## Meridian Crime Log

Criminal incidents reported to Public Safety and occurring in ISU's Clery Act geography are listed in order by date reported. The most recent incidents will be listed at the top of the crime log.

In some instances, Public Safety may not be able to provide all information for a crime due to how it was reported. This will be indicated by using "unknown."

Nature or Classification	Incident Number	Date Reported	Date & Time Occurred	Incident General Location	Disposition
No crimes have been reported at this location.					

\*These cases come from outside law enforcement agencies upon a written request from ISU Public Safety to gather statistics for the Annual Security and Fire Safety Report. Dispositions are not always provided and may not be defined in the Daily Crime Log Definitions as they are unique to the outside agency. Please note these cases are often from the previous year.
