EXPORT COMPLIANCE

The contractor agrees that it will provide the export control classification associated with the commodity being handled, to the extent that this item is controlled either under the Export Administration Regulations (EAR) or the International Traffic in Arms Regulations (ITAR). For EAR controlled items, the correct ECCN classification based on the Commerce Control List will be provided. For ITAR items, the correct USML Category will be provided. In both cases, to the extent that the item includes technical data such as operational manuals, such data must also be classified. In the event that the contractor is unable to comply with this instruction, it will notify Idaho State University with your submission, indicating the reason for non-compliance and recommended solution.

Check Yes or No indicating if you are able to comply:

Yes ____________________

No _____________________

If no, provide recommended solution.
