous or asynchronous electronic information and communication technologies to collect personal health information and medical data. RPM may be provided by a facility licensed under Article 28 of Public Health Law or by a physician, nurse practitioner, midwife or physician assistant who has examined the patient and with whom has an established relationship.  Source: CMS Approved state plan amendment 16-0015. Attachment 3.1A. (Accessed Sept. 2019).  RPM included within definition of "telehealth" in statute requiring Medicaid not exclude from payment the delivery of home health services through telehealth.  Source: Social Services Law Title 11, Article 367-u. & NY Public Health Law Article 29 – G Section 2999-cc. (Accessed Sept. 2019).  Remote patient monitoring services are billed using CPT code "99091" and should not be billed more than once per member per month. Billing should occur on the last day of each month in which RPM is used. A fee of \$48.00 per month will be paid for RPM for a minimum of 30 minutes per month spent collecting and interpreting a member's RPM data.  FQHCs that have opted out of APGs are unable to bill for RPM services.  Source: NY Dept. of Health, Medicaid Update, Vol. 35, Number 2, February 2019, p. 11-12. (Accessed Sept. 2019).  A Medicaid member must be present during the remote consultation in order to be reimbursed.  Source: NY Dept. of Health, Medicaid Update, Vol. 35, Number 2, February 2019, p. 3. (Accessed Sept. 2019).
Medicaid To	Rem	Conditions	<ul> <li>Medical conditions that may be treated/monitored by means of RPM include, but are not limited to: <ul> <li>Congestive heart failure</li> <li>Diabetes</li> <li>Chronic obstructive pulmonary disease</li> <li>Wound care</li> <li>Polypharmacy</li> <li>Mental or behavioral problems</li> <li>Technology-dependent care, such as continuous oxygen, ventilator care, total parenteral nutrition, or enteral feeding.</li> </ul> </li> <li>Source: NY Dept. of Health, Medicaid Update, Vol. 35, Number 2, February 2019, p. 4. (Accessed Sept. 2019).</li> </ul>
		rider Limitations	No reference found.

The following considerations apply to RPM:

- Medical conditions that may be treated/monitored by means of RPM include, but are not limited to, congestive heart failure, diabetes, chronic obstructive pulmonary disease, wound care, polypharmacy, mental or behavioral problems, and technology-dependent care such as continuous oxygen, ventilator care, total parenteral nutrition or enteral feeding.
- 2. RPM must be ordered and billed by a physician, nurse practitioner or midwife, with whom the member has or has entered into a substantial and ongoing relationship. RPM can also be provided and billed by an Article-28 clinic, when ordered by one of the previously mentioned qualified practitioners.
- Members must be seen in-person by their practitioner, as needed, for follow-up
- 4. RPM must be medically necessary and shall be discontinued when the member's condition is determined to be stable/controlled.
- Payment for RPM while a member is receiving home health services through a Certified Home Health Agency (CHHA) is pursuant to PHL Section 3614 (3-c)(a) -(d) and will only be made to that same CHHA.

Email / Phone / Fax

No payment for telephone.

No payment for e-mail.

No payment for text messaging.

No payment for facsimile transmissions.

Source: NY Dept. of Health, Medicaid Update, Vol. 35, Number 2, February 2019, p. 3. (Accessed Sept. 2019).

Telemental health services do not include telephone, video cell phone, or e-mail.

Source: NY Code of Rules and Regs. Title 14, Sec. 596.7(d) (Accessed Sept. 2019).

Consent

Medicaid members must provide consent to participating in services utilizing telehealth. Telehealth sessions/services shall not be recorded without the member's consent. Documentation in the medical record must reflect that the member was made aware of patient rights policies.

Source: NY Dept. of Health, Medicaid Update, Vol. 35, Number 2, February 2019, p. 6-7. (Accessed Sept. 2019).

Part of obtaining approval for telemental health services is obtaining informed consent and may be incorporated into the informed consent process for in-person care.

Source: NY Code of Rules and Regs. Title 14, Sec. 596.6(b)(2). (Accessed Sept. 2019).

Out of State Providers

A distant site may be located within any of the fifty United States or United States' territories where a telehealth provider is located when delivering health care services by means of telehealth.

Practitioners providing services via telehealth must be licensed or certified, currently registered in accordance with NYS Education Law or other applicable law, and enrolled in NYS Medicaid.

Source: NY Dept. of Health, Medicaid Update, Vol. 35, Number 2, February 2019, p. 3 & 6. (Accessed Sept. 2019).

NY Department of Health is encouraging Medicaid Managed Care (MMC) plans to allow for telehealth services. They are allowing MMC plans to request reimbursement of additional cost-effective alternative telehealth services.

Source: NY Department of Health Memorandum, Telehealth Innovation in Medicaid Managed Care, Sept. 18, 2017. (Accessed Sept. 2019)

Subject to federal financial participation and the approval of the director of the budget, the commissioner shall not exclude from the payment of medical assistance funds the delivery of health care services through telehealth, as defined in section 2999-cc(4) of the public health law.

Source: Social Services Law Article 367-u. (Accessed Sept. 2019).

Culturally competent translation and/or interpretation services must be provided when the member and distant practitioner do not speak the same language.

Source: NY Dept. of Health, Medicaid Update, Vol. 35, Number 2, February 2019, p. 6. (Accessed Sept. 2019).

The patient must be present for telepsychiatry services for Medicaid reimbursement. Telepsychiatry is also defined as "real-time".

Source: NY Code of Rules and Regs. Title 14, Sec. 596.7 (Accessed Sept. 2019).

### efinition

Telehealth means the use of electronic information and communications technologies by a health care provider to deliver health services to an insured individual while such individual is located at a site that is different from the site where the health care provider is located.

Source: NY Insurance Law Article 32 Section 3217-h & Article 43 Section 4306-g. (Accessed Sept. 2019)

# Requirements

A health plan shall not exclude from coverage services that are provided via telehealth if they would otherwise be covered under a policy, provided that an insurer may exclude coverage of a service by a health care provider where the provider is not otherwise covered under the policy or contract.

An insurer may subject the coverage of a service to reasonable utilization management and quality assurance requirements or copayments, coinsurance and deductibles that are consistent with those established for the same service not delivered via telehealth.

Source: NY Insurance Law Article 32 Section 3217-h & NY Insurance Law Article 43 Section 4306-g. (Accessed Sept. 2019).

ervice Pari

A health plan shall not exclude from coverage services that are provided via telehealth if they would otherwise be covered under a policy, provided that an insurer may exclude coverage of a service by a health care provider where the provider is not otherwise covered under the policy or contract.

**Parity** 

ayment Parity

No explicit payment parity.

"Telehealth" means the use of electronic information and communication technologies by telehealth providers to deliver health care services, which shall include the assessment, diagnosis, consultation, treatment, education, care management and/or self-management of a patient. Telehealth shall not include delivery of health care services by means of audio-only telephone communication, facsimile machines, or electronic messaging alone, though use of these technologies is not precluded if used in conjunction with telemedicine, store-and-forward technology or remote patient monitoring.

Telemedicine means the use of synchronous, two-way electronic audio visual communications to deliver clinical health care services, which shall include the assessment, diagnosis, and treatment of a patient, while such a patient is at the originating site and a telehealth provider is at a distant site.

Source: NY Public Health Law Article 29 - G Section 2999-cc. (Accessed Sept. 2019).

#### Related to Credentialing and Privileging Health Care Practitioners Providing Telemedicine

"Telemedicine means the delivery of clinical health care services by means of real time two-way electronic audio-visual communications which facilitate the assessment, diagnosis, consultation, treatment, education, care management and self-management of a patient's health care, while such patient is at the originating site and the health care provider is at a distant site."

# Miscellaneous

Independent Practitioner Services for Individuals with Developmental Disabilities (IPSIDD) are prohibited from being delivered via telehealth.

Source: NY Code of Rules and Regs. Title 14, Sec. 635-13.4(c). (Accessed Sept. 2019).

Each agency that operates a clinic treatment facility shall provide the Office for People with Developmental Disabilities (OPWDD) information it requests, including but not limited to the following: services provided by CPT/HCPCS and/or CDT codes, where such services were delivered, including the location of both the provider and the individual when services are delivered via telehealth, (i.e., on-site or at a certified satellite site, or, prior to April 1, 2016, off-site) and revenues by funding source or payee. These data shall correspond to the identical time period of the cost report.

Source: NY Code of Rules and Regs. Title 14, Sec. 679.6(b). (Accessed Sept. 2019).

Under Public Health, originating sites are limited to:

- Licensed health facilities in Articles 28 (hospitals) and 40 (hospice);
- A facility as defined in Section 1.03, subdivision six of the Mental Hygiene Law;
- Certified and non-certified day and residential programs funded or operated by the office for people with developmental disabilities.
- Private physician's or dentist's offices located in New York;
- Public, private and charter elementary and secondary schools, school age childcare programs and child day care centers within the state of New York;
- · Adult care facility licensed under title two of article seven of the social services law;
- Public, private and charter elementary and secondary schools, school age child care programs and child day care centers;
- The patient's place of residence located within the state of New York or other temporary location located within or outside the state of New York.

**Medicaid Telehealth Reimbursement** 

NC Medicaid reimburses live video telemedicine for medical and tele-psychiatry services as long as certain conditions are met. They do not provide reimbursement for store-and-forward, and make no reference to remote patient monitoring.

# efinitions

"Telemedicine is the use of two-way real-time interactive audio and video between places of lesser and greater medical capability or expertise to provide and support health care, when distance separates participants who are in different geographical locations."

Source: NC Div. of Medical Assistance, Medicaid and Health Choice Manual, Clinical Coverage Policy No: 1H, Telemedicine and Telepsychiatry, p. 1, April 15, 2019. (Accessed Oct. 2019).

North Carolina Medicaid and NC Health Choice will reimburse for live video medical services and tele-psychiatry services. All of the following conditions must be met:

- · The beneficiary must be present at the time of consultation;
- The medical examination must be under the control of the consulting provider;
- The distant site of the service must be of a sufficient distance from the originating site to provide services to a beneficiary who does not have readily available access to such specialty services; and
- The consultation must take place by two-way real-time interactive audio and video telecommunications system.

Source: NC Div. of Medical Assistance, Medicaid and Health Choice Manual, Clinical Coverage Policy No: 1H, Telemedicine and Telepsychiatry, p. 4, April 15, 2019 (Accessed Oct. 2019).

All services must be:

- Medically necessary;
- The procedure, product, or service is individualized, specific, and consistent with symptoms or confirmed diagnosis of the illness or injury under treatment, and not in excess of the recipient's needs;
- The procedure, product, or service can be safely furnished, and no equally effective and more conservative or less costly treatment is available statewide;
- The procedure, product, or service is furnished in a manner not primarily intended for the convenience of the recipient, the recipient's caretaker, or the provider.

Distant site providers must obtain prior approval from NC Medicaid for services delivered via telemedicine and tele-psychiatry when those services require prior approval based on service type or diagnosis. Providers must submit:

- · Prior approval request;
- All health records and any other records to document that the patient has met the specific criteria for telemedicine services;

Special provisions apply for the Early and Periodic Screening, Diagnostic and Treatment (EPSDT) program. See manual.

Source: NC Div. of Medical Assistance, Medicaid and Health Choice Manual, Clinical Coverage Policy No: 1H, Telemedicine and Telepsychiatry, p. 1-7, April 15, 2019 (Accessed Oct. 2019).

#### **Teledentistry**

Synchronous real-time dentistry is covered through D9995.

Source: NC Div. of Medical Assistance. Medicaid Bulletin. p. 22, Jan. 2018. (Accessed Oct. 2019).

Eligible medical providers:

- · Physicians;
- Nurse practitioners;
- · Nurse midwives;
- Physician's assistants.

Eligible tele-psychiatry providers:

- · Physicians;
- · Nurse Practitioners;
- · Physicians Assistants;
- Advanced practice psychiatric nurse practitioners;
- Advanced practice psychiatric clinical nurse specialists;
- Licensed psychologists Ph.D. level;
- Licensed clinical social workers (LCSW);
- Community diagnostic assessment agencies.

Source: NC Div. of Medical Assistance, Medicaid and Health Choice Manual, Clinical Coverage Policy No: 1H, Telemedicine and Telepsychiatry, p. 6, April 15, 2019 (Accessed Oct. 2019).

System changes have been completed to allow non-psychiatric Nurse Practitioners (NPs) and Physician Assistants (PAs) to receive reimbursement for the following CPT codes.

- 90791 Psychiatric diagnostic evaluation
- 90792 Psychiatric diagnostic evaluation with medical services

NPs and PAs enrolled in the Medicaid or North Carolina Health Choice (NCHC) programs may bill Medicaid or NCHC for these services.

# **North Dakota**

Medicaid Program: North Dakota Medicaid

Program Administrator: North Dakota Dept. of Human Services

Regional Telehealth Resource Center: Great Plains Telehealth Resource and Assistance Center Covers the States of: Iowa, Minnesota, Nebraska, North Dakota, South Dakota, and Wisconsin

www.gptrac.org

# North Dakota reimburses for live video telemedicine for most services, with a few exceptions. They do not provide reimbursement for store-and-forward and no reference was found for remote patient monitoring. Telemedicine is the use of interactive audio-video equipment to link practitioners and patients at different sites. Source: North Dakota Department of Human Services: General Information for Providers. North Dakota Medicaid and Other Medical Assistance Programs. (Jan. 2019) p. 156 (Accessed Sept. 2019).

North Dakota Medicaid will reimburse for live video services as long as the patient is present during the service. Actual visual contact (face-to-face) must be maintained between practitioner and patient.

Source: North Dakota Department of Human Services: General Information for Providers. North Dakota Medicaid and Other Medical Assistance Programs. (Jan. 2019) P. 156 (Accessed Sept. 2019).

Telemedicine services are covered by Medicaid under the following criteria:

- · Maintain actual visual contact (face-to-face) between the practitioner and patient.
- Be medically appropriate and necessary with supporting documentation included in the patient's clinical medical record.
- Be provided via secure and appropriate equipment to ensure confidentiality and quality in the delivery of the service. Skype or other devices or video conferencing platforms that are not secure are not acceptable or allowed to be used for telehealth services.

Qualified services must use appropriate coding, including GT and 95 modifiers or place of service 02. The originating site uses HCPC code Q3014.

Source: North Dakota Department of Human Services: General Information for Providers. North Dakota Medicaid and Other Medical Assistance Programs. (Jan. 2019) P. 156 (Accessed Sept. 2019).

#### **Indian Health Services**

Reimbursement for telemedicine is reimbursed at the all-inclusive rate regardless of whether the originating site is outside the "four walls" of the facility or clinic.

Source: North Dakota Department of Human Services: General Information for Providers. North Dakota Medicaid and Other Medical Assistance Programs. (Jan. 2019) P. 157 (Accessed Sept. 2019).

#### ve Vide

Live Video	Policy	Teledentistry Synchronous teledentistry is reimbursable and reported in addition to other ND Medicaid-covered procedures provided to the patient, when applicable. Dentists and dental offices must report the appropriate CDT Code for these procedures.  The patient record must include the CDT codes that reflect the teledentistry encounter. ND Medicaid reimburses for CDT code D9995 once per date of service. Submissions must be billed using place of service code 02. Service authorization is not required for CDT code D9995.  Source: North Dakota Department of Human Services: Teledentistry Policy. (July 2019). (Accessed Sept. 2019).

Live Video

See fact sheet for list of eligible CPT codes.

Source: OH Fact Sheet: Telemedicine Billing Guidance (Dec. 2016). (Accessed Sept. 2019).

The following services are eligible for payment when delivered through telehealth from the practitioner site:

- Services provided by a patient centered medical home
- Evaluation and management of a new patient described as "office or other outpatient visit" with medical decision making not to exceed moderate complexity
- Inpatient or office consultation for a new or established patient when providing the same quality and timeliness of care to the patient other than by telehealth is not possible
- Mental health or substance use disorder services described as "psychiatric diagnostic evaluation" or "psychotherapy"

Source: OH Admin Code 5160-1-18(D). (Accessed Sept. 2019).

#### Eligible Distant Site Providers

- Physicians (MD, DO)
- **Psychologists**
- Federally Qualified Health Center (medical and mental health)

Source: OH Fact Sheet: Telemedicine Billing Guidance (Dec. 2016). (Accessed Sept. 2019).

The following practitioners are eligible to render services through telehealth:

- Physician
- **Psychologist**
- Physician Assistant
- Clinical nurse specialist, certified nurse-midwife or certified nurse practitioner
- Licensed independent social worker, licensed independent chemical dependency counselor, licensed independent marriage and family therapist, or licensed professional clinical counselor

The following provider types are eligible to bill for services rendered through telehealth:

- A practitioner listed in the previous list
- A professional medical group
- A FQHC or RHC
- The following ambulatory health care clinics: (1) Public health department; (2) primary care clinic; (3) Family planning clinic

Source: OH Admin Code 5160-1-18(D). (Accessed Sept. 2019).

"Patient site" is the physical location of the patient at the time a health care service is provided through the use of telemedicine. The patient site may be one of the following locations:

- The office or service location of a:
  - Physician;
  - Psychologist;
  - Physician assistant;
  - Clinical nurse specialist, certified nurse-midwife, or certified nurse practi-
  - Licensed independent social worker, licensed independent chemical dependency counselor, licensed independent marriage and family therapist, or licensed professional clinical counselor

Nursing facility

Intermediate care facility for individuals with an intellectual disability (ICF/IID)

The "practitioner site" is the physical location of the treating practitioner at the time a health care service is provided through the use of telehealth. The practitioner site shall not be the same location as the patient site.

Source: OAC 5160-1-18. (Accessed Sept. 2019).

Provider types eligible as an originating site, either using a Q3014 HCPCS code or a GQ modifier:

- Primary Care Clinic
- **Outpatient Hospital**
- Rural Health Clinic (Medical)
- Federally Qualified Health Clinic (Medical)
- Physician
- **Professional Medical Group**
- Podiatrist
- Optometrist

See fact sheet for additional billing rules.

Source: Fact Sheet: Telemedicine Billing Guidance (Dec. 2016), (Accessed Sept. 2019).

Excluded places of service for originating or distant site providers:

- Home (originating or distant site)
- Inpatient hospital
- Nursing facility
- Inpatient psychiatric hospitals
- Other POS exclusions for E&M and psychiatric codes

Source: Fact Sheet: Telemedicine Billing Guidance (Dec. 2016), (Accessed Sept. 2019).

# Private Payer Laws

# Professional Regulation/Health & Safety

#### **Recently Passed Legislation**

**Jefinitions** 

Requirements

**Parity** 

"Telemedicine services" means a mode of providing health care services through synchronous or asynchronous information and communication technology by a health care professional, within the professional's scope of practice, who is located at a site other than the site where the recipient is located.

Source: OH Revised Code Annotated, 3902.30(A)(5). (HB - 166). (Accessed Sept. 2019).

#### **Recently Passed Legislation**

A health benefit plan must provide coverage for telemedicine services on the same basis and to the same extent that the plan provides coverage for in-person health care services. Plans cannot exclude coverage for a service solely because it is provided as a telemedicine service.

A health benefit plan may not impose any annual or lifetime benefit maximum on telemedicine services other than what is imposed on all benefits under the plan.

Source: OH Revised Code Annotated, 3902.30. (HB - 166). (Accessed Sept. 2019).

#### **Recently Passed Legislation**

A health benefit plan must provide coverage for telemedicine services on the same basis and to the same extent that the plan provides coverage for in-person health care services. Plans cannot exclude coverage for a service solely because it is provided as a telemedicine service.

Source: OH Revised Code Annotated, 3902.30. (HB - 166). (Accessed Sept. 2019).

None.

#### Physicians – Obtaining a Telemedicine certificate by an out of state provider.

"The practice of telemedicine" means the practice of medicine in this state through the use of any communication, including oral, written, or electronic communication, by a physician located outside this state.

Source: OH Revised Code Annotated, 4731.296(A). (Accessed Sept. 2019).

#### **Physical Therapy Practice**

"Telehealth means the use of electronic communications to provide and deliver a host of health-related information and healthcare services, including, but not limited to physical therapy related information and services, over large and small distances."

Source: OH Admin. Code 4755-27-01(10). (Accessed Sept. 2019).

#### **Speech Language Pathology**

Telehealth means the use of telecommunications and information technologies for the exchange of information from one site to another for the provision of audiology or speech-language pathology services to an individual from a provider through hardwire or internet connection.

Source: OH Admin. Code 4753-2-01(A)(10). (Accessed Sept. 2019). ).

**Online Prescribing** 

#### **Speech Language Pathology**

A provider is required to inform the patient of specific telehealth limitations...

Source: OH Admin. Code 4753-2-01(D). (Accessed Sept. 2019).

Informed consent is required ("patient's agreement or signed authorization"). Must be documented in patient's record.

Source: OH Admin. Code 4731-11-09. (Accessed Sept. 2019).

A physician shall not prescribe, personally furnish or otherwise provide, or cause to be provided any controlled substance or non-controlled substance to a person on whom the physician has never conducted a physical examination, with the exceptions listed below.

#### **Non-Controlled Substances Exceptions**

Prescribing is allowed when a patient is remote from the physician by complying with the following:

- Establish the patient's identity and physical location;
- Obtain the patient's informed consent;
- Forward medical record to patient's primary care provider (upon consent);
- Conduct an appropriate evaluation;
- · Establish or confirm a diagnosis and treatment plan;
- Document information in patient's medical record;
- · Provide or recommend appropriate follow-up care;
- Make medical record of the visit available to patient; and
- Use appropriate technology sufficient to conduct all steps.

Additional restrictions apply for controlled substances. See regulation.

Source: OH Admin. Code 4731-11-09. (Accessed Sept. 2019).

A patient evaluation performed within the previous twenty-four months via telemedicine by a health-care provider acting within the scope of their professional license is acceptable for satisfying the criteria to be an "active patient".

Source: OAC 4731-11-01(D). (Accessed Sept. 2019).

Ohio issues telemedicine certificates that allow the holder to engage in the practice of telemedicine in the state. Providers with telemedicine certificates cannot practice in OH without a special activity certificate.

The OH Medical Board may issue, without examination, a telemedicine certificate to a person who meets all of the following requirements:

- Holds a current, unrestricted license to practice medicine and surgery or osteopathic
  medicine and surgery or osteopathic medicine and surgery issued by another state that
  requires license holders to complete at least fifty hours of continuing medical education
  every two years.
- 2. The person's principal place of practice is in that state.
- 3. The person does not hold a license issued under this chapter authorizing the practice of medicine and surgery or osteopathic medicine and surgery in this state.
- 4. The person meets the same age, moral character, and educational requirements individuals must meet under sections 4731.09 and 4731.14 of the Revised Code and, if applicable, demonstrates proficiency in spoken English in accordance with section 4731.142 of the Revised Code.

Source: OH Revised Code Annotated, Sec. 4731.296. (Accessed Sept. 2019).

The [state medical] board shall convert a telemedicine certificate to a license issued under section 4731.14 of the Revised Code on receipt of a written request from the certificate holder. Once the telemedicine certificate is converted, the holder is subject to all requirements and privileges attendant to a license issued under section 4731.14 of the Revised Code, including continuing medical education requirements.

Source: OH Revised Code Ann. 4731-296(F). (Accessed Sept. 2019).

#### **Physical Therapy**

Physical therapists and physical therapist assistants must hold a valid OH physical therapy license to treat a patient located in Ohio via telehealth.

Source: OH Admin. Code 4755-27-01(10)(b). (Accessed Sept. 2019).

SoonerCare reimburses for live video telehealth. Store-and-Forward and Remote Patient Monitoring must be compensable by the Oklahoma Health Care Authority (OHCA) in order to be reimbursed.

# efinitions

Medicaid Telehealth Reimbursement

For purposes of SoonerCare reimbursement, telemedicine is the use of interactive audio, video or other electronic media for the purpose of diagnosis, consultation or treatment that occur in real-time and when the member is actively participating during the transmission.

Source: Health Care Authority, Providers, Telehealth. (Accessed Sept. 2019).

Telehealth means the mode of delivering healthcare services via information and communication technologies to facilitate the diagnosis, consultation, treatment, education, care management and self-management of patients, at a distance from health care providers.

Source: OK Admin. Code Sec. 317:30-3-27 (a). (Accessed Sept. 2019).

#### >

SoonerCare (Oklahoma's Medicaid program) reimburses for live video when:

- Provider is contracted with SoonerCare and appropriately licensed
- The GT modifier is billed
- Proper documentation of services rendered, location and services provided via telemedicine is maintained

Source: OK Health Care Authority, Telehealth (Accessed Sept. 2019).

# Live Video

# le Services / Specialtie

OHCA has discretion and final authority to approve or deny telehealth services based on agency and/or SoonerCare members' needs. See Medicaid Telehealth webpage for full list of eligible CPT Codes for Medical and Behavioral Health Services. Services provided by telehealth must be billed with the appropriate modifier.

Source: OK Admin. Code Sec. 317:30-3-27 & Health Care Authority, Providers, Telehealth (Accessed Sept. 2019).

Medicaid Telehealth Reimbursement	Live Video	Eligible Providers	<ul> <li>Be contracted with SoonerCare and appropriately licensed</li> <li>Bill for services using the appropriate modifier (GT)</li> <li>Maintain documentation of services, to include: service rendered, location at which service was rendered, and that service was provided via telemedicine. (Documentation of services must follow all other SoonerCare documentation guidelines as well.)</li> <li>Source: Oklahoma Health Care Authority, Telehealth. Updated July 18, 2018. (Accessed Sept. 2019).</li> </ul>
		Eligible Sites	The medical or behavioral health related service must be provided at an appropriate site for the delivery of telehealth services. An appropriate telehealth site is one that has the proper security measures in place; the appropriate administrative, physical and technical safeguards should be in place that ensures the confidentiality, integrity and security of electronic protected health information. The location of the room for the encounter at both ends should ensure comfort, privacy and confidentiality. Both visual and audio privacy are important, placement and selection of the rooms should consider this. Appropriate telehealth equipment and networks must be used considering factors such as appropriate screen size, resolution and security. Providers and/or members may provide or receive telehealth services outside of Oklahoma when medically necessary.  Source: OK Admin. Code Sec. 317:30-3-27(c)(3). (Accessed Sept. 2019).
		Geographic Limits	No reference found.
		Facility/Transmission Fee	The cost of telehealth equipment and transmission is not reimbursable by SoonerCare.  Source: OK Admin. Code Sec. 317:30-3-27(d)(4). (Accessed Sept. 2019).
	Store-and-Forward	Policy	Health care services delivered by telehealth such as remote patient monitoring, store-and-forward, or any other telehealth technology must be compensable by OHCA in order to be reimbursed.  Services provided by telehealth must be billed with the appropriate modifier. If the technical component of an X-ray, ultrasound or electrocardiogram is performed during a telehealth transmission, the technical component can be billed by the provider that provided that service. The professional component of the procedure and the appropriate visit code should be billed by the provider that rendered that service.  Source: OK Admin. Code Sec. 317:30-3-27(d). (Accessed Sept. 2019).

Private Payer Laws	Definitions	"Telemedicine means the practice of health care delivery, diagnosis, consultation, treatment, including but not limited to, the treatment and prevention of strokes, transfer of medical data, or exchange of medical education information by means of audio, video, or data communications. Telemedicine is not a consultation provided by telephone or facsimile machine."  Source: OK Statute, Title 36, Sec. 6802. (Accessed Sept. 2019).

For services determined to be appropriately provided by means of telemedicine, health care insurer programs, workers' compensation programs and state Medicaid managed care contracts shall not require person-to-person contact between a health care practitioner and patient. Source: OK Statute, Title 36 Sec. 6803. (Accessed Sept. 2019). Private Payer Laws If a provider determines that telemedicine is an appropriate way to deliver care, an insurer cannot require face-to-face contact. Source: OK Statute, Title 36 Sec. 6803. (Accessed Sept. 2019). Parity No explicit payment parity. Telemedicine means the practice of health care delivery, diagnosis, consultation, evaluation and treatment, transfer of medical data or exchange of medical education information by means of a two-way, real-time interactive communication, not to exclude store-and-forward technologies, Professional Regulation/Health & Safety between a patient and a physician with access to and reviewing the patient's relevant clinical information prior to the telemedicine visit. "Telemedicine" and "store-and-forward technologies" shall not include consultations provided by telephone audio-only communication, electronic mail, text message, instant messaging conversation, website questionnaire, nonsecure video conference or facsimile machine. Source: OK Statute, Title 59, Sec. 478. (Accessed Sept. 2019). "Telemedicine means the practice of health care delivery, diagnosis, consultation, treatment, including but not limited to, the treatment and prevention of conditions appropriate to treatment by telemedicine management, transfer of medical data, or exchange of medical education information by means of audio, video, or data communications. Telemedicine is not a consultation provided by telephone or facsimile machine. This definition excludes phone or Internet contact or prescribing and other forms of communication, such as web-based video, that might occur between parties that does not meet the equipment requirements as specified in OAC 435:10-7-13 and therefore requires an actual face-to-face encounter. Telemedicine physicians who meet the requirements of OAC 435:10-7-13 do not require a face-to-face encounter. Source: OK Admin Code Sec. 435: 10-1-4. (Accessed Sept. 2019).

"Telemedicine" means the practice of health care delivery, diagnosis, consultation, evaluation, treatment, transfer of medical data, or exchange of medical education information by means of audio, video, or data communications. Telemedicine uses audio and video multimedia telecommunication equipment which permits two-way real time communication between a health care practitioner and a patient who are not in the same physical location. Telemedicine shall not include consultation provided by telephone or facsimile machine.

Source: OK Statute Title 43A-1-103.(18) (Accessed Sept. 2019).

#### **Speech-Language Pathology and Audiology**

Telepractice means the use of audio, video or data communication to provide speech-language pathology and audiology services to clients who are not present at the same site as the licensee when the service is provided.

Source: OK Admin. Code Sec. 317:30-3-27(c)(9). (Accessed Sept. 2019).

Consent

Online Prescribing

No dissemination of any member images or information to other entities without written consent from the member.

Source: OK Admin. Code Sec. 317:30-3-27(c)(9). (Accessed Sept. 2019).

A physician-patient relationship can be established through telemedicine, provided that a physician:

- Holds a license to practice medicine in this state;
- Confirms the patient's identity and physical location; and
- Provides the patient with the treating physician's identity and professional credentials.

Telemedicine encounters involving store-and-forward technology shall not be used to establish a valid physician-patient relationship for purpose of prescribing opiates, synthetic opiates, semisynthetic opiates, benzodiazepine or carisprodol, but may be used to prescribe opioid antagonists or partial agonists.

The relationship shall not be based solely on the receipt of patient health information by a physician.

Source: OK Statutes, Title 59, Ch. 11 Sec. 478.1 (Accessed Sept. 2019).

Prescribing or administering a drug or treatment without sufficient examination and the establishment of a valid physician-patient relationship is prohibited.

(Effective November 1, 2019) This includes not prescribing in a safe, medically accepted manner.

Source: OK Statute, Title 59, Sec. 509.(12), p. 377 (Accessed Sept. 2019).

Telemedicine physicians who meet certain criteria are not subject to the face-to-face requirement to establish a physician-patient relationship.

Source: OK Admin. Code Sec. 435:10-7-12. (Accessed Sept. 2019).

A physician-patient relationship includes a medically appropriate, timely-scheduled, actual face-to-face encounter with the patient.

Source: OK Admin. Code Sec. 435:10-1-4. (Accessed Sept. 2019).

**Cross-State Licensing** 

Physician treating patients in OK through telemedicine must be fully licensed in OK.

	Summary		gon Medicaid provides reimbursement for live video and audio under some circumstances. re-and-forward and remote patient monitoring are reimbursed for dental services.
Reimbursement	Definitions		lemedicine is the use of medical information, exchanged from one site to another, via telephonor electronic communications, to improve a patient's health status."  Source: OR Div. of Medical Assistance Program, Medical-Surgical Svcs. Rulebook, Div. 130, 410-130-0610. P. 66 (Sept. 9, 2018). (Accessed Sept. 2019).
Medicaid Telehealth Reimbursement	Live Video	Policy	Oregon Medicaid will reimburse for live video when billed services comply with their billing requirements.  The referring provider is not required to be present with the client for the consult.  The referring provider may bill an evaluation and management code for the patient visit only if a separately identifiable visit is performed. The visit must meet all of the criteria of the code billed.  Telephonic codes may be used in lieu of videoconferencing codes, if videoconferencing equipment is not available.  The evaluating practitioner at the distant site may bill for the evaluation, but not for the transmission.  The authority must provide coverage for behavioral health telemedicine services to the same extent that the service would be covered if they were provided in-person.  Source: OR Div. of Medical Assistance Program, Medical-Surgical Svcs. Rulebook, Div. 130, 410-130-0610 (Sept. 9, 2018) & Behavior Health Services Rulebook, Div. 172, 410-172-0850 (June 28, 2019). #### Teledentistry

Consent

**Out of State Providers** 

Miscellaneous

**Definitions** 

Requirements

A patient receiving services through teledentistry shall be notified of the right to receive interactive communication with the distant dentist and shall receive an interactive communication with the distant dentist upon request. This must be reflected in the patient's chart documentation.

Source: OR Admin. Rules 410-123-1265 (Accessed Sept. 2019).

An out-of-state provider using telemedicine services must be licensed to practice within the State of Oregon or within the contiguous area of Oregon and must be enrolled as a Health Systems Division provider. Certain cities within 75 miles of the Oregon border may be closer for Oregon residents than major cities in Oregon, and therefore, these areas are considered contiguous areas, and providers are treated as providing in-state services.

Source: OR Admin Rules 410-120-1180 & OR Admin. Rules 410-123-1265 & OR Div. of Medical Assistance Program, Medical-Surgical Svcs. Rulebook, Div. 130, 410-130-0610 p. 66. (Sept. 9, 2018). (Accessed Sept. 2019).

The referring and evaluating practitioner must be licensed to practice medicine within the state of Oregon or within the contiguous area of Oregon and must be enrolled as a Division of Medical Assistance Programs (Division) provider.

Source: OR Div. of Medical Assistance Program, Medical-Surgical Svcs. Rulebook, Div. 130, 410-130-0610. P. 66 (Sept. 9, 2018). (Accessed Sept. 2019).

#### **Treatment of Diabetes**

"Telemedical means delivered through a two-way electronic communication, including but not limited to video, audio, Voice over Internet Protocol or transmission of telemetry that allows a health professional to interact with a patient, a parent or guardian of a patient or another health professional on a patient's behalf, who is at an originating site."

Source: OR Revised Statutes Sec. 743A.185(c). (Accessed Sept. 2019).

Health plans must provide coverage of a health service that is provided using synchronous twoway interactive video if the service would be covered when provided in-person, it is a medically necessary service, the service is determined to be safely and effectively provided using live video according to generally accepted health care practices and standards and the technology and application to provide the service meets all standards required by state and federal laws governing privacy and security of protected health information. Plans are not required to reimburse a health professional for a service that is not a covered benefit under the plan or who has not contracted with the plan.

Source: OR Revised Statutes Sec. 743A.058. (Accessed Sept. 2019).

**Parity** 

Oregon requires a health benefit plan to provide coverage of a health service that is provided using synchronous two-way interactive video conferencing if:

- The plan provides coverage of the health service when provided in-person by a health professional;
- · The health service is medically necessary;
- The health service is determined to be safely and effectively provided using synchronous two-way interactive video conferencing according to generally accepted health care practices and standards; and
- The application and technology used to provide the health service meet all standards required by state and federal laws governing the privacy and security of protected health information.

Plans may not distinguish between originating sites that are rural and urban in providing coverage.

Coverage is subject to the terms and conditions of the health benefit plan and the reimbursement specified in the contract between the plan and the health professional.

Source: OR Revised Statutes Sec. 743A.058. (Accessed Sept. 2019).

A health benefit plan must provide coverage in connection with the treatment of diabetes if:

- The plan provides coverage of the health service when provided in-person;
- · The service is medically necessary;
- The telemedical health service relates to a specific patient; and
- One of the participants in the telemedical health service is a representative of an academic health center.

A health benefit plan may subject coverage of a telemedical health service to all terms and conditions of the plan, including but not limited to deductible, copayment or coinsurance requirements that are applicable to coverage of a comparable health service when provided in-person.

Source: OR Revised Statutes Sec. 743A.185. (Accessed Sept. 2019).

No explicit payment parity.

Private Payer Laws	Definitions	"Telemedicine" means the delivery of clinical health care services by means of real time two-way electronic audiovisual communications, including the application of secure video conferencing or store-and-forward technology to provide or support health care delivery, which facilitate the assessment, diagnosis, treatment, and care management of a patient's health care while such patient is at an originating site and the health care provider is at a distant site, consistent with applicable federal laws and regulations. Telemedicine does not include an audio-only telephone conversation, email message or facsimile transmission between the provider and patient, or an automated computer program used to diagnose and/or treat ocular or refractive conditions.  Source: RI General Law, Sec. 27-81-3(12). (Accessed Sept. 2019).
	Requirements	Each health insurer that issues individual or group accident-and-sickness insurance policies for health-care services and/or provides a health-care plan for health-care services shall provide coverage for the cost of such covered health-care services provided through telemedicine services.  Source: RRI General Law, Sec. 27-81-4(a). (Accessed Sept. 2019).

Private Payer Laws	Parity	A health insurer shall not exclude a health care service for coverage solely because the health care service is provided through telemedicine and is not provided through in-person consultation or contact, subject to the terms and conditions of a telemedicine agreement between the insurer and provider.  Source: RI General Law, Sec. 27-81-4(b). (Accessed Sept. 2019).		
		No explicit payment parity.		
Professional Regulation/Health & Safety	Definitions	Telemedicine is defined very generally as the delivery of healthcare where there is no in-person exchange. Telemedicine, more specifically, is a mode of delivering healthcare services and public health utilizing information and communication technologies to enable the diagnosis, consultation, treatment, education, care management, and self-management of patients at a distance from health care providers.  Source: RI Department of Health. Telemedicine. (Accessed Sept. 2019).		
	Consent	An informed consent agreement should be employed for the use of patient-physician email and other text-based communications.  The agreement should include:  Types of transmissions that will be permitted Circumstances when alternate forms of communication or office visits should be utilized Security measures Hold harmless clause for information lost due to technical failures Requirement for express patient consent to forward patient-identifiable information to a third party A statement noting that the patient's failure to comply with the agreement may result in termination of the e-mail relationship  Source: RI Department of Health. Telemedicine. (Accessed Sept. 2019).		
	Online Prescribing	An established in-person physician-patient relationship is required prior to prescribing controlled substances. However, a covering physician may prescribe a controlled substance if an established coverage agreement is in place and the quantity reflects the prescription is only for a short duration.  Source: RI Department of Health. Telemedicine. (Accessed Sept. 2019).		

Miscellaneous

RI allows physicians who have a license in good standing in another state to consult with RI licensed physicians or provide teaching assistance for no more than seven days unless extended with written permission from the director.

Physicians not present in RI may not provide consultation to a patient without an established physician-patient relationship, unless that patient is in the physical presence of a physician licensed in

Source: RI General Law, Sec. 5-37-16.2(a)(3). (Accessed Sept. 2019).

Telemedicine does not include an audio-only telephone conversation, email message or facsimile transmission between the provider and patient.

South Carolina Medicaid reimburses for live video under certain circumstances. Store-and-forward is not reimbursed as it does not meet established conditions for the use of telemedicine. The South Carolina Medicaid reimburses for home health monitoring through the Home Aging Program for some conditions when a patient is eligible.

## finitions

ledicaid Telehealth Reimbursement

"Telemedicine is the use of medical information about a patient that is exchanged from one site to another via electronic communications to provide medical care to a patient in circumstances in which face-to-face contact is not necessary.

"In this instance, a physician or other qualified medical professional has determined that medical care can be provided via electronic communication with no loss in the quality or efficacy of the care."

"Electronic communication means the use of interactive telecommunication equipment that typically includes audio and video equipment permitting two-way, real-time interactive communication between the patient and the physician or practitioner at the referring site. Telemedicine includes consultation, diagnostic, and treatment services."

Source: SC Health and Human Svcs. Dept., Physicians Provider Manual, p. 27-28 (July. 2019) (Accessed Sept. 2019).

### ve Video

olicy

South Carolina Medicaid will reimburse for live video and covers telemedicine when the service is medically necessary and under the following circumstances:

- The medical care is individualized, specific, and consistent with symptoms or confirmed diagnosis of the illness or injury under treatment, and not in excess of the beneficiary's need;
- The medical care can be safely furnished, and no equally effective and more conservative or less costly treatment is available statewide.

Source: SC Health and Human Svcs. Dept. Physicians Provider Manual, p. 29 (July. 2019) (Accessed Sept. 2019).

If there are technological difficulties in performing a medical assessment or problems in a beneficiaries' understanding of telemedicine, face-to-face care must be provided instead.

Source: SC Health and Human Svcs. Dept. Physicians Provider Manual, p. 28 (July. 2019) (Accessed Sept. 2019).

Telemedicine equipment and transmission must permit encrypted transmission and the speed and image resolution must be technically sufficient to support the service billed. Staff involved in a telemedicine visit must be trained in the use of the telemedicine equipment and component in its operation.

Source: SC Health and Human Svcs. Dept. Physicians Provider Manual, p. 30 (July. 2019) (Accessed Sept. 2019).

Reimbursement to the health professional delivering the medical service is the same as the current fee schedule amount for the service provided. See appropriate professional manuals for CPT codes. Codes must be billed along with the telemedicine GT modifier.

Source: SC Health and Human Svcs. Dept. Physicians Provider Manual, p. 215 (July. 2019) (Accessed Sept. 2019).

#### **Telepsychiatry**

To qualify for reimbursement, interactive audio and video equipment that permits two-way real-time or near real-time communication with the client, consultant, interpreter, and referring clinician.

Additional requirements include:

- Reimbursement requires the "real-time" presence of a client.
- Reimbursement is available for psychiatric diagnosis assessment with Medicaid and medical evaluation and management codes.
- · GT modifier must be used when billing the for telepsychiatric services.
- All equipment must operate at a minimum communication transfer rate of 384 kbps.

Source: SC Health and Human Svcs. Dept. Community Mental Health Services Provider Manual, p. 20. (Jul. 2019). (Accessed Sept. 2019).

Eligible services include consultation, diagnostic, and treatment services:

- · Office or other outpatient visits;
- Inpatient consultation;
- Individual psychotherapy;
- Pharmacologic management;
- Psychiatric diagnostic interview examination and testing;
- Neurobehavioral status examination;
- · Electrocardiogram interpretation and report only;
- · Echocardiography.

Services provided by allied health professionals are not covered.

Telemedicine services are not an expansion of covered services, but an option for the delivery of certain covered services.

Source: SC Health and Human Sycs. Dept. Physicians Provider Manual, p. 28 & 30 (July. 2019) (Accessed Sept. 2019).

#### **Autism Spectrum Disorder**

Telehealth is not covered.

Policy

Distant site eligible, reimbursed providers:

- Physicians;
- Nurse practitioners;
- Physician Assistants.

Distant (consultant) sites must be located in the SC Medical Service Area, which is the state of SC and areas in NC and GA within 25 miles of the SC border.

Source: SC Health and Human Svcs. Dept. Physicians Provider Manual, p. 28-29. (Mar. 2019) (Accessed Sept. 2019).

Eligible originating (referring) sites:

- Practitioner offices;
- Hospitals (inpatient and outpatient);
- Rural Health Clinics;
- Federally Qualified Health Centers;
- Community Mental Health Centers;
- Public Schools:
- Act 301 Behavioral Health Centers.

Referring sites (also known as originating sites) must be located in the South Carolina Medical Service Area, which is the state of SC and areas in NC and GA within 25 miles of the SC border.

Source: SC Health and Human Svcs. Dept., Physicians Provider Manual, p. 28-29 (July. 2019) (Accessed Sept. 2019).

Local Education Agency Manual refers providers to the Physician Manual Policy.

Source: Local Education Manual, p. 29. (July. 2019). (Accessed Sept. 2019).

An appropriate certified or licensed health care professional at the referring site is required to present (patient site presenter) the beneficiary to the physician or practitioner at the consulting site and remain available as clinically appropriate.

Source: SC Health and Human Svcs. Dept. Physicians Provider Manual, p. 30 (July. 2019) (Accessed Sept. 2019).

Distant (consultant) sites must be located in the SC Medical Service Area, which is the state of SC and areas in NC and GA within 25 miles of the SC border.

Source: SC Health and Human Svcs. Dept. Physicians Provider Manual, p. 28. (July. 2019) (Accessed Sept. 2019).

The referring site is only eligible to receive a facility fee for telemedicine services. Claims are submitted with HCPCS code. If a provider performs separately identifiable service for a beneficiary on the same day as telemedicine, documentation of both services must be clearly and separately identified in the medical record and both services are eligible for reimbursement.

RHCs and FQHCs are eligible to receive a facility fee for telemedicine services when operating as the referring site. They may not bill the encountercode if these are the only services being rendered.

Hospital providers are eligible to receive a facility fee for telemedicine when operating as the referring site. Claims must be submitted with the appropriate telemedicine revenue code.

## **Tennessee**

Medicaid Program: TennCare

Program Administrator: Dept. of Human Services

Regional Telehealth Resource Center: South Central Telehealth Resource Center

Covers the States of: Arkansas, Mississippi, and Tennessee

http://learntelehealth.org

Summary

TennCare reimburses for live video only for crisis-related services. TennCare services are offered through managed care entities. Each MCO has its own telehealth policy. Coverage and reimbursement for live video and store-and-forward may vary between MCOs.

:

**Jedicaid Telehealth Reimbursement** 

Telehealth means the use of real-time interactive audio, video telecommunications or electronic technology, or store-and-forward telemedicine services by a healthcare services provider to deliver healthcare services to a patient within the scope of practice of the healthcare services provider when such provider is at a qualified site other than the site where the patient is located; and the patient is at a qualified site at a school clinic staffed by a healthcare services provider and equipped to engage in the telecommunications described in this section or a public elementary or secondary school staffed by a health care services provider and equipped to engage in the telecommunications described in this section and does not include audio only conversation; an electronic mail message or facsimile transmission.

## TN Department of Mental Health and Substance Abuse Services

"Telehealth is the use of electronic information and telecommunication technologies to support clinical care between an individual with mental illness and/or substance abuse issues and a health-care practitioner."

"Telehealth systems provide a live, interactive audio-video communication or videoconferencing connection between the individual in need of services and the crisis service delivery system."

Source: TN Dept. of Mental Health and Substance Abuse Services. Office of Crisis Services and Suicide Prevention. Minimal Standards of Care. p. 46, (2017) (Accessed Aug. 2019).

Live Video

olicy

Health insurance entities (including managed care organizations) participating in the medical assistance program are required to provide coverage for telehealth (which includes live video) delivered services in a manner that is consistent with the health insurance policy or contract provided for in-person services. Any provisions not stipulated in the telehealth services section of the insurance code shall be governed by the terms and conditions of the health insurance contract.

## Qualified Sites:

- Office of a healthcare services provider (an individual acting within the scope of a valid license issued pursuant to title 63 or any state-contracted crisis service provider employed by a facility licensed under title 33);
- A hospital licensed under title 68;
- · A facility recognized as a rural health clinic under federal Medicare regulations;
- A federally qualified health center;
- A school clinic staffed or at a public elementary or secondary school appropriately staffed and equipped; or
- Any facility licensed under title 33, or any other location deemed acceptable by the health insurance entity.

Source: TN Code Annotated, Title 56, Ch. 7, Part 1002(a)(4) & (6). (Accessed Aug. 2019).

## **Mental Health & Substance Abuse Services**

Crisis service providers may connect from:

- · Emergency departments;
- Jails;
- · Detention centers: and
- Other similar locations

All telehealth sites shall ensure that telehealth equipment is located in a space conducive to a clinical environment.

Summary

Texas Medicaid reimburses for live video and store-and-forward in some circumstances. Home telemonitoring is reimbursable for some conditions when a provider is approved to deliver those services.

"Telehealth service" means a health service, other than a telemedicine medical service, delivered by a licensed or certified health professional acting within the scope of the health professional's license or certification who does not perform a telemedicine medical service and that requires the use of advanced telecommunications technology, other than telephone or facsimile technology, including:

Compressed digital interactive video, audio, or data transmission;

- Clinical data transmission using computer imaging by way of still-image capture and storeand-forward; and
- Other technology that facilitates access to health care services or medical specialty exper-

"Telemedicine medical service" means a health care service, initiated by a physician or provided by a health professional acting under physician delegation and supervision, that is provided for purposes of patient assessment by a health professional, diagnosis or consultation by a physician, or treatment, or for the transfer of medical data, and that requires the use of advanced telecommunications technology, other than telephone or facsimile technology, including:

Compressed digital interactive video, audio, or data transmission;

- Clinical data transmission using computer imaging by way of still-image capture and storeand-forward; and
- Other technology that facilitates access to health care services or medical specialty exper-

ledicaid Telehealth Reimbursement

Telemedicine medical services are defined as healthcare services delivered by a physician licensed in Texas or a health professional who acts under the delegation and supervision of a health professional licensed in Texas and within the scope of the health professional's license to a patient at a different location using telecommunications or information technology.

Telehealth services are defined as health-care services, other than telemedicine medical services, delivered by a health professional licensed, certified or otherwise entitled to practice in Texas and acting within the scope of the health professional's license, certification or entitlement to a patient at a different physical location other than the health professional using telecommunications or information technology.

Source: TX Medicaid Telecommunication Services Handbook, p. 5, 9 (Sept. 2019). & Telemedicine and Telehealth Services Benefit Policy Update. Effective Oct. 1, 2018. Information provided Aug. 17, 2018. (Accessed Sept. 2019).

Home telemonitoring is "a health service that requires scheduled remote monitoring of data related to a patient's health and transmission of the data to a licensed home and community support services agency or a hospital".

Source: TX Government Code, Sec. 531.001(4-a). (Accessed Sept. 2019).

Synchronous audiovisual interaction is reimbursable under Texas Medicaid.

Source: TX Medicaid Telecommunication Services Handbook, p. 7 (Sept. 2019). & Telemedicine and Telehealth Services Benefit Policy Update. Effective Oct. 1, 2018. Information provided Aug. 17, 2018. (Accessed Sept. 2019).

Provider reimbursement for telemedicine services must be in the same manner as in-person services.

Source: TX Admin. Code, Title 1 Sec. 355.7001. & TX Govt. Code Sec. 531.0217(d). (Accessed Sept. 2019).

Telemedicine: Texas health and human services agencies that administer a part of Medicaid are required to provide Medicaid reimbursement for a telemedicine service initiated or provided by a physician. Reimbursement is provided only for a telemedicine medical service initiated or provided by a physician.

A request for reimbursement may not be denied solely because an in-person medical service between a physician and a patient did not occur. Medicaid cannot limit a physician's choice of platform for providing a telemedicine or telehealth service by requiring the use of a particular platform to receive reimbursement.

With patient consent, the primary care provider must be notified of the telemedicine medical service for the purpose of sharing medical information. The notification must include a summary of the service, including exam findings, prescribed or administered medications, and patient instructions. If the patient is seen in a school-based setting and does not have a primary care provider, the patient's parent or legal guardian must receive the notification.

Medicaid reimbursement is provided to a physician for a telemedicine medical service provided by the physician, even if the physician is not the patient's primary care physician or provider, if:

- The physician is an authorized health care provider under Medicaid;
- The patient is a child who receives the services in a primary or secondary schoolbased setting; and
- The parent or legal guardian of the patient provides consent before the services is provided;

Source: TX Govt. Code Sec. 531.0217. (SB - 670). (Accessed Sept. 2019).

See provider manual for special rules for Texas Health Steps program.

## Live Video

Policy

**Telehealth:** Before receiving a telehealth service, the patient must receive an initial evaluation for the same diagnosis or condition by a physician or other qualified healthcare professional licensed in Texas which can be performed in-person or as a telemedicine visit that conforms to 22 TAC Ch. 174. A patient receiving telehealth services must be evaluated annually by a physician or other healthcare professional (in-person or via a telemedicine visit) to determine if the patient has a continued need for the service. Exception for patients receiving telehealth services to treat a mental health diagnosis or condition.

Source: TTX Admin. Code, Title 1, Sec. 354.1432(2)(E) (Accessed Sept. 2019).

## **Telemedicine**

Texas Medicaid reimburses for live video for the following services provided through telemedicine:

- Consultations;
- Office or other outpatient visits;
- Psychiatric diagnostic interviews;
- · Pharmacologic management;
- Psychotherapy;
- · Data transmission:
- Supportive encounters for persons with intellectual disabilities or related conditions.

Source: TX Admin. Code, Title 1, Sec. 354.1432(1). & TX Medicaid Behavioral Health and Case Management Svcs. Handbook, p. 38, (Sept. 2019). (Accessed Sept. 2019).

Use of telemedicine medical services is not permitted for the treatment of a client for chronic pain with scheduled drugs. However, telemedicine medical service is permitted to be used in the treatment of acute pain with scheduled drugs.

Source: TX Medicaid Telecommunication Services Handbook, p. 8, (Sept. 2019). (Accessed Sept. 2019).

## **Telehealth**

Texas Medicaid reimburses for live video for codes specified in the TX Medicaid Provider Procedures Manual. See individual manuals for reimbursable services provided through telehealth.

More than one medically necessary telemedicine or telehealth service may be reimbursed for the same date and same place of service if the services are billed by providers of different specialties.

Source: TX Medicaid Telecommunication Services Handbook, p. 4 & 6, (Sept. 2019). (Accessed Sept. 2019).

Telemedicine eligible distant site providers:

- Physician
- Certified Nutrition Specialist (CNS)
- Nurse Practitioner (NP)
- Advanced Practice Registered Nurse (APRNs)
- Physician Assistant (PA)
- Certified Nurse Midwife (CNM)

A distant site provider is the physician, or PA, NP or CNS who is supervised by and has delegated authority from a licensed Texas physician who uses telemedicine to provide health care services in Texas. Hospitals may also serve as the distant site provider.

Source: TX Medicaid Telecommunication Services Handbook, p. 5, (Sept. 2019). (Accessed Sept. 2019). & TX Admin Code. Title 1, Sec. 355.7001.

Live Video

Telehealth eligible distant site providers:

- Licensed professional counselors
- Licensed marriage and family therapist (LMFT)
- Licensed clinical social worker (LCSW)
- Licensed psychologist
- Licensed psychological associate
- Provisionally licensed psychologist
- Licensed dietician
- CCP providers (occupational therapist, speech therapist)
- Home health agency
- School Health and Related Services (SHARS)
- Post-doctoral psychology fellows and pre-doctoral psychology interns under a psychologist supervision
- Durable medical equipment suppliers (Included in Administrative Code)

Source: TX Medicaid Telecommunication Services Handbook, p. 9-10 (Sept. 2019). & TX Admin Code. Title 1, Sec. 355.7001 (Accessed Sept. 2019).

## **School-Based Telehealth Services**

Occupational therapists and speech therapists may be reimbursed for telehealth services delivered to children in school-based settings if the patient is eligible for those services through Texas Health Steps-Comprehensive Care Program (CCP). Services delivered to a patient on public or open-enrollment charter school premises may only be delivered before or after school hours.

Licensed clinical social workers, licensed professional counselors, licensed marriage and family therapists, and psychologist providers may also be reimbursed for telehealth services in school-based settings.

Source: TX Medicaid Telecommunication Services Handbook, p. 10 (Sept. 2019). (Accessed Sept. 2019).

Telemedicine/Telehealth eligible originating (patient) sites:

- An established medical site
- A state mental health facility
- State supported living centers.

A patient site is the place where the client is physically located. A client's home may be the patient site for telemedicine medical services.

Source: TX Medicaid Telecommunication Services Handbook, pg. 8 & 10 (Sept. 2019). (Accessed Sept. 2019). & TX Admin. Code, Title 1, Sec. 354.1432(1)(C).

TX Medicaid is required to reimburse school districts or open enrollment charter schools for telehealth services delivered by a health professional even if the specialist is not the patient's primary care provider if the school district or charter school is an authorized health care provider under Medicaid and the parent or guardian of the patient consents.

A health professional is defined as:

- Licensed social worker, occupational therapist or speech language pathologist
- Licensed professional counselor
- Licensed marriage and family therapist
- Licensed specialist in school psychology.

Source: TX Government Code Sec. 531.02171. (Accessed Sept. 2019).

		Facility/Transmission Fee	Patient-site providers that are enrolled in Texas Medicaid may only be reimbursed for the facility fee using procedure code Q3014. Procedure code Q3014 is payable to NP, CNS, PA, physicians, and outpatient hospital providers. Charges for other services that are performed at the patient site may be submitted separately. Procedure code Q3014 is not a benefit if the patient site is the client's home.  Source: TX Admin. Code, Title 1 Sec. 355.700(d)1 & TX Medicaid Telecommunication Services Handbook, p. 8 (Sept. 2019). (Accessed Sept. 2019).
	Store-and-Forward	Policy	Asynchronous store-and-forward technology, including asynchronous store-and-forward technology in conjunction with synchronous audio interaction between the distant site provider and the patient in another location is reimbursable under Texas Medicaid. The distant site provider would need to use one of the following:  - Clinically relevant photographic or video images, including diagnostic images - The patient's relevant medical records, such as medical history, laboratory and pathology results, and prescriptive histories - Other forms of audiovisual telecommunication technologies that allow the distant site provider to meet the in-person visit standard of care  Source: TX Medicaid Telecommunication Services Handbook, pg. 7 & 12, (Accessed Sept. 2019).  TX Administrative Code includes definitions of "Telemedicine Medical Service," "Telehealth Services" and "Telemedicine" which encompasses store-and-forward, stating that it includes "clinical data transmission using computer imaging by way of still-image capture and store-and-forward."  Source: TX Admin. Code, Title 1 Sec. 354.1430 (Accessed Sept. 2019).  Provider reimbursement must be the same as in-person services.  Source: TX Admin. Code, Title 1 Sec. 355.7001. (Accessed Sept. 2019).

Home telemonitoring services may be approved for up to 60 days per prior authorization request. If additional home telemonitoring services are needed, the home health agency or hospital must request prior authorization before the current prior authorization period ends.

Source: TX Medicaid Telecommunication Services Handbook, pg. 14 (Sept. 2019). (Accessed Sept. 2019).

The hospital or home health agency is responsible for the provision and maintenance of home telemonitoring equipment, including the setup and installation of equipment in the client's home. Reimbursement is limited to once per episode of care even if monitoring parameters are added after initial setup and installation. A claim for a subsequent set up and installation is not reimbursed unless there is a documented new episode of care or unless the provider submits documentation of extenuating circumstances that require another installation of telemonitoring equipment.

Home monitoring is a benefit when services are provided by a home health agency or an outpatient hospital. Providers must submit the revenue and modifier codes as specified in the Telecommunication Services Handbook.

Source: TX Medicaid Telecommunication Services Handbook, pg. 13 (Sept. 2019). (Accessed Sept. 2019).

Home Telemonitoring is available only to patients who:

- Are diagnosed with diabetes, hypertension; or
- When it is determined by Texas Health and Human Services Commission to be cost effective and feasible the following conditions are also included: pregnancy, heart disease, cancer, chronic obstructive pulmonary disease, congestive heart failure, mental illness, asthma, myocardial infarction or stroke.

Source: TX Admin Code. Title 1, Sec. 354.1434 & TX Medicaid Telecommunication Services Handbook, p. 14 (Sept. 2019). & TX Government Code Sec. 531.02164. (Accessed Sept. 2019).

Home telemonitoring services are also available to pediatric persons who:

- · Are diagnosed with end-stage solid organ disease;
- Have received an organ transplant; or
- Require mechanical ventilation.

Source: TX Government Code Sec. 531.02164. (HB - 1063.) (Accessed Sept. 2019).

## Providers must:

- Be enrolled and approved as home telemonitoring services providers
- Share clinical information gathered while providing home telemonitoring services with the patient's physician; and
- Not duplicate disease management program services

Source: TX Admin Code. Title 1, Sec. 354.1434(c) & TX Medicaid Telecommunication Services Handbook, p. 3 & 12, (Accessed Sept. 2019).

# Remote Patient Monitoring

# Remote Patient Monitoring

Requests for additional home telemonitoring services that are received after the current prior authorization expires will be denied for dates of service that occurred before the date the submitted request was received.

To be eligible for home telemonitoring services, clients who are diagnosed with diabetes or hypertension must exhibit two or more of the following risk factors:

- Two or more hospitalizations in the prior 12-month period;
- Frequent or recurrent emergency room admissions;
- A documented history of poor adherence to ordered medication regimens;
- A documented history of falls in the prior six-month period;
- Limited or absent informal support system;
- Living alone or being home alone for extended periods of time; and
- A documented history of care access challenges.

Source: TX Admin Code. Title 1, Sec. 354.1434(d) & TX Medicaid Telecommunication Services Handbook, pg. 14 (Sept. 2019). (Accessed Sept. 2019).

## nail / Phone / Fax

A health benefit plan, including a Texas Medicaid managed care organization (MCO), is not required to provide reimbursement for telemedicine medical services that are provided through only synchronous or asynchronous audio interactions including:

- · An audio-only telephone consultation
- A text-only email message
- · A facsimile transmission

Source: TX Medicaid Telecommunication Services Handbook, pg. 7 & 12 (Sept. 2019). (Accessed Sept. 2019).

Consent

Written or verbal consent must be obtained to allow any other individual (besides the distant site provider, patient site presenter or representative) to be present during a telemedicine or telehealth visit.

Distant site providers that communicate with clients using electronic communication methods other than phone or facsimile must provide clients with written notification of the physician's privacy practices prior to evaluation and treatment. Providers must make a "good faith effort" to obtain the client's written acknowledgment of the notice, including by email response. A distant site provider should provide patients who receive a telemedicine medical service with guidance on the appropriate follow-up care.

The distant site must obtain informed consent.

A parent must provide written or verbal consent to the distant site provider to allow any other individual, other than the health professional as required by Texas Government Code §531.0217(c-4)(4) for school-based telemedicine medical services, to be physically present in the distant or patient site environment during a telemedicine medical service with a child.

Source: TX Medicaid Telecommunication Services Handbook, pg. 5-6 & 9 (Sept. 2019). (Accessed Sept. 2019).

# **Out of State Providers**

An out-of-state physician who is a distant site provider may provide episodic telemedicine medical services without a Texas medical license as outlined in Texas Statute and Regulation.

Distant site providers that provide mental health services must be appropriately licensed or certified in Texas or be a qualified mental health professional community services (QMP-CS).

Source: TX Medicaid Telecommunication Services Handbook, pg. 5-6 (Sept. 2019). (Accessed Sept. 2019).

## Children's Health Insurance Program

Allows reimbursement for live video telemedicine and telehealth services to children with special health care needs.

Source: TX Govt. Code Sec. 531.02162

Must use the "95" modifier for telemedicine/telehealth services (except for services that already indicate remote delivery in the description). See manual for codes that can be billed with the "95" modifier.

Source: TX Medicaid Telecommunication Services Handbook, p. 6 and 9-11 (Sept. 2019). (Accessed Sept. 2019).

The software system used by the distant site and originating site (when patient presenter is used) must allow secure authentication of the distant site provider and the client.

See provider manual for other information security and documentation requirements.

Source: TX Medicaid Telecommunication Services Handbook, p. 4 (Accessed Sept. 2019).

Fees for telemedicine, telehealth and home telemonitoring services are adjusted within available funding.

Source: TX Admin Code. 355.7001(g).

A valid practitioner-patient relationship must exist between the distant site provider and patient. The relationship exists if the distant site provider meets the same standard of care required for an in-person service. A relationship is established through in-person services, through telemedicine medical services that meets the delivery modality requirements in TX Occupations Code Sec. 111.005(a)(3); or through the current telemedicine medical service. The relationship can be established through a call coverage agreement established in accordance with the Texas Medical Board rules.

Distant site providers should provide patients with written notification of the physician's privacy practices as well as guidance on appropriate follow-up care.

Source: TX Medicaid Telecommunication Services Handbook, p. 6 (Sept. 2019). (Accessed Sept. 2019).

A distant site provider may issue a valid prescription as part of a telemedicine medical service. The prescribing physician must be licensed in Texas. If the prescription is for a controlled substance, the prescribing physician must have a current valid U.S. Drug Enforcement Administration (DEA) registration number.

Source: TX Medicaid Telecommunication Services Handbook, pg. 7 (Accessed Mar. 2019).

All patient health information generated or utilized during a telemedicine medical service must be stored by the distant site provider in a patient health record. If the distant site provider stores the patient health information in an electronic health record, the provider should use software that complies with Health Insurance Portability and Accountability Act (HIPAA) confidentiality and data encryption requirements, as well as with HHS rules implementing HIPAA.

Documentation for a service provided via telemedicine must be the same as for a comparable in-person service. If a patient has a primary care provider who is not the distant site provider and the patient or their parent or legal guardian provides consent to a release of information, a distant site provider must provide the patient's primary care provider with the following information:

- A medical record or report with an explanation of the treatment provided by the distant site provider
- The distant site provider's evaluation, analysis, or diagnosis of the patient

Unless the telemedicine medical services are rendered to a child in a school-based setting, distant site providers of mental health services are not required to provide the patient's primary care provider with a treatment summary. For telemedicine medical services provided to a child in a school-based setting, a notification provided by the telemedicine medical services physician to the child's primary care provider must include a summary of the service, exam findings, prescribed or administered medications, and patient instructions.

Source: TX Medicaid Telecommunication Services Handbook, p. 4 & 8 (Sept. 2019). (Accessed Sept. 2019).

"Telehealth service" means a health service, other than a telemedicine medical service, delivered by a health professional licensed, certified, or otherwise entitled to practice in this state and acting within the scope of the health professional's license, certification, or entitlement to a patient at a different physical location than the health professional using telecommunications or information technology.

"Telemedicine medical service" means a health care service delivered by a physician licensed in this state, or a health professional acting under the delegation and supervision of a physician licensed in this state, and acting within the scope of the physician's or health professional's license to a patient at a different physical location than the physician or health professional using telecommunications or information technology.

Source: TX Insurance Code Sec. 1455.001 (Accessed Sept. 2019).

Requirements

Each issuer of a health benefit plan must adopt and display in a conspicuous manner on their website the policies and payment practices for telemedicine medical services and telehealth services. They, however, are not required to list payment rates.

Source: TX Insurance Code Sec. 1455.006 (Accessed Sept. 2019).

## **Worker's Compensation**

A health care provider must bill for telemedicine and telehealth services according to Medicare payment policies as defined in Section 134.203 in the Texas Administrative Code; and provisions of the Texas Administrative Code, Insurance Title. A health care provider may bill and be reimbursed or telemedicine or telehealth services regardless of where the injured employee is located at the time the telemedicine or telehealth services are provided.

Source: TX Admin. Code, Title 28 Sec. 2.133.30 (Accessed Sept. 2019).

**Private Payer Laws** 

Prohibits a health benefit plan from excluding from coverage a service delivered as a telemedicine medical service or a telehealth service solely because the service is not provided in-person. A health plan is not required to provide coverage for services provided by only synchronous or asynchronous audio interaction including audio-only telephone; email or facsimile.

Source: TX Insurance Code 1455.004(a). (Accessed Sept. 2019).

**Parity** 

A health plan may require a deductible, a copayment, or coinsurance for a covered health care service or procedure delivered as a telemedicine medical service or a telehealth service, however the amount of the deductible, copayment or coinsurance may not exceed the amount of the deductible, copayment, or coinsurance required for the same service provided through an in-person consultation.

Source: TX Insurance Code Sec. 1455.004(b). (Accessed Sept. 2019).

Telehealth service means a health service, other than a telemedicine medical service, delivered by a health professional licensed, certified, or otherwise entitled to practice in this state and acting within the scope of the health professional's license, certification, or entitlement to a patient at a different physical location than the health professional using telecommunications or information technology.

Telemedicine service means a health care service delivered by a physician licensed in this state, or a health professional acting under the delegation and supervision of a physician licensed in this state, and acting within the scope of the physician's or health professional's license to a patient at a different physical location than the physician or health professional using telecommunications or information technology.

Source: TX Occupations Code 111.001. (Accessed Sept. 2019).

## Speech-Language Pathology and Audiology

Telehealth is "the use of telecommunications and information technologies for the exchange of information from one site to another for the provision of speech-language pathology or audiology services to a client from a provider."

Telehealth services—The application of telecommunication technology to deliver speech-language pathology and/or audiology services at a distance for assessment, intervention, and/or consultation.

Telepractice—The use of telecommunications technology by a license holder for an assessment, intervention, or consultation regarding a speech-language pathology or audiology client.

Telepractice services—The rendering of audiology and/or speech-language pathology services through telepractice to a client who is physically located at a site other than the site where the provider is located.

Source: TX Admin. Code, Title 16 Sec. 111.210. (Accessed Sept. 2019).

## Occupational Therapy

Telehealth is a "mode of service delivery for the provision of occupational therapy services delivered by an occupational therapy practitioner to a client at a different physical location using telecommunications or information technology. Telehealth refers only to the practice of occupational therapy by occupational therapy practitioners who are licensed by this Board with clients who are located in Texas at the time of the provision of occupational therapy services. Also may be known as other terms including but not limited to telepractice, telecare, telerehabilitation, and e-health services."

Source: TX Admin. Code, Title 40 Sec. 362.1(39). (Accessed Sept. 2019).

Consent required prior to telemedicine or telehealth services.

A child's parent or legal guardian must provide consent before the child receives telemedicine services in a primary school-based setting.

Source: TX Occupational Code Sec. 111.002. & TX Admin. Code, Title 1, Sec. 354.1432. (2016). (Accessed Sept. 2019).

A valid practitioner-patient relationship is present between a practitioner providing a telemedicine medical service and a patient receiving the telemedicine medical service as long as the practitioner complies with the same standard of care as would apply in an in-person setting, and complies with one of the following scenarios:

- Has a preexisting practitioner-patient relationship with the patient established;
- Communicates, regardless of the method of communication, with the patient pursuant to a call coverage agreement established in accordance with Texas Medical Board rules with a physician requesting coverage of medical care for the patient; or
- Provides the telemedicine medical services through the use of one of the following methods, as long as the practitioner complies with follow-up requirements and the method allows the practitioner to have access to the relevant clinical information that would be required to meet the standard of care.
  - Synchronous audiovisual interaction
  - Asynchronous store-and-forward technology, including in conjunction with synchronous audio interaction, as long as practitioner uses relevant clinical information from clinically relevant photographic or video images, or the patient's relevant medical records
  - Another form of audiovisual telecommunication technology that allows the practitioner to comply with the appropriate standard of care

A practitioner who provides telemedicine medical services to a patient shall provide the patient with guidance on appropriate follow up care and with the patient's consent, forward the report of the encounter to the patient's primary care physician within 72 hours.

A practitioner-patient relationship is not present for purposes of prescribing an abortifacient or other drug or device to terminate a pregnancy.

The Texas Medical Board, Texas Board of Nursing, Texas Physician Assistant Board and the Texas Pharmacy Board are required to adopt joint rules that establish the determination of a valid prescription, which must allow for the establishment of the practitioner-patient relationship through telemedicine if it meets the standards outlined above.

This section does not apply to mental health services.

Source: TX Occupations Code 111.005-.008. (Accessed Sept. 2019).

A valid prescription must be issued for a legitimate medical purpose and meet all other applicable laws before prescribing.

Treatment of chronic pain with scheduled drugs through use of telemedicine is prohibited unless otherwise allowed under federal and state law. Treatment of acute pain with scheduled drugs through telemedicine is allowed unless otherwise prohibited under federal and state law.

Source: TX Admin. Code, Title 22, Part 9, Ch. 174.5. (Accessed Sept. 2019).

Establishing a practitioner-patient relationship is not required for prescription of sexually transmitted disease for partners of the physician's established patient, if the physician determines that the patient may have been infected; or drugs or vaccines for after close contact with an infectious disease.

Source: TX Admin. Code, Title 22, Part 9, Ch. 190.8(1)(L). (Accessed Sept. 2019).

**Cross-State Licensing** 

A telemedicine license may be issued for out of state providers. To qualify for an out-of-state telemedicine license, a person must:

- Be 21 years of age or older;
- Be actively licensed to practice medicine in another state which is recognized by the board for purposes of licensure, and not the recipient of a previous disciplinary action by any other state or jurisdiction;
- Not be the subject of a pending investigation by a state medical board or another state or federal agency;
- Have passed the Texas Medical Jurisprudence Examination;
- Complete a board-approved application for an out-of-state telemedicine license for the practice of medicine across state lines and submit the requisite initial fee; and
- Not be denied an out-of-state license.

Source: TX Admin. Code, Title 22, Sec. 172.12 (Accessed Sept. 2019).

An out-of-state physician may provide episodic consultation without a TX medical license.

Summary

Vermont Medicaid reimburses for live video under certain circumstances. Home health monitoring is considered a Medicaid benefit and is available under certain conditions.

Source: Dept. of VT Health Access, Green Mountain Care Provider Manual, p. 110-111 (Feb. 2019). (Accessed Sept. 2019).

.

Telemedicine is defined in Act 64 as "...the delivery of health care services...through the use of live interactive audio and video over a secure connection that complies with the requirements of the Health Insurance Portability and Accountability Act of 1996, Public Law 104-191. Telemedicine does not include the use of audio-only telephone, e-mail, or facsimile."

Source: Dept. of VT Health Access, Green Mountain Care Provider Manual, p. 106 (Feb. 2019). (Accessed Sept. 2019).

"Telemedicine means the delivery of health care services such as diagnosis, consultation, or treatment through the use of live interactive audio and video over a secure connection that meets Health Insurance Portability and Accountability Act (HIPAA) requirements. Telemedicine does not include the use of audio-only telephone, e-mail, or facsimile."

Source: VT Statutes Annotated, Title 8 Sec. 4100k (2017). (Accessed Sept. 2019).

Telehealth means health care delivered by a provider who is located at a distant site to a beneficiary at an originating site for purposes of evaluation, diagnosis, consultation, or treatment using telecommunications technology via two-way, real-time, audio and video interactive communication, through a secure connection that complies with HIPAA.

Telemedicine encompasses the following:

- Real-time, audio video communication tools that connect providers and patients in different locations. Tools can include interactive videoconferencing or videoconferencing using mobile health (mHealth) applications (apps) that are used on a computer or hand-held mobile device.
- Store-and-forward technologies that collect images and data to be transmitted and interpreted later, which may also involve the use of mHealth apps.
- Remote patient-monitoring tools such as home blood pressure monitors, Bluetooth-enabled digital scales and other devices that can communicate biometric data for review, which may also involve the use of mHealth apps.

Source: Department of Vermont Health Access. Agency of Human Services. Telehealth: Methods for healthcare service delivery using telecommunications technologies. (July 2019). (Accessed Sept. 2019).

**Medicaid Telehealth Reimbursement** 

rsement	Live Video	Policy	Health insurance plans must provide coverage for health care service delivered through telemedicine by a health care provider at a distant site to a patient at an originating site to the same extent that the plan would cover the services if they were provided through in-person consultation.  An originating site is the location of the patient, whether or not accompanied by a health care provider, at the time services are provided by a health care provider through telemedicine, including a health care provider's office, a hospital, or a health care facility, or the patient's home or another nonmedical environment such as a school-based health center, a university-based health center or patient's workplace.  A distant site is the location of the health care provider delivering services through telemedicine at the time the services are provided. Online Prescribing

Providers may prescribe, dispense, or administer drugs or medical supplies, or otherwise provide treatment recommendations if they first examine the patient in-person, through telemedicine, or by the use of instrumentation and diagnostic equipment through which images and medical records may be transmitted electronically.

Treatment recommendations made via electronic means, including issuing a prescription via electronic means, shall be held to the same standards of appropriate practice as those in traditional provider-patient settings.

See billing information for specific codes.

#### Eligible services:

- Evaluation and management
- Psychiatric care
- Specialty medical procedures such as echocardiography and obstetric ultrasound
- Speech therapy
- Radiology service and procedures

Source: VA Dept. of Medical Assistance Svcs. Medicaid Bulletin. Updates to Telemedicine Coverage. P. 3. (May. 2014). (Accessed Aug. 2019).

Speech therapy is reimbursable for a speech-language pathologist at a remote location and a qualified school aide with the child during a tele-practice session.

Source: VA Dept. of Medical Assistant Svcs. Medicaid Provider Manual, Local Education Agency Provider Manual, Covered Svcs. and Limitations, p. 11 (Jul. 2018). (Accessed Aug. 2019).

#### **Community Mental Health Rehabilitative Services**

A service specific provider intake meeting may be conducted via telemedicine for:

- Psychosocial rehabilitation
- Partial hospitalization
- Intensive Community Treatment
- Crisis intervention

Source: VA Dept. of Medical Assistant Svcs. Medicaid Provider Manual, Community Mental Health Rehabilitative Services, Covered Svcs. and Limitations, p. 18 (May. 2019). (Accessed Aug. 2019).

Telemedicine is reimbursable for psychiatric evaluation in crisis stabilization services when coordinated with an outpatient provider and billed as physician or outpatient psychiatric services, however telemedicine is not allowed for services billed under Crisis Stabilization.

Source: VA Dept. of Medical Assistant Svcs. Medicaid Provider Manual, Community Mental Health Rehabilitative Services, Covered Svcs. and Limitations, p. 49 (May. 2019). (Accessed Aug. 2019).

#### **Opioid Treatment Services**

Psychotherapy and counseling may be provided via telemedicine in rural areas if the nearest licensed Credentialed Addiction Treatment Professional is located more than 60 miles away from the buprenorphine waivered practitioner, or members are having to travel more than 60 miles to the licensed Credentialed Addiction Treatment Professional.

Source: VA Dept. of Medical Assistance Svcs. Medicaid Provider Manual, Addiction and Recovery Treatment Services, Opioid Treatment Services/Medication Assisted Treatment. p. 6 & 14. (Dec. 2017). (Accessed Aug. 2019).

#### Eligible providers:

- **Physicians**
- Nurse practitioners
- Nurse midwives
- **Psychiatrist**
- Psychiatric clinical nurse specialist
- Psychiatric nurse practitioner
- Marriage and family therapist/counselor
- School psychologist
- Substance abuse treatment practitioner
- Clinical nurse specialists
- Clinical psychologists
- Clinical social workers
- Local Education Agency (billing speech therapy)
- Professional counselors
- Federally Qualified Health Center Providers
- Behavioral health services providers

Providers must have appropriate license from the Department of Behavioral Health and Developmental Services and be enrolled with Magellan.

**Online Prescribing** 

Miscellaneous Cross-State Licensing

Practitioners prescribing controlled substances must have a "bona fide" relationship with the patient.

#### Requirements:

- Obtaining a medical or drug history;
- Informing the patient about the benefits and risks of the drug;
- Conducting a patient exam, either physically or by the use of instrumentation and diagnostic equipment, through which images and medical records may be transmitted electronically.

Practitioners can also prescribe Schedule II-V controlled substances under certain circumstances. Additional requirements apply for the prescription of Schedule VI controlled substances via telemedicine.

(Effective July 1, 2020) Cases in which the practitioner is an employee of or contracted by the Department of Health or a local health department, a "bona-fide" practitioner-patient relationship is not required.

# **Medicaid Telehealth Reimbursement**

## **Washington**

Medicaid Program: Washington Apple Health

Program Administrator: Washington State Health Care Authority

Regional Telehealth Resource Center. Northwest Regional Telehealth Resource Center Covers the States of: Alaska, Idaho, Montana, Oregon, Utah, Washington, and Wyoming

https://www.nrtrc.org

Washington Medicaid (Apple Health) reimburses for live video, store-and-forward, and remote patient monitoring under some circumstances.

Client must be present and participating in telemedicine visit. Clients under the Family Planning, TAKE CHARGE, First Steps, and School Based Health Care Service program are eligible for telemedicine through fee-for-service.

For patients with managed care plan coverage, telemedicine services will not be reimbursed separately. All services must be arranged and provided by primary care providers. It is not mandatory that the plan pay for telehealth services.

Source: WA State Health Care Authority, Medicaid Provider Guide, Physician-Related Svcs./Health Care Professional Svcs., p. 90 (Jul. 2019); (Accessed Aug. 2019).

Telemedicine is covered by the Department.

Source: WA Admin. Code Sec. 182-531-0100. (Accessed Aug. 2019).

"Telemedicine is when a health care practitioner uses HIPAA-compliant interactive real-time audio and video telecommunications (including web-based applications) or store-and-forward technology to deliver covered services that are within his or her scope of practice to a client at a site other than the site where the provider is located."

Source: WA Admin. Code Sec. 182-531-1730. WA State Health Care Authority, Medicaid Provider Guide, Physician-Related Svcs./Health Care Professional Svcs., p. 90 (Jul. 2019); School Based Health Care Services, p. 31 (Jan, 1, 2019) (Accessed Aug. 2019).

"Telemedicine means the use of tele-monitoring to enhance the delivery of certain home health skilled nursing services through:

- The collection of clinical data and the transmission of such data between a patient at a distant location and the home health provider through electronic processing technologies. Objective clinical data that may be transmitted includes, but is not limited to, weight, blood pressure, pulse, respirations, blood glucose, and pulse oximetry; or
- The provision of certain education related to health care services using audio, video, or data communication instead of a face-to-face visit."

Source: WA Admin. Code Sec. 182-551-2010. (Accessed Aug. 2019)

Manuals for Federally Qualified Health Centers (FQHCs), Maternity Support Services, Medical Nutrition Therapy, and Outpatient Hospital Services refer to agency's telemedicine coverage policy in the Physician-related services manual.

Source: WA State Health Care Authority, Medicaid Provider Guide. Federally Qualified Health Centers Manual, Jul. 1, 2019, pg. 65; Maternity Support Services Manual, Apr. 1, 2019, pg. 31; Medical Nutrition Therapy Manual, Jul. 1, 2019, pg. 17; Outpatient Hospital Services Manual, Jul. 1, 2019 pg. 36.

**Live Video** 

Live video is covered for patients with fee-for-service coverage when it is medically necessary. The referring provider is responsible for determining and documenting medical necessity.

Source: WA State Health Care Authority, Medicaid Provider Guide, Physician-Related Svcs./Health Care Professional Svcs., p. 93 (Jul. 2019).

#### Applied Behavior Analysis (ABA) for Clients Age 20 and Younger

Eligible telemedicine services:

- · Program supervision when the child is present
- Family training, which does not require the child's presence

See ABA fee schedule for telemedicine billing instructions.

Source: WA State Health Care Authority, Medicaid Provider Guide, Applied Behavior Analysis for Clients 20 and Younger, p. 35 (Jul. 2019) & WAC 182-531A-1200. (Accessed Aug. 2019).

#### **Behavioral Health**

Behavioral health administrative services organizations and managed care organizations who have a contract with the department shall reimburse a provider for behavioral health services provided to a covered person who is under 18 years old through telemedicine orstore-and-forward if:

- The behavioral health administrative services organization or managed care organization provides coverage for behavioral health services when provided in-person;
   and
- The service is medically necessary.

Source: Revised Code of WA Sec. 71.24.335(1). (Accessed Aug. 2019).

#### **Teledentistry**

Teledentistry can be delivered through a synchronous or asynchronous method. The agency covers teledentistry as a substitute for an in-person, face-to-face, hands-on encounter when medically necessary.

A dentist or authorized dental provider may delegate allowable tasks to dental hygienists and Expanded Function Dental Assistants through teledentistry. Delegation of tasks must be under general supervision.

See manual for acceptable CPT codes.

Source: WA State Health Care Authority, Medicaid Provider. Dental-Related Services, p. 83-84. (Jul, 2019). (Accessed Aug. 2019).

#### Rural Health Clinics (RHCs) RHCs are authorized to serve

RHCs are authorized to serve as an originating site for telemedicine services. RHCs may receive the encounter rate when billing as a distant site provider if the service being billed is encounter eligible. Clients enrolled in an agency-contracted MCO must contact the MCO regarding whether or not the plan will authorize telemedicine coverage.

Source: WA State Health Care Authority, Medicaid Provider Guide, p. 44, Jul. 2019. (Accessed Aug. 2019).

Live Video

Eligible Originating Sites:

- · Clinics;
- · Dental offices;
- Home or any location determined appropriate by the individual receiving the service;
- Hospitals—inpatient or outpatient;
- Neurodevelopmental centers;
- · Schools;
- · Rural health clinic;
- · Federally qualified health center;
- · Physician's or other health care provider's office;
- · Community mental health center/chemical dependency settings;
- · Skilled nursing facility; or
- · Renal dialysis centers, except an independent renal dialysis center

Originating site providers are responsible for determining and documenting that telemedicine is medically necessary.

Source: RCW 41.05700(3) & WAC 182-531-1730.(3) & WA State Health Care Authority, Medicaid Provider Guide, Physician-Related Svcs./Health Care Professional Svcs., p. 90-91 (Jul. 2019). (Accessed Aug. 2019).

#### School-Based Health Care Services (SBHS)

When the originating site is a school, the school district must submit a claim on behalf of both the originating and distant site. The location of the student and provider must be documented. The SBHS program allows the following approved originating sites:

- The school for students age three through 20 (Part B and C services)
- The home for students age birth through two (Part C services only)

See manual for specific scenarios and appropriate modifiers.

Source: WA State Health Care Authority, Medicaid Provider Guide, School Based Health Care Services, p. 32-33 (Jan. 1, 2019), (Accessed Aug. 2019).

An urban or rural distinction must not be placed on the originating site.

Source: Revised Code of WA Sec. 41.05700(5) (Accessed Aug. 2019).

raphic Lir

Facility fees are available for originating sites, except inpatient hospitals, skilled nursing facilities, homes or other locations determined appropriate by the individual receiving service, but not specified as an eligible originating site.

Source: WA State Health Care Authority, Medicaid Provider Guide, Physician-Related Svcs./Health Care Professional Svcs., p. 92 (Jul. 2019). (Accessed Aug. 2019).

Rural Health Clinics that serve as an originating site for telemedicine services are paid an originating site facility fee. Charges for the originating site facility fee may be included on a claim, but the originating site facility fee may not be included on the cost report.

Source: WA State Health Care Authority, Medicaid Provider Guide, p. 44, Jul. 2019. (Accessed Aug. 2019).

#### School-Based Health Care Services (SBHS)

When the originating site is a school, the school district will receive a telemedicine fee per completed telemedicine transmission.

Source: WA State Health Care Authority, Medicaid Provider Guide, School Based Health Care Services, p. 32 (Jan. 1, 2019), (Accessed Aug. 2019).

#### **Dental Related Services**

The facility fee is included in the CPT code. There is no separate facility fee for teledentistry.

Source: WA State Health Care Authority, Medicaid Provider Guide, Dental Services, p. 84 (July 1, 2019). (Accessed Sept. 2019).

Store-and-Forward

Washington Medicaid reimburses for some store-and-forward services under certain circumstances.

Source: WA State Health Care Authority, Medicaid Provider Guide, Physician-Related Svcs./Health Care Professional Svcs., p. 91 (Jul. 2019). & WA State Health Care Authority, Medicaid Provider. Dental-Related Services, p. 83. (Jul. 2019) (Accessed Aug.

WA Medicaid pays for store-and-forward for teledermatology or when all of the following conditions are met:

- There is an associated office visit that can be done either in-person or via asynchronous telemedicine.
- The transmission of information is HIPAA compliant.
- Written informed consent is obtained.

If the consultation results in a face-to-face visit in-person or via telemedicine with the specialist within 60 days of the store-and-forward consult, the agency does not pay for the consult.

WA Apple Health pays for store-and-forward for teledermatology. Teledermatology ser-

Additional Documentation Requirements for Telemedicine:

- Verification that the service was provided via telemedicine
- · The location of the client and a note of any medical personnel with the client
- The location of the provider
- The names and credentials (MD, ARNP, RN, PA, CNA, etc.) of all people involved in the telemedicine visit, and their role in the encounter at both the originating and distant sites

Source: WA State Health Care Authority, Medicaid Provider Guide, Physician-Related Svcs./Health Care Professional Svcs., p. 91 (Jul. 2019). (Accessed Aug. 2019).

"If a provider from the originating site performs a separately identifiable service for the client on the same day as telemedicine, documentation for both services must be clearly and separately identified in the client's medical record."

Source: WA State Health Care Authority, Medicaid Provider Guide, Physician-Related Svcs./Health Care Professional Svcs., p. 92 (Jul. 2019). (Accessed Aug. 2019).

"Telemedicine" means the delivery of health care services through the use of interactive audio and video technology, permitting real-time communication between the patient at the originating site and the provider, for the purpose of diagnosis, consultation, or treatment. For purposes of this section only, "telemedicine" does not include the use of audio-only telephone, facsimile, or email.

Source: WA Rev. Code Sec. 48.43.735.(8(g)) (Accessed Aug. 2019).

Insurers (including employee health plans and Medicaid Managed Care) must reimburse a provider for services delivered through telemedicine or store-and-forward if:

- The plan provides coverage when provided in-person;
- The health care service is medically necessary;
- The health care service is a service recognized as an essential health benefit under section 1302(b) of the federal patient protection and affordable care act (ACA);
- The health care service is determined to be safely and effectively provided through telemedicine or store-and-forward technology according to generally accepted health care practices and standards, and the technology used to provide the health care service meets the standards required by state and federal laws governing the privacy and security of protected health information.

#### **Eligible Originating Sites**

- Hospital
- · Rural health clinic
- Federally qualified health center
- Physician's or other health care provider's office
- · Community mental health center
- · Skilled nursing facility
- Renal dialysis center, except an independent renal dialysis center
- Home or any location determined appropriate by the individual receiving the service
- Originating sites may not distinguish between rural and urban originating sites

Source: RCW 48.43.735.(3) (Accessed Aug. 2019).

An originating site (other than a home) can charge a facility fee, but it is subject to a negotiated agreement between the originating site and the health plan.

Source: RCW 48.43.735.(4) (Accessed Aug. 2019).

If the services are provided via store-and-forward, there must be an associated office visit between the patient and referring health care provider.

Source: RCW 48.43.735.(2(a)) (Accessed Aug. 2019).

Private Payer Laws	Parity	Services must be considered an essential health benefit under the ACA and be determined to be safely and effectively provided through telemedicine or store-and-forward.  Source: RCW 48.43.735.(1(c)) (Accessed Aug. 2019).  No explicit payment parity.
Professional Regulation/Health & Safety	Definitions	"Telemedicine means the delivery of health care (or behavioral health) services through the use of interactive audio and video technology, permitting real-time communication between the patient at the originating site and the provider, for the purpose of diagnosis, consultation, or treatment. For purposes of this section only, 'telemedicine' does not include the use of audio-only telephone, facsimile, or email."  Source: RCW 70.41.020(13) & WAC 246-335-610.(21) (Accessed Aug. 2019).  Hospice  "Telehealth" means a collection of means or methods for enhancing health care, public health, and health education delivery and support using telecommunications technology. Telehealth encompasses a broad variety of technologies and tactics to deliver virtual medical, health, and education services.  "Telemedicine" means the delivery of health care services through the use of interactive audio and video technology, permitting real-time communication between the patient at the originating site and the provider, for the purpose of diagnosis, consultation, or treatment.  Source: WAC 246-335-610.(20) & (21) (Accessed Aug. 2019).  Physical and Occupational Therapy  "Telehealth means providing physical therapy [or occupational therapy] via electronic communication where the physical [occupational] therapist or physical [or occupational] therapist assistant and the patient are not at the same physical location."  Source: WAC 246-915-187(3(a)) & 246-847-176.(1) (Accessed Aug. 2019).
Profe	Consent	Patient consent should be obtained and documented prior to the telemedicine encounter.  Source: Washington Medical Quality Assurance Commission, Guidelines for Appropriate Use of the Internet in Medical Practice (Accessed Aug. 2019).

The WA Medical Quality Assurance Commission has issued guidelines on the use of the Internet in medical practices. A guideline does not have the force of law, but can be considered by the Commission to be the standard of practice in the state.

A documented patient evaluation, including history and physical evaluation adequate to establish diagnoses and identify underlying conditions and/or contra-indications to the treatment recommended/provided, must be obtained prior to providing treatment, including issuing prescriptions, electronically or otherwise.

Treatment and consultation recommendations made in an online setting, including issuing a prescription via electronic means, will be held to the same standards of appropriate practice as those in in-person settings.

Treatment, including issuing a prescription, based solely on an online questionnaire or consultation does not constitute an acceptable standard of care.

Beginning Jan. 1, 2020, a health care professional who provides clinical services through telemedicine may complete a telemedicine training. By January 1, 2020, the telemedicine collaborative shall make a telemedicine training available on its web site for use by health care professionals who use telemedicine technology. If a health care professional completes the training, the health care professional shall sign and retain an attestation. The training:

- Must include information on current state and federal law, liability, informed consent, and other criteria established by the collaborative for the advancement of telemedicine, in collaboration with the department and the Washington state medical quality assurance commission:
- Must include a question and answer methodology to demonstrate accrual of knowledge; and
- May be made available in electronic format and completed over the internet.

The training may be incorporated into existing telemedicine training programs, provided that the training meets the requirements in subsection (2) of this section.

ummary

West Virginia Medicaid reimburses for live video under some circumstances. Reimbursement is only made for real-time communications, therefore there is no reimbursement for store-and-forward or remote patient monitoring.

**Nedicaid Telehealth Reimbursement** 

"Telehealth: The use of electronic information and telecommunications technologies to provide professional health care; is often used to connect practitioners and clinical experts in large hospitals or academic medical centers with patients in smaller hospitals or critical access hospitals which are typically located in more remote locations; and can assure that these remotely located patients enjoy the same access to potentially life-saving technologies and expertise that are available to patients in more populated parts of the country."

"The telecommunication system is defined as an interactive audio and video system that permits real time communication between the member at the originating site and the practitioner at the distant site. The telecommunication technology must allow the treating practitioner at the distant site to perform a medical examination of the member that substitutes for an in-person encounter."

Source: WV Dept. of Health and Human Svcs. Medicaid Provider Manual, Chapter – 519.17 Practitioner Services: Telehealth Services. (Revised Jan. 15, 2016) (Accessed Aug. 2019).

Telehealth – for purposes of Medicaid, telemedicine seeks to improve a patient's health by permitting two-way, real time interactive communication between the patient, and the physician or practitioner at the distant site. This electronic communication means the use of interactive telecommunications equipment that includes, at a minimum, audio and video equipment.

## Wisconsin

Medicaid Program: Forward Medicaid

Program Administrator: Wisconsin Dept. of Health Services

Regional Telehealth Resource Center: Great Plains Telehealth Resource and Assistance Center Covers the States of: Iowa, Minnesota, Nebraska, North Dakota, South Dakota, and Wisconsin

https://www.gptrac.org

Summary

Forward Medicaid allows reimbursement for live video under some circumstances. There is no reimbursement for store-and-forward or remote patient monitoring as services must be delivered at the same functional equivalency as face-to-face care.

Sum

Telehealth enables a provider who is located at a distant site to render the service remotely to a member located at an originating site using a combination of interactive video, audio, and externally acquired images through a networking environment.

Source: WI ForwardHealth Online Handbook. Topic #510 Telehealth. (Accessed Aug. 2019).

"Telehealth" is a service provided from a remote location using a combination of interactive video, audio, and externally acquired images through a networking environment between an individual at an originating site and a provider at a remote location with the service being of sufficient audio and visual fidelity and clarity as to be functionally equivalent to face-to-face contact. "Telehealth" does not include telephone conversations or Internet-based communications between providers or between providers and individuals.

Source: Wisconsin Statute 49.45 (29w)(b)1.b (Accessed Aug. 2019).

"Telehealth" means a service provided from a remote location using a combination of interactive video, audio, and externally acquired images through a networking environment between an individual or a provider at an originating site and a provider at a remote location with the service being of sufficient audio and visual fidelity and clarity as to be functionally equivalent to face-to-face contact; or, in circumstances determined by the department, an asynchronous transmission of digital clinical information through a secure electronic communications system from one provider to another provider. "Telehealth" does not include telephone conversations or Internet-based communications between providers or between providers and individuals.

Mental health services provided through telehealth are reimbursable by the Medical Assistance program if the provider of the service satisfies the following criteria:

- The provider is a certified provider of mental health services under the Medical Assistance program and is an agency that is certified by the department as an emergency mental health service program, a comprehensive community services program, a mental health day treatment services program for children, a program organized under s.,, or, an outpatient psychotherapy clinic, or a community support program or that is certified by the department to perform a community substance abuse prevention and treatment service, except for narcotic treatment service for opiate addiction.
- The provider and the individual providing the service comply with all Medical assistance coverage policies and standards.
- The provider is certified for telehealth by the department.
- The individual who is providing the service is licensed or registered and in good standing with the appropriate state board.
- The provider is located in the United States.
- The provider is not required to be located in the state.

ForwardHealth reimburses providers for telestroke services.

Source: WI ForwardHealth Online Handbook. Topic #510 Telehealth. (Accessed Aug. 2019).

#### Allowable providers:

- Audiologists
- · Nurse midwives
- Nurse practitioners
- · Ph.D. psychologists
- Physician assistants
- Physicians
- Psychiatrists
- Professionals providing services in mental health or substance abuse programs certified by the DQA (Division of Quality Assurance)

#### **Ancillary Providers**

Claims for services provided via telehealth by distant site ancillary providers should be billed under the supervising physician's NPI using the lowest appropriate level office or outpatient visit procedure code. These services must be supervised by an onsite physician.

#### **Certified Mental Health And Substance Abuse Treatment Providers**

Required to meet telehealth certification requirements to provide telehealth.

#### Community Health Centers, Tribal FQHCs and RHCs

They may serve as a distant site provider for telehealth services. See manual for details.

Tribal FQHCs and RHCs may report services provided via telehealth on the cost settlement report when the FQHC or RHC served as the distant site and the member is an established patient of the tribal FQHC or RHC at the time of the telehealth service.

CHCs may not report services provided via telehealth as an encounter. Instead, CHCs should submit claims for distant site services on a professional claim form and will be reimbursed in accordance with the maximum allowable fee schedule

## **Wyoming**

Medicaid Program: Wyoming Medicaid

**Program Administrator:** Office of Equality Care, under the Wyoming Dept. of Health **Regional Telehealth Resource Center:** Northwest Regional Telehealth Resource Center **Covers the States of:** Alaska, Idaho, Montana, Oregon, Utah, Washington, and Wyoming

https://www.nrtrc.org

Medicaid Telehealth Reimbursement	Summary		oming Medicaid reimburses for live video under some circumstances. There is no reference to re-and-forward or remote patient monitoring reimbursement.	
	Definitions	"Telehealth is the use of an electronic media to link beneficiaries with health professionals in different locations. The examination of the client is performed via a real-time interactive audio and video telecommunications system. This means that the client must be able to see and interact with the off-site practitioner at the time services are provided via telehealth technology."  Source: WY Dept. of Public Health Insurance, Medicaid, CMS 1500 ICD-10, p. 106 (July. 1 2019). (Accessed Aug. 2019).		
	deo	Policy	Reimbursement is made for exams performed via a real-time interactive audio and video telecommunications system. The quality must be sufficient enough to assure the accuracy of the assessment, diagnosis, and visible evaluation of symptoms and potential medication side effects. A medical professional is not required to be present with the client at the originating site unless medically indicated. See manual for additional billing requirements.  Source: WY Dept. of Public Health Insurance, Medicaid, CMS 1500 ICD-10, p. 108-110 (July. 1 2019). (Accessed Aug. 2019).	
	Live Video	: Services / Specialties	See manual for list of eligible hub site billing codes.  Quality assurance/improvement activities relative to telehealth delivered services need to be identified, documented and monitored. An evaluation process must also be instituted.  Documentation must indicate the visit took place via telehealth and must clearly identify the location of the hub and spoke sites.	

Source: WY Dept. of Public Health Insurance, Medicaid, CMS 1500 ICD-10, p. 108-110 (July. 1 2019). (Accessed Aug. 2019).

Physicians;

Physician's assistant;

Wyoming Medicaid reimburses the following eligible providers:

Psychologists and neuropsychologists;

Advanced practice nurses with a specialty of psychiatry/mental health;

A single pay to provider can bill both the originating site (spoke site) and the distant site provider (hub site) when applicable. Source: WY Dept. of Public Health Insurance, Medicaid, CMS 1500 ICD-10, p. 107 (July. 1, 2019). (Accessed Aug. 2019). No reimbursement for: Miscellaneous The use or upgrade of technology; Transmission charges; Charges of an attendant who instructs a patient on the use of the equipment or supervises/monitors a patient during the telehealth encounter; or Consults between health professionals. The GT modifier must be billed by the distant site. Source: WY Dept. of Public Health Insurance, Medicaid, CMS 1500 ICD-10, p. 110 (July. 1, 2019). (Accessed Aug. 2019). No reference found. No reference found. Private Payer Laws No reference found. Parity No reference found.

## **Glossary**

**Asynchronous** (see also Store and Forward) technologies allow for the electronic transmission of medical information, such as digital images, documents, and pre-recorded videos. Asynchronous transmissions typically do not occur in real-time, and take place primarily among medical professionals, to aid in diagnoses and medical consults, when live video or face-to-face patient contact is not necessary.

**Broadband** refers to the wide bandwidth characteristics of a transmission medium, and its ability to transport multiple signals and traffic types simultaneously. Broadband is often used to transmit telehealth and telemedicine services.

Centers for Medicare & Medicaid Services (CMS) is the federal agency that administers the Medicare, Medicaid and Children's Health Insurance Program.

**Children's Waiver Services Program** is a federal program that provides Medicaid-funded home and community-based services to children under age 18 who are eligible for, and at risk of, placement into an Intermediate Care Facility for the Mentally Retarded (ICF/MR).

Consultant Site (see also Hub Site or Distant Site) is the site at which the provider delivering a telehealth service is located.

**Critical Access Hospital (CAH)** is a rural community hospital that receives cost-based reimbursement. The reimbursement that CAHs receive is intended to improve their financial performance and reduce hospital closures.

**Current Procedural Terminology (CPT)** is a medical billing and administrative code set that describes medical, surgical, and diagnostic services. It is designed to communicate uniform information about medical services and procedures among physicians, coders, patients, accreditation organizations and payers for administrative, financial and analytical purposes.

Distant Site (see also Hub Site or Consultant Site) is the site at which the provider delivering a telehealth service is located.

Durable Medical Equipment (DME) is any medical equipment, such as wheelchairs used in the home.

**Echocardiography** is a sonogram of the heart.

**Echography** is a radiologic procedure in which deep structures of the body are recorded with ultrasonic waves.

**Electrocardiogram (ECG)** is a test of the electrical activity of the heart, which helps detect medical problems such as heart attacks and arrhythmias.

**Electronic Consultation (e-consult)** enables primary care providers to consult remotely and conveniently with specialists. It can take place via a store-and-forward modality, through video, or telephone.

**E-Prescribing** is the act of offering medical prescriptions over the Internet. Often, e-prescriptions must be accompanied by a valid physician-patient relationship, which may or may not require a face-to-face interaction between the physician and patient, depending on the state.

Facility Fee (see also Originating Site Fee) is a fee paid to the originating site to compensate for the cost of facilitating a telemedicine visit.

**Federally Qualified Health Centers (FQHCs)** are federally designated facilities, which provide primary care and other medical services to underserved populations.

Health Professional Shortage Area (HPSA) are designated by the Health Resources and Services Administration as having shortages of primary medical care, dental or mental health providers and may be geographic (a county or service area), demographic (low-income population) or institutional (comprehensive health center, federally qualified health center or other public facility).

Hub Site (see also Distant Site or Consultant Site) is the site at which the provider delivering a telehealth service is located.

**Informed Consent** refers to providers obtaining permission from a patient to perform a specific test, procedure, or in the case of telehealth, service delivery method. Informed consent means that the patient understands the relevant medical facts and risks involved.

Live Video Conferencing (see also Synchronous) refers to the use of two-way interactive audio-video technology to connect users, in real-time.

**Medicaid** is a program that provides medical coverage for people with lower incomes, older people, people with disabilities, and some families and children. Medicaid provides medical coverage and long-term medical care to low-income residents. Medicaid is jointly funded by the federal government and individual states, and is administered by the states.

**Medicaid Provider Manual** is a document released by each state's Medicaid agency, which serves as the reference document for its Medicaid program.

**Medically Underserved Area (MUA)** may be a whole county or a group of contiguous counties, a group of county or civil divisions or a group of urban census tracts in which residents have a shortage of personal health services.

**Medicare** is a health insurance for people age 65 or older, people under 65 with certain disabilities, and people of all ages with End-Stage Renal Disease. (ESRD is permanent kidney failure requiring dialysis or a kidney transplant.)

Mobile Health (mhealth) is the provision of health care services and personal health data via mobile devices, such as cell phones, tablet computers, and PDAs.

**Modifier** is a two-digit code that is added to medical procedure codes, to provide additional information about the billed procedure. In some cases, addition of a modifier can directly affect payment.

**Modifier 95** is a modifier that indicates synchronous telemedicine services rendered via real-time interactive audio and video telecommunications system.

Modifier GQ is the modifier for store and forward technologies.

Modifier GT is the modifier for live video conferencing.

Originating Site (see also Spoke Site or Referring Site) is the location of the patient receiving a telehealth service.

Originating Site Fee (see also Facility Fee) is a fee paid to the originating site to compensate for the cost of facilitating a telemedicine visit.

Place of Service (POS) Code (see also Facility Fee) is a two-digit code placed on health care professional claims to indicate the setting in which a service is provided. 02 is used in Medicare and some Medicaid programs to indicate that the place of service occurred through telehealth.

Referring Site (see also Spoke Site or Originating Site) is the location of the patient receiving a telehealth service.

**Remote Patient Monitoring (RPM)** (or telemonitoring) Remote patient monitoring uses telehealth technologies to collect medical data, such as vital signs and blood pressure, from patients in one location and electronically transmit that information to health care providers in a different location. The health professionals monitor these patients remotely and, when necessary, implement medical services on their behalf.

**Rural Health Clinic** is a clinic in a rural, medically underserved area that has a separate reimbursement structure from the standard medical office under the Medicare and Medicaid programs.

Skilled Nursing Facility (SNF) is a facility that houses chronically ill, usually elderly patients, and provides long-term nursing care, rehabilitation, and other services.

**Spoke Site** (see also Originating Site or Referring Site) is the location of the patient receiving a telehealth service.

**Store-and-Forward** (see also Asynchronous) technologies allow for the electronic transmission of medical information, such as digital images, documents, and pre-recorded videos. Asynchronous transmissions typically do not occur in real-time, and take place primarily among medical professionals, to aid in diagnoses and medical consults, when live video or face-to-face patient contact is not necessary.

**Synchronous** (see also Live Video Conferencing) refers to the use of two-way interactive audio-video technology to connect users, in real-time, for any type of medical service.

**Tele-pharmacy** involves a pharmacist in one location directing the dispensing of a prescription to another employee in a separate location.

**Tele-presenter** is a health professional who sits in the exam room with patients during telemedicine visits and assists the distantsite provider.

The Health Insurance Portability and Accountability Act (HIPAA) is a set of national standards, which includes security and privacy of health data for electronic health care transactions, and national identifiers for providers, health insurance plans and employers.

The Program of All-Inclusive Care for the Elderly (PACE) provides comprehensive long-term services and support to Medicaid and Medicare beneficiaries.

**Transmission Fee** is a fee paid to telemedicine providers for the cost of telecommunications transmission.
