

**Handbook Distribution
Form Fall 2021**

I have been notified that the Idaho State University, Department of Psychology Handbook, revised August 2021, is available via the department website (<https://www.isu.edu/psych/policies/>) and/or I attended a review session of changes to the 2020 edition. I am aware of the policies described in the revised handbook pertaining to clinical graduate students.

I understand that students in the clinical training program at Idaho State University are required to adhere to the Ethical Principles of Psychologists and Code of Conduct published by the American Psychological Association in June 2003. I agree to abide by these standards.
