

## Handbook Distribution Form

I have reviewed the Experimental Psychology Graduate Student Handbook for Idaho State University, Revised August 2021, that is available on the Experimental Program webpage at <https://www.isu.edu/psych/experimental-phd-program/>, or I attended a review session of changes that were made for the 2021-2022 edition. I am aware of the policies described in the revised handbook.

I understand that students in the Experimental Training Program at Idaho State University are required to adhere to the Ethical Principles of Psychologists and Code of Conduct published by the American Psychological Association in June 2003, that can be found at <http://www.apa.org/ethics/code/>. I agree to abide by these standards.
