	Dissertation		
	Cultural Diversity/History		
Year 5	Internship	Internship	Internship

Several courses are offered only on alternating years. Therefore, students may take courses in orders different from the above model. Significant deviations from the recommended course sequence require approval of the academic advisor and the DCT. The student and his/her advisor should carefully attend to the Clinical Student Tracking Forms (A, B, & C). All student registrations are monitored by the DCT each semester. Students are required to register for 12-credits during fall & spring semesters and 1-credit during summer semesters.
