

Dear ISU coordinators,

We would like to extend our heartfelt thanks to Idaho State University for your support in organizing the indoor e-waste collection events on campus. Your help in providing the venue allowed us to successfully host two events, and it truly improved the quality of our efforts.

We received a lot of positive feedback from participants. Many expressed appreciation for having a convenient and proper way to dispose of their old electronics.

We are excited to share the data and photos with you to celebrate our success together. Across two events, a total of 150 households dropped off e-waste, and we collected 9,298 pounds in total. At the April 25th event alone, the collection amount increased by 268% compared to the December event. In addition, we had an impressive survey participation rate of 55% from households, which exceeded our expectations

Event date	Number of households or vehicles	Total e-waste (lbs)	Weight per household (lbs/HH)	% survey participation
12/13/2025	34	1,987	58.4	76%
4/25/2026	116	7,311	63.0	34%
Total	150	9,298		(Avg)55%

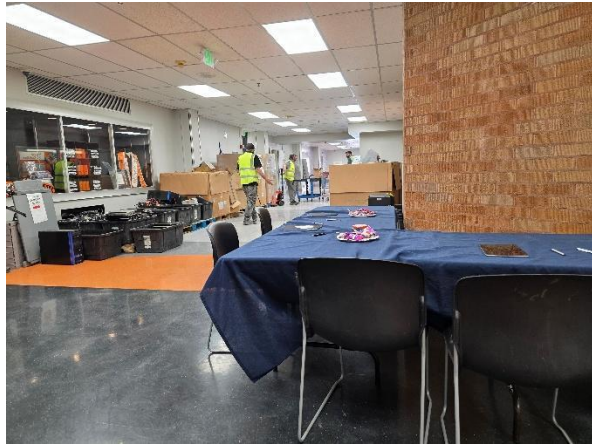

Here are some pictures we would like to share with you:
